AT TURNBOLL'S.

As the season advances we have many bargains to offer the public. One of the greatest attractions in our store to-day is some thirty or forty pieces of Dress Goods that were formerly from 20 to 50 cts. a yard. They are odd lines and are now being cleared out at 15 cts. a yard. They can only last a short time. Call early and secure the best patterns.

We want to tell you about our cheap Hosiery. We have piles upon piles of heavy goods to select from in men's, women's and children's, 3 pair for 25c. For week past we have been showing a window of prints at 10c. a yard, handsome as it is possible to have them and perfectly fast colors. We never had the like before at less than 12c.

Remember then if you do not see them in the window now. We are showing an elegant range of White Embroidered Shirtings and all-over Embroidered Muslins.

We have a great many patterns of Figured Wool Delaines so that it is no trouble to get something to please with us.

We have bought out a Wholesale Agents Samples of pretty little Lace Dolmans and Fichus and are selling them now at a bargain.

Our best quality of Black Gloves and Hosiery this season are perfectly stainless dye. We have great pleasure in selling them as they please everybody as to quality and price.

DAMES OF THE WASHTUB.

North London Afflicted With a New Form of Labor Trouble.

LONDON, June 17.—This city is at the present moment watching with a great deal of interest the progress of a most interesting strike. At an early hour this morning there was a meeting of housewives in North London, and after some deliberation, speaking and its attendant wrangling 200 of these ladies commenced their strike of striking, and they did so. The housewives insist that they will be doing a fair day's work if they remain at the washboard for eight hours per day, and claim that they should be paid for each day's work.

THE PROHIBITION DEBATE FURTHER POSTPONED.

Mr. Laurier Asks the Government to Do Something to Make the Prohibition Debatable.

OTTAWA, June 17.—Mr. Abbott made the official announcement to the Senate to-night of the circumstances which led to the Government's decision to postpone the debate on the prohibition of liquor.

Mr. Laurier asked the Government to do something to make the prohibition debateable. He said that the Government had a duty to do in this matter, and that it was not fair to postpone the debate indefinitely.

Mr. Abbott said that the Government had a duty to do in this matter, and that it was not fair to postpone the debate indefinitely. He said that the Government had a duty to do in this matter, and that it was not fair to postpone the debate indefinitely.

PRESBYTERIAN ASSEMBLY.

A Lively Discussion on the Young People's Society.

KINGSTON, June 17.—Among the first things attended to this morning by the Assembly was the reading of the minutes of the last meeting.

Mr. Macdonald, the moderator, Dr. Wardrop, Principal Grant and King, the clerk, Dr. Reid, Rev. D. M. Gordon and D. J. Macdonald; also Messrs. Justice Taylor, Hon. G. W. Ross, Justice Macdonald, John Christie, W. Macdonald, Clark, Hamilton, Gordon, J. E. Macdonald and W. R. Macdonald.

Permission to retire from the active duties of the ministry was given to Messrs. Durrant, Allan W. Scott, E. Macdonald, Crow, D. Macdonald, Alexander Bell, James Ferguson, Stewart, Laid, Gordon and Urie. The application of Rev. Mr. Macdonald was not decided upon, as the assembly desired another meeting to be held.

Three of the deputation spoke, after which the work of the day was resumed.

Unfinished work relating to temperance and Sabbath observance was continued after which the assembly transmitted for consideration to the Presbyteries of Bruce, Barrie, Owen Sound and Midland a memorial for the formation of a new Presbytery in the Algonquin district.

Two ministers from the Presbyterian Church in England, one from the Congregational Church of England, one from Scotland and seven from the Church in the United States were granted permission to be received into the Presbyterian Church in Canada.

Teaching the state of religion the prevailing evil reported was from politics to mind, from home-making to motherhood, from temperance to manhood, from dancing to denominational rivalry.

These things it was held that Christian civilization, created by the church, and sustained by the church, was the only way to the future.

Young people's societies were urged to be formed in all congregations. During the consideration of the report Dr. Mackay stated that the Y.P.C.E. was "very young" and that they were composed of "cheerful young people."

Dr. Duval, Winnipeg; Rev. James Mallen, Fargo, and John, Lindsay, defended the society.

Dr. Duval created a sensation by saying Dr. Mackay's expressions were "dastardly and base." He withdrew the words afterwards.

JUDGE MILLER DEAD.

A Well-known Citizen of Galt Expired Very Suddenly.

GALT, June 17.—Judge Miller died suddenly at his residence here to-day at about 10 o'clock. He was seized with a fainting spell while taking a walk through the grounds surrounding his residence. Medical aid was called, but he never rallied.

He was a well-known citizen of Galt, and was a member of the Galt Branch of the Grand Lodge of the I.O.G.T.F. He was a native of Scotland, and came to Galt in 1850.

A PREFERENTIAL DUTY WITHIN THE EMPIRE

The Only Possible Plan of Imperial Federation—Emperor William Seizes the Prince of Wales—Mr. Gladstone's Case Trembling Gladstone.

LONDON, June 10.—All the journals echo Lord Salisbury's statement yesterday to the Imperial Federation League that they must now seriously consider the plan of a united empire trade league. The papers say the only feasible plan is that which the Canadian Federationists had long demanded, namely, a preferential duty within the empire against foreign goods.

The federationists lay their views before Lord Salisbury to-morrow, but seeing that the general election is just coming few expect the Government to commit itself.

GLADSTON'S APPEAL.

The Celebrated Evelyn-Harbert Branch of the Premier Case before the Court Again.

LONDON, June 10.—The appeal of Gladstone against the judgment pronounced against her in the suit brought against William Henry Harbert and asking for a new trial was heard yesterday.

Purify

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The latest of scurvy, salt rheum, or other skin diseases is hereditary and transmitted to the next generation, causing untold suffering, and also accumulating poison and germs of disease from the blood. The water we drink, the food we eat, or the air we breathe, all have something to do with the purity of the blood. Hood's Sarsaparilla is the only medicine that purifies the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

along up a road in those townships, which was passed, signed and sealed.

By-laws were also passed confirming the reports of the Finance, Equalization, Roads, and Bridges Committees.

A resolution on motion of Mr. McAlister seconded by Mr. Fitzpatrick, was passed confirming the opening of a road in Belmont township.

The Council adjourned.

THE TOWN OF BATH.

In buying Hood's Sarsaparilla, for it is everywhere recognized as the standard building-up medicine and blood-purifier. It has won its way to the front by its own intrinsic merit, and has the largest sale of any preparation of its kind. Any honest druggist will confirm this statement. If you decide to take Hood's do not be induced to buy anything else instead. Be sure to get Hood's.

A Good Suggestion.

To the Editor of the Review.

Sir,—With your permission I would like to call the attention of the people of this town to that very desirable spot immediately east of Mr. Lee, A. Lee's residence.

This piece of land would make a delightful little park for the people living in that neighborhood and of one mile in this respect.

Yours truly,
F. B. BORO PUBLIC.

BALLS=1,000=BATS

To Be Given Gratis With

Every \$2.00 Worth of Boys' Clothing

—BY—

GOUGH BROTHERS.

Ring it out from the Church Towers! Shout it on the Market Place! Sing it out on the Streets! Tell it to the Boys! GOUGH BROTHERS' Biggest Bonanza, Bona Fide Bargains and a Bonus to Boot.

HERE'S THE EXPLANATION:—The Go-ahead GOUGHs of Peterborough, Toronto and Brantford came upon a terrific snap in Boys' Clothing in Montreal and scooped in 2,000 Suits and 1,500 Pairs of Pants at 40 CENTS ON THE DOLLAR!

Now this added to their already stupendous stock makes them anxious to realize and GOUGH BROS. offer inducements the like of which was never before offered by them or any other firm. With every TWO DOLLARS worth of Clothing, Hats, Caps, or what you will, there will be given a BONA FIDE BARGAIN BALL AND BAT. Just think of it! The GOUGHs could not resist this snap of buying these Goods at such a splendid discount as 40 per cent. But it loaded them up pretty well and they must clear out. To do this with a rush they have marked down all their CHILDREN'S CLOTHING 20 per cent. and with \$2.00 worth of any kind of Goods they throw in a Base Ball and Bat. This offer good from now till JULY 1st. And it is Business—Business with a Big B from the word go. Think it over! Take it in and buy \$3.20 worth of Good Goods for \$2.00 with a 50c. Ball and Bat thrown in, at

Rheumatism,

BEING due to the presence of uric acid in the blood, is most effectively cured by the use of Ayer's Sarsaparilla. He sure you get Ayer's Sarsaparilla, and take it till the poisonous acid is thoroughly expelled from the system. We challenge attention to this testimony:—

"About two years ago, after suffering for nearly two years from rheumatism, being able to walk only with great difficulty, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months, and am pleased to state that it has effected a complete cure. I have since had no return of the disease."—Mrs. E. Irving Dodge, 10 West 125th st., New York.

"One year ago I was taken ill with inflammatory rheumatism, being confined to my house for several weeks. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced using Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."—Mrs. L. A. Stark, Nashua, N. H.

A DESPERATE GAME.

"To those that walk in thy sleep," said Sophie Schenck, in French, "I have a story to tell."

An odd-looking young lady, this Mademoiselle Sophie Schenck—little in figure, black hair, black eyes, dark complexion and characteristic for constant and restless shirring. The person whom she addressed was a girl younger than herself—Marian Archer—a beautiful girl, tall, slender, with auburn hair and down the nose. They were standing up and down the stairs. Sophie Schenck, behind them, looked up at the ground man, then at a castle, and much like one. Tall windows, stately doors, try twisting in way to the huge chimneys, splendid terraces—everything that was imposing.

"Yes, and you can't fancy how terrifying it is to think of the fact sometimes," said Miss Archer. "When I go to bed at night I come myself trembling."

"Then art afraid thou might'st"—began Mademoiselle, in her native tongue. "Oh, let us both talk in English, Sophie. You know my French, and I'm sure you're always laughing at me when I try to speak French. Yes, I am afraid of walking out of the window some night. At school I promissed on the roof more than a dozen times."

"Heaven!"

"How art Redwynne, if I should step out of my window, the next morning?"

"That is my room in the right tower." They both looked up. The window in the right tower, pointed out by Miss Archer, was "closed" all.

"Marian, it frightens me to read my glance there and think for a moment. It is thirty—forty—fifty feet! Perhaps a hundred—no cannot truly tell."

"How! Admiring Redwynne?" said a voice.

"The tower," Henri Redwynne answered, "is a fine old building and has been like his sister. He was smiling and showing very white and sharp teeth, but he was not altogether a pleasant man. Marian started."

"How you frighten me, Mr. Redwynne!" she said, a shade angrily. "You walk about like a cat. In this tower on the side of your boat?"

"Horry to have irritated you, Miss Marian," he answered, in French, English, and still smiling. "The tower is valuable, and not the side of my boat."

"Ah, my dearest Marian, Henri would not annoy you for many weeks," said Mademoiselle Sophie, reproachfully. "He is to you alone, and would give up his life for you whenever you should ask it."

Marian's look of anger deepened.

"Then I shall never ask it; so his life is quite safe for me," she said, almost brusquely. "All I do ask is that he will not stand upon me so much like a phantom."

"How harsh, how cruel you are, Marian!" cried Sophie.

Mr. Redwynne looked at her eyes and assumed an attitude of resignation. Marian seemed unable to bear what was passing with patience. She started up impulsively.

"My bird, Sophie!" said Henri, hurriedly, "I must feed my poor little bird."

And she left the brother and sister together. A change came over their faces in an instant.

"How much I detest her!" said Sophie, clenching her fingers, frowning hideously, and rolling the 'p' in her word as if they were a hundred in number.

"And I love her to madness, and hate her," answered Henri, more calmly. "What is to be done? You perceive what I am to her. I am the same to her as she is to you."

"I could kiss the fire with adoration that would burn her to cinders!" said the French girl, mad with rage.

"It appears, then, you cannot do anything for me?"

"Nothing. She is an obstinate fool. I talk of you and praise you, and you are as perfect as an angel, Henri—and yet she is always angry at the very mention of your name."

"I know you do your best, my sister; but the reward of success will be great. This house—mansion—castle—palace!" cried Mr. Redwynne, his voice rising at every word to a loud climax in the last. "These grounds, that forest, those fields—all are hers, and once her husband, they would be mine. It is a stake to play for surely. I have set my heart upon winning it, and rather than lose, I would kill her!"

A deep red overcame his face, and fire flashed from his eyes.

in can you ever bring yourself to be my wife?"

"Heaven! Sir, you are turning me to ridicule, dearest as you are. I can hardly believe that I have heard you say that."

"I should like to marry you, Miss Archer," he murmured, much more quietly. "You seem to think me to understand that it is impossible. Well, I demand to know why."

She rose and stood above him with all majesty and grace.

"I love no other," she said. "I worship him with all my woman's soul. But if you were the only man in this wide world, I would hate you—hate you!"

He recoiled quickly.

A Snake Charmer's Feat.

CHICAGO, June 20.—Uno, the snake charmer, or Mrs. Goshen, as she is known in private life, who is one of the side show attractions at the Forepaugh circus, had a miraculous escape from a horrible death yesterday, while handling an immense boa constrictor.

In fact, but for the quick, impulsive nature of Miss Jennie Yeomans, of New York, of the "Rite Jeans" Company, who jumped to the rescue and assisted the snake charmer in unfastening the coils of the monster wrapped slowly tightening around her, the woman would in all probability have been crushed to death.

During the performance Mrs. Goshen accidentally struck the serpent a light blow on the head, from which it started back in fright, and, suddenly arising from its state of lethargy, coiled itself around the woman's left arm with the rapidity of lightning, and, darting forward its head, buried its fangs deeply in her forearm.

Miss Yeomans, with both hands grasping the snake by the neck, clung to her prize for dear life. With a look of determination in her pretty blue eyes, her teeth firmly set and her strength centered in its utmost she choked the almighty creature into a state of submission and compelled it to relax its deadly coils until it dropped limp and lifeless upon the platform.

As soon as all danger had passed Miss Yeomans jumped from the platform, and avoiding the spectators, who crowded around her to congratulate her upon her act of bravery and heroism, quietly withdrew from the scene and secluded herself in her hotel apartment.

London Street Car Drivers' Strike.

LONDON, June 20.—Last night Superintendent Smith of the Street Railway Company discharged one of the company's drivers without assigning a reason, whereupon the drivers held a meeting and decided to go out on strike this morning.

The strike was given for the dismissal. This morning President Croxson was on hand at the station, but as he declined to answer the men's enquiries they went out in a body. Some of the office hands and station men were immediately pressed into the service, and by noon everything was running as usual. President Croxson will not recognize the strikers' demands until the company advanced the drivers' wages and shortened their hours they have come to believe, that they run the company, and he is determined that some of the strikers will be reinstated. The men on the other hand declare that there is bad feeling between the strikers and the company, because of their receiving some concessions from the company in opposition to his wishes, and that he is simply trying to get even with the men by discharging them on the slightest pretext.

Rheumatism,

BRING due to the presence of 'aris acid in the blood, is most effectively cured by the use of Ayer's Sarsaparilla. Be sure you get Ayer's and no other, and take it till the poisonous acid is thoroughly expelled from the system. We challenge attention to this statement.

"About two years ago, after suffering for nearly two years from rheumatism, which, at times, was almost insupportable, and having tried various remedies, including mineral waters, without relief, I was by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months, and am pleased to state that it has effected a complete cure. I have since had no return of the disease."—Mrs. E. Irving Dodge, 110 West 126th st., New York.

"One year ago I was taken ill with indigestion. I was unable to eat, and was given to me by a friend, a bottle of Ayer's Sarsaparilla. I commenced taking it, and my system improved at once, gaining in strength and soon recovering my usual health. I cannot say too much of the value of this well-known medicine."—Mrs. L. A. Black, Newbury, N. H.

TUESDAY, JUNE 23, 1891.

A DESPERATE GAME.

"Farewell, Miss Archer," he said, in a cold tone, and was gone. She was left alone. Her step was phantom-like as ever. Poor Marian's evening was dreary indeed. She played a few pieces at the piano for her uncle, and then went upstairs for the night.

The highest room in the tower was hers, and it was the handsomest but one in the mansion. The walls were of oak paneling; great pictures sat in here and there; there was an immense fireplace; the furniture was all rich and magnificent; the windows all wide and of colored glass, variegated. Marian glanced round. How dimly the lamp burned! The flames seemed, so to speak, nodding and sleepy. (Urin shudders) She looked at the clock. The air was almost chilly.

She drew up a high-backed, slim-legged chair, and began to read a book that was lying on the table. It was an old French book, printed at Paris in 1600—*Œuvres de Turlupain*. When she turned to the first page, she saw a picture of a man in a top hat and a woman in a long dress. She was thinking of the picture when she heard a sound behind her. She turned round, and saw a man in a top hat and a woman in a long dress. She was thinking of the picture when she heard a sound behind her. She turned round, and saw a man in a top hat and a woman in a long dress.

"How much I do hate him and his sister!" she said. "I could go to the moon and back, and see him and his sister, and see them both out from Redwyrne to-morrow. But this would be impossible. They were asked here, and to turn them out would be so hard to do. Well, we will see."

She resolutely seized the proxy Turlupain again. The words danced before her eyes, and she looked at them with a kind of horror. She was thinking of the picture when she heard a sound behind her. She turned round, and saw a man in a top hat and a woman in a long dress. She was thinking of the picture when she heard a sound behind her. She turned round, and saw a man in a top hat and a woman in a long dress.

"Why, Sophie!" cried Marian, much surprised. "What is it?" "Nothing," said Sophie. "I am just thinking of the picture when she heard a sound behind her. She turned round, and saw a man in a top hat and a woman in a long dress. She was thinking of the picture when she heard a sound behind her. She turned round, and saw a man in a top hat and a woman in a long dress."

"But I don't like this, and I don't think my uncle would like it. My countrywomen—at least, those to order them myself—would shudder at the idea of this," answered Marian, pointing to the table before her. "All they are prudent and circumspect in the wrong place!" said Sophie. "First of all, let me fill your glass. This did so, pouring in the wine, then some pulverized sugar, then a little grated nutmeg, then some small lumps of ice. She placed the goblet before Marian, and at once proceeded to prepare another, which she placed before herself. At length she said, "Ah! and she struck her low forehead sharply."

"What is the matter?" asked Marian. "My memory." "What have you forgotten?" "Sophie." "I have two." Marian rose to go to the bureau. She saw something that almost stifled her with horror to the spot on which she stood. She saw Sophie empty a powder into the goblet opposite her own. But she recovered her strength by an effort, took the two spoons from the bureau drawer, and returned to her chair. What must the next do to drink the wine was impossible.

"I will drink this only on one condition," she said, smiling. "What is that?" asked Sophie, suspiciously. "That you still further improve its flavor by putting some essence of lemon in it. The one said will construct the other, Sophie. I don't desire to be ill to-morrow." Sophie rose.

"So that you give me the talk, I care not," she said. "I will get the lemon." She hurriedly left the room. Marian, with the quickness of lightning, whisked the table round on its pivot. The situation of the goblet of wine was changed. A conspiracy existed between the Sophies for her ruin. She stole towards the bed and lay down, frightened and chilled to the bone. She knew Henri would come next.

She waited half an hour. There was a sound at the door. She heard it open. The rays of the moon began to pour in at the window. In their light was to be seen a man stealing along on his tiptoes, and a silent figure, as he hung on one side, staring by the table.

The man took up this figure all unconsciously, and carried it to the tall window. He threw up the sash. Marian's tongue was fast with horror; her hands the same. He looked out upon the night, then downward, and then, with all his strength, heaved the unconscious woman forth. Then he ran out.

of the chamber. There were shrieks, then the lack of light, then the sound of heavy footsteps in the courtyard below, then lights, and then low murmurs of amazement and horror.

Marian, requiring all her strength, tottered down the stairs, and then to the grounds and saw Henri Schomberg walking before the crowd gathered round something that lay in the glare of the torches, white, bloody and dead.

"Great heaven! it is an Archer who has been walking in her bed and killed herself!" he cried. But he went up, and saw the truth. And at the same instant, on the other side of the corpse of his sister, retired by an crowd, he fell in a convulsive fit, foaming at the mouth, and his eyes starting forth with the torture that possessed him.

The scheme Henri Schomberg was arrested; but the agency of his mind killed him before the law had its turn. Poor Marian never slept in the tower room after that dreadful night. Her liver soon came to her, and they went far away from Redwyrne. When they returned to it at last they were man and wife, and it was their own.

Well-known Investor Dead.
NORTH ADAMS, Mass., June 22.—Prof. George H. Morley died last night, aged 61. He had a gripe about three months ago and never recovered. Prof. Morley was widely known as the inventor of nitro-glycerine, with which the blasting of Mount Tunnel was done.

Heavy Cattle Losses.
MONTREAL, June 22.—The news was received to-day from the Old Country that a heavy rain of cattle had been carried on board the steamship Ripon City, which left here on June 4 for Liverpool with 378 cattle. The shipwrecked C. M. Am, 150 head; R. Craig & Son, 40 head; T. F. Johns, 100 head; J. Robins, 40 head; and Mr. Wilder, 45 head.

Just how many cattle were lost on the voyage is not yet known, the cable reading: "Cattle arrived; heavy mortality, balance landed landed, owing to insufficient space." The news was telegraphed to Hon. C. H. Tupper, Minister of Marine, who replied that he was sorry to learn of the facts, but that the instructions given now will prevent their recurrence.

Depositing Ship Channels.
BERLIN, June 21.—Dr. Miguel, Minister of Finance, and Baron Berlepsch will start to-morrow on a trip to Berlin to inquire into the plan of deepening the ship channels which connect Swinemünde and Stettin. It is hoped to make improvements which will permit passage of the larger draught to lead and unload at Stettin, instead of at Berlin.

Words of a Great Historian and Writer.
A well-known historian and writer once said: "Let me be restored to perfect health, and I will willingly sacrifice all the fame and honors that have been bestowed upon me by my countrymen and mankind in general." Honor, fame and renown without health, cannot enable a man to enjoy life and its pleasures; the poorest beggar often lives happier and contented. The man who finds his appetite failing; or his stomach weak and disordered; his nerves unsteady; his muscles twitching; who experiences a fullness in the head; and headaches; who does not sleep well; who gets up in the morning with a coated tongue, and a feeling of restlessness in the high way to suffering and serious troubles. These symptoms require the immediate use of that valuable remedy known as Paine's Cathartic Compound. Its use means certain restoration to perfect health, strength, robustness and mental vigor. In all the above mentioned troubles its value is now firmly established and well known. Men and women, old and young, find it just what they require in every emergency and difficulty. Try it and be convinced.

What a comfort to be able to get through the week's washing in the forenoon and have the afternoon to one's self. "Sunlight Soap" enables you to do this. No hard work; lovely white clothes; nice soft hands! What can be more desirable? Try "Sunlight."

Dyspepsia

Intense suffering for 8 years - Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. R. A. McAllister, a well known grocer of St. Catharines, Ont. Before 1893 he was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon it was reduced to 120 pounds, suffering burning sensations in the stomach, palpitation of the heart, nervousness, and indigestion. He could not sleep, lost all heart in his work, had fits of melancholia, and for days at a time he would have welcomed death. He became nervous, irritable, and for eight years his life was a burden. Three many physicians and many remedies. One day a workman employed by me suggested that I take Sarsaparilla. He cured my wife of dyspepsia. I did not, and before taking a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became regular, nervousness disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla.

The Daily Review.

THURSDAY, JUNE 25, 1891.

THE BANK OF TORONTO.

The annual statement of the business and financial position of the Bank of Toronto, which is published in another column, is a very satisfactory one indeed, satisfactory to the shareholders, and also to the public because the progress of this, one of the foremost of the great banking institutions of Canada, is an index to the progress of the country. As a result of the year's business a dividend of ten per cent. on the capital stock was paid and \$100,000 was added to the reserve fund.

The record of the Bank of Toronto for the last thirty or forty years is very interesting. The capital of the bank in 1867 was \$750,000, and it now is \$2,000,000. In 1867 the rest and profits reserved amounted to \$75,000, and they have increased steadily until they have reached \$1,740,000. The circulation has increased from \$771,474 in 1867 to \$1,400,000 in 1890. The deposits have increased from \$747,474 to \$1,717,474, and the discounts from \$1,471,218 to \$1,432,112. This shows an enormous increase in the business of this institution, and the increase has been greatest in the last ten years. Since 1881 the rest and profits reserved have been increased by \$2,000,000 or over 25 per cent., the deposits by \$1,000,000 or over 10 per cent., and the discounts by \$1,400,000 or over 10 per cent. This is a very rapid increase in business, and it shows that while the business of the country has grown in popularity and in the confidence of the public.

The Peterborough branch has contributed materially to this success. This town has grown and its business has increased and a large portion of the business has passed through the branch of the Toronto Bank here. The uniform courtesy of Mr. Gover, the manager, and the staff of the bank makes it a pleasure to do business with them, while the strength and soundness of this great financial institution is a standing invitation to customers. The opening of a new branch here has been in connection with the bank here has also been a convenience appreciated by many. It is a pleasure to note the progress and prosperity of an institution such as this one, and in connection with this bank the progress has been unsurpassed.

Why It is Popular.

Because it has proven its absolute merit over and over again, because it has an unequalled record of success, because its business is conducted in a thoroughly honest manner, and because it combines economy and strength, being the only institution of which "One Hundred Dollars One Dollar" is true. These strong points have made Hood's Sarsaparilla the most successful medicine of the day.

Change of Business.

Mr. L. F. Davis, who has for the past number of years successfully carried on the grocery and bakery business at the corner of Dublin and George-sts., has purchased the confectionery and restaurant business lately carried on by Mr. Ed. Walsh, at 45 George-st., and will continue to conduct the same in a first-class manner, making a specialty of the manufacture of choice confectionery and pastry, full lines of which will always be kept in stock. The restaurant department will be conducted as heretofore, in a first-class manner, and meals served at all hours. Fruit and oysters in season. Ice cream, soda water, etc., wedding cakes to order. Remember the place, 45 George-st., and the name, L. F. Davis.

Pharmaceutical.

With no more common or dangerous remedy than Quinine. It begins with a cold in the head, often results in a fever, and treatment and runs from simple irritation of the mucous membrane to chronic inflammation and destructive ulceration. Before Clark's Quinine Cure was known, the doctors advised a long course of constitutional treatment with their patients, but now they recommend them to go to the drugstore and get a package of Clark's Quinine Cure. When the drugstore cannot supply, the remedy will be sent by mail on receipt of 50 cents. Clark Chemical Co., Toronto.

Plant Ale in the Market.

In half barrels. Try it; equal to bottled Davies' White Label Ale, Davies' India Pale. Owing to the immense stock I carry, my Ale cannot be equalled in town. W. J. Morrow, 265 George-st.

Just Received.

A car load of White Label, Old Edge, Davies' Cream and Crystal, Ambrose & Winslow's, Carling's & Labatt's Ale and Porter at Watson's & Bloomer's. Agents for Davies' celebrated Ale and beer, 265 George-st.

A Pleasant Herb Drink - A Spring Medicine.

The drugstore tell us that the people call daily for the new cure for constipation and get-headache discovered by Dr. Elias Lane. It is said to be Oregon grape root (in great remedy) with simple herbs, and is made for use by pouring on boiling water in a cup and stirring. It is sold in 50¢ and 10¢ packages and is called Lane's Family Medicine.

BENSFORT BRIEFS.

The Crops Coming on Well - Enlarging the Sunday School.

THE CROPS. - The crops in this vicinity are doing well now. The reports have improved them greatly. Fall wheat, peas and early corn spring wheat are promising well with a good length of straw, but any crop late down will be rather short at best. The new meadows are doing fairly well. They will be about an average, but old meadows are very light and short. Some of them will not be worth cutting. Flax, cherries and small fruits are very promising at present. The trees are well loaded. The apple crop will be only medium.

SUNDAY SCHOOL. - The Bunsford Union Sunday school picnic came off on Wednesday afternoon, the 17th inst., in Mr. D. H. Morrison's grove. There was a good attendance present. The heavy rain coming on in the evening had the effect of dispersing the crowd before the programme could be fully carried out. We understand the proceeds amounted to over twenty-eight dollars, which was added to the building fund.

ENTERTAINMENT. - The committee of the Sunday school are busy this week enlarging their hall. It will add very much to the appearance of the building and will be more comfortable as well.

KEENE CHRONICLES.

COUNCIL MEETING. - The Council met in session on June 18th. On motion the Council Resolved to receive the roll and the assessment. There were but two appeals of over-assessment. Councillors Anderson and Lancaster were appointed a committee to examine the road opposite Lot 3, Con. 1, and have needed repairs made. A special grant of \$200 was made to improve the road at Henderson's hill, opposite lot 25, 26th Con. 1, Mr. D. H. Morrison's grove. There was a good attendance present. The heavy rain coming on in the evening had the effect of dispersing the crowd before the programme could be fully carried out. We understand the proceeds amounted to over twenty-eight dollars, which was added to the building fund.

BALLS=1,000=BATS

To Be Given Gratis With

Every \$2.00 Worth of Boys' Clothing

—BY—

GOUGH BROTHERS.

Ring it out from the Church Towers! Shout it on the Market Place! Sing it out on the Streets! Tell it to the Boys! GOUGH BROTHERS' Biggest Bonanza, Bona Fide Bargains and a Bonus to Boot.

HERE'S THE EXPLANATION:—The Go-ahead GOUGHS of Peterborough, Toronto and Brantford came upon a terrific snap in Boys' Clothing in Montreal and scooped in 2,000 Suits and 1,500 Pairs of Pants at 40 CENTS ON THE DOLLAR!

Now this added to their already stupendous stock makes them anxious to realize and GOUGH BROS. offer inducements the like of which have never before offered by them or any other firm. With every TWO DOLLARS worth of Clothing, Hats, Caps, or what not, there will be given a BONA FIDE BASE BALL AND BAT. Just think of it! The GOUGHS could not resist this snap of buying these Goods at such a splendid discount as 40 per cent. But it loaded them up pretty well and they must clear out. To do this with a rush they have marked down all their CHILDREN'S CLOTHING 50 per cent. and with \$2.00 worth of any kind of Goods they throw in a Base Ball and Bat. This offer good from now till JULY 1st. And it is Business—Business with a Big B from the word go. Think it over! Take it in and buy \$3.20 worth of Good Goods for \$2.00 with a 50c. Ball and Bat thrown in, at

DO YOU Want to Die?

BEWARE OF POISON.

It is astonishing what little change has taken place in the treatment of disease by our own physicians during the last two centuries. The method generally then as now being to prescribe the most potent and powerful drugs.

First in order comes mercury or calomel, a deadly and insidious poison, which has caused more suffering and filled the world with cancerous and unhealthy deposits, never coming in many instances to rest and poison the sufferer until death relieves him. Arsenic is another deadly mineral poison, but frequently used. Stramonium well known for its terrible effects—essence of a grain will kill a dog in half a week, and one grain will instantly destroy human life. The administration of this drug for biliousness and fever and ague is a matter of daily occurrence. Stomach—This corrosive metallic poison is fast becoming a favorite in the treatment of disease yet like lead it will deposit itself in the bones and produce the permanent effect of poisoning. Quinine—what drug is more trumped up and relied upon by the medical profession? True, it will excite the vital force to temporary activity; it may relieve the shock of disease for a time being, and help the patient out of a bad spot, but, after all, its action is only spasmodic. It will not eradicate poison, and a grave question is involved as to the ability of its curative power. The continued use of quinine calls for increased doses until the whole system shares in its harmful influence.

The Camp Men Stopped.
The A.C.A. camp site on Big Island in Repton Lake has been swept by a fire and rendered unfit for the camp. The committee had had a number of men at work for some days, and had got the ground in excellent shape, when the misfortune occurred. The committee will take immediate steps to provide another site, probably on Jacob's Island.

Personal.
Two young ladies, Miss Louise Yokome and Miss Anna Simons, returned home from Ottawa where they have been attending the Ottawa Ladies in the report of the closing exercises.

The Shaver's Warfare.
Of Champlain, in their bloody raids into the League's strongholds took the route formed by the beautiful water highway of the chain of lakes which stretch just north of Peterborough. This same route was to be followed by a train leaving the G.T.R. station at 8 a.m. for Lakefield, from which place the new steamer "Golden City" is to be built out of the "Oriskany" of last year, improved to three times its former capacity by being lengthened and thoroughly refurnished and refitted throughout, will carry excursionists through the former haunts of these Indian warriors, giving them an opportunity of viewing the picturesque scenery, including the entire Indian art, and to those of an imaginative turn, peering into booky dells and pleasant oases with the heroes of legend and romance. Therefore we would say to third and last, over the water and weary Peterborough, in the words of Bill M'ye.

BARGAINS!

One of the first things we wish to call attention to to-day is several patterns of neat, fancy Summer Dress Goods at 5c. a yd. We are showing a window full of Ladies' and Children's Untrimmed Hats, your choice of the lot for 25c. We have also a job lot of Boys' Hats at 10c. each.

Our second floor is being fitted up for a Carpet and Mantle Department, in the mean time we can call attention to our Brussels Carpets at 50c. a yd., also Double-fold Hemp Carpets at 30c. a yd. We are showing a few patterns of Striped Goods for Boys' Blouses which are so much in demand at present. Our Dress Goods have been going out very quickly of late and has left us with a lot of Remnants which we are offering very cheap for children.

We have put into our Corset Department, the American R. & G. Corset which has a wide reputation as an easy and perfect fitting Corset. It is cut in two shapes, short and long, waited so that one of the shapes will fit any figure. This is a new line. Ladies wanting something choice should try them. The price is \$1.25 a pair.

Constipation,

It is not unusual in season, is liable to become habitual and chronic. Drowsiness, loss of energy, headache, indigestion, and other ailments, are the result of constipation. It is a common complaint, and one that should be treated promptly. The only reliable remedy is Ayer's Pills. They are a small, sugar-coated pill, and are so gentle that they can be taken by the most delicate. They are also so effective that they will cure the most stubborn case of constipation. They are sold by all druggists and by the proprietors, J. C. Ayer & Co., Lowell, Mass.

Cleanable.

If your old refrigerator sometimes disappointed you—didn't work right, wasted ice, wasn't air tight, was smelly, made meats and things taste queer—it probably wasn't a Leonard "Cleanable."

The "Cleanable" is the result of thirty years making of refrigerators, and has never been complained of. Fifteen patents cover its construction. Made of hard wood, charcoal filled, five walls for ice preservation, removable flues, iron shelves, air-tight locks, thorough drainage, cold dry air circulation—every nook and corner easy to get at and clean, nothing to get out of order or warp—the most perfect on the market. The makers warrant it. Costs no more than cheap makes.

BUY NOW IF AT ALL!

EVERY day makes more apparent the fact that the town is going ahead rapidly. Refrigerators have taken place in the way of the old-fashioned ice box. In the workingman's home and in the hotel on which to build. One of the most reliable and best of the kind is the Leonard "Cleanable." This week has been closed the sale of a very desirable new house and lot, and has several eligible lots on this property to dispose of. Property is being sold at a very low price. The terms are very favorable and especially low for cash. Hand payment at once may be secured.

TO ANNEX CANADA

The Man Who Thought He Could Do It in An Hour. PROVIDENCE, R.I., June 28.—Frank M. Parison was sent to the State House yesterday by the District Court of this city on a condition of good behavior, directly caused by ex-President Cleveland's visit on Saturday night. He is about 34 years of age and a graduate of the class of '73, Brown University. In April he was taken to Canada and lived there about 12 miles from Ottawa. He became well-known there on account of his vagaries concerning the relations of Canada and the United States. When it was announced that Mr. Cleveland was coming to this city he at once made the announcement that he was going to see him, and lost all control of himself. "I can annex Canada to this country," he said, "I can have \$20,000,000 paid, and all I want is an appointment to the second office in the Government when it is done. Mr. Cleveland can only become President if I guarantee it, and I can give to him as much as he wants to-night. He said this in the morning. It got to the police and they were afraid he might turn up at the house where Mr. Cleveland was to speak. At any rate there were police all round the hotel, but he did not appear. Parison's wife kept him at home that evening, with the help of others, or no doubt he would have tried to get to Mr. Cleveland. His case grew worse all night long, and this forenoon his wife said that he could no longer care for him. His ravings continued to be in regard to Mr. Cleveland until he was in a frenzy.

Reduction in Freight Rates.

CHICAGO, June 29.—At a meeting of the traffic managers of the Chicago eastbound roads to-day the Michigan Central announced that taking effect July 1 it would reduce the rate on dressed beef from 40 to 45 cents per 100 lbs., Chicago to Boston, thereby making it the same as the rate to New York. The reason given for this is that it was demanded by the shippers, who claim that there is discrimination in making a higher rate to Boston than to New York, because on live stock the same rate applies to both points. The representatives of the other lines had no authority to take definite action in this matter, and an adjourned meeting will be held to-morrow to decide whether the Michigan Central reduction shall be made general by all roads. There is no doubt that it will be. The Chicago & Grand Trunk, in order to preserve its differential, will then be forced to reduce its dressed beef rate to 45 to New England points by way of Montreal.

Another Drowning.

SARITA, June 29.—A son of John Heron, aged 13 years, fell off the roof of a house and was drowned. The body was recovered.

Drowned in a Tub.

CHICAGO, June 29.—A little boy 1 1/2 years old, son of George Kember of this place, was drowned this evening in a tub of water.

CANADIAN RAILWAYS.

THEIR LOVEMAKING IS STILL A VERY COOL SORT.

The Grand Trunk and the Canadian Pacific May Agree Upon a Common Tariff of Rates, But the Conference is so Far Unfruitful.

MONTREAL, June 28.—A Star special cable from London to-night says: Further enquiries into the proceedings now being taken with a view of securing friendly running arrangements between the G.T.R. and Canadian Pacific Railway show that the negotiations are as yet in a very early stage. A considerable amount of opposition to such an arrangement is that proposed, which existed among Grand Trunk shareholders, has disappeared, the continued decrease in the Grand Trunk traffic as shown by the weekly returns having strengthened the desire to effect an amicable arrangement with the rival company. So far nothing has been done beyond a mere informal discussion of the situation. It appears that the matter has not yet been taken up officially, though if the shareholders' conference reveals the fact that such an agreement is generally desired steps will soon be taken to bring the matter officially before the boards of both companies. In the meantime those concerned in the matter are hopeful of success.

LOST AT SEA.

A Schooner is supposed to have Gone Down With All On Board.

HALIFAX, June 28.—A special from Lunenburg, N.S., says: A schooner named "Gaharow," owned by Captain George Harris of Gaharow and commanded by John Ormiston, Jr. The vessel was from Halifax bound to Sydney and is supposed to have been wrecked in the breakers of Gaharow, where the schooner Charles Valentines was wrecked two years ago. There are no tidings of the crew and it is believed all were drowned. They numbered five and belonged to Gaharow and vicinity.

Rescued From the Open Door.

WINDSOR, Ont., June 28.—Stuart King and Reale Barro, who escaped from the Open Door Society, Detroit, a week ago, were found in Windsor yesterday. The father of the King boy, who telegraphed from Buffalo and will take his daughter home at once, the girl having been wandering about in the vicinity of Windsor ever since her escape from Open Door, sleeping in fields and barns and begging their food. There are evidences that they were miserably ill-treated and the full extent of investigation will be made.

How It Will End.

QUEBEC, June 28.—Another attempt has been made at a meeting of representatives of the hotel and restaurant trade to secure a definite settlement of the difficulty. The leaders, however, upon adhering to their union and their rules, and the manufacturers are not willing to import machinery which will enable them to dispense with labor, and this will, therefore, put an end to the difficulty so far as the factories are concerned.

Keep Up the Fight.

New York, June 28.—A passenger on the steamer Adirondack from West Indian ports reports that it is rumored Legation, Hayti, left San Domingo and landed on Turin's Island on the 24th inst., with 20 followers. It is supposed he intends to make a descent upon Hayti with the hope of stirring up another rebellion.

Assaulted the Chinaman.

HAMILTON, June 28.—Wah Sing and two other Chinamen, who run a laundry at 144 Elizabeth-st., were assaulted by a white man yesterday night by three roughs, who broke into the premises. They trounced the terrified Chinese and upon the spot, so that the floor was covered with blood. The white man, who was called out, but the Chinese were not injured. Wah Sing could give no clue as to his assailant.

Getting a Collection of Wives.

HELVETIA, June 28.—William Habbie, alias W. Elliott, who was arrested at Tuxed on a charge of larceny. It is alleged that the prisoner, who was on April 19 married to a woman named Margaret, and that the name of his wife was Margaret.

Dropped Dead.

CLINTON, June 28.—A very sudden death occurred here yesterday. Richard Murphy, formerly a merchant of Stratford, was here on a visit to his brother and was standing in the yard before Mr. Ben Chubb's residence talking to some friends when he suddenly fell dead at his feet.

Where It Was Lost.

SAN FRANCISCO, June 28.—The signal service reports that yesterday was the hottest day in San Francisco since 1871, the thermometer registering 98 degrees, or an equivalent of 107 degrees on the street.

A Small House.

COLUMBIA, June 28.—About 12:30 this afternoon a fire broke out in a barn owned by G. M. Tisdale. It was entirely destroyed, but was insured in the Phoenix. Cause of fire unknown.

A Summons Fined Dead.

OTTAWA, June 28.—Father Beave of Grenville died this morning. He was a graduate of Ottawa University. In 1870 he joined the Postoffice Revenue and fought at the taking of Rome.

A BAD SHOWING.

Three Cases of Homecoming at St. Kitts on Sunday.

St. Catharines, June 28.

The towns today to be troubled with burglars. Yesterday afternoon, when boys were caught stealing large quantities of pop from the cellar of J. & F. Fitzgerald's store, having gained an entrance through a small window. Last night unknown parties forced an entrance into the residence of Mrs. M. A. McCarthy, and stole \$50 from the bedroom occupied by the lady of the house. An unsuccessful attempt was also made to force an entrance into the residence of Mr. M. A. McCarthy, but the ladies were aroused by the breaking of a pane of glass and saw two men running away. The police have no clue.

Four Years in Jail.

QUEBEC, June 28.—On Saturday afternoon August Lombard, the young man arrested for numerous country church and other robberies committed about a month ago, and since being investigated, pleaded guilty to the charges, was sentenced by Judge Mac Rury to four years in the St. Vincent de Paul Penitentiary.

THE NEWS OF EUROPE.

EMPEROR WILLIAM'S WELCOME IN
ENGLAND.

One of the Most Gorgeous Spectacles of
Modern Times.—The Contest in Carlew-
Unveiling a Memorial to a Famous
Mariner—General Foreign Intelligence.

LONDON, July 5.—The Emperor William
arrived at Port Victoria, near Bournemouth,
yesterday. He was enthusiastically received
by the crowds assembled to witness the land-
ing of the Imperial party. All the British
warships anchored about Bournemouth fired
salutes of 31 guns.

Previous to the arrival of the Imperial
Yacht Hohenzollern, the Prince of Wales
and his suite, the Duke of Clarence and
Avondale, both in the uniform of Prussian
hussars, the Duke of Edinburgh, in the uni-
form of a Prussian general; the Duke of
Connaught, in the uniform of a colonel of
German hussars, and other members of the
Royal Family gathered on the pier at Port
Victoria to await the arrival of the Imperial
visitor. The Duke of Portland, Master of
the Horse, was in charge of the arrange-
ments made for the reception of the
Emperor. Also present on the pier were
the German Ambassador, Count von
Hatzfeldt; the British Ambassador at Ber-
lin, Sir Edward Malet, and Admiral Sir John
Comberford, Sir John McNeill and Colonel
Carrington, the last three being specially
attached to the Emperor during his
stay in England. The Hohenzollerns
were sighted about noon. She was escorted by
the Princess Wilhelmina and other German
warships. When the German yacht and her
escort were abreast of the first of the British
warships the latter thundered forth a
salute of 31 guns.

The German Emperor was first seen upon
the bridge of the Imperial yacht. He wore
the uniform of a British Admiral and was
accompanied by a staff of British and Ger-
man officers. Upon landing the
Emperor kissed the Prince of Wales, and
after luncheon on board the Hohenzollern,
the royal party started for Windsor by spe-
cial train.

Upon the arrival of the train at Windsor
it was seen that the structure was superbly
decorated and the Emperor was met by

TORONTO TOPICS.

Seizure of an Old Man.—Death of Judge
McNair.

TORONTO, July 5.—The body of an old
man named George Hopkins, who lived in
the rear of 28 Cornwall-street, was found
floating in the Don river near the lower
bridge about 10 o'clock yesterday. The body
was taken to the late home of the deceased
in the patrol wagon.

Hopkins was last seen on the bridge Satur-
day morning and it is supposed that he
jumped into the river. He was about 60
years old and was a pedlar at one time, but
lately has been despondent.

Judge Drew of Guelph, died yesterday at
his home in that city. Saturday he was
in Toronto on legal business and as usual
put up at the Queen's Hotel. Mr. Richmond,
the clerk, last night informed a reporter that
he never in recent times saw the Judge in bet-
ter spirits and they had a long chat over old
times and prominent judges and politicians
who had passed away. Judge Drew returned
to Guelph Saturday night, and up to 11
o'clock was reading aloud to his family from
a daily paper. Before retiring at 11.30
he called up the phone in Galt on the tele-
phone and had a pleasant conversation, but
at 12.15 he took ill and died instantly.

except for the unusually large number of
newspaper men in town no one would
think that anything unusual was about
to occur. Within a wall of the prison

Makes the Weak Strong

The marked benefit which people in run down or weak condition derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." Dr. J. H. Smith, M.D., St. Louis, Mo.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." E. C. Rasmussen, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." Miss Pauline Moxham, 20 South Street, West Boston, Mass.

CANADIAN RAILWAYS.

On the 30th of June, 1891, Canada had 15,300 miles of railway in operation, says the Hamilton Spectator. This was about one mile to each 771 inhabitants. But track was laid on 14,000 miles. At present there are 14,000 miles of actually constructed railway in the Dominion, or as nearly as the United States had in 1889. Canada is still exceeded in mileage by the United States, Great Britain, France, Germany, Austria-Hungary and Russia, while India is about equal with us. But we are rapidly pushing forward to a position of equality with all these countries except the United States.

The railways cost \$700,447,411, or \$45,174 per mile, or about \$157 for each man, woman and child in the Dominion. Nearly \$200,000,000 of this sum was capital stock, \$200,000,000 bonded debt, and \$100,000,000 was the gift of the Dominion, provincial or municipal governments.

During the year ending June 30th, 1890, the gross earnings of all lines were nearly \$42,000,000, the working expenses \$25,000,000 and the net earnings \$17,000,000. This was only 2 1/2 per cent. on the stock and bonded debt, less than 2 per cent. on the cost of the roads.

The mileage more than doubled in ten years. The increase in passenger traffic is also very marked. In 1880 the passenger traffic was 1,000,000, and in 1890 it was 2,000,000. In 1880 the freight traffic was 1,000,000, and in 1890 it was 2,000,000.

Through charges in new districts where traffic and travel are comparatively light are necessarily higher than in the old districts, the earnings do not keep pace with the volume of traffic, which indicates that charges are steadily declining.

Of the 12,000 passengers carried eleven were killed. So that the chances are a passenger will complete his journey safely a million separate and distinct railway journeys on Canadian railways before he will encounter a fatal accident. Or, rather, when he goes on board a train, the chances are more than a million to one that he will not be killed.

Of the great systems the Canadian Pacific company owned 4,000 miles and leased 1,500, making 5,500 miles in all. The Grand Trunk operated in Canada 3,100 miles. The government railways covered 1,500 miles.

REVIEWS.

THE AMATEUR PHOTOGRAPHER.—Amateur photography has become so popular that it now has magazines devoted to that art. The American Amateur Photographer (No. 100) is a large and well-printed magazine, with a fine photo-gravure reproduction in each number. It contains a large quantity of information on various topics connected with photography, and is therefore entirely free from any bias. It is a very useful publication for any one interested in photography.

HARPER'S MAGAZINE.—The frontispiece to Harper's Magazine for July is a fine portrait of Oliver Wendell Holmes, engraved by Closson from a recent photograph. George William Curtis, in an interesting and appreciative article on Dr. Holmes and his works, takes occasion to review the condition of American literature sixty years ago. Walter Dean's second paper on London deals with the fiction and Norman period. The superb series of articles on "The Warlike Art of the Middle Ages," written by A. T. Coates, is illustrated by a fine photo-gravure reproduction of a manuscript page. The Rev. J. M. Buckley, D.D., in a timely paper on Christianity and modernism, discusses the relationship of religion to the current problems of human society. Besides two other already mentioned articles, the issue contains a fine illustration of a manuscript page, a portrait of a famous man, and a full-page illustration of a landscape.

McKENNEN'S MAGAZINE.—McKENNEN'S for July (beginning the tenth volume) has its leading article on a subject which attracts particular attention at this season—Speed in Ocean Steamers. The author, A. R. Spedden, is connected with a large ship building firm in England, and makes perfectly plain to untechnical readers the various conditions which must be borne in mind in designing greyhounds, and the most advanced methods which have been used. The illustrations show a number of the fastest steamers afloat. This issue contains also two illustrated out-of-door articles—one on inland hunting in the Spanish Pyrenees, and the other on fishing for the Black Sea bass on the Pacific Coast. The number is unusually rich in fiction, containing four complete short stories, by George A. Hildard, the late John Elliot Curran, Edith Wharton, and Geo. L. Ostlin. U.R. Connel at Zurich. There are three articles of political importance—one on starting a Parliament in Japan, by Professor John H. Wigmore, of the University of Toronto; another giving a civil engineer's glimpse of the revolutionary Republic of Haiti; and a third summarizing the romantic history of slavery on the Mexican border. A picturesque account of an old Indian tale, a literary sketch of unusual quality by John Hay, and a complete novel, "The Frontispiece," by the late Mr. J. R. Wadsworth, are also included. The frontispiece is a full-page illustration of a selected Ode of Horace.

THE MONTREAL MAGAZINE (Toronto: William Briggs)—The thirty-fourth volume of this popular monthly opens the July number with a number of special interest. The leading article is a full-page illustration of a selected Ode of Horace. The number is unusually rich in fiction, containing four complete short stories, by George A. Hildard, the late John Elliot Curran, Edith Wharton, and Geo. L. Ostlin. U.R. Connel at Zurich. There are three articles of political importance—one on starting a Parliament in Japan, by Professor John H. What Does It Mean? "100 Doses One Dollar" means simply that Hood's Sarsaparilla is the most economical medicine to buy because it gives more for the money than any other preparation. Each bottle contains 100 doses and will average to last a month, while other preparations, taken according to directions are gone in a week. It is so easy to get Hood's Sarsaparilla, as the blood purifier.

A Cure for Constipation and Headache.

Dr. Silas Lane, while in the Rocky Mountains, discovered a cure for constipation and headache. It is in the form of a small, round, white pill, and is called "Dr. Lane's Kidney and Bladder Pills." It will cure constipation, headache, and all the troubles connected with the bladder and kidneys. It is so easy to get, and so effective, that it is a great blessing to all who suffer from these troubles. It is so easy to get, and so effective, that it is a great blessing to all who suffer from these troubles.

The Cause of Crime.

The Ontario Prison Reform commission directed their attention to finding out if possible the causes of crime; and these they have set down in effect as follows:

(1) Want of proper parental control, the lack of proper home-training of children due to the culpable neglect of parents, their indifference to parental duties and the influence of bad habits.

(2) Intemperance, directly and indirectly.

(3) The transmission of hereditary tendencies, associated with evil environments.

(4) Idleness—that is, dislike for work and determination to do little or no work. Of idleness, as of drunkenness, it may be said that it is difficult to decide whether it should be regarded as cause or as effect. It may certainly be traced in many cases to want of parental control and proper home training. The boy who is allowed to do as he pleases until he has reached the age of fifteen is not likely to acquire a taste for steady employment afterward.

(5) Ignorance. It is feared that many are growing up in utter ignorance of what good citizens should know.

(6) The inordinate eagerness to acquire wealth, or to get money sufficient to satisfy the desire of the extravagant or the prodigal, which prevails in this age and on this continent, is in many cases the cause of crime.

(7) The neglect of its duties by the State and by society in all its other forms of organization is largely responsible for the prevalence of vice and crime.

(8) Lastly, the importation into the country of those uneducated to the conditions of life here.

The commissioners have an exhaustive treatise on this branch of their inquiry, and they cite many eminent authorities.

Wash Your New Socks.

A pair of new socks fresh from the store, feel very comfortable to the feet, but the man who wears them before they are washed makes a mistake. Homely as always be washed before they are worn, and the socks wear as long again, besides preventing the feet from being injured by the coloring. When put on before washing they stretch out of shape and can never be restored to the original form.—St. Louis Globe-Democrat.

The perfect summer beverage cool and delicious. It cools you, it "brings you up," it refreshes, and it is the most delicious of all drinks. There is not a moment's "cool heat" about a barrel of aleoholic stimulation. A glass of Montreal refresher and that's all.

TURNBULL'S

We are showing to-day at Turnbull's two cases of Prints, 125 different Patterns, at 10c. a yd. This is a rare chance to get a good Print and Choice Pattern at a common price. Among these goods will be found Pretty Greens, Twill Sateens in Corn Color and Brown Navy and White, Navy and Cream, the Newest Shades in Rose, Terracotta, Pink and Lavender.

We still want to call your attention to the American R. & G. Corset, Every pair made in a mould in two styles to fit either stout or slender figures. Those who have tried them say they can wear a size smaller than in any other make, the fit is so perfect.

DOOMED MEN DIE.

THE FOUR MURDERERS IN THE FATAL CHAIR.

The Deadly Current Ends All—Dread Tragedy Unfolded Within the Walls of the House of Correction—The First to Meet His Fate.

Three men, who were sentenced to death for the murder of a woman, were today executed in the electric chair at the House of Correction.

The first to be executed was James M. Smith, who was sentenced to death for the murder of a woman in 1888.

He was executed at 12 o'clock, and his last words were, "I am ready to go."

The second to be executed was John A. Smith, who was sentenced to death for the murder of a woman in 1889.

He was executed at 1 o'clock, and his last words were, "I am ready to go."

The third to be executed was William A. Smith, who was sentenced to death for the murder of a woman in 1890.

He was executed at 12 o'clock, and his last words were, "I am ready to go."

The fourth to be executed was Charles A. Smith, who was sentenced to death for the murder of a woman in 1891.

He was executed at 1 o'clock, and his last words were, "I am ready to go."

The execution was witnessed by a large number of people, and the scene was a most impressive one.

The electric chair is a most effective and humane method of execution, and it is hoped that it will be used more frequently in the future.

The House of Correction is a most important institution, and it is hoped that it will be improved in the future.

The execution of these four men is a most important event, and it is hoped that it will be a warning to others.

What a ghastly scene is spreading through the corridors of the House of Correction!

The four men, who were sentenced to death for the murder of a woman, are today being executed in the electric chair.

The first to be executed is James M. Smith, who was sentenced to death for the murder of a woman in 1888.

He is being executed at 12 o'clock, and his last words are, "I am ready to go."

The second to be executed is John A. Smith, who was sentenced to death for the murder of a woman in 1889.

He is being executed at 1 o'clock, and his last words are, "I am ready to go."

The third to be executed is William A. Smith, who was sentenced to death for the murder of a woman in 1890.

He is being executed at 12 o'clock, and his last words are, "I am ready to go."

The fourth to be executed is Charles A. Smith, who was sentenced to death for the murder of a woman in 1891.

He is being executed at 1 o'clock, and his last words are, "I am ready to go."

The execution is a most impressive scene, and it is hoped that it will be a warning to others.

Dyspepsia

Intense Suffering for 8 Years—Recovered to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMillan, a well known grocer of Sturtevant, Va. He says: "Before 1883 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 125 pounds, suffering burning sensations in the stomach, palpitation of the heart, nervousness, and indigestion."

I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became nervous, irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected ceased, the palpitation of the heart subsided, my stomach became cooler, nervousness disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

CHAINED AND CANED.

PETERBOROUGH CHEESEMEN PAY A TRIBUTE TO SERVICES.

The President and Executive of the Association of an Address and Presentation.

A Big Sale of Cheese—1,441 Boxes Received and Pretty Well Cleared.

There was a pleasant departure from the usual order of business at the regular meeting of the Cheese Board held at noon yesterday in the new market building.

The Peterborough Board has grown to large proportions now, until there are from fifty to seventy-five salesmen present at the meetings and nearly fifty historic boarding cheese. From the very first the sale was about to commence Mr. Thos. Blomard, M.P., stepped to the front and in a short speech referred to the growth of the Board, and in giving language paid a tribute to the services of Mr. W. Taylor, the late secretary, and Mr. J. W. Drummond, President, both of whom had been connected with the Board from its earliest days and had been largely instrumental in its success. Mr. Blomard also spoke of the fine quality of cheese which was made in Peterborough county, and said he confidently expected that they would this year have the finest cheese and finest prices in the country. He then called upon Mr. M. E. Henderson to read the address which had been prepared.

Mr. Henderson responded, and after calling Mr. Drummond from the chair, read the following address, Mr. Henderson accepting the case on behalf of Mr. Taylor, who was absent.

To Messrs W. Taylor and J. W. Drummond—

GENTLEMEN—We, the members of the Peterborough Cheese Board, take advantage of the occasion of Mr. Taylor's retirement from the office of secretary, which he has so efficiently and ably performed, to most also the organization of the Board, to recognize the value of his services, but also of those of Mr. Drummond, who has for two years consecutively most ably and devotedly performed the duties of President. We desire to bear our testimony to the real earnestness and ability which you have both shown in both the interests of the Board and the interests of the cheese trade.

We have always found you at the post of duty, always courteous and obliging, and always anxious to protect the interests of the Board.

Therefore we must take this opportunity of showing you in some tangible manner our appreciation of your services and our respect for you as gentlemen and fellow members. In token whereof we beg the acceptance of Mr. Taylor of this gold watch, and the acceptance of Mr. Drummond of this gold watch chain and fob, coupled with the wish for both of you of many years of prosperous and useful life.

Signed on behalf of the Board,

H. E. Henderson, Samuel Edwards, John Moloney, John S. Orson.

Mr. Geo. Burrows and Mr. John Moloney made the presentations.

Mr. Drummond made a brief but happy reply. He disclaimed any of the credit ascribed to him and laid all the praise at the feet of Mr. Taylor who, he said, had started the board and to whose energy its success was almost entirely due. He thanked the members of the Board for their kind remembrance.

Mr. Edwards replied briefly and appropriately for Mr. Taylor.

DOWN TO BUSINESS.

The attention was then turned to the business of the sale. Forty-five historic boxes were opened. The buyers present were Messrs. Claxton, Cook, Fyfe, Fitzgerald and Wright.

DAILY EVENING REVIEW.

VOL. XXV.—No. 7

PETERBOROUGH, THURSDAY, JULY 9, 1891.

TEN CENTS A WEEK

July and August

will be very busy months with us. A recent visit to the market when prices were the lowest and an enormous purchase of midsummer fabrics has filled our shelves to overflowing with some most desirable lines at prices, in fact, never before approached for cheapness. 50 pieces handsome Flannelettes at only 7 cents worth 10 cents. 50 pieces beautiful Stripes and Checks Gingham only 6 cents worth 10 cents. 6 Cases Dark Colored Flannelette worth 10 cents to be sold at 6 cents per yard. 2 Cases American Cotton Challies and Delaines direct from a very large United States wholesale warehouse. Colors absolutely fast. Prices very much lower than currently sold at. Ladies doing their summer shopping will not only save money but find the most complete stock of first class Dry Goods in town at

Cleanable.

If your old refrigerator sometimes disappointed you—didn't work right, wasted ice, wasn't air tight, was smelly, made meats and things taste queer—it probably wasn't a Leonard "Cleanable."

The "Cleanable" is the result of thirty years making of refrigerators, and has never been complained of.

Made of hard wood, charcoal filled, five walls for ice preservation, removable flues, iron shelves, air-tight locks, thorough drainage, cold dry air circulation—every nook and corner easy to get at and clean, nothing to get out of order or warp—the most perfect on the market. The makers warrant it. Costs no more than cheap makes.

TURNBULL'S

We are showing today at Turnbull's two cases of Prints, 125 different Patterns, at 10c. a yd. This is a rare chance to get a good Print and Choice Pattern at a common price. Among these goods will be found Pretty Greens, Twill Sateens in Corn Color and Brown Navy and White, Navy Shades in Rose, Terracotta, Pink and Lavender.

We still want to call your attention to the American R. & G. Corset. Every pair made in a mould in two styles to fit either stout or slender figures. Those who have tried them say they can wear a size smaller than in any other make, the fit is so perfect.

THE TUPPER PROPOSALS.

FOR A PLAN OF IMPERIAL FEDERATION.

The Establishment of a Small Prefectural

Duty Within the Empire—The High

Commissioners of the Colonies to be

Privy Counsellors.

LONDON, July 8.—Responding to Lord

Salisbury's demand for a plan of imperial

federation Mr. Charles Tupper has submitted

to the Council of the Imperial Federation

League a series of definite proposals. These

embrace the admission of the High

Commissioners of Canada, Australia

and South Africa to the Imperial

Privy Council and the Imperial Cabinet

holding portfolios in the Federal

Cabinet of the respective colonies; also the

establishment of a daily wireless

telegraph line between the British

Empire and the colonies. This Mr.

Charles Tupper believes would give the

colonies a needed voice in imperial affairs,

and at the same time make the unity of the

Empire a reality. Mr. Tupper's proposals

are being considered by the Council of the

League, which is expected to meet in

London on Monday next.

Save Your Hair

It is a healthy use of Ayer's Hair Vigor. This preparation has no equal as a dressing. It keeps the scalp clean, cool, and healthy, and preserves the color, softness, and beauty of the hair.

"I was rapidly becoming bald and gray, but after using two or three bottles of Ayer's Hair Vigor my hair grew thick and glossy and the original color was restored."—Melvin Aldrich, Canadian Consul, N. E.

"Some time ago I lost all my hair in consequence of measles. After due washing, no new growth appeared. I then used Ayer's Hair Vigor and my hair grew."

Thick and Strong.

It has apparently come to stay. The Vigor is evidently a great aid to nature."—J. B. Williams, Florence, Tenn.

"I have used Ayer's Hair Vigor for the past four or five years and find it a most satisfactory dressing for the hair. It is all I could desire, being harmless, causing the hair to retain its natural color, and requiring but a small quantity to render the hair 'thick and strong.'"

Mrs. M. A. Bailey, 4 Charles Street, Haverhill, Mass.

DIAMONDS FOR PERLEY.

Witness Murphy's appearance in title of Jewellery in the department investigation.

OTTAWA, July 8.—At the meeting of the Privileges and Elections Committee to-day Mr. Murphy's cross-examination was resumed. Nothing was elicited from the cross-examination. Mr. Murphy commenced the direct examination. The witness swore that he was directed by the Hon. Mr. Justice to go to the Ottawa Police Station on January 24, 1902, with \$2,000 to pay to Perley, Chief Magistrate of the Public Works Department. Perley refused to take the money, but would take a present. Mr. Murphy first paid \$100 of this money to a clerk in Perley's office. Then he proceeded to Montreal with the remaining \$1,900, \$15 of which he spent on the train. With the balance, \$1,885, he purchased jewelry from Henry Barry, in St. Francis, Quebec, and returned to Ottawa.

Subsequently he saw Mr. Perley, who displayed one of the rings and rebuked the witness for spending so much money. He also said that on one occasion he met a clerk in Mr. Perley's office in the Windsor House here. The witness asked for a loan of \$50. The witness gave him a \$100 bill. He did not know the young man's name nor had he seen him since.

Mr. Murphy was discharged last Tuesday. He stated that he was going to Quebec. On returning here he will visit the Public Works Department as to whether he can identify the young man who received the present.

An investigation into the management of the Interior Department took place to-day at the Public Accounts Committee. It was shown that money was paid in an irregular way to certain officials for work done. Mr. Burgess, the deputy of the department, was examined and admitted that this was the case.

In motion of Mr. Geoffries it was directed that subpoenas should be issued for the attendance of Joseph Leonard and Fabian Vanasse of Le Monde (the Hector's newspaper) and also for the production of Hon. Thomas McGreevy's bank books and checks.

Perley Will Reply.

Mr. H. F. Purley was called to-night and said: "I have heard of the evidence given by Owen E. Murphy this morning. I have been to my lawyers and asked to be called before the committee to-morrow morning at 10 o'clock. I have a perfectly good answer to it all, perfectly good, and run very easy under it. I prefer to say nothing till I give my statement before everybody at the committee."

Chicago's Post Master Struck by Light.

CHICAGO, Ill., July 8.—A flash of lightning last night put an end to the expectations that centered around the mammoth captive balloon, which was tethered to a platform in a vacant space on Cottage Grove avenue, opposite Washington Park.

The notes of the explosion were heard miles away and the houses in the vicinity were shaken as if by an earthquake. For fully ten seconds the light of the gas illuminated the neighborhood. All the men were hurled several feet and the platform took fire, but the flames were soon extinguished by the fire department. Professor Giddard, the balloonist, was not badly injured. The balloon was the largest in existence, and cost \$25,000.

A Husband's Fortune of This Pretty Maid.

HAMILTON, July 8.—Miss Myra Harrell, who a couple of years ago received a verdict of \$500 damages against Thomas O'Callaghan of London for breach of promise, was married yesterday to William Stephenson of Winnipeg. Over a year ago, by some coincidence, the two were engaged to the same evening at the establishment of a colored seamstress in Hargrave street. There they met. It was a case of love at first sight for the groom. He secured the young lady's address and called upon her shortly afterwards. Whether or not Stephenson was the one pictured by the fortune-teller as the custodian of Myra's affections is not known, but in a short time he became so. And yesterday they were married.

Flammarion's Contrived.

PETERBOROUGH, Pa., July 8.—Fred Flammarion, alias A. B. Bodd, the Canadian criminal, was this afternoon convicted of robbing Shelly's drug store at McKeanport last winter. Flammarion and several accomplices are now being tried on a second charge. The idea is to give the Canadian a thoroughly bad character to aid the prosecution in his approaching trial for the murder of Detective Gilmartin.

Chinese Emigration.

WASHINGTON, July 8.—The last Congress passed a resolution directing the President to prevent the entry of Chinese laborers from Canada and Mexico into the United States. From diplomatic correspondence just published, it appears that Great Britain has taken a position favorably and referred it to the Canadian Government.

Crushed to a Jelly.

QUEBEC, July 8.—The ambulance "was called out this afternoon to assist a poor boy named Theodore Barre, who got his head smashed under a yacht lying on a slip at the Quebec House for repairs. The boy was working under the yacht and accidentally knocked one of the stanchions falling in his position. The yacht, grounded, crushed the boy's head. Death is expected overnight."

TORONTO TOPICS.

Remains of the Central-Free Borden House of Commons.

Toronto, July 8.—John Shuter, of the firm of John Shuter & Son, cracker manufacturer, died suddenly at his residence in Oakeside street this morning. The cause of death was heart failure.

Two prisoners in the Central Prison escaped at 11 o'clock yesterday in the most haphazard way. They walked the wall with two guards on them from the tower on the wall. Shots were fired, but they got away all right and soon distanced their pursuers. Their names are James Dean, alias Cornell, and James Dickson. The latter was sentenced from Kingston. Only a short time ago Dean made his escape, but was captured at Welland and returned.

Charles Rogers, principal in the furniture firm of Rogers & Sons, 97 Yonge street, was apparently in good health yesterday and visited the factory in the afternoon, but in the evening complained of feeling a pain in his chest. This morning at 9 o'clock he was found dead in bed. The deceased was twenty-six years of age and came to this country from Glasgow, Scotland, in 1881.

FIXED HIM IN A CHAIR.

And Endeavored to Blow Open the Motion made—During heavy rain.

STRAITS, July 8.—About 1.30 this morning, on Mr. J. H. Kinder, night operator at the U.T.R. station here, was about to enter his office at the station, after having turned the lamp, he was suddenly pounced upon by three masked men, who seized him and pushed him into the ticket office. They then demanded that he should at once open the safe, two of them holding him between them with their hands on his shoulders at each side of his head. This Kinder said, it was impossible for him to do, as he was not entrusted with the secret of the combination. Kinder was then placed in a chair in the waiting room, tied with a rope and told that if he made any outcry he would be shot. The burglars then proceeded to work on the safe, drilling a hole on the top and filling it with powder. The first explosion did not operate with the desired success, and a second was tried, with the same unsatisfactory result, and the criminals then turned their attention to the till, which they forced open and were rewarded with about \$50. They also searched Kinder, but found nothing but his watch which they left behind. About an hour after their departure Kinder released himself and made his way to the residence of Mr. Seymour and gave an alarm. The thieves are still at large. A brass and three chains left behind were identified by R. Humphries as having been stolen from his shop. While returning around to observe the burglar at their work Kinder was struck on the head with a revolver by one of them and told to look the other way. He is suffering considerably to-day from the blow and nervous strain to which he was subjected.

A Pretty Badge. Peterborough Lodge No. 111, I.O.O.F., have prepared new badges, and they are of a very handsome and neat design. They are ornamented with gold cheap and trimmings. The class is reversible. Each side is printed with suitable inscription, one being black for mourning badges and the other red for parades or other occasions. It is a very elegant society badge.

The C.P.R. Employees Picnic. The efforts of local friends have secured for the C.P.R. employees a picnic to be held here on July 24th. Private subscriptions to the list have raised a sufficient fund. Merchants are assured that there will be over 5000 people come to town and that there will be a lively demand for provisions, the picnic, necessary to general impression, not being a basket picnic. Our business men are urged to decorate their stores to give the town a gay appearance, as has been the case in other places where the picnic has been held.

Donations for June. The committee of management of the Peterborough Protestant Home acknowledge with thanks the following donations for June:—Mrs. McWilliams, basket of sundries, plants and pictures; Miss Allen, mattress; Mrs. Davidson, butter; St. Andrew's church, per Mrs. McWilliams and Mrs. Mercer, basket of cakes; Mr. Salisbury, reading matter; Mr. Frank Moore, plants; Mrs. Orr, milk; Mrs. Dr. Barnham, roast of venison; Cornwall Lodge I.O.O.F., basket of salmon.

Do You Cough? Don't delay. Take Kump's Balsam, the best cough cure. It will cure coughs, colds, croup, whooping cough, and all diseases of the throat and lungs. It is a pure balsam. It is in a glass bottle, and has a pleasant taste. It is the best cough cure ever used. It is sold by all druggists and grocers.

Dr. David's Organ Recital. Dr. David gave another of his popular organ recitals at St. John's church last evening. There was only a fair audience present. Save Your Hair

By a timely use of Ayer's Hair Vigor. This preparation has no equal in the world. It keeps the scalp cool, healthy, and preserves the color, fullness, and beauty of the hair.

"I was rapidly becoming bald and gray; but after using two or three bottles of Ayer's Hair Vigor my hair grew thick and glossy and the original color was restored."—MRS. A. J. ALDRICH, Canada Centre, N. H.

"Some time ago I lost all my hair in consequence of measles. After this writing, no new growth appeared. I then used Ayer's Hair Vigor and my hair grew."

Thick and Strong. It has apparently come to say. The Vigor is evidently a good and to be used. J. B. Williams, Newville, Texas.

"I have used Ayer's Hair Vigor for the past four or five years and find it a most satisfactory dressing for the hair. It is all I could desire, being harmless, causing the hair to retain its natural color, and requiring but a small quantity to render the hair easy to arrange."—Mrs. M. A. Bailey, 9 Centre Street, Haverhill, Mass.

"I have been using Ayer's Hair Vigor for several years, and believe that it has caused my hair to retain its natural color."—Mrs. H. J. King, Dealer in Dry Goods, 200, Bishopville, Md.

Before Starting.

On a journey, place a bottle of Clark's Lightning Liniment in your valise. A few drops of water will prevent stiffness or pain from changing your water. It is better than spirits or oil as a stimulant. Minors and lumbermen will find it a life saver. With it, all aches and pains are cured. If the druggist has not got it ask him to send it for you. Write to Clark Chemical Co., Toronto.

Killed Her Son's Bride.

LANCASTER, July 10.—The aged mother of Louis Bailey on her deathbed confessed to the murder of her son's wife 9 years ago. In 1893 Louis Bailey was married to Miss Beckford. The second night after the wedding the dead body of the young bride, perforated with bullet holes, was found lying in a pool of blood in a wheat field near the house. Her husband was arrested, but acquitted.

414

A Miserable Life Miserably Ended.

ORANGEVILLE, July 10.—For over 30 years Adam Livingston lived the solitary life of a bachelor up in Mimur. There poverty and disease overtook him and about two months ago he was brought to Orangeville jail in a dying condition on a charge of vagrancy. The end came at 5 o'clock Thursday evening, heart disease being the immediate cause of death.

415

Searching for the Victim.

PORT DUFFERIN, July 10.—A party left here at 8 p.m. to-day to seek for tidings or traces of the missing youth Mabel and his co-conspirator Major John W. Ryerson, one of the most prominent men in this county, and Abel Barker, commercial traveler of Toronto, who left for Long Point on Dominion Day and have not been heard of since.

416

Must Be Returned to China.

WASHINGTON, July 10.—Attorney-General Miller has given opinion that the Chinese Restriction Law requires that Chinese convicted of illegal entry into the United States shall be returned to China regardless of the fact that they may have been actually entered the United States from contiguous territory, such as Canada or Mexico.

417

Crushed to Death.

ORANGEVILLE, July 10.—The express from Toronto over the mangled remains of an old man named Daley on the track about two miles north of Orangeville Station. The old man, who had evidently been struck by a freight train during the preceding night, lay with his head and both arms and legs severed from the body.

418

Killed By Lightning.

CANTERBURY, Ont., July 10.—Frank F. May aged 17, took refuge in a barn during a thunderstorm. Lightning struck the pole and passed down through the barn, striking Frank in the breast, passing down his body into the floor. The clothes were torn almost entirely from the body.

SOME USEFUL "UNCLES"

CONTINUATION OF THE MCGREEVEY LANGEVIN INVESTIGATION.

Connolly's Advice to Murphy, "You Had Better See One of Your Uncles About It."—A Relationship Embracing Most of the Cabinet Ministers Claimed.

OTTAWA, Ont., July 10.—The Privileges and Elections Committee met this morning.

On motion of Mr. Oler, Messrs. Cross and Lang of Toronto were appointed, joint auditors, representing the Government and Mr. Tarte respectively, to examine various items in the several books and papers bearing on the charges. The experts, who were summoned by telegraph, will submit the result of their investigation to the committee without delay.

Mr. Nicholas Connolly was then examined by Messrs. Geoffrey and Tarte. He was asked many questions in regard to the checks for \$4000, \$3000 and \$2000 respectively, he had signed when acting as cashier for Larkins, Connolly & Co., and which checks were noted by entries as having been given as donations. The witness exhibited a poor memory. He said he was not aware that the firm had ever given a cent for election purposes, nor had he ever given any money either personally or indirectly, to Hon. Thomas McGreevey.

Mr. Tarte drew his attention to a letter he had written Owen R. Murphy regarding the British Columbia contract. In the letter the writer asked Murphy to see "one of his uncles regarding the tenders."

Added to whom this referred, witness said he meant Hon. Thomas McGreevey. Murphy always called him "Uncle Tom."

Mr. Tarte: Did witness have other "uncles"?

Witness: Yes, he called one Uncle Mr. Adolphe, and every Minister almost. (Laughter.)

Mr. Lister questioned the witness very closely about the dredging at Quebec. Nicholas admitted the firm got 45 cents a yard for dumping, which he said yesterday cost only three or four cents a yard. The books of the firm showed they made \$30,000 profit on the dredging of 1900. Nicholas Connolly's letter calling Baker and Hulse square "A brace of pirates," and saying they wanted \$3000, but were offered \$500, was shown him. He said his brother did not speak truly. They were not actors of pirates, but perfect gentlemen. They were anxious that the dredging dock at Esquimaux should be made longer and said it might be necessary to come to Ottawa for that purpose. Nicholas admitted that he would pay their expenses, about \$500. That was all there was to the story. His brother never told him he paid them money, and he had no knowledge of any being paid them. It was Baker and Hulse who said it would cost \$500 to come to Ottawa.

The committee then adjourned until to-morrow morning.

BAD ECZEMA ON BABY.

Head One Solid Bone. Itching Awful. Had to Tie His Hands to Cradle.

Cured by Cuticura.

Our little boy broke out on his head with a bad form of eczema when he was four months old. We tried three doctors, but they did not help him. We then used your three Cuticura Remedies, and after using them eleven weeks exactly according to directions he began to steadily improve, and seven months his head was entirely well. When he began using it his head was so sore that he would not let his hands to his eyes, and it was also all over his ears, most of his face and small places on different parts of his body. There were six or seven small pustules on his head, and he had to tie his hands to the cradle and hold them when he was taken up; and had to keep his hands to his head to keep the eczema from coming back. We used your CUTICURA REMEDIES and he was cured. We could in any way say his hands were not tied to his head. We feel sure in recommending these to others. We feel sure in recommending these to others. We feel sure in recommending these to others.

INTERCOLONIAL

Railway of Canada.

The direct route between the West and all points on the lower St. Lawrence and Lake Champlain, New Brunswick, Prince Edward Island, New Brunswick, and St. Pierre.

New Brunswick and St. Pierre.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travellers.

New and elegant buffet sleeping and day cars are run on all through express trains.

The popular summer sea bathing and fishing resorts of Canada, are along the Intercolonial, or are reached by that route.

The attention of shippers is directed to the superior facilities offered by this route for the transport of flour and general merchandise intended for the Maritime Provinces including Cape Breton and Newfoundland; also for shipments of grain and produce intended for the European market.

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scurvy, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 8 years. In that time ten or eleven more appeared and broke, causing me great pain and suffering. I learned I never should get well. Early in 1901 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Cure,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the cure soon followed, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, having used the bottle, I had become so fully released from the disease that I went to the West and Walling Mt. Co., and since then have not lost a single day on account of sickness. I believe this disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any man, except that one limb is a little shorter than the other, owing to the loss of bone, and the nerve formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines."

When the Breasts.
Is tainted by catarrh it is an evidence that the disease has progressed to the throat, perhaps to the larynx and bronchial tubes. These are only stations on the road to the lungs. When catarrh has progressed and attacked the lungs, there can be only one result, consumption and death. Clark's Catarrh Cure will arrest the disease at any point before the lungs are seriously affected. It costs 25¢ of druggists, or send to any address on receipt of price. Clark Chemical Co., Toronto.

Street Railway Advantages.
In return for the franchise of the street to railway company what advantages will be returned to the town such as may be secured in by the working men. The first is that he can live farther out in the suburbs, where land is cheaper, and yet, as far as the distance is measured, he can be near his work. The cost of car fare will not amount to one half the difference between yearly cost of an inside lot and consequent heavy taxes. The street car line will, it is proposed, run along Park-st., and that is within a short walk of the Erin property, now on the market. Is choice lots are for sale, and every week that passes, sees the number lessened. Workingmen should buy now, even if they do not build at once, as values will go up before the summer is over. Look up Mr. W. Fitzgerald and learn his price.

No Way Out.
Mr. Branton—By the way, a party of us to-day were trying to evolve a scheme for co-operative housekeeping. Our plan was to rent a small family hotel, hire our own help, do our own managing, and share the expense.

"That's grand! It would be just like living in an absolutely perfect hotel, and at half the cost. Oh, I'm delighted! Who will go in with us?"

"Well, there's Jinks, for one."
"His wife doesn't mind in our set."
"And Winks."
"Mrs. Winks is a social-monger, and you know it."
"And Minks."
"Catch me living under the same roof with that flirting woman!"

"Well, there's Hinks, husband of your friend, Mrs. Binks."
"Very nice in company, but they say she's a terror at home."
"And there's Finks."
"Mrs. Finks is a regular old cat."
"And Pinks."
"Huh! Mrs. Pinks and her two pretty daughters, with no thought but dress and the opera! Nice ones they'd be to keep house with!"

"And your dear friend, Mrs. Kinks."
"She didn't return my last call and I've dropped her."
"But what shall we do?"
"Get another girl."

Painful Derivations.
The term "gringos" is applied to Mexicans of the lower classes, so not started, as many suppose, as a signification of disrespect, but was applied by a witty war correspondent in 1846, just after the battle of Palo Alto, to those Mexicans who had forever allegiance to their own country and in preference to fighting taken the task of loading and unloading provision trains, which then consisted mostly of bacon. In this way they gained the name of the "greaser brigade," says the San Angelo (Texas) Enterprise. Whatever the term implies, it is much older than the Enterprise supposes. It was known to the United States volunteers who came to fight in the Mexican Revolution in 1841, at the end of the Black Hawk war. The story that the name maverick, applied to yearling cattle, was given on account of the head of the San Antonio family of that name is equally fabulous. It was in use in Louisiana before that date was a part of the United States—Dallas (Texas) News.

THE CITY AND SUBURBS.

A Good Temper.

Miss Alice Hall, while a guest at the Chesham Park hotel on Saturday landed a fifteen pound "lunge out of Chesham Lake."

After all, the best way to know the real merit of Hood's Sarsaparilla, is to try it yourself. Be sure and get Hood's.

Building and Savings Society. The Workman's Building and Savings Society will meet at the Mayor's office this evening at 7 o'clock. At this meeting will commence a new series those wishing to take stock should be present.

During Hot Weather. Few people have the means at hand to keep meat sweet and fresh. Those who have not can have the best of meats, in perfect order from day to day, by ordering from Gordon Bros., butchers, 414 George-st. Telephone by Order of Bell Lines.

A Pleasant Herb Drink—A Spring Medicine. The druggists tell us that the people call daily for the new cure for Rheumatism and other ailments discovered by Dr. B. H. Lane. It is said to be Oregon grape root and a great remedy for all sorts of complaints combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It is sold at 6d and 1s a package and is called Lane's Family Medicine.

A Runaway and an Escape. On Saturday afternoon Mr. B. H. Bickle of Smith, had a miraculous escape from serious injury. His horse took fright and dashed up George-st. at a terrific rate. Near the corner of Armstrong-st. the horse took to the sidewalk and the buggy colliding with a post, the driver was thrown head foremost out upon the road. The horse became detached from the buggy and ran on. Mr. Bickle fortunately escaped serious injury, but the buggy was badly damaged.

The Good Old Times. "Then times were good. Merchants cared not a rush for any other fare, Than Johnny-cake and mush."

But now times have changed, and the plain and simple fare of the Brethren is done away with. Fatent Sarsaparilla and high seasoned food, and strong drinks have taken the place, and as the result dyspepsia, impure blood and diseases of the stomach, liver and lungs are numerous. The great danger of the age is to study out a remedy for these modern diseases, which he has named his "Golden Medical Discovery." Dr. Pierce in this remedy has found a cure for Dyspepsia, Bronchitis, Asthma, Consumption, in its early stages, and "Liver Complaints."

Church Notes. Rev. Jas. Thoms, B.A. of the Mark-st. Methodist church, completed the pulpit of the George-st. church last night. Mr. Thoms' theme was "Liberty" and he dealt with it in a masterly manner. Taking the popular notion of freedom, that one should be free to "do as he liked," he showed the fallacy, and passing on to civil liberty drew analogies that led up to a clear and convincing definition of religious liberty—that is, freedom through Christ from the bondage of sin. The sermon was a thoughtful one and eloquently delivered. A word of commendation is due the choir, which under Mr. Howard's direction, sang with excellent effect a bright and charming anthem, the obligato being taken by Mrs. Howard and Mr. Main.

THE BOYNE BATTLE! Big Demonstration in Town.

THOUSANDS OF VISITORS

STREETS IN GALA ATTIRE OF ORANGE AND BLUE.

The Orange Brethren Present in Hundreds and Tens of Hundreds—Banners and Music and Grand Parade—A Day Long to be Remembered—Antiquarian Services Preached on Sunday.

Long will the celebration of the 201st anniversary of the Battle of the Boyne be remembered by the citizens of Peterborough. It was a glorious day and a glorious demonstration.

The Church Service. At 12.30 p.m. the brethren of the Order and local lodges of "Prentice Boys and True Blues" left the lodge room and marched to George-st. Methodist church, headed by the Fire Brigade Band. The large church was quickly filled, the older lodges being seated in the centre with "Prentice Boys, True Blues and Junior True Blues at the sides. The gallery was filled with friends and others participating in the service.

Services began with singing hymn 97, followed by a brief prayer by the pastor, Rev. Mr. Locke. O'Connor's fine anthem, "Jubilate Deo," was sung by the choir, and a portion of the Scripture read as the lesson for the day from Exod. chap. 1. The second hymn was sung, all joining heartily.

Rev. Mr. Locke selected his text from Exodus 12-14. "And it shall be when thou shalt come, saying, what is this? that thou shalt say unto him, by strength of hand the Lord brought us out of Egypt from the house of bondage."

In his opening remarks Rev. Mr. Locke briefly sketched the circumstances to which the words of the text referred, as concerning the condition of the Israelites in bondage in Egypt. The course of Israel from bondage to freedom and entering into the Promised Land, he said, justified the language of the text, that God would deliver His own people in any age and in any land and was as willing to do so now as then. Moses was the instrument of the liberation, in the hands of God, the predecessor of all the instruments wherewith God worked out His plans. From Biblical history several illustrations were given to show that the hand of God was always visible in the carrying out of His gracious designs. From English history the speaker recounted how a providential interference had saved, several times, the English nation, such as the destruction of the Spanish Armada. It was an important and significant event, for the mission of the Armada was to suppress Protestantism in England by rendering the navy and army helpless. But Protestantism came of victorious, made the victory for England and thereby completely and completely the shores of England to be never seriously threatened since. It was a providential interference that the Armada did not sail when appointed but was long delayed, enabling the English to equip a fleet. The voyage was a season of storms and only a few ships ever reached Spain in safety. The escape of England must be regarded as a remarkable interposition of God on behalf of Protestantism.

The defeat of the Gunpowder plot was another illustration of the hand of Providence saving His people, for from time to time the meeting of Parliament was postponed, and before the consummation could be reached the plot was discovered. Were all circumstances connected with the postponement of Parliament and discovery the results of chance? The Revolution of 1688 was a crisis in the history of Protestantism in England. God interposed his hand and in their extremity the Protestants of England appeared to walk at Orange to come and secure to their life and liberty. The glorious victories of Derry and the Boyne, saved the nation, saved Protestantism and saved the world. The name of William of Orange will forever remain engraved on the pages of history.

The progress of Protestantism was steady and permanent. Every year that rolled by saw greater progress and power in the hands of the followers of the Protestant faith. In point of power the Catholic faith in Ireland was losing ground. The old ecclesiastical had lost its power. Papal temporal dominion was shattered and its claims derided and lying aside. In its place would rise up the fair temple of truth with its wide open portal. They shall come all at once, and in that temple will congregate in delightful fellowship and amity in worship and praise. The Orange Order held as a vital principle the spread of the truth of Protestantism, and a firm upholding rock in the path of a faith that would triumph and rule with the hand of a great master the people of the earth.

Hymn 986 was sung and the benediction pronounced after which the brethren withdrew from the church and forming up at the entrance marched to the lodge room where they dispersed.

The Demonstration. This morning a glorious day burst over the town, and the weather for the grand Orange demonstration was assured to be the most favorable. With the birth of the day came the indications of the celebration. From five o'clock until noon the sound of drum and the blast of brass and the buzz and clang of the multitude began to fill the streets. There was a great gathering of the brethren, probably the largest ever seen here, and with every lodge came a band of some kind. Every incoming train carried extra coaches and yet the passengers had to stand, so great was the crush. Orange-men in regalia and citizens in holiday attire flocked in from the stations and drove in from the surrounding country until about noon, the streets were literally packed. It was a grand sight presented on George-st. when the procession marched down to meet the Grand Master who arrived on the noon train on the O.P.R. As far as the eye could see were men in bright varicolored regalia, with floating banners and flags, while the arches, overgates and bunting displayed made the scene a gorgeous one to the thousands of spectators who lined the streets and crowded every vantage point.

Peterborough has not seen such a crowd in many a day. There must have been nearly ten thousand visitors in the town, over one-third of whom were in regalia. But what had the local brethren done to make the town appear in fitting style to receive the thousands? George-st. looked like a gayety. At the entrance of the town and George-st. the "Prentice Boys had erected a handsome arch of evergreens. Facing south were the inscriptions "Derry," "Welcome" and "Anghrim." To the north were the words "Boyne," "Derry," "Prentice Boys," "Derry," "Anghrim." Across from George Bros. store was stretched a streamer while all along the street orange and blue and the Union Jack were profusely displayed. At the corner of Brook and George a grand double arch greeted the highway. This was erected by the True Blues and bore many inscriptions, while a large portrait of the Queen occupied a conspicuous place. At the Central Park, which was the gathering centre, refreshment booths were doing a rushing business dispensing cool drinks to the thirsty crowd. On Water-st. at the corner of Hunter, the Orangemen had a beautiful double arch rising from the four corners. This was surmounted by a graceful dais and decorated with many appropriate inscriptions. On Charlotte-st. streamers and flags greeted the visitors as they disembarked from the trains. Across from the Bowdoin House was stretched a streamer with the word "Welcome" staring every comer in the face. The town was in its finest and gayest condition for the day and the echoes never ceased to vibrate with clank of music.

The local lodges first mustered at the Orange Hall and marched to where they met the Lakeside and Nazeau brethren. They then returned to the Central Park and from there proceeded to the Grand Trunk station to meet the 12.30 train, which brought the Campbellford and other brethren along the line of the Grand Junction. Then the trains came in every half hour bringing other lodges. Each contingent was met by the marshals and escorted up George-st. to the Central Park. At noon the procession was formed up and marched to meet the 12.30 train on the O.P.R. which was bringing the Grand Master, Mr. Clark Wallace, M.P. County Master Alex. Hamilton had the procession in charge, while Capt. Sanderson, P.M., of No. 178, was Chief Marshal, assisted by Deputy Marshals J. Graham, P.D.M., of No. 21, John McQuinn, P.D.M., of No. 2, and Robt. N. Scott, D.D. of C. of No. 178. The Grand Officers who are here are Bro. Robt. Weir, Provincial Grand Master of the Black Knights of Ireland of B.N.A.; Bro. N. Clark Wallace, Grand Master, P.D.M., of No. 178, Grand Master of the Grand Lodge; Bro. J. Van Ingen, Grand Secretary; Bro. Sam Hughes, Chief Auditor of B.N.A. When the Grand Officers had been escorted to the Oriental Hotel, a reception was held for them, at which they met the prominent members of the Order and some of the leading citizens. After the reception which was of a most pleasing character, a luncheon was given in the Oriental dining room. The dinner was delicious and the reputation of the hotel. The citizens who were invited by Bro. C. W. Savers to meet the Grand Master were: Mayor Stevenson, Judge Waller, John Burroughs, M.P., J. R. Stratton, M.P., W. H. Wright, M.P., J. R. DAILY EVENING REVIEW.

VOL. XXV.—No. 11

PETERBOROUGH, TUESDAY, JULY 14, 1891.

TEN CENTS A WEEK

Probabilities.
Mostly fair, with moderate to fresh south-west to north-west winds; continued high temperatures to-day, with local showers or thunderstorms, turning somewhat cooler to-night.

July and August

will be very busy months with us. A recent visit to the market when prices were the lowest and an enormous purchase of midsummer fabrics has filled our shelves to overflowing with some most desirable lines at prices, in fact, never before approached for cheapness. 50 pieces handsome Flannelettes at only 7 cents worth 10 cents. 50 pieces beautiful Stripes and Checks Ginghams only 6 cents worth 10 cents. 50 pieces Dark Colored Seersuckers worth 10 cents to be sold at 6 cents per yard. 2 Cases American Cotton Challies and Delaines direct from a very large United States wholesale warehouse. Colors absolutely fast. Prices very much lower than currently sold at. Ladies doing their summer shopping will not only save money but find the most complete stock of first class Dry Goods in town at

Cleanable.

If your old refrigerator sometimes disappointed you—didn't work right, wasted ice, wasn't air tight, was smelly, made meats and things taste queer—it probably wasn't a Leonard "Cleanable."

The "Cleanable" is the result of thirty years making of refrigerators, and has never been complained of. Hygienic patents cover its construction.

Made of hard wood, charcoal filled, five walls for ice preservation, removable flues, iron shelves, air-tight locks, thorough drainage, cold dry air circulation—every nook and corner easy to get at and clean, nothing to get out of order or warp—the most perfect on the market. The makers warrant it. Costs no more than cheap makes.

TURNBULL'S

We are showing to day at Turnbull's two cases of Prints, 125 different Patterns, at 10c. a yd. This is a rare chance to get a good Print and Choice Pattern at a common price. Among these goods will be found Pretty Greens, Twill Sateens in Corn Color and Brown Navy and White, Navy and Cream, the Newest Shades in Rose, Terracotta, Pink and Lavender.

We still want to call your attention to the American R. & G. Corset. Every pair made in a mould in two styles to fit either stout or slender figures. Those who have tried them say they can wear a size smaller than in any other make, the fit is so perfect.

INGERSOLL THE INFIDEL
ROUGH HANDLING OF THE ELOQUENT AGNOSTIC BY SAM SMOO.

Bible Truths Will Stand—The Sacred Book Needs No Defender and its Teachings Are in No Danger of Being Overthrown.
New York, July 13.—The Ashbury Park Beach Auditorium was well filled yesterday morning when the Rev. Dr. James McCosh, the venerable ex-president of Princeton College, preached a sermon on "Faith."
Five thousand persons crowded every part of the Auditorium this afternoon, as it had been announced that the Rev. Dr. Samuel W. Hail, the noted evangelist and ex-president of Ohio University, would speak. The Rev. Bishop Wilson of the Reformed Episcopal Church read the Scriptures, the Rev. Garner R. Snyder offered prayer, and Chauncey B. Haffner made an address on "The Power of God and His Fruits."

Dr. Hail's address was a bitter arraignment of the infidelity and agnosticism of which Colonel Robert G. Ingersoll, or "Hollie the Bible," as Dr. Hail termed him, is the leading advocate.
Dr. Hail in beginning his address alluded to the great amount of space given by the press of the country to promulgating Ingersoll, while religious teachings were almost denied admittance to the papers or received but little attention. He thought Dr. Briggs would not thank Colonel Ingersoll for coming to his defence in such an unbecoming manner. He feared for the Bible.

"We do not need to defend the Bible," he said. "The Bible is in no danger of being overthrown because Ingersoll does not believe in it."
"God and Jesus Christ are able to take care of themselves. Christ has vindicated himself for eighteen hundred years."
Ingersoll cannot blot out the truth of the Bible. He claimed that the nation was founded as a Christian country, that we worship God according to the dictates of our own conscience. The constitution gives us the right, but it does not guarantee the right to worship.

Dr. Hail's address called forth hearty "amens" from the brethren and he was frequently interrupted by loud bursts of applause.
He occupied the platform again last evening and delivered one of his characteristic sermons.

Now a Beautiful Flower was named.
An old legend tells of two lovers, walking by the river Rhine. The lady begged her lover to pluck a little pale-blue flower growing on the bank. He doing so, he fell into the water, and was drowned; but while sinking, he threw the flower to her and said, "From this flower I have named you." The flower will never again wither. Dr. Hail's favorite flower has been named for him. It is prepared especially for those diseases from which they also suffer, and it is in essence, rather than in name, a proteus, and all the virtues of proteus, and is guaranteed to give satisfaction in every case, or money returned.

It pays to advertise in the DAILY EVENING REVIEW.

DOMINION PARLIAMENT.

CIVIL SERVANTS AS POLITICAL CANDIDATES.

Mr. Laurier Makes Some Charges and the Minister of Customs Responds to the Invitations—A Discussion on the Subject Follows the Reading of a Bill Day.

OTTAWA, July 13.—Sir Hector Langevin announced in the House this afternoon that it was the intention of the Government to ask Parliament to vote a sum of money for the erection of a monument to the memory of the late Sir John A. Macdonald in Parliament Grounds, Ottawa.

Mr. Costigan introduced a bill in restraint of fraudulent marking, providing that white lead must under certain penalties come up to a prescribed standard.

Mr. Foster in reply to Mr. Mahon stated that the trustees of the sinking fund with respect to the public debt of Canada, were of the non-guarantee, the Finance Minister, Sir John A. Macdonald, Lord Revelstoke, the High Commissioner, the Permanent Under Secretary of State for the Colonies, and the Permanent Secretary of the Treasury. The amount of such sinking fund on June 30, 1891, was \$28,800,000, of which \$15,612,765 consisted of Canada Dominion stock and \$13,187,235 of debentures payable to bearer.

Any Dominion Government debentures that have been purchased are in the hands of the Bank of England as trustees. The interest on the sinking fund is \$1,141,461, which is paid to the trustees, who have further provided for the sinking fund. The commission paid by the Government on interest on the sinking fund is one-half of 1 per cent.

In reply to Mr. Amoy Sir Hector Langevin stated that the High Commissioner for Canada at London had no authority from the Government to promote Imperial Federation, and the Government had not considered the question.

An interesting debate followed on a motion of Mr. Perry for papers relative to the dismissal of two section men on the Prince Edward Island Railway for the part they took in the recent election.

Mr. Cameron (Huron) said that the principle to the victor belongs the spoils would work both ways. The Liberals would not support him for 24 hours. He had always been the ally of the party and expected to remain there. But he would support no Liberal government which would not cut off the heads of all civil servants who made themselves offensive in elections.

Mr. Bovell said that the Government had no knowledge of the transactions in Prince Edward Island, but he would investigate and if they were found true he would take action.

Mr. Laurier said that civil servants undoubtedly have a right to vote as they pleased. He agreed, however, with Mr. Cameron that every official who went out of his way to canvass or take other active part in elections should be dismissed.

After some further discussion the motion was carried.

PUT PARIS GREEN IN HIS BEER.
A Wife Adopts This Method to Get Rid of Her Husband.

PETERBOROUGH, July 13.—Mrs. Martin Farrell, a wealthy widow of this city, was arrested to-night on a charge of poisoning her husband. The couple were married about five years ago, but have never lived happily together, the cause of contention being a fortune of \$50,000 left to Mrs. Farrell, which she has persistently held in her own hands. Some time ago they parted, but the quarrel was made up, and yesterday she returned to his home.

The spent the night in drinking and this morning Mrs. Farrell arose to get her husband a bottle of beer. While his back was turned, she poured a lot of Paris green into the bottle and gave it to him to drink. He drank the bottle and is now dying. She denies the charge. Nearly a pound of the poison was discovered in the house and a considerable portion of it was found upon her clothing. The physicians say Farrell cannot recover.

The Premier Declines a Banquet.
MONTREAL, July 13.—Premier Abbott has declined to accept the secretary of the Junior Conservative Club in answer to the invitation of the club tendering him a public banquet. He has the indignity of the club for the present, if not altogether, as his health is not of the best, and he is weary for him to avoid all excitement, and therefore, without absolutely refusing the invitation of the Junior Conservative Club he would prefer to abstain from giving a final answer for the present.

Tenements in Flammé.
MONTREAL, July 13.—A great conflagration broke out here at midnight in the extreme west end of the city and is still burning. It started in the shoe factory and lumber yards of Charles Brodeur & Co., No. 1195 St. Catherine-street, and spread with such extraordinary rapidity that the entire block bounded by Papineau-street, Shaw-street, St. Catherine and Kent-street, which largely consisted of lumber yards and manufacturing concerns, was destroyed. The principal sufferers in this block is the firm named Robert & Co., lumber merchants, Prefontaine lumber and building supplies, and Lesieur machine works and the Bodéau and Bodéau lumber merchants.

The flames, aided by a high wind, spread to the opposite side of the street, and a score or more stores, dwellings, restaurants and boarding houses have been destroyed totally with considerable loss. Several hundred thousand dollars worth of property has been destroyed.

GRASSHOPPERS INVADE KANSAS.

They Now Cover an Area of 400 Square Miles and Advance Two Miles a Day.

TOPEKA, July 13.—Hunting reports from Kansas Colorado and Western Kansas about the reported grasshopper invasion were received here today. The grasshoppers cover an area of 400 square miles where the State Fe road crosses the Colorado line. They are young and not able to fly, but are hopping eastward at the rate of two miles per day. They will have matured sufficiently within two weeks to enable them to fly, and it is certain they will move in an easterly direction, much damage is anticipated.

The hoppers are of a brownish-yellow color and are not readily seen from passing trains because of their resemblance in color to the soil and grass. Little damage has been done in the region infested by the hoppers, because few crops are grown there, but pasture has been destroyed. The few fields of corn, wheat and sorghum have been swept clean. Every westbound train that passes through the swarm during the night is stopped. Far in the night, when it is cold the rails are warm and they cluster about the track, almost hiding the rails from view, and when a train attempts to climb the up-grade near Arriva, Col., it is like climbing a grassed pole. The driving wheels revolve but slide helplessly upon the rails.

This vast area of grasshoppers is made up of the young of those that were in the region last year, and anxiety is felt because of the large increase which is certain to be hatched there next year.

TORONTO TOPICS.

TORONTO, July 13.—The annual battle for the cricket championship of Canada and the United States began shortly after 11 o'clock this morning on the Bloor-street cricket ground. The American cricketers went to bat first and scored 93 runs for their first innings, and 78 in their second innings for 6 wickets. The Canadians rolled up 77 in their first innings. The match will be completed today.

George Wright, the father of cricket in America, was on the ground. He is yet one of the best men of the Longwoods Club of Boston, and is brother of Harry Wright, the veteran Philadelphia baseball manager.

The result of the first day's play scarcely favored anyone. The wicket was a poor one. Everyone admitted its inferiority. Leigh had put much work on it, but the wicket was bad. The cranes crumbled woefully and was very hard on the batsmen. The mystery was how Joe Patterson made so many runs. His hitting with Alex Gillespie's bowling were the features of the day. The Hamiltons men claimed no less than five wickets in seven overs for only 13 runs in the second inning. Dickey had the best bowling analysis in the first inning, but both Hall and Wilson trampled superiorly.

W. H. Elliott & Co., cash and frame manufacturers, have failed with liabilities of \$12,000.

The teachers are pouring into the city by thousands to-day, and every best from across the lake and all the trains at the Union Station are discharging their human freight in great numbers. The streets are fairly alive with visitors and they are seen everywhere. It is estimated that there are to-day 7000 or 8000 teachers here, and that by to-morrow night there will be 10,000.

The Council met this morning at 9 o'clock, and the report of the Committee on Pedagogics, of which George P. Brown is chairman, was considered. The members then discussed the subject set for this morning. The Education of the Will. This afternoon the Committee on Hygiene reported, and the subject for discussion was physical training.

At the 26th annual session of the Grand Lodge of the Independent Order of Good Templars, held in Edinburgh in the latter part of May, the representatives saw fit to appoint one of Toronto's citizens, Dr. Oronchayakha, as their Right Worshipful Grand Templar. This means that that gentleman, for the next two years at least, will have supreme control of the lodge of a temperance order, which has 600,000 members throughout the world.

This order has been in existence for 40 years and now has lodges in every civilized country from New Zealand and Cape Colony on the south to Iceland and Norway at the north. We have no congratulatory Good Templars on having secured so influential a man at the helm, and rejoice with our honored aboriginal fellow-citizen in that he has been placed where his talent for organization may be put to good use.

Dr. Oronchayakha is a full-blooded Huron Indian chief, and was born on the Indian reservation near Brantford, August 10, 1841. He is a large man, fully six feet in height, and has a bearing that at once impresses one favorably. He received a first class education at Canadian and American universities and was also a student at Oxford. He has served the order in different capacities for 15 years, and will no doubt show his fitness for the best post office in the world.

Dr. Oronchayakha is a true Indian and very proud of his race. Though officially residing in Toronto, his home is on the Tyndal reservation near Deseronto, Ont., where he carries on farming and maintains close relations with his tribe, between whom and himself the strongest ties of friendship exist. So high is the esteem held for him by Canadian Indians that in 1874 he was elected president of the Grand Council of the Chiefs of Canada.

The Doctor also ranks high in other respects. He is Supreme Chief Ranger of the Independent Order of Foresters, the success of which is largely due to his untiring energy. He holds also high degrees in Royal and Oriental Freemasonry, and is a prominent member of the Loyal Order of the Moose.

The Good Templars met to-night in Richmond Hall to rejoice with their new leader on his elevation to that honorable position. The noble 75 kept their pledge yesterday and sent up the price of whisky to 10 cents a glass. The Hoteliers Protective Association are all right. They are not suffering, but it is the poor unfortunate "wine clerk" who are standing the brunt of it all. Industry at the different places of liquid refreshment developed the fact that the trade in whisky had fallen 50 per cent, that is to say where the 10 cent tariff prevailed. There was a big run on beer and lager, but all the same when the doors were closed at 11 last night the bartenders were hoarse, cross and tired. In some places there were fights, and in others when the unfortunate found that he had to put up the dime, out of pure spite he would sell the glass to overflowing, and when he could not drink it all would throw the rest on the floor. Most of them, however, made a heroic stand and got away with all.

Algonquin Silver.

PORT ARTHUR, July 13.—Two big silver shipments were made yesterday. The West End Copper Company shipped a car worth \$20,000; the Budget Co. Co. from the Porcupine mines, a car worth \$20,000. Both went to America.

ATTEMPTED ASSASSINATION OF M. CARNOT IN PARIS.

A Lethal Discharge of a Pistol and is Jailed—France Has Not Yet Regained Its Ascent to Arbitration in the Newfound land Dispute.

LONDON, July 13.—In the House of Commons today Sir James Fergusson, Under Foreign Secretary, admitted that the French Government had not yet moved in the Chamber of Deputies that France assent to the arbitration of the Newfoundland question.

On motion of Mr. Gough the House of Commons to-day agreed to summon Mr. De Coblenz, member for Belfast, to appear on the 27th and answer the charges against him.

Salisbury and William.
LONDON, July 13.—The Emperor of Germany this morning rode through the most interesting parts of Hatfield Park. Upon his return to Hatfield House, the Emperor lodged in the marble hall. All the ambassadors and ministers and their wives and Mr. and Mrs. Joseph Chamberlain were present. It is reported that the Emperor has invited the Prince and Princess of Wales to visit Germany in full state during the coming autumn, and that the Prince and Princess have, with the consent of Queen Victoria, accepted the invitation. The Emperor has presented Lord Salisbury with a splendid Dresden clock, made especially for the British Premier.

After luncheon the Emperor bade farewell to Lord Salisbury and the latter's guests, declaring he was highly pleased with his visit, and left Hatfield House for Windsor Castle to bid adieu to the Queen upon his arrival at Windsor. The Queen met the imperial traveler at the entrance to her private apartments. Her Majesty warmly embraced her grandson, who remained an hour in conversation with her. The Emperor then returned to London.

THE BISLEY MEETING.
Opening of the Annual Rifle Competing at Bisley—Diminished Attendance.

LONDON, July 13.—The rifle association opened its annual meeting at Bisley today. A marked decrease in attendance is noticeable since the meetings were transferred from Wimbledon. The Canadians won a match against Cambridge to-day by 35 points.

A Baron Kills Himself.
VIENNA, July 13.—Baron Besseny of the Austrian Archduke has committed suicide by shooting himself with a revolver at Brunn.

Tried to Kill the President.
PARIS, July 13.—While President Carnot was opening a new avenue to-day a madman rushed toward his carriage and fired a pistol at him. The man was arrested. The president was not hurt.

So the Establishment.
LONDON, July 13.—At the breakfast given to-day at the Holborn Restaurant in honor of the United States and British colonial delegates to the International Congressional Council, held at the Holborn Restaurant, the delegates of Parliament, West Bradford, and the Liberal and Scotch churches, among which the English church would be attended on all sides.

TUESDAY, JULY 14, 1891.

THE CITY AND SUBURBS.

Information Wanted. Chief Constable wishes for information concerning Wm. Hamilton whose case was mentioned some time ago. His friends are anxious to learn of his whereabouts.

Reinstated by His Father. Mr. Tom Ohta, a native of Japan, who having embraced Christianity, was disinherited by his father, and on account of persecution was obliged to leave his country. He will address a meeting in St. Paul's church school room on Wednesday evening at 8 o'clock. All are earnestly invited to attend.

A Trip Down the River. The Edison Amateur Athletic Club will give a moonlight excursion down the river on Friday evening, 17th inst., from 6 to 8 p.m. per steamer Daisy and crew. Mr. H. Long will furnish refreshments, and excellent music will be furnished for dancing. Tickets can be had at Schofield's drug store.

Funerals. Mr. Obaa, a widow of Milwaukee, Minn., is home on a short visit to his father, Mr. M. Poplar.

Mr. Valentine Best and his family and Mr. T. H. Best and his family went up to Stony Lake this morning.

Miss Little Grady, of Duluth, is home on a visit to her brother, Mr. J. D. Grady.

Mr. R. G. Leach, Miss Leach and Miss Adams and Miss Ludwig, of Montreal, went up to "Pondagog" island, Stony Lake, this morning.

A Youthful Runaway. An eleven-year-old lad has been passing the time in the police cells for the past day. He was put in the hands of the police on Sunday night on the arrival of the midnight train on the C.P.R. He said his name was Joe Robinson, that his father and mother were dead and that he came from Toronto. Yesterday Chief Constable received a card from his father inquiring for a boy after the description of the boy the police held here. An exchange of messages found that this was the runaway from Barrie. His name is Joe Robinson, and he admitted it finally. The police will hold him until his parents come for him. He said he just came down to see the twelfth.

A Mr. MacFarlane's History of Mr. John. On the 6th at the Russell House, Ottawa, Mr. W. MacFarlane, of the MacFarlane House, Mr. John H. MacFarlane, completed arrangements with General J. MacFarlane MacFarlane, A.D.C., for the present publication of his biography of the late Mr. John A. MacFarlane. The Colonel is a nephew of the late Premier. Mr. MacFarlane's firm controls the sale exclusively so that the book will be sold only by subscription through duly authorized agents. Mr. MacFarlane left Ottawa on the 10th en route for Toronto with a view of arranging for the sale of the book there. He also purposes visiting other cities. It may be added that the MacFarlane House handles "Stanley's Darkest Africa" having secured the right through Messrs. Charles Scribner's Sons, of New York.

Ladies, clean your kid gloves with MacFarlane's Glove Cleaner. For sale only by J. G. Turnbull. Also a full line of dressed and Monogrammed Kid Gloves in all the most desirable shades.

THE BIG DAY ENDED. The Orange Demonstration Over.

A GORGEOUS PAGEANT. A MAGNIFICENT PROCESSION OF IMMENSE LENGTH.

A List of the Lodges That were in Line With the Principal Officers: The Speeches in the Park—The Grand Master's Address—Notes of the Day.

The gigantic and gorgeous Orange demonstration is over and those who participated feel that it was a success, marred by no disturbing exhibitions of any kind. For such an immense crowd the order was remarkably good.

The Grand Procession. In the afternoon at about 2.30 the lodges formed up at the Central Park for the grand parade. George-st. at this time was a slight block. It was lined on either side with a solid mass of expectant sight-seers. The procession moved off headed by County Master Hamilton and District Master S. Stenson on white chargers. Then followed the bands in which were the grand dignitaries and prominent men of the Order. As the procession moved down George-st. with its brilliant trappings of gold, orange, crimson and blue, it was a gorgeous spectacle. There was music and plenty of it. The parade must have been over two miles in length, but the spectators hardly got a good opportunity to see its full length. The line of march was straight down George-st. When the head had nearly reached the end of this thoroughfare the whole counter-marched back up George to the Central Park.

Taken in its magnitude the procession was a highly creditable one to the Order. There were some fine bodies of men in line and many expressions of admiration were dropped as a specially good looking lodge passed the gazing crowds. Nassau Lodge with their silk ties, white vests and shirts made, as they always do, a very striking appearance. They are a fine looking society of men. Jubilee Lodge of Smith made an excellent turn out in the composition of men of the parade. The Peterborough Fraternal Boys and True Blues were also noticeable in their gay uniforms. The Emily district sent some remarkably stalwart men in the various lodges. The very descriptions of the parade in the papers of the day and bright colors, and others quiet and neat.

The list of the lodges, with their principal officers as complete as could be taken under the circumstances, is as follows:—

A BASEBALL BURIAL

A Local Team Buried Yesterday by a "Columbus" Team—25 to 10 was the score.

The first game of baseball with a foreign team that has been played here since the P.A.A. grounds yesterday afternoon. It was a poor exhibition, but the visitors did some very clean and clever playing and were too much for their opponents all round.

Peterborough started well with six in the first innings, but the errors started with the first man who went to bat for the Independents.

The score was as follows:—

	P.	I.	P.	A.	A.
Peterborough	25	10	10	10	10
Independents	10	25	10	10	10

GOVERNMENT RAIN TO ORDER.

An Experiment With Explosives to be Tried in Kansas.

WASHINGTON, D.C., July 14.—Western Kansas is about three weeks to be bombarded by a deluge of scientific men sent out by the Government, who will endeavor by artificial means to make rain. They will take with them 60 balloons, each 10 feet in diameter and filled with oxygen and hydrogen gas; 100 miles 5 feet high, whose tails are to be loaded with dynamite, and a score or two of great wooden mortars, from which dynamite can be exploded.

A dry desert is to be moistened, and a line, as of battle, two miles long, will be formed. The balloons, to which wires are to be attached, will be sent up, and by electric spark the gases will be combined with a terrific explosion. The mortars will follow for about three days.

The experiment will probably cost \$50,000.

Father and Daughter Drowned.
St. John's, Nfld., July 11.—Rev. Mr. Howe, Episcopal minister at Harbor Breton, Fortuoy Bay, had his daughter drowned Monday by the upsetting of a boat while returning from a service, when they were both being towed across the harbor.

A Baby Born With Feet of Wax.
Houghton, Tex., July 14.—Mrs. Kate Williams, a domestic, has given birth to a boy baby which has feet of wax.

Destroyed by Lightning.
St. Thomas, July 14.—Lightning today struck Smith's Mill at Belmont, completely destroying it. No insurance. Loss to the stock about \$5000.

Try
Germany's celebrated Ham and Bacon, a consignment of which has just arrived at Macpherson & McCombe's, 285 George-st.

Times Also in the Market.

In half barrels. Try it; equal to bottled Davies' Label Ale. Davies' India Pale. Owing to the immense stock I carry, my ale cannot be equalled in town. W. J. Morrow, 285 George-st.

A Pleasant Herb Drink—A Spring Medicine.
The druggists tell us that the people call daily for the new cure for constipation and sick headache discovered by Dr. J. H. Lane. It is said to be Oregon grape root (Gelsemium) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It is sold at 5¢ and 10¢ a package and is called Lane's Family Medicine.

King's Boots or Shoes are Essential to Show to Advantage a Boy's Suit.
Grand occasions, many parties, mean the order of the day.

And in dress the boys are seeing which can wear the fairest shoes.
Fine silk hat or shining broadcloth will not set you off completely.
If you have not on King's boots or shoes to decorate your suit, you are not ready to show. They are sure to please your darling, if she asks: "What will you do as you walk along, run, jump or just the same?"
Inside your arms she will fall, dead as a gun could shoot her.

King's boots are sold by King and bought from King the booter.

Your Time to Read Up.

Are you holidaying or about taking your share? You require something to read. Step into Thompson & Co.'s and see the large assortment of readable books on hand. Nearly every new book issued for some time just where you can lay your hand on it. Books of popular interest printed in good style at popular prices. All the new books that people are talking about, from the publishers. Never so good an opportunity to receive good reading at such low prices as at Thompson & Co.'s, 285 George-st., the stationers and wall paper dealers.

What Does It Mean?
"100 Doses One Dollar" means simply that Hood's Sarsaparilla is the most economical medicine to buy, because it gives more for the money than any other preparation. Each bottle contains 100 doses and will average to last a month, while other preparations, taken according to directions, are gone in a week. Therefore, be sure to get Hood's Sarsaparilla, the best blood purifier.

Street Railway Advantages.
In return for the franchise of the streets to a railway company what advantages will be returned to the town such as may be shared in by the working man. The first is that he can live farther out in the suburbs, where land is cheaper, and yet, as far as the distance is concerned, in time, be near his work. The cost of our fare will not amount to one half the difference between yearly cost of an inside lot and consequent heavy taxes. The street car line with it is proposed, run along Park-st., and that is within a short walk of the Erie property, now on the market. Is choice lots are for sale, and every week that passes, see the number increased. Workmen should buy now, even if they do not build at once, as values will go up before the summer is over. Look up Mr. W. Fitzgerald and learn his price.

APSLEY AFFAIRS.

A New Industry that will be of Benefit to the Farmer.

Correspondence of the Review.

A new industry, which has long been talked about but which is now an accomplished fact, has arisen in our village this summer in the shape of a cheese factory. Mr. Wm. Wilson, who deserves great credit for his enterprise, has erected a substantial frame building 24x30 feet and 13 feet high, with a porch built on in front for a hotel, where the milk is delivered and taken into the factory by means of an endless chain run on pulleys. There is also a boiler house 12x14 feet built on the west side, where also is a good well. The interior of the building is divided into two parts. The front part, 12x14 feet, with an 8 foot ceiling, contains a large vat (4,000 pounds capacity), a cheese press (by Fraser) and all necessary apparatus to make cheese. While the back portion, a cool and airy apartment, 12x14 feet, is set aside as a cheese room. Along the sides are arranged shelves, on which the cheeses are placed when made, and on which there are now a goodly array of these averages of the piece. Mr. Wilson was fortunate in securing the services of Mr. Philip Wallace (late of Lakeside factory) for the cheesemaker, who has officiated in fact since the factory started with great success. The factory was opened on June 15th, just one month ago, and during that time 100 cheeses have been turned out. We had a taste of one of them to-day, which was very palatable and of good color. None have been marketed as yet, but we predict a good price and ready sale for them when they come to the market. There are only a few of the farmers as yet that have taken advantage of the factory, it being a new thing. With their usual caution a great many are holding back to see how their neighbors come out, which is a great mistake. Mr. Wilson has gone to the expense, namely, of introducing this industry into our village, and he should all in turn who live within a reasonable distance, patronize the factory, and by so doing help themselves while helping Mr. Wilson to reaper himself on his big outlay.

Prognosis.—A few of our sports took their usual summer outing on Lake Front and other lakes. They returned on Saturday evening, having put in a week with the factory. They say they had a good time, but got more bites from mosquitoes than they got from bees. "General Great" did not accompany them this year.

Tim O'Connor.—Since the lake raises the crops are looking much brighter. Hay will be light but grain and roots are likely to be an average crop.

Personal.—Mrs. R. B. Webster leaves for Montreal on a visit on Tuesday next.

TWO WOMEN TO HATE.

The Inquisitive Woman and the Detracting Woman.

There are two kinds of women in the world who demand a good deal of hating—the inquisitive woman and the detracting woman. You know the first kind. She just merely asks, and only wants to know, and unless you're a misanthrope and self-control she worries things out of you of makes you rude and abrupt in your refusal to tell her. She is the kind of creature you can't quarrel with, for she is almost always good-natured and apologetic and forgiving, and you have to hit her very hard indeed before you can make her feel enough to get angry with you. She comes to call on you very early in the afternoon, because she needs a telephone to develop her peculiar style of torture, and she nails you to the rack with persistent inquiries about your hand-some brother's matrimonial intentions, spiced with remarks about his proverbial stickleness, and she asks your opinion about various mutual friends, and she sometimes gives you a catalogue of charges as to what you pay and what your dream-maker is, and you wiggle, and rage, and parry, and, finally, if you are as peppy as I, you say something very decided, and your torment is ended.

Then comes the detractor—and she is almost worse than her fellow-plague. When you speak in terms of warm admiration of some sweet debutante, she says so gently and mildly, "Yes, she is pretty." At school we always called her the Sleeping Beauty, she was so dull. Actually, at graduating time, she had to pretend to be ill to avoid the exams. She really knows nothing! Or when you praise the grace and spirit of some other, she sighs and remarks, "Isn't it just wonderful? Those girls are a perpetual surprise to me. How did they ever shake themselves clear of their ancestors'—people in the rag and bottle line, or something like that?—when madame floats by in the waltz, with beauty and symmetry and smiles, your crow caws, with a sneer. 'There is a married woman who never seems to have enough attention.' It's a good thing she has money. If she were poor!" and having left her baleful trail over that sweet presence she mercifully takes herself away. I sometimes wish one dared write upon these two types of woman-kind and compel them, with strong words and strong smiles and strong shakings, to see just how mean and dangerous they are.—Lady Gay in Saturday Night.

Light on an Intricate Question.
An expert says: "According to the music hypothesis, every mode of his-sia has its concomitant mode mel-chia-sia, and when the kinetic manifestations assume the form of the molecular processes in the human brain, the mel-chia-sia manifestations assume the form of human consciousness."—Boston Globe.

—BY—
GOUGH BROTHERS.

Ring it out from the Church Towers! Shout it on the Market Place! Sing it out on the Streets! Tell it to the Boys! GOUGH BROTHERS' Biggest Bonanza, Bona Fide Bargains and a Bonus to Boot.

HERE'S THE EXPLANATION:—The Go-ahead GOUGHs of Peterborough, Toronto and Brantford came upon a terrific snap in Boys' Clothing in Montreal and scooped in 3,000 Suits and 1,500 Pairs of Pants at 40 CENTS ON THE DOLLAR!

Now this added to their already Stupendous Stock makes them anxious to realize and GOUGH BROS offer inducements the like of which was never before offered by them or any other firm. With every TWO DOLLARS worth of Clothing, Hats, Caps, or what not, there will be given a BONA FIDE BASE BALL AND BAT. Just think of it! The GOUGHs could not resist this Snap of buying these Goods at such a Splendid Discount as 40 per cent. But it loaded them up pretty well and they must clear out. To do this with a rush they have marked down all their CHILDREN'S CLOTHING 20 per cent and with \$2.00 worth of any kind of Goods they throw in a Base Ball and Bat. This offer good from now till JULY 1st.

And it is Business—Business with a Big B from the word go. Think it over! Take it in and buy \$3.00 worth of Good Goods for \$2.00 with a 50c. Ball and Bat thrown in, at

How to Sell More Goods.

Has it ever occurred to you that you might profitably increase your present volume of business by doing a little general newspaper advertising with the idea of reaching the Consumer? Take some special brand or make of goods which you honestly believe possesses merit, and push it with a moderate amount of advertising in the widely circulating news papers and magazines, or in the leading dailies and weeklies of some selected State or section. If done judiciously, you will soon begin to realize results in the form of increased orders through the trade.

These assertions are proved by the experience of business men whose names are familiar from one end of the country to the other. Look at the record made by the manufacturers of "Royal Baking Powder," "Sapolio," "Pearl," "Pears' Soap," "Alcock's Pectoral Plaster," etc. It is not necessary to advertise your entire line of goods, but, by selecting some good article as a "leader," and persistently pushing that, it is possible to build up a large and independent trade.

THROUGH DEATH'S VALLEY.
A Journal of the Life of a Company of Prospectors.

SAN FRANCISCO, Cal., July 14.—Robert Montgomery and two other prospectors have just returned to their new camp in the Fresno Mountains, Southwestern Nevada, after the longest prospecting trip ever taken in the Death Valley. They traveled six hundred miles in four weeks, and narrowly escaped death by three near the (the) Fresno Creek, where in early days eighty lost immigrants perished miserably. In going from Cottonwood Canyon, Montgomery and his companions were surprised by a hot wind. Six peak miles, which had been selected for their strength and endurance, soon gave out and the peaks had to be cut off. The men and the animals struck out for the foot hills to get water to cool their raging thirst. Their little water was mixed with vinegar and oatmeal, but the most worst and made a mixture of hot water and vinegar, which they drank. They all drank their fill. Montgomery's party found an abundance of water on the west side of Death Valley, and several other springs and streams that probably never had been known before by white men. In Cottonwood Canyon, Montgomery found several hundred Shoshone Indians, some of whom were surprised and delighted to see a white man come there from the burning desert. They offered mountain quail and sheep to be plentiful on the west side. They also found near Fresno Creek herds of men and cattle belonging to the townsmen party, which started from Salt Lake for Los Angeles, but only half of them ever got out of Death Valley alive. The horses had been almost reduced to powder by the intense heat of 60 years, but the men and the rest of the 150 men still remain, though the Indians have burned all the woodwork.

PRIVILEGES AND ELECTIONS.

The Evidence Adduced at the Tarte In-

vestigation Yesterday.

OTTAWA, July 17.—The only important

evidence before the Privileges and Elections

Committee yesterday was that of Mr.

Victor Veret, secretary-treasurer of the

Quebec Harbour Commission. He swore that

a deposit of \$25,000 in a certified check was

required by the firm of Levesque, Gosselin

& Co. made that deposit, and afterwards

three E. Murphy came to the witness and

asked for a return of that deposit of \$25,000,

offering to substitute it for the first check.

Mr. Veret refused this, and Mr. Murphy

would procure the consent of the commission

to the substitution. Mr. Murphy said he did

not like to ask the commission, but he ap-

peared before this committee, then he was

asked to see that the word "no" was

removed and the letter read in the after-

wards witness checked his position on the

commission and became auditor for the

government. He never saw Thomas Mc-

Gregory, saying that he (McGregory) saw

the letter and was not in the office from

9 to 5 p.m., every day.

SUNDAY OBSERVANCES.

The Committee of the Commons Agree

Upon a Bill.

OTTAWA, July 17.—A bill intituled "An

act to amend the better observance of the

Lord's Day" has been agreed upon by the

special committee, to whom it was referred

for consideration and report some weeks ago.

ed in the House.

THE TARTE ENQUIRY.

Mr. Burgess in Defending Himself Ad-

mits That He Did Wrong but Says All

Money Drawn was Earned. The Evi-

dence Taken Before the Privileges and

Elections Committee.

OTTAWA, July 17.—Unpleasant rumors

have been flying around for the past few

days regarding the absence from town of

Mr. L. A. Senecal, superintendent of the

Government Printing Bureau. The Public

Accounts Committee has run through the

expenditure of the interior department with

such disastrous results that other depart-

ments have become nervous. The expendi-

ture incurred in running the printing bureau

for which Mr. Senecal is responsible, has

been so excessive that the Opposition

are anxious to have that expenditure

overhauled, but this cannot be done in Mr.

Senecal's absence. These rumors were on

everybody's mind yesterday. In fact Mr.

Laurel apparently thought enough of them

to bring them before the attention of the

House; but he did it so cleverly that it would

be the casual observer as an after-

thought.

When the orders of the day were called

afternoon Mr. Laurel asked when the

correspondence regarding the Tarte Enquiry

at Washington would be printed and distrib-

uted.

Mr. John Thompson replied that it was be-

ing printed and distributed as soon as it

was received from the bureau.

Mr. Laurel said he understood the Super-

intendent of the Printing Bureau was away.

It is said that the Tarte Enquiry was

away at this period of the session. Was he

away on leave of absence or not?

Mr. John Thompson replied quickly that

he was away on leave of absence, and that

provision was made to carry on the work of

the Bureau in his absence.

Mr. Laurel asked if the leave had been

granted leave of absence on a doctor's

certificate.

The matter was pursued no further.

The debate on the budget was resumed by

Mr. Ives, and continued by Mr. McMillan,

Mr. Curby and Mr. Campbell.

Many motions were made and the adjournment

of the debate.

WHAT THE QUEEN'S PRINTER SAYS.

Col. Brown Chamberlain, Queen's Printer

said yesterday "as far as I know the rumors

concerning Mr. Senecal are utterly unfounded

and absolute lies. He's away on sick

leave and I expect him back today."

Mr. W. Macpherson, assistant Superintendent

of the Government Printing Bureau, said

that he was about on business and partly on

sick leave. He may be expected back any

day. He has not been well for some time

and he is specially to recruit and partially on

business. I have had a letter from him that

he is on his way back in a few days.

MR. BURGESS DEFENDS HIMSELF.

He Admits He Did Wrong but Says All

Money Drawn was Earned.

OTTAWA, July 17.—At a meeting of the

Public Accounts Committee yesterday there

was a large attendance, it being a matter of

attraction and in fact a better local drawing

card than the Tarte investigation, which was

going on at the same time. Mr. Clark Wal-

ton presided.

Mr. Turner was called, and was asked to

go and see the books so as to ascertain when

he commenced drawing the money, and how

many names he used in drawing the money.</

SOME RACY TESTIMONY.

HON. THOMAS MCGREEVY A MINISTER'S CONFIDENTIAL SECRETARY.

The Evidence Adduced at the Sessions of the Privileges and Elections Committee Yesterday—Ex-Chairman Vail of the Quebec Harbor Commission Testifies.

OTTAWA, July 12.—There was no meeting of the Committee on Privileges and Elections yesterday. The Privileges and Elections Committee met yesterday afternoon at the Quebec Harbor Commission Testifies.

Before the Privileges and Elections Committee, Mr. P. V. Vail, ex-chairman of the Quebec Harbor Commission, was the first witness to testify. He said he was a Harbor Commissioner in Quebec for about 19 years and was most of that time a chairman. He was a member of parliament seven years and was a member of the Privileges and Elections Committee.

When the order of the day was called Mr. Laurier said he had acquired about the time of the sessions of the Privileges and Elections Committee, apparently not quoted by the answers he received from Mr. John Thompson. He returned to the question again yesterday.

IMPERIAL FEDERATION.

Mr. Charles Tupper's Plan for a New Empire—Address.

LONDON, July 12.—The Council of the Imperial Federation League has selected a strong committee to consider the definite proposals for Imperial Federation made by Mr. Charles Tupper in his recent speech.

This speech has been printed for the use of the Council, and the scheme as outlined therein will find many adherents on the Committee which will proceed to business immediately after the holidays. It will probably not conclude its labors until well towards the close of the present year. It is noted as significant that a pronounced free trader like Mr. Tupper has shown themselves ready to consider the scheme without prejudice.

This scheme to confirm the assertion of the Times that "England is beginning to see that free trade was made for man and not man for free trade." Mr. Charles Tupper says that he is surprised at the support his scheme obtains each day. He declares that he is the first proposal that has been made that meets all the French-Canadian objections to Federation schemes in general.

This federation movement is tending to ally the feeling around in England with the opinion declarations of Mr. Macdonald in the Canadian House and elsewhere that Canada will soon seek her independence through friendly negotiations.

THE BENDERS LYNCHED.
The York Avenue Gang Them to Their Own Colling Barbers.

ST. JOSEPH, Mo., July 12.—E. B. Randolph, an attorney of this city, who has just returned from New Orleans, Mo., says that there were the acquiescence of Tom Little, an old-time fighter, who told him a story of the famous Bender family, which it runs into all questions as to the whereabouts of the family of murderers. Little says that after the murder of a local man, Bender, headed by the murdered man's brother, went to the Bender house and extorted a confession from the old woman.

They then quietly proceeded to the old man Bender, his wife and son to the rafters of the house. During the proceeding Kate Bender uttered some protest and was shut to death.

After the family had been dispatched York's vengeance took the bodies to the creek bank, some yards distant from the house, and buried them.

The attention of a family living on an adjoining ranch was attracted to the Bender place some days after by a stalling calf, and then the absence of the family was first known to the public. This gave rise to the report that the murderous family had fled to avoid punishment and caused the prolonged search after them by the police and the law.

EUROPEANS MURDERED.
Chinese Benders Kill an English Customs Officer and a Missionary.

SAN FRANCISCO, July 12.—The steamship Republic arrived yesterday from China and Japan. The Shanghai Mercury announces the murder of an English customs officer, A. W. Green, and of Mr. Argent, a member of the Mission, by Chinese rioters at Wuchang. A number of houses were burned during the riot. The bodies of the missionaries were taken aboard the steamer Republic by special train from the city.

The attention of a family living on an adjoining ranch was attracted to the Bender place some days after by a stalling calf, and then the absence of the family was first known to the public. This gave rise to the report that the murderous family had fled to avoid punishment and caused the prolonged search after them by the police and the law.

A GRANDFATHER'S THANKS.

Compiling therewith a suitable advice for one of her age addressed to Emma Telford, eldest daughter of John M. Telford, of Bensenville, for sending to New York for and giving to me a young plant of the favorite Mary Washington rose.

Granddaughter dear, I hope I won't intrude speaking to you just entering womanhood. I have little to write, my heart is changed to grey.

You are just entering on life's slippery way. You know I always had a love for flowers. My chief delight was viewing them for hours. Your wish, your act was to have my store of heaven stamped beauty, adding one gem more.

The bush you gave me, I know it right. Its flowers are lovely, large, and snowy white. To you that rose two leaves should impart—fidelity in life and love, God's blessing.

That rose was loved on hundred years ago by one colored, and still it bears her name. Member of that hero crowned with freedom's name.

I hope that deep, sweet-rooted love is me. Per flowers will be more deeply instilled in these. To enable the deep perfume they diffuse and give on their fragrant, variegated hues.

One thing I wish to pass upon your mind. From it I have you with much pleasure and, filling your soul with heavenward thoughts. White gleaming on the beauty of your flowers—each such flower is born only by God's plan.

Now this is mind, the artist's skill, though great. Their true perfection fails to imitate. A mass of flowers in your garden stroll with admiration and desire only by God's plan. Their sweetest fragrance and perfume are the result of His plan.

As I have said, the artist's skill, though great. Their true perfection fails to imitate. A mass of flowers in your garden stroll with admiration and desire only by God's plan. Their sweetest fragrance and perfume are the result of His plan.

Beauty of youth no guarantee supplies. At every stage death's deadly arrow flies. In that great war there's no discharge for age. The babe must fall, the youth and heavy mass. Perhaps, Leonard, you may wonder that I am in mourning youth you stand on the grave's brink.

The young heart's beat may in one moment fall. If from the right path you once deviate. Think on your own and that you bear's fate. Surely love God, and favors that He bestows. They are but shadows of the flowers in heaven.

Wm. Telford, Smith.
"Just as Good."
Say some dealers who try to sell a substandard preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statement as this to mislead you to buy what you do not want. Remember that the only reason for making it is that a few cents more profit is made by the use of substitutes. Insist upon having the best medicine—Hood's Sarsaparilla is popular to Hood's.

LEGENDS OF M. C.

ACURIOUS, UNIQUE AND INTERESTING STUDY.

The Origin of the Chinese Scale How the Japanese Sun Goddess was Lured From Her Retreat—A Cruel Emperor of the Hindoos.

The Chinese claim to have obtained their musical scale from a miraculous bird. There are also traditions regarding the invention of musical instruments. The most popular ones of the Chinese are assigned to a period when China was under the sway of "heavenly spirits," about B. C. 3,000.

Confucius, the great Celestial philosopher, on one occasion happened to hear some divine music, is reported to have been so enraptured as not to have tasted food for three months. It is a Japanese tradition that the Sun Goddess, in resentment of the violence of a brother, retired into a cave, leaving the universe in darkness. The god's, in their concern for the welfare of mankind, devised music to draw her from her retreat and were successful.

An old Swedish tradition tells of a harper who made his instrument out of the bones of a young girl killed by a wicked woman. Her fingers were the turning screws and her golden hair the strings. The harper played and the maidens were killed.

The Hindoo told of days long gone when the gods forbade mortals to sing a certain song on pain of being burned to death. A cruel Emperor once commanded a celebrated musician to sing that song. In vain the unhappy man attempted to excuse himself. The Emperor was firm.

The musician, after bidding his family an affectionate farewell, placed himself in the waters of the Juma until they reached his neck. After he had sung a strain or two the water became hot and began to boil. In terrible agony, the musician pleaded again to be excused but the inexorable monarch commanded that the song be finished. The musician continued his singing, and, although immersed in water, flames burst from his body and it was reduced to ashes.

The legendary fairies are proverbially fond of music and, are described as a "numerous, merry people, always singing like crickets." Among the many stories told about them is the following: "A New Zealand chief had gone out with his dogs to hunt. When night came on he found himself on the top of a high hill. Then it was that the fairies approached and almost frightened him to death.

"He lighted a fire and that scared them a little. Whenever the fire blazed up brightly off went the fairies and hid themselves, and when it burned low they came close to it, singing and dancing merrily." The terrified chief suddenly thought him of his jasper neck ornament and his ear-ring made from the tooth of a shark.

"Hastily taking them from his person, he placed them on a stick driven into the ground. The fairies, approaching looked at the jewels and finally took the shadow from them and departed, leaving the trinkets on the stick."

Then, too, there is the characteristic Irish story of Maurice Connor, a celebrated bagpiper. One day, as he was playing on the sea-shore, a beautiful lady with green hair came up from the sea, dancing and singing sweetly.

"Maurice Connor became the husband of the beautiful sea nymph. And the union was happy, too, for, say the people of Kerry, on a still night the sounds of a bagpipe off the coast are heard, and they are quite sure that it is Connor's music which they hear."

The story is told of a famous Arab musician, named Al-Farabi, who appeared, in disguise, before the Court of Caliph of Baghdad, while that monarch was enjoying his daily concert. Al-Farabi was permitted to exhibit his skill. He began to sing in a peculiar way and accompanied himself on the lute. All the courtiers and even Caliph himself began to laugh uproariously.

Suddenly the musician changed his tune, and his audience were moved to tears. Again he sang and played. This time with such effect that the courtiers became furious and would have fought each other had not the musician appealed to them. Al-Farabi concluded his entertainment by soothing his auditors to sleep.

STRANGER THAN FICTION.
Born as a Savage and Sold as a Slave, an African Becomes a Bishop.

Bishop Crowther was born about eighty years ago on the Benue River, the largest tributary of the Niger. He was a little savage boy, and none of his people had ever seen white men, when, in 1891, Mohammedan slave traders attacked the little settlement where he lived. Among their captives was his mother and her three children, including the boy, Adaji, who was to become the future Bishop of the Niger.

His father, who belonged to the Egbira tribe, died in defense of his home. The little boy was separated from his captive mother and two younger sisters, and it was many years before he saw them again. In a few months Adaji became the property, in succession, of four masters, having been sold from one to another for tobacco and rum. The great fear that haunted him through all these changes was that he might be sold to the dreaded white men, the Portuguese slave dealers on the coast. His terror of this fate was so great that he once tried to throw himself into a river, and on several occasions attempted to strangle himself with his belt.

The fate he feared, however, overtook him, for he found himself at last confined in a slave shed on the coast, with iron fetters around his neck and a chain fastening him to his comrades in misery. One night he was taken on board a slave ship with a cargo of 187 others, and was seen on his way to Cuba, Brazil. But help was at hand. The British warship, *Miranda*, saw the slave ship as she started on her journey and went in pursuit.

The slave was captured, and Adaji and his fellow slaves were taken on board the warship, and on June 17, 1883, they were landed at Sierra Leone, the home of the free. The story of the poor little boy's fight as he was taken on board the man-of-war has often been told. He thought he saw the flesh of his comrades whom he missed, hanging up in pieces to dry, and he was horrified to see objects which he mistook for their heads lying in order on the deck. They were joints of pork and cannon balls.

The boy was taken to Bathurst, where his education began. He was a bright student, and finally took an extensive educational course in England, where

HOW RUBBERS ARE MADE.
Not Cast in Moulds as Many People Suppose.

Many people suppose that rubber shoes are made by melting the material and running it into moulds, says the Denver News. Such is not the case.

The manufacture of rubber shoes is not very much different from the manufacture of leather shoes. They are made on lasts just the same, but instead of being sewed they are cemented.

"We get most of the raw material from South America," said a drummer. "It is about the color of molasses and is of a spongy nature."

"First it goes through a crushing or rolling process and comes out in rough sheets and looks very much like a cow's hide. Then it is taken into a compounding room, where it is mixed with a compound and vulcanized."

"After that it is cut up into small pieces, according to the parts of shoes which we wish to get, and is afterward fitted onto lasts by the workmen in the same manner that leather is."

"How much pure rubber is contained in the manufactured article? About 70 per cent. The best Para gum costs 95 cents a pound, so you see rubber boots and shoes cannot be very cheap."

In the smallest rubber shoe made there are about four ounces of pure rubber, and from that to probably four pounds in a pair of rubber boots."

"Old rubbers are ground up, lining and all, into what we call rag carpet and it is used for linings."

"The work is nearly all done by hand and in the factories are employed young children, men and women. A boot-maker gets 30 cents a pair for making them and a good man can turn out from ten to twelve pairs a day."

"There are four factories having a capacity of over twenty-five thousand pairs each and one which has a capacity of 40,000 pairs. It is a mystery where they all go to."

It is Better to Buy Than Rent.
Because if you buy now I can sell you a House and Lot in any part of the Town or Ashburnham, where the interest of the purchase price will be much less than you will have to pay for the same place as rent. Such is the case at present, and imagine what the comparison will be three years hence, when this will certainly be a city of 50,000 or 60,000 people, the result of to-day will then be doubled and the lot you can buy to-day for \$100 to \$200, you will pay from \$500 to \$1,000 for the same. I can and will sell the lot as well as the unlimited purchase. Do not stand back, bring in your \$500 or \$1,000 and make a start by securing a Lot or a House and Lot before the prices are advanced.

Thieves in Ashburnham.

Some time during last night some thieves broke into the shed at the P.A.A. grounds, forced open the door and carried away half a dozen cricket bats and other sporting paraphernalia. It is a mean theft and will be of little value to those who stole them.

Oh, What a Catch.

Will you head the warning. The signal perhaps of the more approach of that most terrible disease, consumption. Ask yourself if you can afford for the sake of a few shillings, to run the risk and do nothing for it. We know from experience that Smith's Cure will cure you. It never fails.

THE CENTRAL SCHOOL ADDITION.

The Contract Awarded to Mr. E. Carveth at \$6,471.

A special meeting of the Board of Education was held last evening to consider the tenders for the addition to the Central school, and Mr. E. Carveth's tender was accepted on condition that he agree to have the old building completed by Sept. 1st and the whole work done by Oct. 1st.

The work was presented by Messrs. Wrighton (Chairman), Henderson, Boucher, McKee, Hill, Rutherford, Coker, Bradburn, Dumble, Denny, McEwen, Keady, Hamilton and Ferguson.

THE ADDITION TO THE CENTRAL.

Mr. BRADBURN, Chairman of the Building Committee, reported that six tenders had been received for erecting the addition to the Central school building and also tenders for sub-contracts. They were:—

W. Fitzgerald, for whole work \$6,471 00
R. Shelly " " " " 6,250 00
R. Shelly " " " " 6,250 00

R. Shelly " " " " 6,250 00
R. Shelly " " " " 6,250 00
R. Shelly " " " " 6,250 00

There was considerable conversation regarding the tenders, several members saying that, while Mr. Bogue had done a good job on a former contract on the south ward building, he had given them a great deal of trouble.

Mr. DUMBLE moved, seconded by Mr. FERGUSON, that Mr. Carveth's tender be accepted, Mr. Carveth to give bonds and sureties. Mr. Dumble said nothing would justify them in throwing away \$600.

Mr. KERR said that at the last meeting Mr. Dumble proposed to throw away more money in connection with salaries.

Mr. BOURNEMAN said that they were not bound to accept any of the tenders or to build according to those plans. He was of opinion that a change of plans, to the effect that they had from Mr. Boucher, would save them several hundred dollars.

Mr. KERR said that the addition, with extras and furnishings, would run them in for \$11,000 or \$12,000. They should be more careful, as it would cost \$4,000 or \$5,000 more than they had expected. He moved that the whole matter be reconsidered.

Dr. BOURNEMAN said that he knew that Mr. A. Boucher had a large amount of material suitable for the building and would bind himself to have the old building ready by Sept. 1st and the new by Oct. 1st. This was important, but if Mr. Carveth would do that his tender should be accepted.

Mr. DUMBLE added to his motion that the old building be completed by Sept. 1st and the whole by Oct. 1st.

The resolution was carried.

THE VOTE OF THE PEOPLE

WILL BE TAKEN ON THE PATERSON-CORBIN BY-LAW.

A Special Meeting of the Town Council—The By-law to Aid the Car Manufacturing Company.

Company will be held on August 1st—A Public Meeting suggested.

The ratemakers will be called upon on the 11th of next month to pass their verdict on the by-law to aid the Pater-Corbis Car Manufacturing Company, which will come here if the by-law is carried. A special meeting of the Town Council will be held last evening for the purpose of preparing the by-law for submission to the people.

Mayor Stevenson presided, and present were Messrs. Gahlin, Davidson, Wink, Harty, Hall, Bradburn, Dawson, Moore, McEwen and Langford.

It was nearly nine o'clock before the Council went into session and the late hour enabled Mr. Wink and Councilor Bradburn to double up and be marked present at both the Board of Education and the Council.

The reading of the minutes and all general business was dispensed with, and the special business at once taken up.

Councilor Bradburn introduced a by-law to aid the firm of Pater-Corbis and exempt their manufacturing establishment.

It was given its first reading.

The Council then went into Committee of the Whole, Councilor Kelly in the chair, to give the by-law its second reading.

The by-law set forth that whereas it was desirable to have the Pater-Corbis Car Manufacturing Company, manufacturers of electric and horse street cars and railway cars, the sum of \$4,000 be expended to aid the said firm in erecting buildings and providing a site.

The by-law authorized the Mayor and treasurer to borrow and lease of the sum of \$4,000 drawing 4 1/2 per cent. interest and payable in 20 years, the by-law to take effect on the 1st of September.

The by-law also demanded that the said company shall commence and carry on the manufacture of street cars or railway cars and shall pay out on an average \$200 per week in workingmen's wages; that a member of the firm shall each year make a statutory declaration under oath that the wages paid each week during the year, and that any failure for two consecutive years to carry out these provisions they shall cease to be entitled to occupy the buildings which shall revert to the town.

The by-law further demanded that the building shall be exempted from taxation for a period of ten years from the first of January next.

A PUBLIC MEETING.

A discussion arose as to when the publishing of the by-law came under the provisions of the Public Meeting Act, a public meeting called and have the ratemakers express an opinion upon the by-law before any money was expended in the matter.

Councilor Gahlin had suggested the public meeting, but thought it would be desirable to have the by-law published so that the ratemakers could discuss the by-law intelligently.

Several of the Councilors supported this, that the by-law be published and then the public meeting could be called if deemed necessary.

The date for the taking of the vote on the by-law was fixed for Tuesday, August 12th. The polling places are the same as at the municipal elections.

The Committee rose and reported the second reading.

We want to clear out the balance of our Ladies' Print and Wool Delaine Blouses this month and now offer the first line at 50c., fancy patterns at 75c., Figured Wool Delaines that were \$1.75 for \$1.25, Cream Wool Edemain Cloths that were \$1.50 for \$1.00, Cream Opera Flannels that were \$2.00 for \$1.50.

We show a very full range of Flannellette which we import ourselves. These goods are much wider and better than the Canadian makes usually shown. They are in Cream and Cardinal Stripes, Cream and Blue, Cream, Cardinal and Blue mixed, Cream, Cardinal and Fawn; Fawn grounds with Cream and Cardinal lines, gray and white stripes. Also all the usual patterns in the other makes. We have just opened out a fresh supply of what we think to be the best 50c. Corset in Canada. Our Fall purchases are beginning to roll in already, and we are jobbing out many lines to make room on the shelves.

DOMINION PARLIAMENT.

THE DEBATE ON THE BUDGET DRAGS

WEARILY ALONG.

The Proceedings in the Public Accounts and the Privileges and Elections Committees—The Evidence Taken Yesterday—Folowers From the Capital.

OTTAWA, July 22.—Speaker White took the chair at 9 o'clock.

The debate on the Budget was continued by Messrs. Hymans, Ross (Lagar, Rider, Craig and Flint, Mr. White (Shelburne) moved the adjournment of the debate. House adjourned at 12.10 a.m.

THE PUBLIC ACCOUNTS COMMITTEE

Did Charlebois Demand Percentage From Many Sub-Contractors?

OTTAWA, July 22.—The Public Accounts Committee opened with another meeting yesterday. A few minutes prior to the meeting of the committee a number of messengers and officials arrived from the Interior Department and deposited in the committee room a large number of correspondence, checks and accounts, which, when measured, was about \$100,000.

It was agreed to go on with the new Department building, called the Langevin building.

The first witness called was Mr. Fennell of Toronto who had the contract of putting in the elevators. His tender was about \$39,000.

He explained that when he came to Ottawa to tender for the contract he was called by Mr. Fuller to go and make arrangements with Mr. Charlebois, who had the contract for the building.

He said that when Mr. Charlebois told him that he would have to pay him 25 per cent on the contract he was called by Mr. Fuller to go and make arrangements with Mr. Charlebois, who had the contract for the building.

Makes the Weak Strong

The marked benefit which people in run-down or weakened state of health derive from Hood's Sarsaparilla, conclusively prove the claim that this medicine "makes the weak strong." It does this by a natural, non-stimulating, purifying action, which cleanses the blood, and gives a new vitality to the system.

That Tired Feeling
Creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

Fagged Out
"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. HARRIS, Editor, Kingston, Ontario.

Worn Out
"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully that I never felt better. To one feeling tired and worn out, I would earnestly recommend a trial of Hood's Sarsaparilla." Mrs. F. H. HARRIS, 50 Brock Street, East Boston, Mass.

TACTLESS AND TASTELSS.

VERY little has been heard of or of Mr. Ernest Wiman since the elections. He had flooded Canada with pamphlets and cartoons, besides visiting the Dominion in person and probably in other ways aiding the Liberals, but he with that party received a set-back when the people again returned the Conservatives to office. Mr. Wiman has not forgiven Sir John Macdonald for checking him in his designs, and he has written a letter in which he attacks the departed statesman, but his letter will do him or his cause no good either in Canada or the United States. Speaking of it the Philadelphia Press says:

"The Liberal cause in Canada will receive a distinct set-back from the unimpaired and unimpaired of Mr. Ernest Wiman on the memory of Canada's dead Premier, Sir John A. Macdonald. All the people of the Dominion, without regard to political affiliations, have a respect for the statesman's abilities, and the coarse fling of an old and a cynical political opponent, that 'the effects of a bad policy are his best monument,' was a worse than tactless and tasteless utterance."

Mr. Wiman, however, is not alone in this foolish conduct. The Globe and one or two other Liberal papers of the more rabid sort have not scrupled to publish columns of brutal attacks as well as mean insinuations to try to injure the dead statesman's memory. But it may be that Mr. Wiman is primarily responsible for this. He is was from him that the Liberal leaders and editors have a contemptible political opponent, that 'the effects of a bad policy are his best monument,' was a worse than tactless and tasteless utterance."

SLAVED FROM THE COFFIN.

THE STRANGE STORY OF A LOVER'S SINGULAR TRANCE.

A Bride from the Dead—The Husband and Wife Whose Nuptials Followed the Tragic Scene are Now Living in Philadelphia.

"You could not get a mighty pretty story from them folks," said a prominent undertaker, as he pointed at a name registered on the arrival at the Hotel Bellevue, Philadelphia. "Those two young people have just returned from their wedding trip in Europe, and the experience I had with them may possibly have had something to do with their getting married."

It was the story of a young man and woman who had been married for two years ago. The young man was a well-known Philadelphia family to conduct the arrangements for a funeral. The deceased was a young lady. As I looked at the corpse I was struck by its lifelike appearance and the other changes of the usual indications of death, such as livid eyelids, purplish lips and dull eyes. In spite of the fact that she had been dead for the last four days, and notwithstanding the assurance of the physician who had attended her, I could not help asking her relatives to wait another day.

"When I returned to the house on the following morning the body presented exactly the same appearance as on the preceding day. It was folly to think that she had been alive and in a trance for five days at a time, and so I decided to go ahead with my preparations. There was nobody in the room except a young man who had been the young girl's sweetheart, and nothing could induce him to leave the body. The poor fellow's eyes were red and swollen, and his whole appearance denoted so intense a grief that I felt sincerely sorry for him. He was very much excited, and walked nervously about the room all the time."

SHUTTING OUT THE DEAD FACE.
"When I began peeling down the lower part of the coffin lid he came over to where I worked, and watched everyone of my movements like a hawk. Then I fastened the name plate. It was a silver one brightly polished, and as the undertaker's eyes were turned to it, he caught the glint and sparkled like an electric light."

"It may have taken me a little longer than usual to fix the plate, because I felt somewhat uncomfortable under that staring man's eyes. When I was done I happened to look up and was surprised to find my companion stand bolt upright, his eyes tightly closed like those of a man in a trance, and his left hand resting on the forehead of the dead girl. I spoke to him, but he did not seem to hear me, and I tell you what, I began to feel mighty scared."

A TRAGIC SCENE.
"Suddenly he began to talk as a man talks in his sleep. I could not make out at first what he was saying. He seemed to be answering questions. All I could understand was:

"'Because you have been dead these last five days.'"

"Then came a pause during which he looked as if he were listening. Then he began to speak again, and he said: 'I have been nailing down your coffin lid,' came next."

"Another pause, during which the young man's features underwent the most fearful change. He looked like one who is in a trance, and his eyes were tightly closed. He was speaking again, and he said: 'I have been nailing down your coffin lid,' came next."

"Another pause, during which the young man's features underwent the most fearful change. He looked like one who is in a trance, and his eyes were tightly closed. He was speaking again, and he said: 'I have been nailing down your coffin lid,' came next."

This tight box? and then again: "What has that man been doing? He is not aware of her realizing her fearful position, and I experienced the same terrors she felt when she thought of being buried alive and slowly suffocating in a living grave."

"The undertaker awakened me then, and I still had a dim recollection of having mentally conversed with my dear Elizabeth. Of course you know the sequel."

"Yes, I have consulted an authority on the case. It was in Stockholm, Sweden. I called on Professor Björnstrom, the eminent psychologist, whose work on 'Hypnotism' is well known. He listened very attentively to my recital of the case, and came to the conclusion that I had hypnotized myself by gazing steadily at the sparkling silver plate on the coffin. While in the somnambulistic state so produced I could read the thoughts of the young lady with whom I was in contact by having laid my hand on her forehead. I was astonished at the revelations, but he convinced me by hypnotizing me in a similar manner by making me gaze at a brass ball. Of course, in the nervous state I was in at the time of my wife's supposed death it was easy for me to be so easily hypnotized."

Sick Headache

Is a complaint from which many suffer and for which there is no cure. It is caused by indigestion and a sluggish liver, the cure for which is readily found in the use of Ayer's Pills.

"I have found the cure for sick headache, caused by a disordered condition of the stomach, Ayer's Pills are the most reliable remedy."—Samuel C. Bradburn, Worthington, Mass.

"After the use of Ayer's Pills for many years, in my practice and family, I am justified in saying that they are an excellent cathartic and liver medicine, restoring all the claims made for them."—W. A. Woodall, M. D., V. P. Austin & N. W. Railway Co., Bureau, Texas.

"Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered stomach and liver. I suffer over three years from headache, indigestion, and constipation. I had no appetite and was weak and nervous most of the time. By using three boxes of Ayer's Pills, and at the same time living myself, I was completely cured."—Philip Lockwood, Topeka, Kansas.

"I was troubled for years with indigestion, constipation and headache. A few boxes of Ayer's Pills, used in small daily doses, restored me to health. They are prompt and effective."—W. H. Street, Mendocino, Pa.

DOMINION PARLIAMENT.

THE SESSION LIKELY TO LAST FOUR WEEKS LONGER.

The Evidence Adduced in Committee of Privileges and Elections—Clerk Connolly Continues His Story of the Malicious Bores—Mr. Riel's Testimony.

OTTAWA, July 22.—Mr. Lester presented to the House yesterday a petition signed by 15,000 growers, praying that blading be done in the fall and not in the spring.

Mr. Lester moved that for the rest of the session Monday be given over to Government, thus taking from members the only day they have left for private legislation.

Mr. Laurier said that it was not usual to make such a motion until the end of the session was in sight, but it was now deemed that the session would last at least four weeks. He therefore thought it was better to make the motion now.

Mr. Hester agreed and withdrew the motion.

Mr. Tupper introduced a bill respecting the inspection of ships to give the officers of the Department of Marine additional powers regarding the tacks. Carried.

PRIVILEGES AND ELECTIONS.

Clerk Connolly Continues His Story of the Malicious Bores from the Bench.

OTTAWA, July 22.—Letters written by Mr. Thomas McCreary to Mr. J. J. Chabot, Clerk of the Privileges and Elections Committee at the commencement of the session of this body yesterday, in these letters it was sought to prove that Mr. McCreary was the real owner of the steamer Admiral. One of the letters conveyed a power of attorney from Thomas McCreary to J. J. Chabot, as manager of the steamer Admiral. Among the letters was a copy of notes made by J. J. Chabot in reference to the management of the steamer Admiral, and a series of questions to the Clerk of the House as to the responsibility of Thomas McCreary.

Mr. McCreary did not wish to have these letters read before the committee, as they were of a private nature, and he (McCreary) considered that he had made out his case without them.

Mr. Martin P. Connolly the bookkeeper of Larkin, Connolly & Co., was again called. He said he had not yet gone through the books to find out how many entries were made in them. He had not time to do so. He did a good day's work yesterday. He knew of no other inspectors who were bribed except those named yesterday, Germain, Brunell and Pellerin. The last named is a nephew of Sir Adolphe Caron. The returns of work done or alleged to be done and made by the captains were destroyed. The receipts from the bribed inspectors were destroyed about the same time as the returns made in the books. One of the receipts destroyed about two months ago was from Pellerin, and witness thought it was for \$500 of a bribe. Examined as to the division of \$87,000, which was made among the members of the firm after the completion of the Requinault graving dock, witness said that he could not explain the fact that each partner received \$400 less than his share of the original amount to be divided.

Mr. Geoffrion had produced an entry which was partly erased. The erasure was not completed, however, and Mr. Geoffrion read "Paid to M. Connolly for..." The witness said this attempted erasure was made after the "penny" passed out of his hands, and he knew nothing about it.

Mr. Geoffrion questioned the witness as to the following entry:

Overseer, March 8, 1888—Examiner dock Dr. to Michael Connolly \$200 a month, paid from private funds, as agreed.

In answer to Mr. Hector Cameron the witness said that Captain Larkin knew nothing of the donations which appeared in the books. Witness remembered that a warm discussion passed between Mr. Murphy and Mr. Kinnear in connection with these "donations." Mr. Murphy then produced the notes showing payment of these "donations." They are the notes now before the committee.

Capt. Larkin took an active part in the management of the company's affairs in Jan. 1, 1888.

Mr. L. J. Riel was next called. He said he lived a portion of his time in Quebec and he was managing director of the Baie des Chaleurs Railway for four years, but had not charge of the books and papers of the company. He had, however, seen an agreement between himself, T. H. Armstrong, Robert McCreary, Hon. Thomas McCreary and Hon. T. Robitaille, president of the company. He was not the custodian of the document. He gave it to Robert McCreary but he had a memorandum of the document by which he remembered that the agreement was signed in the lower room of the parliament buildings at Ottawa, and was to the effect that the McCrearys transferred all their interests in the Baie des Chaleurs Railway to a company of \$500,000 in consideration of a payment of \$500,000 by Armstrong and \$50,000 in bonds of the company. Hon. T. Robitaille and witness signed individually as guarantors that the bargain would be carried out. Thomas McCreary had subscribed \$50,000 in stock as well as witness could remember. The two brothers he was sure had subscribed \$75,000. Ten per cent of this was paid in notes. Mr. Thomas McCreary attended meetings of the company in 1883, 1884 and 1885. The 10 per cent notes subscribed by Thomas McCreary were paid by Hon. Thomas Robitaille and the witness and the checks drawn by the Baie des Chaleurs Company, on Mr. Tallon, natural of Horel, in favor of witness and Hon. T. Robitaille. That is to say, the subscriptions of Hon. Thomas McCreary were paid by witness and Hon. T. Robitaille. The directors were Louis Robitaille, Omer Martin, the two McCrearys, Hon. T. Robitaille, G. Riel, witness and Prosper Givens.

Mr. Geoffrion: Is it not a fact that Thomas

McCreary did not pay a cent for his stock? Mr. Riel: Well, Thomas McCreary was doing work for the company and had served them in many ways, but his claim was not allowed for payment of his stock. Witness showed that the only financial back of the road was the large subsidy received from Parliament and secured by himself, who was a member; Thomas McCreary, who was another, and Robitaille, who was a senator.

The examination of Mr. Riel regarding the Baie des Chaleurs Railway deal was continued in the afternoon. Mr. Riel took him in hand. It appeared that the claim which Riel paid the company amounted to \$30,000, the exact amount of the paid up stock of the company. As a matter of fact the directors of the company never paid a cent in cash on the stock for which they subscribed. The Dominion subsidies for the road amounted to \$600,000 per mile and the provincial subsidies to \$250,000 a mile. The six original directors, except Robert McCreary who went to a Montreal syndicate all their interest and claims for \$75,000 in May last. There were no other shareholders than the six directors, and all paid for their stock in the same way by notes.

Robert McCreary was then recalled. He and he became interested in the Quebec Harbor works in July or September, 1882. He identified the terms of partnership for the dredging contract for "H", from which it appeared he was to contribute 30 per cent of the capital, but as a matter of fact he never put in any capital. His brother, Thomas McCreary, knew he was going into the contract before he signed the contract. He said that he (Robert) should not go into the contract as well as anyone else. Some weeks after signing the contract he told his brother the proportion he held in the partnership. He corroborated Murphy's story of the way in which bogus tenders were put in under the names of Beaucage and Gallagher and they were got rid of and the contract given to Larkin, Connolly & Co. The firm got the contract in 1883. His interest in the contract was also 30 per cent. He again got Beaucage to allow the use of his name and sent in a tender in that name. Thomas McCreary was aware of the interest he held in this contract and was also aware of the use made of Beaucage's name because he spoke about it. Before the tenders were awarded he met his brother in Montreal by appointment. His brother gave him the quantities applied for by Mr. Boyd, the Government engineer, to the schedule of prices in the tenders, the prices of Peter's tender, and afterwards sent him a paper giving certain information about the sheet piling. It was by this information that the tenders which were lower than that of Larkin, Connolly & Co., were got rid of.

Robert McCreary's evidence so far corroborated every word of Murphy's statements and showed that his brother Thomas knew all about his interest in the different tenders, notwithstanding the Connolly's evidence to the contrary.

Notes from the Lobby.

Mr. Hugh John Macdonald said yesterday that the amount of C.P.R. stock included in the will of Mr. John A. Macdonald was 120 shares purchased in the open market, in 1880 at a various price. They were valued at \$20 a share. The value of the stock therefore was \$2,400.

An order-in-council has been issued strictly prohibiting all clerks in the Interior Affairs and Postoffice Departments from going out for a dinner hour in future. The clerk in the Customs Department have been notified that they will be the subject of a similar order in a few days. It has been also decided that extra clerks shall not be allowed holidays in future and that their pay shall be docked for every day they are absent.

Mr. McCreary did not wish to have these letters read before the committee, as they were of a private nature, and he (McCreary) considered that he had made out his case without them.

IT IS NEWS TO MANY WOMEN

WHAT IS?

THE "SURPRISE WAY" of washing clothes with

"SURPRISE SOAP" without boiling or scalding

a single piece—snowy white linens and cottons—colored goods brighter, woolen softer and a saving of half the hard work. A great many women wash this way with these results—you can too. **"SURPRISE"** is not a high priced Soap. Ask your grocer.

READ the Directions on the Wrapper.

"SURPRISE SOAP" can be used for any and every purpose a Soap is used.

INTERCOLONIAL Railway of Canada.

The direct route between the West and all points on the Lower St. Lawrence and Baie des Chaleurs, Province of Quebec, also for New Brunswick, Nova Scotia, Prince Edward Island, Cape Breton and Magdalen Islands, Newfoundland and St. John's.

Express trains leave Montreal and Halifax daily (Sunday excepted) and run through without change between these points in 27 hours and 15 minutes.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travellers.

New and elegant outfit sleeping and day cars are run on all through express trains. The popular summer car is built and fitted with the latest improvements for the summer season. The attention of shippers is directed to the superior facilities offered by this route for the transportation of goods and passengers. The Intercolonial Railway is also a great source of freight and passenger traffic for the Maritime Provinces.

How to Sell More Goods.

Has it ever occurred to you that you might profitably increase your present volume of business by doing a little general newspaper advertising with the idea of reaching the Consumer? Take some special brand or make of goods which you honestly believe possesses merit, and push it with a moderate amount of advertising in the widely circulating news papers and magazines, or in the leading dailies and weeklies of some selected State or section. If done judiciously, you will soon begin to realize results in the form of increased orders through the trade.

These assertions are proved by the experience of business houses whose names are familiar from one end of the country to the other. Look at the record made by the manufacturers of "Royal Baking Powder," "Sapol

BUY NOW IF AT ALL!

EVERY day makes more apparent the fact that the town is going ahead rapidly. Immense changes have taken place in the way of the ownership of property. Many workmen are buying houses and lots or lots in order to build. One of the most suitable locations is that known as the **Brin property**, at the west end, owned largely by Mr. W. W. Fitts. This week he has decided to sell of a several eligible lots on this property to the public. Property in this location is well situated for business, and it will be well to have a look at the situation if one is at all disposed to buy. The terms are very favorable, and especially low for cash, though payment on time may be arranged.

We are showing a magnificent range of American Empire Delaines at 5c. a yard, also Gray and Blue Chambrays wide widths at 5c. a yard. We have still a full range of those jet Vestes we have been clearing out at unheard of prices, starting at \$1.50 each up to \$3.00, for new and stylish shapes.

We want to clear out the balance of our Ladies' Print and Wool Delaine Blouses this month and now offer the first line at 50c., fancy patterns at 75c., Figured Wool Delaines that were \$1.75 for \$1.25, Cream Wool Kedemian Cloths that were \$1.50 for \$1.00, Cream Opera Flannels that were \$2.00 for \$1.50.

We show a very full range of Flannelettes which we import ourselves. These goods are much wider and better than the Canadian makes usually shown. They are in Cream and Cardinal Stripes, Cream and Blue, Cream, Cardinal and Blue mixed, Cream, Cardinal and Fawn; Fawn grounds with Cream and Cardinal lines, gray and white stripes. Also all the usual patterns in other makes. We have just opened out a fresh supply of what we think to be the best 50c. Corset in Canada. Our Fall purchases are beginning to roll in already and we are juggling out many lines to make room on the shelves.

QUEEN CITY BUDGET.

NO CLUE YET TO THE MURDERER OF SOPHIE HANDCOCK.

The Government Will Investigate—The Street Railway Fight Reserved—A Boy's Tragic Death—"Jumbo" Campbell Not Lined by the County Orange Lodge—The Salvation Army Will Obey the Law—Minor Topics.

TORONTO, July 24. HE heavy handed of the law has not yet fallen upon the murderer of Sophie Handcock, the 24-year-old daughter of Edward Handcock, the Fairbank store-keeper. The body of the murdered victim has been buried in the north-west corner of the new Prospect Park Cemetery. No far the secret of the manner of her death rests with her in the grave and with her brother, the Attorney-General, who is conducting the investigation. The Attorney-General has been notified of the facts and a Government detective will be placed on the case at once.

Meantime residents of the neighborhood are neither dead nor dumb. There is much talking, but the opinions are random and the guesses preposterous. The guidelines of the village and farm discuss the mystery over their tea, as do their boys over the village tavern. On the highway, in the cross-road grocery, in the harvest field and where ever human beings gathered or met, some thing was said yesterday of the queer affair.

Paraphrasing Reports of half-a-dozen newspapers have been at the quiet village investigating the whispers respecting the strange business at the store. But they had their labor for their pains. Not the slightest clue to the identity of the murderer, or a motive for the crime can be obtained. True, indirect tongues continue to wag and the slanders are random and the guesses preposterous. TURNBULL'S

We are showing a magnificent range of American Express Delaines at 5c. a yard, also Gray and Blue Chambrays wide widths at 5c. a yard. We have still a full range of those jet Visetons we have been clearing out at unheard of prices, starting at \$1.50 each up to \$3.00, for new and stylish shapes.

We want to clear out the balance of our Ladies' Print and Wool Delane Blouses this month and now offer the first line at 50c., fancy patterns at 75c., Figured Wool Delanes that were \$1.75, Cream Wool Delanes that were \$1.50 for \$1.00, Cream Opera Flannels that were \$2.00 for \$1.50.

We show a very full range of Flannelettes which we import ourselves. These goods are much wider and better than the Canadian makes usually shown.

They are in Cream and Cardinal Stripes, Cream and Blue, Cream, Cardinal and Blue mixed, Cream, Cardinal and Fawn; Fawn grounds with Cream and Cardinal lines, gray and white stripes.

Also all the usual patterns in other makes. We have just opened out a fresh supply of what we think to be the best 50c. Corset in Canada. Our Fall purchases are beginning to roll in already and we are jobbing out many lines to make room on the shelves.

A HORRIBLE RAILWAY ACCIDENT.

Ohio Excursionists Killed by a Crash From the East.

CINCINNATI, July 26.—The Dayton Cash Register Company yesterday gave their employees and friends of their employees a picnic excursion to the city of Cincinnati, Ohio, via the Great Northern Railway.

The excursionists went by train on the "Cincinnati, Hamilton & Dayton Road." They filled all the cars of a very long train, and spent the day at Woodland. They were mostly young men and women, with a few children.

It was after 10 o'clock when the train started to run to Dayton. A little after 10 o'clock the train stopped at Middletown, owing to a broken axle. In the delay of recouping the freight train came along.

The cars into which the freight train were crushed into a mass of debris and dead and crippled human beings. Two cars had their roofs or sides broken or were heavily injured. News of the disaster spread over the city like wildfire and the depot is now filled with anxious families whose relatives are on the unfortunate train. The city authorities and patrol wagons have all been ordered to the depot to transport the injured to the hospital.

TORONTO, THE GOOD!

THE SCENE OF A WILD RIOT IN QUEEN'S PARK ON SUNDAY.

The Mayor Mobbed—The Police Force Stoned—Wardens Threats Publicly Made—The Peace Broken—The Mayor Disregarded—The Lord's Day Desecrated.

TORONTO, July 27.—The first Sunday's experience of the by-law which forbids that persons shall in no public park, garden or place for exhibition in the city of Toronto publicly preach, lecture or declaim on the Sabbath, notwithstanding that the penalty for the violation of the by-law is \$50, was experienced on Sunday.

Difficult as it is to estimate a moving crowd, competent calculations of crowds place the number of citizens present in Queen's Park yesterday at 3 p. m. at not much less than 10,000.

The crowd was composed of the most diverse elements of the city. It was very much in evidence. It showed up in all its hideous deformity and gave free vent to its innate hatred of law and order.

But the police were in their day and generation. They well-estimated the quality and strength of the mob, and they were prepared to meet force with force.

Chief Inspector, Deputy Chief Inspector, and several other officers of the police force were in the park. The band-stand was their headquarters.

Groups of people read with apparent interest the copy of the by-law which had been posted on boards and nailed to the trees, while perhaps a couple of thousand disputation people gathered around the places where prayer and reading were wont to be heard.

The agitators protested against "the law of the land" and "the law of the city" and "the law of the people" and "the law of the God."

The most general inquiry was: "Is Jumbo Here?" No, the one who dubs himself "the Jumbo" after all his lamented showed the white feather, turned tail and stayed at home.

It was well he did for there was more than sufficient turbulence without the Jumbo. The crowd was very much in evidence. It showed up in all its hideous deformity and gave free vent to its innate hatred of law and order.

We are showing a magnificent range of American Empress Delanes at 5c. a yard, also Gray and Blue Chambrays wide widths at 5c. a yard. We have still a full range of those jet Veeties we have been clearing out at unbeared prices, starting at \$1.50 each up to \$3.00, for new and stylish shapes.

We want to clear out the balance of our Ladies' Print and Wool Delane Blouses this month and now offer the first line at 50c., fancy patterns at 75c., Figured Wool Delanes that were \$1.75 for \$1.25, Cream Wool Edemian Cloths that were \$1.50 for \$1.0, Cream Opera Flannels that were \$2.00 for \$1.60.

We show a very full range of Flannelette which we import ourselves. These goods are much wider and better than the Canadian makes usually shown. They are in Cream and Cardinal Stripes, Cream and Blue, Cream, Cardinal and Blue mixed, Cream, Cardinal and Fawn; Fawn grounds with Cream and Cardinal lines, gray and white stripes. Also all the usual patterns in other makes. We have just opened out a fresh supply of what we think to be the best 50c. Corset in Canada. Our Fall purchases are beginning to roll in already and we are jobbing out many lines to make room on the shelves.

HOME AGAIN.

Waiting Friends Disappointed—Return of the Grenadiers.

London, July 29.—The troops which, having been ordered to return to Canada, returned from exile at Bermuda on account of their mutinous conduct a year ago, reached Spithead off Portsmouth yesterday. The joy of the great crowd when it was announced that the Grenadiers were sighted can be imagined, as also can be imagined their dimmy and eager when it was known that the War Office had allowed their minds and the troops were ordered to proceed to Dover.

Customs Friends in Austria. VIENNA, July 29.—A series of wholesale customs friends have been discovered by the Government secret service officials in the duchy of Bukovina, which borders on Russia and on Roumania. The conspiracy disclosed implicates some of the highest officials and many of the principal merchants of the duchy. Numbers of people have already been arrested in connection with the conspiracy. It is asserted that the conspirators have been arrested in connection with the conspiracy. It is asserted that the conspirators have been arrested in connection with the conspiracy.

Episcopal Only. LONDON, July 29.—The Peterborough correspondent of the Times telegraphs that the official journals do not like the enthusiasm which has been aroused by the visit of the French fleet to Canada. It is asserted that the Czar is displeased with the manifestations made in favor of the Republic, and that he ordered that no pleasure steamer was to be allowed to approach near the French warships when they visited Admiral Gervais. It is not believed in this city that the visit of the French squadron to Constat will have lasting effects upon the friendly relations existing between the two countries.

British Cattle Regulations. LONDON, July 29.—The order in Council for the regulations of the Atlantic cattle trade has now been finally arranged between the Board of Agriculture here and the ship-owners and will be issued very shortly. It has been known that they will be found less rigorous than feared in Canada. Mr. Chalmers' secret desire may be, as some allege, to shut down on the live cattle trade, but the new rules make little difference beyond compelling irregular traders to take precautions now generally adopted by the regular liners.

TORONTO TOPICS TO-DAY.

FURTHER PARTICULARS ABOUT THE HANDCOCK MURDER CASE.

The Two Clues Required by the Prosecution. The Opinion of a Forensic Friend of the Old People—The Handcocks in Court.

TORONTO, July 29.—The appalling nature of the crime which deprived Sophie Handcock of life on the 16th inst., the respect and admiration extended toward her by everyone who knew her, the great deliberateness of the deed, incite the people of Fairbanks to strive to aid the officers of the law to their greatest ability, in order that in spite of the craft and cunning exhibited by the wretch implicated in the infernal plot.

SOPIE WAS NOT ALONE IN THE HOUSE. Detective Green again visited Fairbank yesterday and obtained some valuable testimony. It has always been supposed, and Mrs. Handcock's statement corroborated this supposition, that when Sophie met her death there was no person on the premises but the murdered girl and her father, who was known to be in the house at the time of the crime. A nephew of Sophie, who was in the habit of remaining with Sophie over night, was in the house at the time, and after the alarm was given was found asleep on a bed in one of the rooms upstairs.

THE TWO CLUES WANTED. Detective Green will endeavor during the next few days to unravel the two clues which are missing in the case—the discovery of the father's hammer with which the crime was committed and the fact whether Sophie was engaged to be married. Further search was made for the hammer yesterday, but with no further success. It is now reported that, despite the belief to the contrary, Sophie was engaged to be married to a young gentleman at Boston village, and that the supposed murder was shortly to be celebrated. This circumstance is cited as strengthening the theory that the old people were annoyed at the prospect of the property which they had handed to their daughter slipping out of their hands. Mrs. Waite, the postmistress at Fairbank, was interviewed, but did not recollect any letters in Sophie's handwriting addressed to her, or the receipt of any by the murdered girl.

SANDCOCK'S STORY CONTINUED. That Sophie was waiting when her mother left the store is proven by the evidence of James Doherty, George Carruthers and John Buchanan. The first named was the murdered girl moving across the street when he was passing, the mother and young Daniel being preparing at the time to enter the vehicle in which they drove to Boston. Mrs. Handcock and the boy overtook Doherty at Wells' Hill. When Carruthers and Buchanan passed mother and son had departed, but Sophie was observed in the store. This was at about 9:30 a.m. and the alarm was given at 9:40. At 3 minutes before 10 the alarm had been given by Handcock. This testimony as to time dispenses of Handcock's story that he came into the house to secure his lunch, that it was not ready and he again went into the garden and remained some time, and his return found his daughter lying upon the floor prostrate and bleeding. The wound was inflicted between 9:40, when Carruthers and Buchanan passed the store, and 9:45, when the alarm was given—as in several of 17 minutes in all.

THE OLD MAN'S FAVORITE. The theory that the girl was killed as the result of a paroxysm of passion grown in favor of the father, has been discovered who testify to the frequent quarrels between the girl and her father, and evidence multiplies that Handcock was in a state of ungovernable temper. He once threw a hammer over the fence, and has been seen to unmercifully beat his horse.

AN OLD PARTNER'S OPINION. Rev. Jonathan Miner of Boston Village, who has known Handcock intimately for seven years, expressed the opinion that the father was a man of a very different type from what he had always tried to live a good life. "For the last while," said Mr. Miner, "the wife and family have looked upon his hands being rather of a nuisance, and they have been taking him out of his hands. This, I believe, accounts for their difficulty."

"What about the family quarrels?" "No doubt when Mr. Handcock saw the way things were running he would often say, 'There, now, I told you so,' or something like that, because I am sure he would worry greatly over their debts, since he always wanted to pay every cent he owed."

It was learned that Mr. Handcock had fallen from a wagon about two years ago and injured his hand. Mr. Miner was asked about this. "He did meet with an accident of that kind; and since, he has received injury by falling from a building caused largely by dishevelment—the result of the first accident. He has from time to time since suffered intense pains in the hand."

Mr. Miner also stated that Mr. Handcock was very eccentric in his utterances and actions. Sometimes when talking on religious subjects he would use the most outlandish expressions; and at the time of his daughter's death when the family was gathered about the bedside, weeping, he exclaimed, "Never mind she has gone where the good niggers go."

The reverend gentleman further stated that Sophie was a very good girl, and that her death was a great loss to the family. He also stated that he had seen the father and mother, and that they were both in a state of great distress.

"And as to the hammer," said Mr. Miner, "I am told it was one of Mr. Handcock's. I have seen it, and I think, and have since been returned."

Crowds were gathered at the Police Court yesterday morning, led there out of curiosity to see the father and mother held by the law on the awful charge of murdering their daughter.

Shortly after 10 o'clock the couple took seats in the dock. Mr. Handcock, when he appeared, looked calm and hopeful and gazed even curiously about the court room. Mrs. Handcock looked the picture of despair and about the doleful, weeping, he exclaimed, "Never mind she has gone where the good niggers go."

After the long list of drunks had been gone through with, and after the disposal of other minor cases the Handcocks were called upon to stand up while the charge that "Edward Handcock and Elizabeth Handcock on July 16 did feloniously, wilfully and with malice aforethought unlawfully kill and slay one Sophie Handcock." Mr. Murdoch appeared for the accused.

The judge then read the indictment, and Mr. Murdoch asked for a week's respite. Mr. Handcock objected to the respite, but it was eventually granted.

It was reported that the murdered girl carried an insurance in the Home Circle as well as the City of Friends, but both policies were voided.

Isaac Doherty, the principal witness for the prosecution, is singularly enough the owner of the house in which Kane butchered his wife in this city some years ago.

THE ALLEGED MUNICIPAL BOODLERS.

Now \$20,000 Came to Be Mentioned Between Ald. Hall and A. J. Parker.

TORONTO, July 29.—Before Special Examiner Bruce yesterday the inquiry into the Handcock charges of municipal boodling in connection with the street railway franchise was begun.

Mr. A. J. Parker, president of the Amos Silver Company and a member of the Miller Bros' syndicate that tendered for the street-railway franchise, deposed: Ald. Hall is solicitor for the Amos Silver Company. I had an important interview with him on Saturday, July 11. We were discussing several points in the case, in which he was named, and after we concluded our business I volunteered the question as to whether or not he had any objection to discussing street railway matters with me. Ald. Hall began saying that he did not like the Miller Bros' tender, and he gave me to understand that he was in favor of the road being sold on a cash business basis. Mr. Hall said he was always ready to discuss city business, and would be willing to listen to what I might have to say in behalf of the Miller Bros' tender. Then I began narrating the advantages of our tender. As I proceeded Ald. Hall pointed out that the Miller Bros' tender was responsible for a great deal of prejudice against our offer, and he also told me that where we were prejudiced against that kind of tender. I asked Ald. Hall if he did not think

Royal Temperance Excursion.

40 miles ride through the beautiful northern lakes on the Ontario Highway. The best of the season! Take it in.

The Board of Trade.

There will be a meeting of the Board of Trade in the Council Chamber this evening. There should be a large attendance, as questions of importance to the welfare and future of the town will be considered.

Burglary in Campbellford.

Mr. Walters' store was entered by burglars some time last night. The fact that the thieves had been there was not discovered until this morning, and when our informant left Campbellford the particulars were unknown.

Chapter 3: Strong, cheerful, hungry.

A Farewell Excursion.

An excursion from Clarendon, Myrtle and Lonsdale Hill arrived here at noon to-day on the Canadian Pacific railway. The excursion was under the auspices of the Baptist church of Clarendon. There were about three hundred people in the party, and they were accompanied by the Clarendon brass band, which discoursed good music on the way from the station to the Central Park, where the party picnicked. The excursionists spent the afternoon in seeing the sights of the town.

Your third business trip.

Suppose we say you go to Clarendon Park. How about the company? None better: the Fire Brigade and Band are your hosts and companions. How about the place? None nicer, more breezy, more pleasant and comfortable. How about the fare? None better at 25c and 10c per G. T. R. and connect at terminals with boat for the Park. Returning, leave Park at 4:15 and 5:15 p.m. How about prices? Well, so low they hardly need mention; say 25c. return ticket for adults, children half price. Come!

10134

Fatherhood Bet.

One of the best features of the demonstration in Toronto on August 15 will be a competition drill by uniformed corps of the "Frontier Boys and True Blues." The uniforms of these corps are striking and beautiful and the drill, when exhibited as it will be on this occasion, is well worth seeing. There will also be a good programme of athletic events and addresses by prominent gentlemen. Go to Toronto that day on the "Frontier Boys" excursion, see the demonstration and spend, if you wish, a couple of days in the city. The tickets are low, 25c. Proceed on.

10134

Boating Accident.

What might have proved a fatal drowning accident, involving the loss of three lives, says the Hastings Star, occurred on Wednesday evening. Messrs. Will Anderson, Will White and H. Wilson started up the river in a canoe to try their luck at travelling, and when near the first island a huge fish pulled the boat at the end of Anderson's line and in the excitement that followed, the canoe was upset and all three were foundering in the water. For a time it looked as if Mr. Anderson, who could not swim, would have a close call, but, fortunately, the other two got out of the water in the aquatic art and managed to get the submerged canoe and Mr. Anderson safe to shore, when all three returned home wet, but without the fish.

WITH THE PADDLES AND SAILS.

Jacques Wins the Orlinda Cup—The Sports at Pigeon Lake.

BOROUGH, July 20.—There were more than the usual number of visitors at the canoe camp to-day and, in addition to the other diversions, there was also some excellent racing to occupy their attention. To-day's card was an especially large one and some great contests were sailed and paddled.

The first was the combined record race. In the first round Knowlson was first, Jacques second, with Fraser, Sparrows, Archibald and others. In the final the order was Jacques, Knowlson, Sparrows, Archibald. The latter fouled Sparrows, who protested.

In the tandem race McKendrick and Blomfield led all the way. The brush for second place was very exciting and ended in Carnegie and Knowlson coming in ahead of Darcy and P. W. Harkland, who were a bare half length behind.

The sailing trophy race for the Orlinda Cup, presented by J. B. Thompson, was won by Jacques. The previous winners were: Mason, 1897; Fraser, 1898; Archibald, 1899. The race was started in a very light and variable wind, making the first leg a little closer than a beam wind and the second almost a free run, while on the third leg once or twice the buoy was made in one leg, but as a rule they had to make a long leg on the port and a short one on the starboard. Owing to the gun missing the start was very varied in this order: Fraser, Archibald, Jacques, H. Sway, W. Sway, W. Sparrows, Lister. At the end of the first round the order was: Fraser, Jacques, Archibald, W. Sway, H. Sway, the other two having dropped out. Fraser contained his lead until the last leg of the fourth round, when Jacques passed him and kept the lead till the gun fired. He was followed by Fraser, Archibald, A. Sway, who gained over 100 yards on the last leg and was nearly overhauled by Archibald. The times for the last lap were as follows:

First buoy—Jacques, 3:33; Colin Fraser, 3:34; Archibald, 3:35; W. Sway, 3:36.10.

Second buoy—Jacques, 3:35.45; Colin Fraser, 3:37; Archibald, 3:39.10; W. Sway, 3:38.

The race for paddling canoes with single blades was started soon after this, with a very light following wind. There were only three canoes, and, owing to the canoes being directly on the starboard, it was difficult to tell who was leading, but Harry McKendrick finished by three clear lengths, and Blomfield beat Carnegie by half a length.

The next race called was the upset race for open canoes. The entries were: H. McKendrick, Carnegie, Blomfield and Knowlson. The canoe Alton Kibbi acted as judge's boat and grand stand combined, the signals being given by her whistle. McKendrick and Carnegie used the double blade. The order at the upset was: McKendrick, Knowlson, Blomfield, Carnegie. After the upset McKendrick used single blades and won easily, followed by Carnegie and Blomfield. Knowlson's canoe was too heavy to fly.

The last race to-day was the hurry-scurry. W. Sway was the first to get into the water, but he had to swim nearly a mile before McKendrick, who was the first into his canoe and row, followed by W. Sway, Knowlson, Carnegie, Blomfield and W. Sparrows.

An illuminated procession and fireworks to-night made a brilliant event. The "Theatricals" band was a great success. Dr. Kelly, from Rilliston, was a guest of the camp and "the ice cream" for the whole camp.

Mr. Lister, who has been in Manitoba, joined the Lakefield camp last night, and called his well-known canoe "Paseo" in the trophy race.

Judge Weller, from Peterborough, Mr. and Mrs. John Macdonald, from Albany; Mr. and Mrs. Walters, from Lindsay, besides over 300 other guests, visited us to-day. Another visitor was Mr. J. G. Edwards, who anchored his yacht off headquarters all day.

Vice-Commodore Oul, Cotton was a guest of the Toronto Canoe Club to-day.

Ayer's Cathartic Pills are recommended by the best physicians, because they are free from calomel and other injurious drugs, being composed of purely vegetable ingredients. While thorough in their action, they stimulate and strengthen the bowels and secretory organs.

Oh, What a Cough.

Will you heed the warning. The signal parades of the more approach of that more terrible disease consumption. Ask yourself if you can afford to take the risk of neglecting it, or if you are doing nothing for it. We know from experience that Shilo's Cure will cure your cough. It never fails. 10118-20

Weekly Entertainment.

The Royal Temperance men had their weekly entertainment in their hall on Hunter-st. last night, and as usual their programme was excellent. Mr. R. R. Armstrong clearly presented the claims of the select degree, awakening great interest there. A piano solo was very ably rendered by Miss McEltherum and Peterborough's popular reader, Mr. O. G. Brown, carried the meeting at will from the sombre depths of grave thought to most uncontrollable laughter at his many tales and witty stories. Miss McEltherum gave a vocal solo in magnificent voice and to a rapturous encore she responded with fine execution and taste.

Rev. Dr. Ford, of Parkhill, formerly of Peterborough, is visiting friends in town.

Mr. John Britton, Jr., of Warsaw, N. Y., who has been absent for a number of years, is home on a visit.

Rev. E. J. Hunter, B.A., of Millbrook, was yesterday offered a unanimous call to the Presbyterian church in Hildesheim, Ont. Mr. Hunter is a son of the late Wm. Hunter, of Cedar Valley, and is a graduate of Queen's University and Knox College. He has also been offered a call to Harrison and to Port Perry, both of which he has declined.

Leading in the Ale Line.

Another car of the finest Bottled Ale of the Dominion Brewing Co., has been received by W. J. Morrow, which goes to show he is supplying the trade of the town. All his ale is perfectly matured before shipping, and is therefore in the finest condition. As he is the only person in town buying ale in the large quantities in which he buys, he is the only person to whom to look for matured ale. You will hear White Label Ale run down by some firms in town, but as they are small consumers they cannot procure the proper stock; hence the result.

A Case of Co-operation.

Where one may not accomplish the united effort of many will succeed. The excursion on the Ontario Highway to Toronto, Niagara Falls and Buffalo is an instance of the benefit of a combined effort. To go singly to the four cities would cost \$7. To go with the Little John Foresters excursion the trip will cost only \$2.50 to Buffalo. Never before has so low a rate been secured. The excursion will go over the O.P.R. and by steamer from Toronto to Lewiston, and by rail to the Falls and Buffalo. The Falls present a scene of grandeur and never appeared to better advantage. Look at the following rates:—

As Answer to Mr. Fitzgerald.

To the Editor of "The Review."

SIR,—I was rather amused on reading the letter over the signature of Mr. J. W. Fitzgerald in last evening's Examiner. He says that he wrote the letter on 14th but withheld it to return inside of another quarter. Will Mr. Fitzgerald please tell us what quarter he means? Give it to us, by all means.

As to that part of his letter referring to a distribution of fly sheets some time ago and to the representatives of the ridge, it may pass for what it is worth.

I admit that I was present at a private dinner, on the invitation of Mr. O. W. Havers to a few friends to meet Mr. N. G. Wallace, M.P., on his first visit to Peterborough. There was no Orange demonstration, no colors shown, and no music, speeches or toasts, as Mr. Fitzgerald would have people infer from his letter. I assure him it would have done him good and been a great deal of the exorbitant prejudice out of his mind. I can assure Mr. Fitzgerald that nothing but the best of etiquette and good feeling was shown to the Catholics present, and everything connected with the dinner tended to allay the ill-feeling that did or does exist.

Mr. Fitzgerald says "the presence of Irish Catholics at such meetings is to be deplored; the spectacle is a sad and sorry and humiliating one." I have never seen a Catholic or a Protestant publicly or privately. As a representative in the Council I do not care to be a Catholic or a Protestant, but I do care to be a citizen. I am not in the Council to represent Catholics; I am there to represent the people, and that duty I have endeavored to fulfill and will continue to do so, without fear or favor of any kind or class or creed. I am not a Catholic or a Protestant, but I am a citizen, and I intend to represent all classes and creeds, and I intend to do so in the most efficient manner. I am not a Catholic or a Protestant, but I am a citizen, and I intend to represent all classes and creeds, and I intend to do so in the most efficient manner.

Sick Headache

Is a complaint from which many suffer and few are entirely free. It is caused by indigestion and a sluggish liver, the cure for which is readily found in the use of Ayer's Pills.

"After the use of Ayer's Pills for many years, in my private and family, I am justified in saying that they are an excellent cathartic and liver medicine, and that they are the most reliable remedy for all the ailments named."—W. A. Wood, M. D., V. F. Smith & Co., New York, N. Y.

"Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered stomach and liver. I suffered for over three years from headache, indigestion, constipation, and I had no appetite and was weak and nervous most of the time. By using three boxes of Ayer's Pills, and at the same time drinking myself, I was completely cured."—Philip Lockwood, Topsham, Maine.

"I was troubled for years with indigestion, constipation and headache. A few boxes of Ayer's Pills, used in small daily doses, relieved me of all these troubles, and I am now a healthy man."—W. H. Street, Medford, N. J.

ODOFELLOWSHIP.

Meeting of the Annual Grand Odo Fellowship at Galt.

GALT, July 29.—The live town of Galt was the scene of unusual activity and gaiety yesterday. The whole town was out to receive and entertain the delegates to the 32nd annual meeting of the Grand Odo Fellowship of Ontario.

The first session was held at 9 a. m., and at 3 p. m. Mayor Laidlaw gave the visitors a hearty welcome at a public meeting in the town hall. There was afterwards a grand programme of sports and games.

A Third Sealer Caught.

VICTORIA, B. C., July 29.—The schooner Annie E. Paine returned from the North yesterday with 100 fish. The Paine was ordered to return to Victoria by the Thetis, making the third time now in port. The captain of the Thetis says that the schooner was captured by the officers of the Thetis who took the crew and ammunition from the schooner and then turned her over to the officers of the Thetis, who ordered them to proceed to Victoria.

TEN HOURS AGONY

Suffered by Victims in the London Chemical Works Explosion.

LONDON, July 29.—Harrowing scenes have been witnessed at (Gateshead), where the consequences of the chemical works explosion, causing the death of six workmen and the injury of several others. The harvesting of the consequences shattered the building and caused the huge chimneys to topple over. It was the falling of these chimneys that caused the victims. One of the injured men is still pinned down by the debris, having suffered agony for 10 hours during which time hundreds of people have been trying in vain to release him. The unfortunate man is now held down that every effort to extricate him adds to his suffering, and he prays to be let alone to die in peace. All that can be done is to give him tea and brandy, without which stimulus he would have succumbed ere this. The wrecked building is surrounded by an excited and impatient throng.

Whites Galters—100 captured.

LONDON, July 29.—A school of over a 100 Whites Galters, near Kirkcubright, on the (Gateshead) coast, and hundreds of the inhabitants of that district, armed with weapons of every description, rallied to the spot and began firing the huge creature and dragging the carcasses ashore. Not a single one escaped. The scene was unique in whaling annals. The people of the vicinity have been suffering from hard times and are inclined to think the sudden free gift of so much edible and saleable matter providential.

Cured by Cuticura.

Our little boy broke out on his head with a bad form of eczema when he was four months old. We tried three doctors, but they did not help him. We then used your three Cuticura ointment, and after using them three or four times, the itching stopped, and the skin cleared up. We are now perfectly cured. We are now perfectly cured. STARTLING BARGAINS

TURNBULL'S

We are showing a magnificent range of American Express Delanices at 5c. a yard, also Gray and Blue Chambrays wide widths at 5c. a yard. We have still a full range of those jet Vesties we have been clearing out at unheard of prices, starting at \$1.50 each up to \$3.00, for new and stylish shapies.

We want to clear out the balance of our Ladies' Print and Wool Delanice Blouses this month and now offer the first line at 50c., fancy patterns at 75c., Figured Wool Delanices at \$1.75 for \$1.25, Cream Wool Esdrame Cloth that was \$1.50 for \$1.00, Cream Opera Flannels that were \$2.00 for \$1.50.

We show a very full range of Flannelette which we import ourselves. These goods are much wider and better than the Canadian makes usually shown. They are in Cream and Cardinal Stripes, Cream and Blue, Cream, Cardinal and Blue mixed, Cream, Cardinal and Fawn; Fawn grounds with Cream and Cardinal lines, gray and white stripes. Also all the usual patterns in other makes. We have just opened out a fresh supply of what we think to be the best 50c. Corset in Canada. Our Fall purchases are beginning to roll in already and we are jobbing out many lines to make room on the shelves.

THE MOB DANCED

AND THE TROOPS WERE CALLED TO QUELL THE STRIKERS.

But the Task Was Not Accomplished Until There Was Considerable Destruction of Property and the Cavalry Had Injured Many Persons.

TORONTO, July 31.—The strike of employees of the Great Northern Railway has assumed serious proportions. The strikers today demolished the tracks on the principal thoroughfares and tried to destroy the tracks of the lower end. Later the strikers gathered large quantities of wreckage into heaps and set fire to them, making huge bonfires around which they danced and shouted in triumph. Finally the situation became so alarming that the municipal authorities called upon the General in Command of the military division of Toronto to send troops to their assistance. The general promptly sent a strong force of dragoons, which quickly cleared the streets of rioters and others. During the charge made by the cavalry many people were injured and a number of arrests were made. The cavalry now occupy all points of strategic importance on the boulevards, while infantry and police are guarding the other main thoroughfares and the public buildings.

Business and the Jews.

BOSTON, July 31.—The Russian Jews who arrived on the steamer Fortmeyer here as refugees from the pogroms in Russia, have been put to rest in the cemetery of the Russian community. The Jews of this town were ordered to vacate their houses and to leave the city, and many of them were arrested and confined in the city prison. The Russian community here is now suffering from the loss of their homes and their property. The Russian community here is now suffering from the loss of their homes and their property.

Struck by Lightning.

HAMILTON, July 31.—Yesterday the barn of Patrick Wright, in West Flamborough, was struck by lightning. It was set on fire and burned to the ground, with its contents, consisting of a quantity of hay, barley, etc. The loss will be between \$2,000 and \$4,000. The storm was very severe in that part of the county.

With health and beauty today.

A fine new line of goods.

To women, pale and wasted.

Such the object and such the mission of woman's valued friend, Dr. Pierce's Favorite Food.

Don't let any unsatisfactory medicine prevent you from obtaining the health and beauty of a young girl. By this most excellent remedy, some of the most common weaknesses and diseases peculiar to women, but which readily yield to its magical power! Manufactured, recommended, sold through druggists, and purchased by the World's Dispensary Medical Association, Buffalo, N.Y., to give satisfaction in every case, or money paid for it cheerfully refunded.

STARTLING BARGAINS

AT

TURNBULL'S

We are showing a magnificent range of American Empress Delanes at 5c. a yard, also Grey and Blue Chambrays wide widths at 5c. a yard. We have still a full range of those jet Vestes we have been clearing out at unheard of prices, starting at \$1.50 each up to \$3.00, for new and stylish shapes.

We want to clear out the balance of our Ladies' Print and Wool Delane Blouses this month and now offer the first line at 50c., fancy patterns at 70c., Figured Wool Delanes that were \$1.75 for \$1.25, Cream Wool Edmaine Cloths that were \$1.50 for \$1.00, Cream Opera Flannels that were \$2.00 for \$1.50.

We show a very full range of Flannelette which we import ourselves. These goods are much wider and better than the Canadian makes usually shown. They are in Cream and Cardinal Stripes, Cream and Blue, Cream, Cardinal and Blue mixed, Cream, Cardinal and Fawn; Fawn grounds with Cream and Cardinal lines, gray and white stripes. Also all the usual patterns in other makes. We have just opened out a fresh supply of what we think to be the best 50c. Corset in Canada. Our Fall purchases are beginning to roll in already and we are jobbing out many lines to make room on the shelves.

THE COMING AQUATIC EVENT.

The Great Rowing Talent Now Quartered at the Hotel.

BIRMINGHAM, Aug. 4.—The Ocean House holds four of Canada's leading rowmen, including two ex-champions of the world, and they are now quartered at the Hotel.

On the morning of July 7, the two ex-champions, Mr. J. H. and Mr. W. M. of the team which won the gold medal at the London regatta, were in the hotel.

All agree that they will take a lot of heat in the race at the regatta. They are in the hotel and are in the hotel.

Next has taken the cue from his partner, and is not talking as much as usual, but they were never more confident of anything in their lives than they are of winning the great struggle on Saturday.

Gaulard and McKay are feeling pretty much at home in the Ocean House now. They are in the hotel and are in the hotel.

Gaulard does not believe in violent exercise, and he attributes Debonhe's defeat to the heavy work which he performed before the race at the regatta. They are in the hotel and are in the hotel.

CANADIAN TRAGEDIES.

CRIMES WHICH ARE OCCUPYING THE PUBLIC MIND.

The Handcock Murder Case—The Rouge River Victim Identified—A. M. Mary's Man Hanged Himself—Arrested in British Columbia for a Murder of 16 Years Standing.

Toronto, Aug. 4.—"Sophie Handcock was killed by her father in the course of one of numerous quarrels which occurred between them. This is the solution of the Fairbank mystery which Government Detective Greer has arrived at after 10 days investigation into the case, and he has accumulated considerable additional evidence, a portion of which will be laid before the magistrate when the case is called at the Police Court to-day. It has been expected that a further remand would be ordered by the magistrate, but Detective Greer believes that he has sufficient evidence to make out a prima facie case against Edward Handcock. In the absence of County Crown Attorney Judewitz, Mr. K. P. B. Johnston will probably appear for the prosecution and Mr. Murdoch will appear for the defence. No evidence will be offered to connect Mrs. Handcock with the crime, and she will probably be released at the outset.

The rumour that Sophie had a lover and that she was about to be married, and that a motive therefore existed for her death, cannot be substantiated, and the belief is general that the murder was motiveless, that it was simply the deed of a man in the heat of passion, and that in order to cover up the crime the father resorted to the desperate measure of murdering his daughter. A theory is advanced and impossible of support, judging from the nature of the wounds found on the dead girl's body.

There was a single wound 21 inches above the external opening by the left ear, 11 inches long by half an inch upward towards the top of the head. The bone of the skull was fractured beneath the external wound and a quarter long and half an inch wide, extending slightly from without inward. There was a hole in the brain substance which went through the whole thickness of the brain and ended in the lateral ventricle, communicating externally with the wound in the skull. Radiating from the hole in the skull was a fracture extending to the junction of the horizontal with the vertical plate of the frontal bone. There was a fracture proceeding backwards and upwards from the suture at the top of the head. Two inches in front of this there was another fracture passing upwards to the crown of the head.

Detected the fact that the murdered girl's father's hammer will be in his possession within 24 hours. He yesterday received an anonymous communication indicating the possible place where the weapon was secreted.

Constipation,

It is not unusual in persons, to be able to become habituated to chronic constipation, by overlooking the bowels, rather than cure the evil. Ayer's Pills, being mild, effective, and strengthening in their action, are generally recommended by the family as the best of cathartics.

"Having been subject, for years, to constipation, without being able to find relief, I at last tried Ayer's Pills. I deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years I have taken one of these pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 25 East Main st., Carleton Place, Ont.

"I have been taking Ayer's Pills and they have done me much good. I feel better and more cheerful, and I am in excellent health."—John M. Duggan, Louisville, Ky.

"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural and regular motion, so that now I am in excellent health."—A. J. Longbridge, Bryan, Texas.

"Having used Ayer's Pills with good results, I fully endorse them for the purpose for which they are recommended."—T. Conners, M. D., Centre Bridge, Pa.

A ROMANCE OF TWO BROTHERS.

After several more months came a letter that shocked and by no means pleased Gerald. His brother had quite suddenly married a young woman whom he described as possessing much beauty and every charm of culture. Her name was Lucia Pythian, and she was the daughter of a gentleman who now was dead but who had been a jurist of great note. "Lucia is his orphan child," wrote Hyman. "and I first met her she was the ward of an aunt who owned the household at which little Hyman and I were poor slaves venturing to ask for a new pair of gloves. It was horrible Gerald, and it was my warm pity. Love soon slipped into my heart by the same which play had left ajar. I dare say it is often just like that with us; don't you think it? Well, Lucia is my wife, now, and a fine little wife she makes. I am perfectly happy—or would be, for yourself, dear brother. Of course I always can spare you something until your own future proves you are not a poor devil. Well, you will understand that my living expenses must now undergo a marked amendment, and—Gerald read no more, for

GERALD CRUMBED THE PAPER IN ONE HAND, the present, but crushed the paper in one hand with his fair skin crimsoning below his sunny locks.

It was cruel of Hyman to serve him such a trick! But never mind; he would move heaven and earth, now, to show that he could shift for himself. This was the unjust British law of primogeniture! He would have had all, since he legally had it. "I'll live on a crust a day," fumed Gerald, "rather than play pensioner. This Lucia Pythian (who possibly married Hyman just to get those pairs of gloves that he snatched so stately about giving her) shall be bored by any reluctance of a brother-in-law overseas. I'll turn every first day I will!"

But he had no need to turn away. Hardly a day after he had made this proud resolve, a stranger called at his rather humble lodgings. Gerald looked at the man through the card handed him, without at first the faintest thrill of memory. Soon afterward it flashed upon him that his father's old Cambridge friend had been that name, and he went to meet Dr. Thorndyke with a sparkle in his azure eye and a loneliness in his hand which cheered the visitor like a medical drama.

"Less love of your father in you," Ross Thorndyke at length said. "His eyes were grey, but yours would be exactly like them if they were not blue. And as your brother Hyman is in America? How unfortunate that I should not have known it, who have lived in Chicago for an age. I might as easily have looked him up before I boarded the steamer in New York."

"It's too bad that you didn't know he was there," said Gerald. "You told me a few minutes ago I think, that you greatly wanted to see him."

"Yes, greatly. I crossed the ocean for that purpose."

"Just to see Hyman? Really?"

Dr. Thorndyke slowly nodded. He seemed to stare in the most absorbed way. Gerald watched him aged and altered face. That gray hair, those lined features, that baldness which wrinkled his fine brow just as it sometimes betrays and betrays others—all were marks of change that had their effect upon his own youth. For it is true of us that when we are young the marked features of those whom we have looked on as frail from all time's harsher touches, assume a certain life and meaning which have their roots in our human hatred of either reality or death.

"You replied Dr. Thorndyke, 'just as you say, to see Hyman. And he's married, you tell me, and you've been yesterday heard the news. Has he depressed you?'"

"Very much," Gerald murmured. Then he said more, and while he said it his father's old friend most intently listened.

"Gerald," he broke forth, as the young man finished, "I know exactly why this marriage has disturbed you. You're not yet through your course of medical study here in England. You're afraid. But my boy, don't fear a minute longer. And he put out his hand, which Gerald grasped, with a strange hope beginning to bloom and brighten in his soul. "I have the world to face all alone, now," said Gerald. "I don't feel as I once did, dependent on Hyman, who can himself ill afford."

"I understand," said Dr. Thorndyke. His face beamed with sympathy as he promised, most arranged all that. We can, my boy, and we shall. But first please answer me a question. How old is Hyman?"

Gerald reflected for a moment, and then said: "He lacks a few months of twenty-eight."

and mystified, "may I ask you, sir, what those rumors are?"

"Nothing," answered the doctor. "Nothing, I assure you." But Gerald was severely vexed and said that "nothing," which struck him as less diplomatic than repellent.

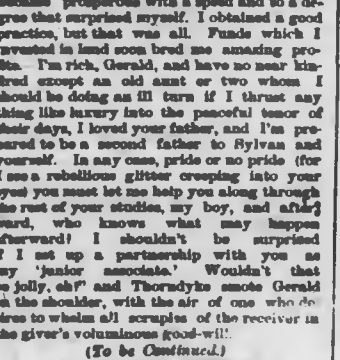

CHAPTER IV.

Soon, however, Dr. Thorndyke changed the current of talk in a way that was fraught with his humor both with interest and distraction.

"I should have known of your own and Hyman's whereabouts," he said, "if relations of a friendly sort had remained between your mother and myself after your father's death. But unhappily this was not the case."

"I never knew," began Gerald. "Of course you don't know, my dear boy," was the interruption.

"Why should even you or Hyman have known? You were both too young. Your mother and I did not harmonize; let me add, and at my moment of beginning. Soon after your father's death I went to America. In Chicago I

became prosperous with a speed and to a degree that surprised myself. I obtained a good practice, but that was all. Funds which I invested in land soon drew me amazing profits. I'm rich, Gerald, and have no near kindred except an old aunt or two whom I should be doing as ill turn if I thrust any thing like luxury into the peaceful bosom of their days. I loved your father, and I'm prepared to be a second father to Hyman and yourself. In any case, pride or no pride for I am a rebellious glimmer creeping into your eyes you must let me help you along through the rest of your studies, my boy, and after that, who knows what may happen afterward? I shouldn't be surprised if I set up a partnership with you as my 'junior associate.' Wouldn't that be jolly, eh?"

And Thorndyke smiled Gerald at the shoulder, with the air of one who allows to whom all scraps of the receiver in the giver's voluminous good-will.

(To be continued.)

Ask Your Friends About It. Your destruction could be cured. We know it because Kemp's Balsam within the past few years has cured so many coughs and colds, and it is so simple to use, that it has been used by its general public. Ask some friend who has used it, or write to Kemp's Balsam Co., and they will send you a sample bottle free of charge. It is no medicine, but pure, some effective. Large bottles 50c, and 10c at all druggists.

The Eastern Situation is Critical. London, Aug. 11.—The statement is made on what appears to be good authority that the situation in the East is becoming more and more serious. The local authorities are in constant warfare and are killing one another off by wholesale. The local authorities are powerless to stop the disorders and the regular troops stationed on the island are being taken away to the side the ports in putting down the rebellion in Arabia.

England and the Spanish American Treaty. London, 11.—The Observer contains an alarming article, denouncing the political leaders of England for not appreciating the serious effect which the Spanish-American treaty is certain to have upon British interests in the West Indies.

It says the treaty will surely shut out the English West Indian possessions from the United States markets and Cuba to Canada. British trade will be reduced to the extent of £2,000,000 annually.

The Observer urges the encouragement of closer relations between Canada and the West Indies as an effect of the treaty.

Do tell it, ye brazen, from desert to sea. The "Prescription" has triumphed, fair to say.

Dr. Pierce's Favorite Prescription is the one remedy above all others! Made expressly for women, it is adapted to all conditions, and fulfills every requirement.

No condition so critical as to defy it! As a woman's restorative and regulator, it is the "Favorite Prescription" for all the ailments of the female system. Positively guaranteed to give satisfaction in all cases, or money paid for its return. The only medicine for women sold on trial!

How to Sell

More Goods.

Has it ever occurred to you that you might profitably increase your present volume of business by doing a little general newspaper advertising with the idea of reaching the Consumer? Take some special brand or make of goods which you honestly believe possesses merit, and push it with a moderate amount of advertising in the widely circulating news papers and magazines, or in the leading dailies and weeklies of some selected State or section. If done judiciously, you will soon begin to realize results in the form of increased orders through the trade.

These assertions are proved by the experience of business houses whose names are familiar from one end of the country to the other. Look at the record made by the manufacturers of "Royal Baking Powder," "Sapio," "Pearline," "Pears' Soap," "Alcock's Porous Plaster," etc. It is not necessary to advertise your entire line of goods, but, by selecting some good article as a "leader," and persistently pushing that, it is possible to build up a large and independent trade.

VALE SIR HECTOR

The Minister of Public Works

Hands in His Resignation.

HE IS AN INNOCENT MAN.

So He Protests Throughout His Voluntary

Statement of Manipulating Tenders

or Collusive Contractors He Says He

Knows Nothing—A Political Bombshell.

OTTAWA, Aug. 12.—Sir Hector Langevin

has handed in his resignation as Minister

of Public Works. The resignation of Sir

Hector has proved a veritable bomb shell in

political circles. It was totally unexpected

at this stage of the proceedings and is the

shocking topic.

Before the Privileges and Elections Com-

mittee yesterday Sir Hector Langevin ap-

peared and made a statement. He pro-

ceeded by saying that he had read the evi-

dence in the case and he had been con-

vinced that he was innocent of the charge

connected with the charges, he had decided

on his own free will to come and make a

statement under oath.

He was asked to read his testimony from a

type-written document. He said that if

Mr. Tarte is making his charges in the

House he will be directly implicating him

he would have resigned as the custom was

in England in such cases. But Mr. Tarte's

charges were aimed at Thomas McCreary,

and that he had no part in the matter.

When the evidence was reduced to its

simplest form, he was asked to state what

he knew of the charges. He said that he

was not a party to the charges, and that

he was not a party to the charges, and that

he was not a party to the charges, and that

he was not a party to the charges, and that

he was not a party to the charges, and that

Constipation,

It is not remedied in season, is liable to become habitual and chronic. Dr. J. C. Ayer & Co., Lowell, Mass., confirm, rather than cure, the evil. Ayer's Pills, being mild, effective, and strengthening in their action, are generally recommended by the faculty as the best of purgatives.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills. I deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years now I have taken one of these pills every night before retiring. I would not willingly be without them."—O. W. Brown, 25 East Main st., Carlisle, Pa.

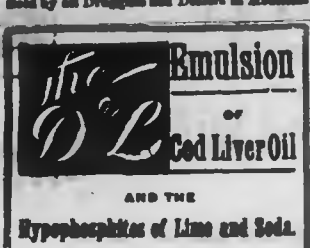

"I have been taking Ayer's Pills and feeling them in my family since 1887, and cheerfully recommend them to all in need of a safe but effective cathartic."—John M. Duggan, Louisville, Ky.

"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural and regular action, so that now I am in excellent health."—S. L. Longbrake, Bryan, Texas.

"Having used Ayer's Pills, with good results, I fully endorse them for the purpose for which they are recommended."—T. Conners, M. D., Centre Bridge, Pa.

A ROMANCE OF TWO BROTHERS.

As a real fact, Rom Thordyke had no further intention of practicing again through the rest of his life. He had been a doctor for many years, and had been successful in his career. He had been married to a woman who was a doctor's daughter, and they had been living in a small house in the city. He had been a doctor for many years, and had been successful in his career. ON FIRE WITH ECZEMA

Terrible sufferings of Little Baby. Severe Eczema and Two Hospitalizations. Cured by Cuticura.

My baby boy, 1 year old, broke out with eczema. The itching and burning was intense; the eczema appeared on his limbs, breast, face and head until he was nearly covered. His torturing agonies were pitiable to behold. He had no power and lost his rest night of day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit. For months I expended about \$2 per week for medicine, and was entirely discouraged.

I purchased CUTICURA, CUTICURA SOAP and CUTICURA EMULSION and followed the directions in the letter. Relief was immediate; his sufferings were ended and rest and sleep resumed. He steadily improved and in a few weeks was entirely cured and has never been troubled with eczema. I can say as any mother could wish to see, I recommend every mother to use it for every baby's eczema.

SATURDAY, AUGUST 15, 1891.

THE CITY AND SUBURBS.

Board of Trade.
The Board of Trade will meet on Monday evening, the 18th inst., in the Council Chamber at 8 p.m., at which time the report of the Committee on the petition of the Farmers' and Horticulturists' Association for a market will be presented.

Popular Excursion.
On Thursday, August 14, to Grimsby Park and Niagara Falls. Tickets 25c, good for 3 days, allowing plenty of time to visit Park and Falls. For further particulars see posters or ask O. T. R. agent.

Why is the Agent?
Because it has proven its absolute merit over and over again, because it has an unequalled record of cures, because its business is conducted in a thoroughly honest manner, and because it is the only medicine of which "One Hundred Does One Dollar" is true—these strong points have made Hoad's Balahepa the most successful medicine of the day.

A Fine Wagon.
The Town Delivery (Mr. R. White's, 11 Onger-st.) has a fine new delivery wagon on the road. It was made by Messrs. Fitzgerald & Stanger, as Mr. White knew he could get as good work in town as elsewhere, and it is a well-built and convenient wagon for the purpose. Besides the name of the dairy, there is a life-like Jersey cow painted on each side of the wagon.

Y.M.C.A. Note.
Meeting for young men tonight, led by Mr. G. J. Kelly. Just one hour. Every young man welcome.
Sunday morning meeting led by Mr. A. Hamilton. Afternoon meeting in the Park at 4 p.m. Y.M.C.A. band in attendance. Address by Mr. W. Chambliss.
Gospel and song service at 8 p.m. to be addressed by Rev. W. M. Rogers, of London. Everyone welcome.

A Runaway.
Yesterday afternoon about four o'clock a team of horses, driven by Mr. J. Kennedy and drawing a load of seed, ran away from the corner of George and Murray-sts. when Mr. Kennedy had got off the wagon. Mr. Kennedy's little five-year-old son was on the wagon and with him the horses ran down George-st. at as rapid a gait as they could go. People who saw the child's position were terrified, but none could help him. At the corner of Hunter-st. the flying horse ran into the rear end of a load of ties. One of them was knocked down, but did not seem to be injured. This stopped them and the lad was rescued from the wagon by his father. A broken tongue of the wagon was the only damage done.

Funerals.
Mrs. Charles Murphy, of Lockport, N.Y., is visiting in Peterborough, the guest of Mrs. Geo. Munro, Division-st.
Mr. T. M. McFadden has been appointed superintendent of the work on the George-st. Methodist church tower.
Mr. R. O'Connell, of San Francisco, Cal., a large dealer in dry goods and clothing in that city, is in town spending a few days. He is the guest of his wife, Mrs. J. O'Connell, of the Raleigh Hotel.
A party went up to Mr. R. W. Grubb's island, Hazelwood Lodge, Honey Lake, this morning to enjoy a two weeks' outing. It was composed of the following ladies and gentlemen:—Mrs. Macdonald, Mrs. E. Macpherson, Miss Macpherson, Miss Dumble, Miss Archer, Miss Halliday and Miss Amy Halliday, and Messrs. G. A. Macdonald, W. D. Parker, O. N. Brown, W. F. Johnston and G. L. Gower.

Much injury is done by the use of irritating, griping compounds taken as a purgative. In Ayer's Pills, the patient has a mild but effective cathartic, that can be confidently recommended alike for the most delicate patients as well as the most robust.

ANOTHER DROWNING ACCIDENT.

The Seventh Victim of Miss Lake Waters in the Province of Ontario.

Last evening the body of a man was found in Miss Lake. Some Haverhill Indians found the body floating near Haverhill Point and on being brought to the shore it was found to be that of William H. Davis, a member of the Alderbrook band of Indians.

On Tuesday, the same day as the terrible drowning accident occurred near Haverhill, the unfortunate man was at Haverhill Point and had supper at the hotel there. That was the last seen of him alive. His canoe floated into Harwood on Thursday, which would indicate that an accident had happened while he was in his canoe and that he had been upset into the water. Nothing more was heard of him until the body was found.

An inquest not being considered necessary the body was removed for burial to-day. This is the seventh death by drowning within thirty days in Miss Lake.

Flowers Crushed.
Walter Mennie, a son of Mr. D. Mennie, took the ends of his fingers between the other digits badly bruised, while playing with a holistic tackle at the George-st. Methodist church tower Thursday evening.

The New Army Officers.
The new officers to take command of the local corps of the Salvation Army arrived and conducted the meeting for the first time on Thursday evening. Knight and Mrs. Steele are the two chief officers with Lieut. Green as second officer.

An Arm Sealed.
Mr. "Tuck" Moin, employed at the Edison Works, met with a painful accident yesterday. He was engaged cutting some shingles when the ladder on which he was standing slipped and he fell between two engines. He caught hold of a steam pipe in attempting to save himself and the steam escaping, his arm was badly scalded.

Blood Poison.
It is very liable to follow contact of the hands with what is known as poison ivy, especially in hot weather or if the body is perspiring freely. The trouble may be worse for a time, only appearing some days after contact with the plant. The most serious form of blood poisoning is erysipelas, which is a disease of the blood vessels. It is caused by a germ which enters the system through a wound or abrasion. It is characterized by a red, swollen, and painful area, which may spread to other parts of the body. It is a serious disease and requires prompt medical attention.

The Curtains Were Burned.
An alarm of fire was sounded this morning just before the brigade left the station word came in that the big hall had been destroyed. Curtains in a dwelling house at the west end of Brock-st. occupied by Mr. Bullen caught fire. Mrs. Bullen with presence of mind tore down the flaming curtains and smothered the fire before the flames had an opportunity to spread further.

Playing with Explosives.
Ed. Donoghue, the ten-year-old son of Mr. Dan. Donoghue, was playing yesterday afternoon with some companions. They had some fire-works which they were investigating when the powder in a rocket was ignited and the explosive was sent into the air. The unfortunate lad's face, fortunately, he closed his eyes and saved his sight. The powder was thickly imbedded in the poor boy's face, making a painful wound. Dr. King attended him.

Whiskers that are permanently gray or faded should be colored to prevent the look of age, and Buckingham's Dye works all colors in coloring brown or black.

A Banquet.
Messrs. J. R. Oke & Co., wholesale fruit dealers of Port Hope, captured a tarantula in a bunch of bananas a few days ago, says the Port Hope Times. The brute, if it may be so termed, carried its nest with it when trying to escape. The nest was preserved and now a swarm of little tarantulas are beginning to move about inside of it. The captors are wise, they will give these poisonous little "varmints" a wide berth. Mr. Frost, grocer, also captured and killed one of these brutes in a bunch of bananas from Mr. Oke's establishment.

Religious Services.
The following is a list of services in the several churches on Sunday:—
St. John's Church.—Rev. J. O. Davidson, M. A., Rector. Rev. G. R. Kesteven, M. A., Vicar. 11th Sunday after Trinity. 10 a.m. Holy Communion. 11 a.m. Morning Prayer. 3 p.m. Sunday school and Bible classes. 7 p.m. Evening prayer and sermon. All seats free in evening. Ushers on duty, Messrs. H. Long, J. Jones, Frank Perry and Macfarlane Wilson.

St. Luke's (Ashburnham).—11th Sunday after Trinity. Morning Prayer, and Holy Communion at 11 a.m. Sunday school and Bible class at 8 o'clock p.m. Evening prayer and sermon at 7 p.m. Services conducted by the Rev. J. W. Hoadley. All seats free. Strangers are welcome.

St. Peter's Cathedral.—At St. Peter's Cathedral, Roman Catholic, there will be two masses celebrated the first at 8 a.m. and the second at 10 a.m. Sermons at 8 a.m. and 10 a.m. by Rev. Fr. O'Connell. At 11 a.m. and 7 p.m. will be conducted by Rev. Fr. O'Connell. Sunday school 10 a.m. and 7 p.m. Strangers cordially welcome.

St. Andrew's Church.—Services at 11 a.m. and 7 p.m. The Rev. Dr. Campbell, of Lindsay, will conduct both services. Sabbath school and Pastor's Bible class at 8 o'clock. All cordially invited. Seats free.

St. James' Church.—Services at 11 a.m. and 7 p.m. by Rev. Fr. O'Connell. Sunday school 10 a.m. and 7 p.m. Strangers cordially welcome.

St. Mary's Church.—Services at 11 a.m. and 7 p.m. by Rev. Fr. O'Connell. Sunday school 10 a.m. and 7 p.m. Strangers cordially welcome.

POLICE PENALTINGS.

A Disgraced Book-keeper Affords Some Amusement to the Town.

There was a session of the Police Court this morning when Mr. A. V. R. Young, J. P., presided in the absence of the Police Magistrate. Mr. Chas. Cameron, J. P., was associated with Mr. Young on the bench in disposing of two cases which required a court of two Justices of the Peace.

Owen Baker, a common drunk and disorderly, first had his fate decided. He was said to be living in Lakeside and had intended going there yesterday, but was overpowered by the alcoholic fog and missed the train. He pleaded for mercy. The sitting magistrate was lenient and discharged the man telling him to proceed to Lakeside and seek liquor.

A cow case was next. Mr. John Kingston was charged with allowing his cow to run at large. He pleaded not guilty. Constable Stewart had been summoned to the hospital grounds at five o'clock last Friday evening to look after the horse which was holding a race track in the hospital grounds. Mr. Kingston pastures his cow in a field owned by Mr. Britton and which adjoins the old Methodist cemetery. The cow had evidently strayed from the pasture and into the cemetery and hospital grounds and Mr. Kingston thought Mr. Britton or the hospital Trust were to blame for the poor condition of the fence.

The case was adjourned until Monday. Mr. Kingston gave his decision on the case. Mr. Cameron, J. P., then went on the bench to assist Mr. Young in disposing of a vagrant who had been captured by the police. The man went by the name of David Brown. He had a half-forged head, set on a short, stout body, but on his subterranean countenance were drawn deep lines of dissipation. The man was slightly deaf and had to approach the seat of justice in order to hear the charges read against him. Having heard it after Mr. Young had repeated it twice in his loudest and most clear tones, the unfortunate lost a flow of rhetoric that fairly dazed the Court and the spectators. He spoke as one who had been educated, but a glance at his exterior told how he had fallen. He said he was a book-keeper by profession and for fifty years his character had stood the test for honesty. He had come to Peterborough expressly to get employment but had failed in his search for such. "I intended," he said, "to have joined the Salvation Army last night and if you let me go I will do so to-day and do better." When asked how he came to be in the Court, he said he was waiting for a chance to get out of the country. He was waiting for a chance to get out of the country. He was waiting for a chance to get out of the country.

Have any truly great men at the present day? Some doubt it, and ask to be shown the modern Washington, Franklin, or Webster. However this may be, of one thing we are sure, there never was a greater blood purifier than Ayer's Balahepa.

Catholic Order Foresters.
On Tuesday night there will be held the last preliminary meeting previous to organization and installation of officers of St. Peter's Court C.O.F. Every applicant is particularly requested to be present without fail. The meeting will be held in the Murray-st. school.—By order. 1038

August 15th.
"Go with the citizens' excursion" to Bar-leigh Falls and Honey Lake on Civic Holiday if you want a day's real pleasure for a small sum. It will only cost you 50 cents and you will see a sight that is well worth the price. The excursion will leave the City in the land of campers that will do your heart good and make you long to be there. What camp? 10108

The Great Destroyer.
Is named Catarrh. It kills the hearing, impairs the power of speech, deadens the faculty of the mind, and destroys the vitality of the system. It is a terrible disease, and its first appearance is a cold. At this stage it should be met with Catarrh Cure. Price 50 cents, and its further progress is arrested. It cannot supply you with this life-saver, send the price to Clark's Oriental Oil, Toronto, and a package will be sent to your address.

Special Day's Offering. 1250 21
Everyone wishing to have a special day's outing should take advantage of the magnificent excursion on Civic Holiday to Chesham, Babeywood, Hargrove Point and Lindsay. This is the trip to take if you want to have one good day's amusement about it, but secure your tickets. Every comfort, grand meals, dancing and sports, and only a dollar for this attractive and popular route. Train leaves at 7 o'clock sharp. 2138

Revelation.
Conductor Bell, recently promoted to the way freight between Lindsay and Belleville, has commenced his new duties. The members of the Durham Field Battery will commence drill on Monday and Friday evenings in the drill shed at 7.30 o'clock sharp.

Travels on the "Midland Express."
has been very brisk during the past few weeks, says the Lindsay Post, and is likely to remain so. A number of the old employees have gone to work again, and it is said that several new gangs will have to be brought in to man necessary specials.

The Women's Club.
Go to Chesham on the day when all citizens will be off for an outing and the Fire Brigade hold their grand picnic at this beautiful spot. There you will find rest, shade, cool recreation and enjoy a day of good sport. The expense will be small but the enjoyment great. The band will be there and a good programme of sports will take place on the lake. All come, for it will be a people's day, and you can choose your own way of spending the day after you arrive there. The day is Civic Holiday, Thursday, the 15th inst. 1038

Monthly Prizes for Boys and Girls.

Send your "Sunlight" Soap Wrapper, at post-office, Toronto, not later than 25th of each month, and marked competitors will give full name, address, age, and number of wrappers. Winners' names will be published in Toronto "Sunlight" Soap Wrapper in each month. To Ball, on first Saturday in each month. 1038-10

It pays to advertise in the DAILY EVENING REVIEW.

IDENTIFICATION STILL UNCERTAIN.

The Body Found in Honey Lake is Not Yet Fully Identified.

The following despatch was used by the Toronto Herald this morning and was forwarded here:—

PICKERING, Aug. 14.—The inquest on the body of Ernest Warner, alias John Hartie the Honey Lake man, will be resumed at Liverpool Market on Monday. No word has yet been received from Mrs. Charles Pashley, of Peterborough, to whom a photo was sent, as to whether the body is that of her brother, John Hartie, or not. The case has developed many peculiar features. First the foster was identified as Ernest Warner, next Mrs. John Hartie, of London, claimed that Warner was her husband, now Mrs. Pashley says John Hartie was her brother, and that she was not aware that he was married. A photo has been sent Mrs. Pashley, and the receipt of it will settle the question as to whether the real name of the foster is Hartie or not.

The Haverhill saw Mr. Pashley this afternoon, but he stated that no photo of the drowned man had been received by him or his wife yet. This being the case he cannot yet say anything with certainty as to whether the dead man is his wife's brother or not.

A Proper Remedy.
"That Honey Lake water," said Macgruder, "always makes me bilious for a few days after I strike camp. How is that?" "Might be the same," replied Wiggins, "but I always take it made up with—no by Jingo, so, nothing of the kind—Hawley's best mixed tonic. The tonic is good enough to make the queerest water taste good. Try 'em." 412

A Cure for Constipation and Headache.
Dr. Silas Lane, while in the Rocky Mountains, discovered a root that when consumed, always makes me bilious for a few days after I strike camp. How is that?" "Might be the same," replied Wiggins, "but I always take it made up with—no by Jingo, so, nothing of the kind—Hawley's best mixed tonic. The tonic is good enough to make the queerest water taste good. Try 'em." 412

Meeting of Foresters.
A meeting of Court Little John No. 52, C.O.F., will be held on Monday evening at 8 o'clock. Officers and members of Court Peterborough are invited.

One of the greatest successes on the road will play an engagement here shortly. It is one of the most colossal theatrical enterprises ever sent from New York. During the past summer season, some 50,000 people, machineists, upholsterers, carpenters, etc., have been constantly at work on the production of this grand spectacle. It can be best appreciated from the fact that not one piece of the total scenery is made in this country. The stage is stripped bare on the company's arrival in town, every piece of scenery for the entire play is unpacked, and from the accounts which precede the company, some of the scenic effects are simply wonderful.

Coming to Peterborough.
Chas. Cluthe, 124 King-st. west, Toronto, Ont., may be consulted at the Oriental Hotel, Peterborough, on Saturday, August 22nd. Mr. Cluthe's reputation as a mechanical genius for overcoming all cases of deformities, such as club feet, spinal curvature, paralysis, bow legs, etc., is well known throughout the Dominion of Canada. Anybody ruptured will hear and see for himself what the Oriental Hotel can do for him. A revolution in trusses is impending, come and see. He is compelled to limit his usual visits and attend his office and factory in Toronto, where he may be found daily except Saturdays. Reservations for the Peterborough (Oriental Hotel) Saturday, August 22nd. 412-1033

A Horse Killed Him.
BREMERS, Aug. 15.—Donald Ross, 17th con. of Grey, was leading a young horse with a rope line and was thrown down and dragged against the gate post and so badly injured that he had only strength enough left to get to the house, where he soon passed away. The deceased was 33 years of age.

Arrested for "Tapping" Telegraph Wires.
MONTREAL, Aug. 15.—Detective Carpenter of the Canadian Secret Service last night arrested John McManis, a telegraph operator 28 years old, on a charge of having "tapped" the telegraph wire with a view of communicating the results of the United States races to a company of sports.

A Minardine May Drowned.
KINCARDINE, Aug. 15.—While a number of boys were taking the bath in the river near the mill, James Osborne, son of Mr. Joseph Osborne, got beyond his depth and was drowned. The boy was about 10 years of age. His father is at present living in British Columbia.

A Railway Amateur's Mishap.
BREMERS, Aug. 15.—Neymour Cook, a young man in the employ of Mr. Moses Dinkie, while being worked on a car, fell and sustained a complex bone fracture. The result was a very badly smashed hand and amputation just below the elbow.

LINDSAY.

Accident.—On Wednesday, a brakeman named Walsh, while coupling cars in the U.T.R. yard here, had his arm broken, it being caught between the bumper of the car and the tender casting. The plucky fellow went to Dr. Kemp and had his injuries attended to, and is now progressing favorably.

Stranded in Ohio.—The many friends of Mr. George Opeeland of Essex Centre, brother of Messrs. Hugh H. and John Opeeland of this locality, and of Mrs. Johnston of Lindsay, will be grieved to learn of the death of that estimable gentleman. On Wednesday, 12th August, while visiting some property he has at Toledo, Ohio, he was struck by a railway train at a crossing and killed. Deceased was a native of Ireland, rose to the rank of officer in the Confederate army under General Beauregard Jackson, Lee and Johnston, and since the close of the war has resided in Canada. A ripe old age, 73 years, fell to the lot of Mr. Opeeland.

FATAL ACCIDENT.—Last week Mr. Moses Wilkinson of Lindsay, was badly cut in the arm and side, at his saw mill. Dr. Frost was summoned, but having a bad case awaiting his attention, advised the messenger to wire for Dr. Broad of Cobourg. That gentleman called and, after a serious case on hand, and not knowing the nature of Mr. Wilkinson's accident, could not go. On arrival the injured man was beyond recovery, and eighteen hours after receiving the wound, breathed his last. The remains were interred at Norfolk. Mr. Wilkinson and family relatives the doctor extends sincere sympathy.—Ward.

DESPERATE FIGHTING.

THE FIERCE BATTLE IN FRONT OF VALPARAISO.

Both sides Fight Like Demons Until Dark.

Fierce Intermittent-Furious Attacks and

Unlabeled Repulse-Nothing Decided so

Far-Ready to Resume Fighting.

NEW YORK, Aug. 26.—The Herald's cable

gram from Valparaiso says darkness stopped

the battle at Vina del Mar beach, opposite

this city, which raged all day yesterday,

before a decisive result was reached, and

like tired gladiators the contending armies

rested to-day and worked hard to get them-

selves in the best possible condition for the

final bout, which must soon decide the

mastery of Chile.

Balboa's line of defense yesterday was

strongly fortified and was as under the

range of the guns from Fort Calles. While

many of his troops were new recruits,

there was a good number of veterans among

them.

Time after time the rebels dashed against

the lines of the government troops, only to

be repulsed with great slaughter. They

were not the only sufferers, however, for

their artillery played with telling effect on

the enemy and their rifles were not useless

in their hands.

Attack and repulse were repeated time

after time, with no decided advantage to

either side. The most desperate valor was

displayed by veterans and recruit, Balma-

colist and revolutionist. There was little

regret on either side when darkness came

down and stopped the bloody work.

Under cover of a flag of truce the ambu-

lances and hospital corps of the opposing

armies were busy during the night search-

ing the field for the wounded and caring for

them. When morning broke it was expected

the fight would be resumed. Both armies

had suffered severely, however, and neither

appeared to be in a position to assume the

offensive, and a practical truce to-day, with

no fighting, was the result. Neither

side has been idle, however, during the day.

CONSUMPTION,

It is the first step, on the consumptive, to check the progress of the disease. The Cherry Pectoral, even in the later periods of the disease, the cough is wonderfully relieved by this medicine.

"I have used Ayer's Cherry Pectoral with the best effect in my practice. This wonderful preparation once saved my life. I had a constant cough, with expectoration, was very reduced in flesh, and given up by my physician. One bottle and a half of the Cherry Pectoral cured me."—A. J. Eldon, M. D., Middleton, Tennessee.

"Several years ago I was severely ill. The doctors said I was in consumption, and that they could do nothing for me, but advised me to use Ayer's Cherry Pectoral. After taking this medicine two or three months I was cured, and my health remained good to the present day."—James Richardson, Darlington, Canada.

"Several years ago, on a passage home from California, by water, I contracted a severe cold that for some days I was confined to my stateroom, and a physician on board considered my life in danger. Hoping to have a bottle of Ayer's Cherry Pectoral, I bought one, and my health remained good to the present day."—J. M. Chandler, Junction, Va.

A HORRIBLE STORY.

Montreal Mothers and Their Infants Left to Starve.

MONTREAL, Aug. 28.—This evening Dr. O'Connor was called into a house at 31 (Gervais-street) by a Mrs. (Gervais-street) who had a dying baby. When the doctor arrived at the house he found three women in a destitute condition. One of the babies was dead, while the other two were dying. The unfortunate women told a harrowing tale. They are all unemployed and have no money. The doctor was called in to the house in question for refuge. The women of the house who were supposed to look after them, and their long separation, and the women were left in a destitute condition. When the doctor was called in the women were on the point of starvation. The infants, who are all between three and four months old, will die with the exception of one. The coroner and police were notified and an investigation will be held.

A NEW SWINDLE.

This Time It is a Patent Narrow Clip—The Taylor Arrow.

WINGHAM, Aug. 28.—A man giving his name as V. Taylor of Toronto was before Mayor (Taylor) charged by Mr. H. Jackson of Brumby with fraud. From the evidence it appeared that Taylor had been selling a patent narrow clip and the right to make and sell them to different parties and agreeing to furnish them five cents of the clip within ten days after sale. He sold the right to Mr. Jackson for (five) and Morris and also sold the right to Morris to Mr. V. Vanvorner of Belgrave. The purchasers of the patent right becoming suspicious that things were not right, had inquiries made in Toronto, where Taylor added his establishment was located, but no such manufacturing concern could be found, and the purchasers became convinced that they had been deceived, and had Taylor arrested at Treasurer. The notes procured by Taylor in payment of the right sold in this section were disposed of in Brumby and Wingham. Under a late act passed all notes given for a patent right must have printed or written across the face of them, in full, the name of the person to whom the right is sold, and the words: "For patent right." These disposed of by Taylor had this on the face of them, hence he was committed to (detention) jail by Mayor (Taylor). Taylor fled to secure bail, he was taken down.

Will Love His Arm.

MILLBURN, Ont., Aug. 28.—Joseph Gray works the slaughter in the Victoria Harrow Company's mill at (Victoria) and was standing in his place when one of the other men threw an apple towards him. Not having seen it in time to catch it he drew back and stepped into the hole beside the saw under a transom. As he fell he dodged his arm on the saw, the teeth of which cut into the flesh and a way into the bone. Amputation may be necessary.

Died to Save Her Sister.

BRIMBURN, Ala., Aug. 28.—Twenty school girls, under the chaperone of a Major and Mrs. R. M. Tutwiler, went on a picnic to Blountsburg to-day. After dinner the girls decided to swim in a big creek near by. One pretty, 15-year-old girl, Claudia Mercer, daughter of a prominent mine operator of this city, plunged in. When she reached the deep water she was seized with a cramp. Her 16-year-old sister, spring in to her rescue. The two clung together and sank together. They never rose again.

The C.P.R.'s Western Extension.

New York, Aug. 28.—(Gen. Herald H. Thomas is now in Montreal where he has been for some days in consultation with President Van Horne of the Canadian Pacific regarding the necessary details preparatory to the commencement of construction of the C.P.R.'s western extension between Toronto and Chicago. The route which will enter Chicago over the tracks of the Louisville, New Albany and Chicago from Moon, Ind. The new line will also tap the Lake Erie and Western, thus giving the Canadian Pacific a friendly connection into the interior of Indiana, and opening up a competitive line from that section with the Vanderbilt system, which has already, through the influence of the Lake Shore, inaugurated a strong opposition to the proposed route.

The new line will parallel the Lake Shore from Detroit to Chicago, the right of way in many places lying adjacent thereto. It will also form a competing line with the Michigan Central, thus attacking the Vanderbilt system at various important commercial centers in Indiana, Ohio and Illinois. The Louisville, New Albany and Chicago, while giving the new line terminal at Chicago, will also be utilized as a throughly all-India for traffic to and from the south, while the Lake Erie and Western with its western extension of Peoria, will furnish an outlet in that direction, again attacking the Vanderbilt interest in the Big Four in that section as well as in Indianapolis.

The State of Trade.

New York, Aug. 28.—Special telegrams to Bradstreet report a moderate expansion in the demand for consumable staples among manufactured products.

Latest advices from abroad do not favor the United States having more wheat available for export than will be demanded.

The Ontario and Quebec grain trade report damage from frost to Manitoba wheat. The demand for wheat is more satisfactory through out Ontario and Quebec and prices are firm. Years are expressed as to the effect of the frost on the Manitoba wheat crop. A good fall trade is expected. The Hamilton report 21 business failures this week against 18 last week and 30 this week last year. The total number Jan. 1 to date is 1294 against 1020 last year.

Another Divorce Case.

PENABROOK, Ont., Aug. 28.—Hector Haultain of Point Alexander was married to a woman named Miss Eliza, daughter of John Haultain of Point Alexander. A week after the ceremony had been performed a letter arrived from the parish priest at Three Rivers stating that Haultain was married before and enclosing the marriage certificate of Haultain's previous marriage. Haultain then admitted that he had been previously married, but said that he had not lived with his wife a year and their long separation caused him to disregard the matter. Haultain was arrested and committed for trial.

ON FIRE WITH ECZEMA

Terrible Sufferings of Little Baby. Severe Sores and Two Hospitalizations. Cured by Cuticura.

My baby boy, 10 months old, broke out with eczema. The itching and burning was intense; the sores spread to his limbs, breast, face and head until he was nearly covered. His torturing agonies were pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city with out the least benefit. Every prescription of the doctors was faithfully followed and he was entirely cured. He was cured by Cuticura. He was cured by Cuticura. He was cured by Cuticura.

INTERCOLONIAL

Railway of Canada.

The direct route between the West and all points on the lower St. Lawrence and Lake Champlain, Province of Quebec, also New Brunswick, Nova Scotia, Prince Edward Island, Cape Breton and Magdalen Islands, Newfoundland and Labrador.

Express trains leave Montreal and Halifax daily (Sunday excepted) and run through without change between these points in 7 hours and 20 minutes.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travellers.

New and elegant night sleeping and day cars are run on all through express trains.

The popular summer sea bathing and fishing resorts of Canada, are among the Intercolonial, or are reached by that route.

The attention of shippers is directed to the superior facilities offered by this route for the transport of food and general merchandise to the various ports of the coast, including Cape Breton and Newfoundland; also for the shipment of grain and produce to the European market.

Through rates may be obtained and all information about the route; also freight and passenger rates on application to:

BUY NOW IF AT ALL.

EVERY day makes more apparent the fact that the town is going ahead rapidly. Numerous changes have taken place in the ownership of property. Many workmen are buying houses and lots or lots on the waterfront. One of the most suitable locations is that known as the Erie property, at the foot of the waterfront, and is a beautiful site. This week he has closed the sale of a beautiful lot on this property to dispose of. Property in the neighborhood is rapidly being built up, and it will be well to have a look at the situation if one is at all disposed to buy. The terms are very favorable and especially low for cash, though payment on time may be arranged.

FELL DEAD.

The End Termination of a Case of Leucemia of Ottawa.

Ottawa, Aug. 31.—The Capital Ottawa leucemia match Saturday had a very and termination. After two games had been played, Mr. Kegan, father of Capt. M. Kegan of the Capital team, dropped dead in the grand stand of heart disease and the match was stopped. Mr. Kegan was 58 years of age and had been ill for about three years suffering from Bright's disease. It is supposed that the excitement and the heat caused a fatal attack of heart weakness and produced his death. The body was removed in the ambulance and the crowd dispersed. At the time the play was stopped the Capitals had won two in six and 23 minutes. It was decided to continue the match on a future date, allowing the Capitals the two games already won. The Capitals had the best of the play throughout, being in better condition than the Ottawas. Play throughout was fast and exceedingly hard. The body checking closely approaching roughness. Dr. Cousens was referee. The Ottawas played their regular team but the Capitals who had been scoring the country for men for this match played Bark and Ritchie of the Greens and Falls of Hampton.

A Hamilton Man's Ill-Luck.

HAMILTON, Aug. 31.—W. A. Freeman's terrible work east of Wentworth street, a short distance north of the Grand Trunk Railway, were again destroyed by fire on Saturday morning. All that remains of the works are the blackened walls. The destruction was complete. Mr. Freeman has been particularly unfortunate. Last January the building was burned and the valuable machinery was destroyed. Several times before then the place was on fire and the loss was heavy. Mr. Freeman was away a week ago on a trip to Mackinaw, and it is impossible to get at the exact loss, but it will be fully \$10,000. How the fire started is a mystery.

Between Dealer and Wall.

HAMILTON, Aug. 31.—Robert Reardon, a young man employed at the Hamilton Vinegar Works, was seriously injured on Saturday afternoon. A saw boiler is being put into the factory, and Reardon and several other men were working at it. The boiler went down and Reardon was caught between it and the wall.

Killed By C.P.R. Freight.

RAY PORTAGE, Aug. 31.—An unknown man killed by a C.P.R. freight train near Ouseward station yesterday. He is supposed to be Patrick Walsh, who was lately in Port Arthur jail, but was liberated a few days ago. It is thought he was temporarily insane.

Niagara's Latest Victim.

LOCKPORT, Aug. 31.—Thomas Stevenson of Chippewa, Ont., is believed to have gone over Niagara Falls Saturday night. He was seen in a boat above the falls and his brother found pieces of the boat below the falls yesterday.

Digging for Treasure.

HALIFAX, N. S., Aug. 31.—A party of 18 men from Colchester county have leased the late Anthony Grove's property on Oak Island, Chester, and have commenced to dig for the great load of gold which tradition says was buried there by Capt. Kidd.

14 Camel-loads of Saved Horses.

ADEN, Aug. 31.—An Arab, whose word is worthy of belief, has arrived here and tells a startling tale of Turkish cruelties. According to him Ahmad Rifa'ih Pasha, the Turkish commander in Yemen, the capital of the Arabian Peninsula, has crushed a revolt which broke out recently in that province, and has struck terror into the hearts of the insurgents. The Arab adds that he saw the Pasha, subsequently entered Hama, the capital city of Yemen, in triumph, and that he saw the Pasha's train of 14 camels laden with heads cut from the rebel chiefs of Yemen.

Signs of a Great Interview.

QUESTA, Aug. 31.—Rigoberto Crip, premier of Italy, was interviewed here. He referred to the Franco-Russian entente as "a mere shadow of a thing," and as an alliance of convenience, and he said that he would not be surprised if it would be dissolved. He said that he would not be surprised if it would be dissolved. He said that he would not be surprised if it would be dissolved.

The Emperor's Visit to Austria.

PARIS, Aug. 31.—A despatch to The Economist from Vienna says: "The Emperor of Austria shows symptoms of insanity. He is very eccentric, desiring bizarre costumes in which to appear in public, and indulging in other oddities. The Emperor has called a medical expert, who has pronounced the case a grave one, being associated with an hereditary malady. The Emperor is now at Gratz, and the mad King of Bavaria is a cousin of the Emperor."

Servia's Treatment of Bulgaria.

PARIS, Aug. 31.—The Serbian Government has communicated with M. Ribot, the French Foreign Minister, regarding the Porte's diplomatic intervention between Bulgaria and Servia, the Porte having protested against Servia's marching troops, ostensibly for maneuvers, on the Bulgarian frontier. It is reported that M. Ribot advised Servia to adopt a pacific attitude and to refrain from offensive demonstrations against Bulgaria.

Belgium's Ambition.

PARIS, Aug. 31.—The Journal of the Chambers of Commerce states that the Belgian Government proposes to declare Antwerp and other Belgian ports free ports, and to make Belgium the warehouse of Europe. Many French and other European firms would not hesitate to transfer their business to Belgium, in order to escape some burdens of prospective tariffs.

A Diabolical Revenge.

LONDON, Aug. 31.—At Rotherhithe, London, a passenger and a freight train collided and 12 persons were killed and many injured. The cause of the collision was discovered that the passenger train was caused by a Czech switchman, who had recently had a quarrel with the engineer of the freight train, and took this method of revenge.

CABLE CHAT.

The evicted tenants on Lord Lansdowne's estate of Laguerre in the county of Kildare held a meeting yesterday. By a majority vote it was decided to enter into negotiations for the restoration of their holdings. Three of the largest tenants have applied for reinstatement.

JOHN ROBINSON'S SHOW.

A Genuine Showman.

Monopolies are almost exclusively organized upon the basis of giving the people the least possible quality and charging them the highest possible price for it. In plain words, this is swindling. Various inferiority sometimes call our "Greatest Show on Earth" a monopoly. Well, so it is; but mark well in what a different sense and upon what different principles. It gives the public a great deal more, and of a better quality, for the least possible price, than was ever given, or any one else can give. This is the broad, honest and generous basis upon which we are monopolizing the business of travelling shows. The field is a big one. Let others do likewise, if they wish to or can.

A visit to this great show, vastly augmented by the addition of the master-piece of the master mind of American artists, viz. King Solomon, his Temple and the Queen of Sheba, registers with record realism, historical accuracy, biblical events, colossal processional features, bewitching ballets, acrobatic ceremonies, and the splendours and glories of the court of Solomon, the acrobats, the patriarchs, and grandest and greatest of ancient kings, will prove one of the most interesting and enjoyable events of our day. The big show will exhibit on Riverside Park, on Tuesday, Sept. 8; afternoon and evening exhibitions. 311

REVIEWS.

THE COSMOPOLITAN.—As was expected, the greatest interest has been exhibited in the new story by Amelia Liver, which was begun in the August number of the Cosmopolitan. The second part appears in the September number and the story will close in the following issue. The September issue of the Cosmopolitan Magazine is a "woman's number" so far as the authorship of its articles is concerned, but the general interest of the periodical is sustained by the variety and timeliness of the topics treated. The opening article, on Edward Degas, is by Lady Dillie, and is a most interesting and beautiful illustration. A forgotten city, by Eleanor Lewis. Marmion in the Market, by Mary Beeson Ford, describes the waning fortunes of the house celebrated for the residences there of the ill-fated Empress Josephine. Julia Hayne Perry describes the Ladies' New York Club. Elizabeth Bland writes of Tattersall's, the great London horse market. Molly Elliot Seawell contributes the Romance of Countess de Saxe, a story of adventure for whom the wife of George I of England spent thirty years in prison; and the Countess de Saxe is a Russian noblewoman. There are besides papers on the Evolution of the Society Journal, by Mrs. Roger A. Pryor; Society Women as authors, by Anna Vernon Dore; a pretty story, El Mando-Hale, by Daisy O'Brien, and verses by Katharine Greenleaf, Mr. Charles B. Foote, and Susan Hartley Sweet, all the important articles being liberally illustrated.

WINTERHUTTEN REVIEW.—This Review for August, published by the Leonard Root Publication Co., New York, opens with a remarkable article on Federation and Free Trade, in which the author predicts that the nations of the world will be joined in several great groups of states according to their economic policies. Theodore Stanton's series on Abraham Lincoln is continued in the third instalment, with further chapters to follow. Joseph J. Davis writes appreciatively of Tenby's Lincolnshire Farmers; U. N. Barnham has a strong paper on the Persecution of the Jews in Russia; T. J. Macnamara's article on Village Schools under Popular Control is an interesting study of some educational failures in England; R. S. Gundry describes the Recent Audience at Peking and its bearing upon foreigners in the far East. Under the title of Compliments and Compliments Mary Stedman Aldrich discusses some educational questions. There is an instructive paper on The Politician as Historian, and the usual full, complete and valuable reviews of Contemporary Literature.

ADVICE TO BROTHERS.

REVIEWS.

THE CENTURY MAGAZINE.—The subject in the September Century which will probably attract the widest interest is the discussion of the Treatment of Pioneers at Camp Morton, Indianapolis, during the American war. The present number contains a reply to Dr. John A. Wood, by Col. W. B. Miller, way, and a rejoinder by Dr. Wood. Col. A. Q. Ferris contributes an addition to the Gold Hunting Series, and the opening article of A Winter Journey through Siberia, by Mr. George Kennan, is given. A sparkling article on Play in Frovance is contributed by Mrs. Elizabeth Robbins Fennell, under the title of A Painter's Paradise. The frontispiece of the number is a portrait of Mr. Thomas Bailey Aldrich, whose poems are the subject of a critical review by Frank Dempster Sherman. In the series of Italian Old Masters Mr. William comes to Fra Bartolomeo and Ghirlandajo, and a single example is presented of each, the engraving of the portrait attributed to Fra Bartolomeo being one of the most notable wood engravings ever published in The Century. In the series of separate engravings of paintings by American artists is shown the David and Goliath of William L. Dodge, one of the youngest of our painters. This number contains a type of the stories—Ker Marston's Revival, by Le Roy Armstrong, with a picture by Kappes, and Zeki, by Miss Matt Criss, with pictures by Kappes, together with the conclusion of The Central Inn, by Frank R. Stockton, which, as before, is illustrated by Frost. The unillustrated articles include some notable material. The Hon. Henry Abbot Lodge contributes a curious and suggestive statement on the question of Ability in the United States. President Seth Low considers The Government of Cities in the United States. R. W. Howe has a description, both humorous and thoughtful, of Country Newspapers as they look from the editor's standpoint. Edward Livingston's serial story, The Faith Doctor, dealing with current questions of faith and mind cure, is continued. In The Possibility of Mechanical Flight, Prof. M. P. Langley, Secretary of the Smithsonian Institution, narrates experiments which he has been engaged for the last four years in the solution of this problem. The editorial and other departments are very interesting and the illustrations are of a high order.

ST. NICHOLAS.—The September issue of St. Nicholas is introduced by The Song of the Goldsmith, written by Grace Dean Litchfield, and illustrated by Laura C. Hills, whose frontispiece drawing has appeared a successful one to meet a number. Charles F. Leconte begins in this number a series of The Web of Fate. Folk-Stories which are truly remarkable. The illustrations, by George Wharton Edwards, is remarkable for its force and originality of motive. The Modern Douglas is an echo of the little man who brought him the big bow-drum, and will find many sympathizers. How the Good Fairy Worked, by Victor Mapes, is a bright story of boy-life, excellently illustrated; and The Two Lads of Black Island, whose adventure is told by Sarah J. Fitchard, will also make friends among the bright lads who live a whole century later. Younger readers will perhaps prefer Lark in a Cornfield, by Kate M. Chappin, a simple story of the wanderings of a boy girl in an enormous Western cornfield. Other pleasant for younger readers are The Old Clerk's Story, a clever bit of fun by Anne L. Hyde, and A Personal Call, an unpretentious account of a child's fascinating misadventure, which is probably the best of the kind. The story is illustrated by Jessie McDermott. Eleanor Sherman Thacker, a daughter of General Sherman, tells faithfully of a childhood's experience, showing how the life of Shyve received its name, and then there are the dove series, numerous bits of verse by old favorites, heretofore pictures, and bright paragraphs such as all St. Nicholas readers expect and receive from the editor as a matter of right.

A Pleasant Herb Drink—Altering Medicines.—The druggists tell us that the people call daily for the new cure for colds, coughs, and chest troubles discovered by Dr. Elias Lusk. It is said to be Oregon grape root (a great remedy in the far west) combined with simple herbs, and made for use by pouring on boiling water to draw out the strength. It is sold at the and \$1 a package and is called Lusk's Family Medicine.

Wedding Cakes Began.—Real, well baked and low in price, at the Review Stationery Store, 357 George-st.

Grand Show.—of Books and Maps at R. J. Kidd's, George-st., Peterborough.

Mini Dress, Maps.—and all garden plots by Mr. F. G. S. For sale at Mrs. M. S. and F. S. House, corner of Brock and Water-sts.

Van Tubb's Book.—I'm buying Hood's Sarsaparilla, for it is a wonderful medicine, and has the largest supply of any preparation of the kind. My husband's blood will confirm this statement. If you decide to take Hood's do not be tempted to buy anything else instead. Be sure to get Hood's.

An Editorial Contrast.
I've been a ruminator on the editors' pen,
That comes from 'way back yonder on a sort
of business.
A lot of well fed fellows, wearing high hats
in clothes,
An' 'fraidly good looks, fur as meanly
beastly goes.
An' I find myself contraind' their condition
with the boys.
That hold the frontier sentiment in a sort
of equivoque—
The Arizona Kicker brand, whose brainy
buckle boots
Whar's a musical six-shooter rolls the courts
o' libel suits.
Back East opinion architects have nothing
else to do
But write an' think, an' think an' write
'bout everything 'at's new,
But in the free an' easy West, across the
desert plains,
The bulk o' editorial work is done outside o'
brain.
The editor is cornered, an' justice o' the peace,
An' makes out legal papers from a last will
to a lease.
The editor is cornered, an' justice o' the peace,
An' makes out legal papers from a last will
to a lease.
Umphred the dog fight of his town, the two
or four-legged sort,
And acts as final referee in all degrees o'
sport.
He's looked fur a faro game, an' o' a takes a
trick.
A practical o' medicine w'm anybody's
sick;
He plays a heavy poker game (assisted by his
slave),
Laughs with the people in their joys an
grieves with them as grieves.
He alters makes the speeches on the Fourth
day o' July.
An' plays the parson's hand when there's a
special knot to tie,
An' now an' then contracts to do some prac-
tical at law.
W'm either party wants a man 'at alays a
hasty jaw.
His manhood table allows a facin' to the
door.
So's when a angry citizen comes smelling
arter gore,
He ain't got no advantage, an' his meekness
gits the drop.
On the publisher and editor an' owner o' the
shop.
He wears his britches in his boots an' never
combs his hair,
An' 'wears' socks exposable in nothin' but a
dude.
He's prominent at lynchin', calls the aggrer
at a dance,
Works a main' speculation every time he
gets a chance,
Keeps a pair o' rummies' homes fur the Terri-
torial fair,
An' never shirks at meetin' when he's asked to
lead in prayer.
So I find myself contraind' his condition
with the boys.
Who preach out to the nation with a stately
p'nted pen,
An' he comes to be more useful a dogma
than fight.
Then them 'at don't do nothin' top o' God's
green earth but write.
—Capt. Jack Crawford, "The Post Scout."

Handling His Third.
I met a man in the waiting room of the
New Haven depot the other day who wanted
to know where a certain street was, and
where a certain street was, and where a certain
house could be found and as we fell to talk-
ing he unbecomingly himself. His wife had
slipped out and left him, and came to
Godham, and was working in the kitchen
of the eating-house referred to, and he
had come on to see her. He was a plain,
every-day man, whose home was in a Con-
necticut village, and he was talking rather
naïvely very quietly. When I
expressed some surprise at this he replied:
"Oh, there ain't any particular hurry
about it, you know. It's over three months
since she slipped, and I thought I wouldn't
rush things. I'm boarding with a widder at
33 a week, and I've included, and I've rented
my house for \$10 a month."
"How did she come to slip?" I asked.
"Well, she's my third, you see. I'd saved
most of the clothes of the other two and she
wanted 'em. I didn't think it looked just
right, and she fell off the handle. Got up in
the night and crawled out of a window onto
a shed to get away. Waited at the depot all
one day to have her father and coax her back,
but I didn't do it."
"And are you going to take her home?"
"Can't say. It's according to how she
feels. Want to go down with me?"
We found the woman acting as second cook
in the eating house. When she came in she
began to cry and embrace her Thomas, but
he held her off and asked:
"Emmily, didn't I buy you a pair of shoes, a
corset, some stockings, two handkerchiefs and
a hairbrush, all in one week?"
"Yes," she answered, keeping hold of one
of his hands.
"Didn't I pay \$20 for parlor furniture and
have all the ceilings white washed?"
"Yes."
"And you shipped out. I've rented the
house to the Thompsons."
"What?"
"And I'm boardin' with the widder Glander."
"You are?"
"She beats you all to pieces don't you shirk.
I didn't come down to ask if you wanted to
go?"
"But I'm going right back home!" she in-
terrupted.
"I just thought I'd drop down to ask."
"I'm going! I'll be ready in ten minutes!"
"You know, Emmily, you got constant trouble
because I—"
"I'm going—hold on—I'll get my things!"
she exclaimed, and she hastened away.
"Lemme tell ya what!" said the husband,
as we sat waiting. "Wimmen is curse critters."
They've got to be handled a certain way. If you
saw your foot down keep it there. If your wife
runs away don't follow. Just wait till she writes
you about three times. If you don't con-
sult her she'll counter you. Allow be cool and
alm, and kinder have things fixed so you
kiss board with a widder in case your part-
ner takes a ship. Emmily will go back home,
and be as humble as a cross-eyed cat in cold
weather, and if the over ticks over its
traces again all I'll have to do is to put
towards New York to catch her. Much
cheaper and good-by."—M. Quaid in New
York World.

TALK OF THE DAY.
Contributor (speaking in batch of manu-
script)—"I think there's some stuff in this
let, Mr. Shivers." Editor glancing over it
said, "It looks as if it was all stuff, Mr.
Quillo." (loud morning.)
"Her lips are like a perfect rhyme,"
sang post true in olden verse,
"Lemme tell ya what!" said the husband,
as we sat waiting. "Wimmen is curse critters."

German Army Probe.
BRILLIANT. 2.—Chancellor Von Capri-
vi and Herr Von Kallertshorn Nachbar,
Minister of War, have had frequent pro-
longed audiences with the Emperor as a
preliminary to an important announcement.
The Reichsmagister says the various rumors
current in regard to these audiences are
unfounded.
The military weekblatt urges the im-
portance and necessity of inventing new
weapons to meet the requirements of modern
warfare. The small calibers magazine guns
having reduced to minimum advantage
which artillery formerly possessed over in-
fantry.
German papers, commenting upon Sedan
Day, dilate upon a situation requiring Ger-
many to be more alert than ever, but they
are unanimous in the Germany will never
begin a war, however provoked.

Sick Headache

It is a complaint from which many suffer and for one remedy free, 10 cents to the patient and a single bottle, the cure for the sick headache.

"I have found that for sick headache, caused by a disordered condition of the stomach, Ayer's Pills are the most reliable remedy," Samuel C. Bradburn, Worthington, Mass.

"After the use of Ayer's Pills for many years, I am justified in saying that they are an excellent remedy for all the ailments of the stomach, and the only one that I have found to be so effective."

"Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered stomach and liver. I suffered for over three years from headache, indigestion, and constipation. I had no appetite and was weak and nervous most of the time. By using three boxes of Ayer's Pills, and at the same time dieting myself, I was completely cured."

"I was troubled for years with indigestion, and for a long time with a bad case of Ayer's Pills, and in a small daily dose, I was cured."—W. H. Street, Nashville, Pa.

A ROMANCE OF TWO BROTHERS.

"I—I was," returned Gerald, trying to smile.
He felt Clyde's fingers at his pulse.
"You must have a stimulant," I think

"IT WAS THE FLAME THAT CONTAINED THE

that's all you need. It's only excitement. Have you any thing to drink here, I know."

"No," answered Gerald. "I remember them, but I'm getting better, now. I've been over it."

"It is," said Clyde slowly. "We'll help it to pass away." He went to the spot to which a weak gleam of his companion had

Suddenly Gerald heard a crashing sound. One beam of the roof had fallen through the roof and was pressing the back of his chair. "Clyde," he called, "what have you broken?"

"A bottle of some sort," came the answer. "It was horribly awkward of me, I know; but I dare say the thing only held some chemical you no longer needed."

Gerald hurried across the room, bent by an ugly doubt which seemed clearly on his already brightened brain. He saw certain glass fragments lying on the floor, and picked one of them up.

"Ah," he faltered, "it was the flask that contained the elixir."

"Too bad!" exclaimed Clyde. "Please forgive me, Gerald."

"Oh, I do, of course," came the reply. "It was an accident, I know."

"Dang fellow, I'll swear to you it was only that!" "You don't you can't suspect."

"No, no."

The light's a little dim over in this corner. My elbow struck the thing before I knew. But never mind, what meant this failure to prevent himself? True, his later visit had been brief, and his presence while making them had seemed preoccupied, absent.

But he had always come; he had always evinced a desire to converse, a warm feeling for the sorrow and sickness by which his dear old man was crushed.

Sydney had now recovered from his serious illness and began to recover the gray despondency of the life which Lydia's departure had wrought for him. A certain indignation against her had indeed nursed him into a sort of tonic. She had wronged him in faith; he meant to try and tear from his heart all craving to look upon her again. Her flight had been a confusion of anticipations of good hypocrisy on one side. They needed him at his office down-town. He would make an effort, very soon, and go there. As for the slightest further search—

VIII.
Toward evening of the next day Sydney lay in bed, looking at the clock on the wall. He was waiting for a letter from his brother. He was waiting for a letter from his brother. He was waiting for a letter from his brother.

He was waiting for a letter from his brother. He was waiting for a letter from his brother. He was waiting for a letter from his brother.

He was waiting for a letter from his brother. He was waiting for a letter from his brother. He was waiting for a letter from his brother.

He was waiting for a letter from his brother. He was waiting for a letter from his brother. He was waiting for a letter from his brother.

His indignation strengthened as he grew more and more convinced that this was true. Three or four days went by, and still Gerald failed to appear. He was now convinced; he thought of leaving the house on the morning and instead of at once going to his office he had resolved first to call upon his brother. Somewhat late in the afternoon of the day when this resolve was formed, a servant handed him the card of his wife's aunt, Mrs. Oulterly.

He at once went down-stairs and received her. The moment they met she gave a little moan and lifted both hands. Immediately afterward, and while they were waiting themselves, he observed that the eye which had no trace in it was full of distress. Her first words confirmed this impression.

"I have come to you, Sybil," she said, "in a very miserable frame of mind. Please pardon my—my surprise at your appearance. But I wasn't prepared to find you looking so bad."

"I've been quite ill," he said, curtly, "but am getting on now. Pray, what is your trouble?"

"He could not resist adding: 'Has some one of your brave army of fresh-liners been deserting your rationalism banner?'"

MANTLES

MANTLE CLOTHS

TURNBULL'S

We are showing a window of

Mantles this week at an unheard

of prices in the history of Peter-

borough. \$2.00 takes the

choice of the lot. They are not

trash but good cloths and well

made, in all colors, worth three

or four times the money. The

only objection being many of

them have the plain sleeve, which

if the purchaser thinks

necessary, can be easily altered.

Another lot we have to offer at

\$3.00, a glance at by the most

sceptical will cause them to put

their hand in their pocket and

see if they have brought their

money. For \$5.00 we show a

nice Cloth with a braided sleeve,

others of the new styles are, well

it would take a lady to describe

them. Beaver Cloths in all col-

ors, high collars, nicely braided,

the edge faced with fur, double

breasted and flap pockets, when

they are very comfortable

looking and stylish, prices

from \$6.00 to \$15.00. We

have imported this year a lot

of Sealette Jackets, lined

with satin, all the new shapes,

they range in price from \$18 up.

We have also a well assorted

stock of Long Coats in black and

colors to select from. In child-

ren's we have dozens all the way

in price from \$1.50 to \$8. Our

stock of Cloths for the ordered

work department is more com-

plete than ever and with in-

creased facilities will be able to

do more work and turn out all

orders promptly. Perfect satis-

faction always guaranteed.

A CLAIM WE ARE JUSTLY ENTITLED TO

That our Autumn Display of Dress Goods is the most select and choicest ever shown in Peterborough. We are complimented every day on the elegance and richness of colorings. An inspection of our Fall Stock of Mantles will convince that we show nothing but the latest Berlin Styles, and prices are as low as the goods are handsome. We still show a full range of (Lister & Co.) Celebrated Sealettes from the lowest to finest goods with between prices. This is considered one of the most reliable makes, and our customers can rely on getting the very best to be procured from us.

GOOD BUSINESS AHEAD at

ROWSE'S

The prospects for a bright fall trade are excellent. Never were we better prepared for it. Never before was such a fine display of Dress Goods shown by us.

Our Bargain Days

On Tuesday and Thursday last were eminently successful. My 1 hour the Corsets went, and ladies bought three dresses at a time, which is something unusual. Many of the ladies are going to bring their friends with them for it pays them to do their shopping at No. 305 George-st.

OUR NEXT BARGAIN DAYS

WILL BE HELD ON
TUESDAY AND THURSDAY,
SEPTEMBER 22nd and 24th.

If the men shaves, both the dress and the suit, will likely have great crowds on Tuesday next. We will see which can offer the biggest bargain.

A great Bargain awaits every corner to the Great Bargain Dress Goods House.

A BRILLIANT BANQUET

AT WHICH FRANCE'S WAR MINISTER
TALKS PEACE.

M. De Freycinet congratulates the Commander-in-Chief and the soldiers in the hands on the result of the manoeuvres—
—Stranger and Wiser France.

Paris, Sept. 11.—The banquet given yesterday at Vendôme by M. De Freycinet, president of the council and Minister of War, to the French generals who are taking part in the army manoeuvres and to the military attaches who are watching them, was most brilliant affair. In fact it is a banquet which may be said to have been more a military than a diplomatic event. It was apparently selected as the occasion for the French Government, through M. De Freycinet, to give utterance to its views upon the peace prospects of the empire.

M. De Freycinet during the course of his speech made special reference to the pacific tendencies of France. The leading idea of the manoeuvres he said was to them light on and to give exercise in the duties of a commander in chief. The result showed that a supreme command marked satisfactory as did every corps and individual commander. This was a very considerable success of the manoeuvres.

Continuing, the Minister of War said he wished the generals would continue in their efforts to perfect the army, which was the principal element of France's influence in the world. The progress made by the French army was clear evidence of the fact that the Government of the Republic in spite of the surface charges was capable of long concerted designs.

M. De Freycinet said, "now doubt that we are stronger, that we shall prove to be wise. We know how to maintain that calmness and dignity in days of misfortune which have paved the way to recuperation."

MANTLES

MANTLE CLOTHS

TURNBULL'S

We are showing a window of Mantles this week at an unheard of prices in the history of Peterborough. \$2.00 takes the choice of the lot. They are not trash but good cloths and well made, in all colors, worth three or four times the money. The only objection being many of them have the plain sleeve, which if the purchaser thinks necessary, can be easily altered. Another lot we have to offer at \$3.00, a glance at by the most sceptical will cause them to put their hand in their pocket and see if they have brought their money. For \$5.00 we show a nice Cloth with a braided sleeve, others of the new styles are, well it would take a lady to describe them. Beaver Cloths in all colors, high collars, nicely braided, the edge faced with fur, double breasted and flap pockets, three-quarter length, when on they are very comfortable looking and stylish, prices from \$6.00 to \$15.00. We have imported this year a lot of Sealette Jackets, lined with satin, all the new shapes, they range in price from \$19 up. We have also a well assorted stock of Long Coats in black and colors to select from. In children's we have dozens all the way in price from \$1.50 to \$8. Our stock of Cloths for the ordered work department is more complete than ever and with increased facilities will be able to do more work and turn out all orders promptly. Perfect satisfaction always guaranteed.

EVERY day makes more apparent the fact that the town is going ahead rapidly. Numerous changes have taken place in the way of ownership of property. Many works which are being done and lots of lots are being built. One of the most valuable lots in the town is the lot on which the new hotel is being built. This lot is owned by Mr. W. H. BAIN, and is situated on the corner of George-st. and Water-st. The lot is very valuable and is well situated for business. The lot is being sold at a very low price, and is a great opportunity for anyone who wants to invest in real estate. MANTLES

MANTLE CLOTHS

TURNBULL'S

We are showing a window of Mantles this week at an unheard of prices in the history of Peterborough. \$2.00 takes the choice of the lot. They are not trash but good cloths and well made, in all colors, worth three or four times the money. The only objection being many of them have the plain sleeve, which if the purchaser thinks necessary, can be easily altered. Another lot we have to offer at \$3.00, a glance at by the most sceptical will cause them to put their hand in their pocket and see if they have brought their money. For \$5.00 we show a nice Cloth with a braided sleeve, others of the new styles are, well it would take a lady to describe them. Beaver Cloths in all colors, high collars, nicely braided, the edge faced with fur, double breasted and flap pockets, when on they are very comfortable looking and stylish, prices from \$6.00 to \$15.00. We have imported this year a lot of Solette Jackets, lined with satin, all the new shapes, they range in price from \$18 up. We have also a well assorted stock of Long Coats in black and colors to select from. In children's we have dozens all the way in price from \$1.50 to \$8. Our stock of Cloths for the ordered work department is more complete than ever and with increased facilities will be able to do more work and turn out all orders promptly. Perfect satisfaction always guaranteed.

W.C.F. Annual Meeting.

The annual meeting of the W.C.F.U. will
be held in the Y.M.C.A. hall, Monday, Sept.
14th, at 8.30 p.m. A full attendance of
members requested. By order of the
President.

Joseph's "Beech" Cough.

"First rehearsal next Tuesday evening at
8 p.m. in the 'Y' hall, George-st., over
Craig's confectionery store. All those
wishing to take part are urged to be pre-
sent. J. H. Kitchin.

"Five years ago I had a constant cough,
night sweats, was greatly reduced in flesh,
and had been given up by my physicians. I
began to take Ayer's Cherry Pectoral, and
after using two bottles of this medicine,
was completely cured."—Angus A. Lewis,
Rivers, N. Y.

Reached to the sidewalk.

About eleven o'clock last night Mr. Jas.
Allen, a resident of Douro, was picked up
near the corner of Simcoe and George-sts.
He had been assaulted by two young men
he said who struck him, knocking him
down. The man had badly discolored eyes.
His assailants were looked after and the
circumstances of the case ventilated.

Apparatus Again.

David Brown, the unfortunate bookkeeper
who was in the Police Court some weeks
ago as a vagrant and who was so indignant
at the press comments on his appearance
and circumstances, was before the Police
Magistrate again this morning on the
same charge. Brown has been a man of
ability but he is not today. He promised
to leave Peterborough by one o'clock this
afternoon and was given a chance. If he
remains he goes up to the Mill.

The Great Benefit.

Which people in the down State of health
derive from Hood's Sarsaparilla, com-
pulsively prove that this medicine "makes
the weak strong." It does not act like a
stimulant, imparting fictitious strength,
but Hood's Sarsaparilla builds up in a per-
fectly natural way, and restores to health
purifies the blood, and assists to healthy
action these important organs, the kidney
and liver.

The Season Why.

Clark's Catarrh Cure has such a ready sale
and is so popular, is owing to a variety of causes.
From a simple cold in the head to the worst
stage of the disease, it relieves instantly. It is
put up in handy form, and may be carried in
the pocket. It is a purifier, and a pluck of
it into the nose, immediately discharges, and
without any treatment, restores the
work of breathing and restores the glands and
their natural secretions. One package will
run any ordinary case. Those who have used it once
are so pleased with its wonderful effects, that
they always keep a package in hand. Price 25
cents, of Druggists, or Clark Chemical Co.,
Toronto.

A NEW BUSINESS HOUSE OPENED.

The Bay Goods Firm of Jos. Armstrong &
Co. Boston Mass.

The doors of a new dry goods house were
thrown open to the public this morning. It
was the emporium of Messrs. Jos. Arm-
strong & Co., who have opened in Le-
Brun & Co.'s old stand, No. 396 George-st.
The premises have been entirely refitted
inside, so that the interior presents the ap-
pearance of a new store. The ceiling has
been artistically decorated, the fixtures re-
painted with taste and the general appear-
ance improved and brightened.

The goods that have been placed in stock
have been carefully selected and comprise
the latest and best fabrics in staple dry
goods, and the newest and most fashionable
goods in all the various departments of a
first class dry goods house. The windows
have been dressed tastefully and advan-
tageously, and the passer by should stop
and inspect the display or, better yet, walk
inside, where it is considered no trouble to
show the new goods to visitors. On the
second landing it is to be found the lace cur-
tain department. This has been elegantly
fitted up and a complete and choice stock
of curtains will be always kept for sale.

A young man, widely and favorably
known, with years of the best experience
in dry goods, Mr. Armstrong will un-
doubtedly meet with success in his busi-
ness venture. His knowledge of the mar-
kets enabled him to make wise selections in
buying, and his purchasing for cash gave
him rock-bottom prices.

No Thawing Meetings.

The Chaucery Meetings were to have
opened here on Monday, but in the absence
of any business the court will not be held.
No cases have been entered.

Harvest Festival.

The annual harvest festival of St. Luke's
church, Ashburnham, takes place on
Thursday next at 8 p.m. The Rev. E.
Daniel, Rector of St. John's, Port Hope,
will preach the sermon.

A Lost Child.

A two-year-old little girl of Mr. John
Hetherly, of Douro, strayed away from her
mother this morning and the alarmed
mother reported the lost child to the police
who will receive any information regarding
the child.

A Wheel Came Off.

About one o'clock this afternoon the
wheel of a farmer's wagon which was load-
ed with grain came off and deposited the
heavily-laden wagon on the road on
Simcoe-st. opposite the lock works. A hat
and slipped off and this being found a
steward employee of the lock works
ascertained the granger and the load was
hoisted, the wheel adjusted and the farmer
went on his way rejoicing.

Another Steam Laundry Proposed.

Peterborough is about to have another
steam laundry. A company, embracing
several local gentlemen, has been formed
for the purpose of establishing the business.

The laundry will be known as the
"Hetherly Steam Laundry" and will be
centrally located in town. Experienced
and competent men will be employed in
the new laundry which will be fitted up with
the latest and most improved machinery.
That it is in the market for laundry purposes.
Further particulars will be given later
when the establishment of the concern is
known.

The Rifle in Camp.

Quartermaster Stapleton, of "G" Troop
of Cavalry, which is now under canvas in
camp at Belleville, is in town today. The
Quartermaster reports that the men of the
cavalry and battery are delighted with their
camp site and their rations. The
cavalry site is a beautiful one on the shores
of the Bay of Quinte, while the batteries
are stationed on Kato Island which is
near by. The rations served the men
have been the best and not a word of
grumbling has been heard, notwith-
standing some reports to the contrary.
Major General Herbert was in camp with
the brigade for the day and was sur-
prised and greatly pleased with the fine
orderly bearing of the cavalry men, three-
quarters of whom had never been in service
before. The General has golden opinions of
Canadian soldiers. Quartermaster
Stapleton will return to the camp to-night.

When the blood is out of condition disease
is the inevitable result. Dr. Williams' Pink
Pills supply the constituents necessary to
rebuild the blood and build up the nervous
system. It is a powerful blood purifier,
debility, etc. Good for men and women, young
and old. Sold by all druggists or sent by
mail for price (see ad.) Dr. Williams
Med. Co., Brockville, Ont.

Personal.

Mr. Geo. Perry, an old Peterborough boy
and a graduate of the University, is in town
on a visit to friends. Mr. Perry left town
fourteen years ago and has been living in
New York and other points in the States.
He is accompanied by a friend, Mr. L.
Knapp, and is a suitable opportunity offers
him to go into business in Ontario.

Rev. Clement Smith, Rector of St. An-
drews-by-the-Wardrobe, Doctor's Com-
mons, London, Eng., is in town on a visit to
his uncle, Rev. V. Clement. Rev. Clement
Smith was curate at St. John's some years
ago during the incumbency of the late
Rev. J. W. Beck.

Mr. Miller Murdoch, of Ontario, W. T.,
a successful young barrister formerly of
London, is in town. Mr. Murdoch is a
pushing, energetic member of the bar who
has been prosperous in his western home.
He goes to Lindsay and when he leaves for
home he will not travel alone.

When the hair begins to fall out or turn

Managers' Minutes.

The Street and Bridge Committee met
last evening and disposed of several small
matters referred to them at the last Council
meeting.

The Fire, Water and Light Committee
also met and considered the matter of the
Edison drains pipe. The matter was dis-
posed of.

The Council will meet on Monday even-
ing, when the estimates will be submitted
and the matter of taxation struck.

Councillor Moore, who went to St. Catharines
to arrange matters of detail for a
final settlement with the Patterson-
Orbita Car Company, returned home last
evening. He performed his mission
successfully and is in a fair way to be finally
settled in a few days.

Three Montreal gentlemen representing
a large industry were in town last night.
They are seeking a location for their man-
ufacture and paid Peterborough a visit with
that end in view. They want capital sub-
scribed to the amount of \$200,000.

A Cure for Consumption and Rheumatism.

Dr. H. H. Lane, while in the Rocky Moun-
tains, discovered a root that when com-
bined with other herbs, makes an easy and
certain cure for consumption. It is in the
form of dry roots and leaves, and is known
as Lane's Pulmonary Medicine. It will cure
sick-headache and is the best Spring Medi-
cine. For the blood, liver and kidneys, and
for clearing up the complexion it does won-
ders. Druggists sell it at 25c. and \$1 a
package.

Special Attractions for Exhibition—Pro-
gramme for a Successful Exhibition—The
Programme and Management.

Peterborough's big show, the Central
Exhibition, is now an event of all-import-
ance, having approached to be a
thing of the near future. On Monday
week, the 12th inst., the gates will be
opened. This day will be employed
in doing their work in the different de-
partments. On Tuesday the exhibition will
be in full blast. The gates will be thrown
open at nine o'clock for visitors and will
remain open until six o'clock in the evening.
There will be no need then on the hands of
the visitors as after seeing the exhibits
there will be some attractions to give
entertainment and amusement in pre-
sented attractions and with a large list
of entries, the prospects for a successful
exhibition are very bright. Now when the
effort is made to provide the attractions
the public will no doubt support the
management.

Among the special attractions will be an
exhibition by Prof. H. J. Dixon, Toronto's
rope walking photographer, who has
twice performed the daring feat of walking
a wire stretched between the banks of the
Niagara river and bridging the stream
above the fearful whirlpool of world-wide
fame. The daring wire artist will give
three performances on Tuesday, using the
same cable on which he crossed the Niagara
whirlpool. The speed in the ring will be
about five hundred dollars are offered
in prizes and the events are sure to
be well filled and contested for blood.

WE ARE JUSTLY ENTITLED TO

That our Autumn Display of Dress Goods is the most select and choicest ever shown in Peterborough. We are complimented every day on the elegance and richness of colorings. An inspection of our Fall Stock of Mantles will convince that we show nothing but the latest Berlin Styles, and prices are as low as the goods are handsome. We still show a full range of (Lister & Co's.) Celebrated Sealettes from the lowest to finest goods with between prices. This is considered one of the most reliable makes, and our customers can rely on getting the very best to be procured from us.

WAITING FOR THE WORD

THAT WILL KINDLE UNIVERSAL WAR IN EUROPE.

German's Unlucky Expects It, and Warns the Country to be Prepared for Trouble at any Moment—Negotiation of a Probable European Compact.

BRUSSELS, Sept. 14.—There was a parade of all the troops stationed in the Canal district yesterday which afforded a brilliant spectacle. The Emperor and Empress, King of Saxony, the Grand Duke of Mecklenburg, Prince and Princess Henry of Prussia, Prince Albert and others of high rank were present at the ceremony. Kaiser Wilhelm will now go to Erfurt, where he will review the Fourth army corps.

Some of the phrases used by His Majesty in his speech at the Canal have added to the excitement which now prevails throughout the country. He recalled the time when, as a staff officer, he entered the Canal in 1871, with the victorious German troops. He stated, he said, that the Heister had been the theatre of a struggle which had cost the lives of many brave men, and that the future triumphs of the German troops. His Majesty's

Catarrrh

Is a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla—the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

"I was troubled with catarrrh for over two years. I tried various remedies, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this loathsome complaint and completely restored my health."—Jesse M. Rogers, Holman's Mills, N. C.

"When Ayer's Sarsaparilla was recommended to me for catarrrh, I was inclined to doubt its efficacy. Having tried so many remedies with little benefit, I had no faith that anything would do me good. I became impatient from lack of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and I referred me to persons whom I had cured of catarrrh. After taking half a dozen bottles of this medicine, I was cured. I feel that the only sure way of treating this loathsome disease is through the blood."—Charles H. Maloney, 115 River St., Lowell, Mass.

ROBBERY OF \$100,000.

John Daly, the King of New York Gamblers, the Victim.

New York, Sept. 14.—John Daly, the king of New York gamblers, has been robbed. From the safe at Daly's gambling palace, No. 29 West 29th street, was taken last Friday night a sum of money estimated at \$100,000 to \$150,000. It was in bills. The man who took them was William H. Hollingsworth, Daly's manager, a man living a double life. Hollingsworth had been a respectable citizen 12 years in a day; a confidant of the money of gamblers and interested in a resort where thousands of dollars have changed hands the other twelve. The story is that Hollingsworth took the money from Daly's safe, of which he held the combination, and used it, of the greater part of it to cover losses in Wall street. It was said last night that what Daly demanded the return Hollingsworth told him he was rightfully entitled to it and dared Daly to go to work. Daly has taken no steps in that direction. Some of the money belonged to Hollingsworth and some to fortune hunters who had made winnings and had given them to Daly to keep for them. Hollingsworth, who is a resident of Harlem, and to all appearances a devout worshiper at one of the leading churches there. He is also owner of one of the finest residences in the city.

LATER.—The story telegraphed from New York regarding William H. Hollingsworth, who said he had been robbed of \$100,000 from his partner from the safe in the gambling place in West Twenty-ninth street, is denied. The story further charged Hollingsworth with leading a double life, at leading regularly every Sunday morning in company with his wife and also gambling on week days.

They Murdered Their Father.
BERLIN, Sept. 14.—Two young men named Hoffman, aged respectively 24 and 22, were taken into the house of their parents in the Luder- or Strasse last evening, believing it to be empty as the time had come to go to the bedrooms of their father, intending to steal some money which was usually kept there. The elder Hoffman was in the room, however, and grappled with the burglars. A fierce struggle followed, which ended in the old gentleman being beaten to death by his sons.

Foreign Money Markets.
LONDON, Sept. 14.—The abundance of money here was increased yesterday by the payment of £1,000,000 on treasury bills, which also added to the ease of discount, the rates along 1½ for three months and 1½ for short. A hardening of rates is expected to set in soon as the German demand for gold has revived. On the other hand, business was good and prices firm.

A Peasantry Murder in Ireland.
DUBLIN, Sept. 14.—Information has reached Newfoundland that a caretaker named John Adams, who has been employed by Mr. Andrews of Belfast, as caretaker of a house belonging to him at Cunninghamham, near Newtownards, was murdered while on his way home last night. He was found with a stone tied to his neck.

Fatal Collapse of a House.
BERLIN, Sept. 14.—A house which had been recently completed and occupied in Regensburg collapsed yesterday and eight of the occupants were killed and a number injured. The building has been arrested, charged with manslaughter, and an official inquiry is in progress.

The Chilean Elections.
SANTIAGO, Sept. 14.—Despatches received at the Chilean legation report that a decree has been promulgated at Santiago de Chile, announcing that the coming election for the presidency and members of Congress will proceed upon the plan of universal suffrage.

The Pope's Temporal Power.
BARI, Sept. 14.—The Meclian Catholic congress has decided to convocate a special international congress to claim the restoration of the papal temporal power and to prepare the way for it. The congress also pronounced in favor of a stricter observance of the Sabbath.

Bismarck's Health in Portugal.
LISBON, Sept. 14.—The steamship Melle which had Bismarck aboard arrived bound from Montevideo to Southampton, has arrived here.

Cable Chat.
Favorable reports have been received about the best crop throughout Europe, Germany, France and Austria promise good yields.

The Neutrality in the Berlin Congress.
The King of Italy has signed the decree of amnesty for all those who, being abroad, have failed to perform their military service from the date of 1848 to that of 1866. Inquiries made in regard to the report that Prince Bismarck had a slight attack of apoplexy, show there is no foundation for the rumor. The Prince is enjoying fair health.

Cholera in a serious form has broken out on H. M. S. Blanche and H. M. S. Marathon, now at Bombay. There have been 28 cases of that disease on board the two ships with 24 deaths. Six deaths have already occurred.

The inhabitants of several towns in Galicia have joined in an address to the Chief Secretary for Ireland, Hugh H. A. J. Balfour, expressing their gratitude to him for the timely assistance of relief which he had inaugurated.

Returning ships that have been in the Indian Ocean for a long time in the last quarter of a century. In 1864 there were 2000 vessels in the various national institutions. In 1890 there were 7000. Since 1860 eight persons have been converted to other faiths.

DARING BANK ROBBERY.

The Desperadoes Are Chased and Finally Captured.

KENTON, Ill., Sept. 14.—There was a soldiers' reunion here yesterday, and while the street was lined with people two desperadoes rushed into the First National Bank, and, presenting revolvers at the head of Cashier Joseph Partridge, demanded the cash. The cashier started as if to comply with the demand, but hastily stepped behind the safe door and yelled for help. He was snatched. As this time of affairs one of the robbers sprang over the private entrance while the cashier was covered with a revolver, grabbed what money he could spring out and the two escaped. They were no sooner out of the bank than the cashier made the people around him aware of what was up and pursuit was given. Hundreds of people started after the thieves, but as they were armed they kept their pursuers at bay with drawn weapons. At last they were completely surrounded, and seeing that escape was impossible they threw up their hands and surrendered. The desperadoes gave up just in time to save their lives, as an armed body of men had just arrived with weapons of war, and they were being taken down the street in a motor car, (200), was recovered.

Fight Between Penitentiary Birds.
MONTANA, Sept. 14.—For some months past numerous fist encounters have been had between convicts in the penitentiary here, and finally they concluded to have a fight to finish. The contestants were convicted Danzig and Brattinville. After a week spent in training they met, with guards as spectators and another convict as referee, and had a most bloody fight. It is reliably reported that this was done with the full knowledge and consent of Warden W. R. Mack, and that he witnessed the fight and had money bet on the result.

Guard Alexander Roberts, son of Prison Commissioner Roberts, was little better for one of the contestants. All the officials of the prison were present except Deputy Warden Kohney, who was away on leave of absence. The fight was a particularly one-sided affair. Convict Danzig being pumiled until covered with blood and almost unable to stand, when his second (a guard) threw up the towel.

The affair has caused sensation and there is a clamor for an investigation. The attention of the State Prison Board has been called to the matter.

Two Men Lured from Limb by Sharks.
NAT FRANKLIN, Sept. 14.—The schooner Gen. Manning arrived from Florida Island yesterday with a cargo of coconuts. Her commander, Capt. Spring, reports that while loading the cargo his vessel was twice blown out to sea by severe storms. The schooner was on her way to the coast when she was overtaken by two sharks. The second time several coconuts were captured and the occupants thrown into the water. The water swarmed with sharks, and many of the natives were torn limb from limb. Several islanders were dragged down. One young fellow plunged into the water with a long knife to save his father. Both, however, were torn to pieces. The young girl had almost reached a canoe when a shark seized her by the middle and dragged her down.

Two Men Caught for the Whippers.
CHICAGO, Sept. 14.—John W. Halahan, captain of the steam barge John C. Pringle, was held in \$500 bail by Commissioner Rogers yesterday on a charge preferred by Special Immigration Agent George E. Smith, of violating the alien contract law. The two men, identified as Richard were Lizzie Jacobs and Jennie Balch, residents of Kingston, Ont. They claimed they were hired by the captain as cooks on the trip, but when they reached Chicago they were discharged without any pay. Captain Pringle declared that the women left the barge at Chicago and he will be compelled to take the women back to the ship from whence they were hired.

A Volunteer Marker's Fate.
NEWCASTLE, Sept. 14.—A man named George H. Barry, 31 years of age, residing at 71 Port Terrace, Gateshead, died yesterday at the Newcastle Infirmary through injuries received at Blaydon race track. It appears that on the 13th August, deceased was engaged as a marker at the battle for a rifle corps, when a splinter from either the target or a bullet caught him in the right arm. He received such injuries as necessitated his removal to the infirmary, where he died as stated.

INTERCOLONIAL

Railway of Canada.

The direct route between the West and all points on the lower St. Lawrence and St. Lawrence River, Quebec, Montreal, New Brunswick, Nova Scotia, and the Atlantic coast, Cape Breton and Magdalen Islands, Newfoundland and St. Pierre.

Express trains leave Montreal and Halifax daily (Monday excepted) and run through without change between these points in 27 hours and 20 minutes.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travel.

New and elegant sleeping and day cars are run on all through express trains. The popular summer car, holding and dining rooms of Canada, are along the Intercolonial, or are reached by them.

The attention of shippers is directed to the superior facilities offered by this route for the transport of flour and general merchandise throughout the Province, and to the fact that the Intercolonial Railway also carries the European mail.

Timetable may be obtained at all information about the route and rates of fares and rates on application.

SPAIN'S AWFUL FLOODS.

THOUSANDS AND THOUSANDS OF PEOPLE DROWNED.

Appalling Scenes in Castile—The Town a Heap of Ruins Filled With Corpses—Frightful Loss of Human Life and Property—The Death Cattle Bury.

MADRID, Sept. 17.—Accounts from Castile are appalling in the extreme. The town is a heap of ruins, surrounded by a vast expanse of water, leaving visible here and there two tops, chimneys and floating wreckage of all kinds. Some of the streets have been partially cleared and made passable, but they are almost deserted. Here and there may be seen groups of destitute and weary people gazing in a torpor at their wrecked dwellings. The burial of victims continues the authorities are restoring something like order. The police have suppressed pillage. Food is arriving for the suffering, and the constant discovery of fresh corpses, it will be long before the mortal link is ended. It is estimated that 4,000 bodies of persons and stock have been drowned. The flood at Alcala has plunged the city into absolute darkness, having stopped operations of the electric light, and the water has reached the river Andalusia and overflowed its banks and converted the valley into a vast lake. The Queen has collected \$20,000 more to start a national relief. The Bank of Spain has authorized \$5,000, and other banks have followed suit. The members of the editorial staff of all the newspapers will on Thursday and Friday make personal collections in the streets of money, clothing and food. Many gloomy scenes are witnessed at Castile. Corpses are kept going from house to house collecting the dead. The dead bodies are laid in the carts, and then, but rapidly, the carters being compelled to be cautious to the feelings of the relatives. Survivors give harrowing accounts of the flood. Many mothers were seen struggling in the water to hold up children and finally succumbing to the risk of the torrent. Others were confined in rooms, with no hope of escape until the collapse of the walls opened a refuge. One man who was caught on a wooden bridge and twenty miles, besides an enormous number of horses. Wreckage and corpses were carried forty miles. The mayor of Castile puts the fatality there at 5,000. In some places the bodies have been found separated from the bodies. The officials have telegraphed for time to prevent an outbreak of disease. Large numbers of passengers on route to the south are detained here on account of the floods. Passengers coming to this city from Seville, Cadix, Corra, Granada, Valencia and Alicante are obliged to journey by way of Barcelona. A terrible storm, which set in near Valencia Tuesday morning, has destroyed the rice crop. The rivers Turia and Jucar are rising rapidly and threaten further disaster. The government has set apart \$100,000 for relief measures and has asked the Bank of Spain to grant credits to the government of the suffering provinces.

Correspondents who have been able to reach Castile describe it as a "city of the dead," while the monetary loss exceeds \$5,000,000.

THE HORRIBLE STORY IN DETAIL.

A pandemonium at Castile, who was an eyewitness of the disaster, says: The storm was accompanied by terrific thunder and lightning. While I was standing near the town hall I was startled by hearing the Mayor shouting from the balcony of his residence to the guards to run to the river as the waters were flooding the houses. I hurried with several companions to the lower part of the town. We found the water already in many places neck-high. With much difficulty we saved thirty persons. The Mayor presently arrived on the scene and appealed to all possessing carts to assist in transferring people to the upper part of the town. Only three persons responded, although two hundred possessed conveyances.

The same difficulty was experienced in obtaining the proper lodgings, and, in fact, it was necessary for receiving people in danger. The callous indifference of those in safety contributed to a great extent to the enormous fatality. Even those whose houses were flooded seemed incapable of realizing their danger. In vain we begged them to abandon their dwellings.

The storm having abated, they believed all danger past and stolidly refused to budge. Torrents suddenly commenced to run from the mountain gorges in all directions into the valley. Thus the day passed and at night many people, in spite of warnings, retired to sleep in their threatened dwellings. Now the storm commenced with redoubled violence. The river rose by leaps and bounds and carried everything before it with resistless fury. It was a awful sight to see the now thoroughly terrified people climbing to the roofs of their houses and shrieking vainly for help, which it was impossible any longer to render. The houses collapsed one after another and were swallowed up in the swelling torrent. Daybreak saw hundreds of men and women struggling in the water, clinging in despair to wreckage, and whirling along so rapidly that they were in a moment lost to sight.

The misery existing at Castile is intense. The inhabitants are compelled to sleep in the open air and the food supply is of the meagrest description. The guards are obliged to resort to force to compel men to assist in recovering bodies. Sixteen soldiers have been caught riding horses. No less than 343 corpses have been recovered.

The national relief fund has reached \$100,000. Money is being collected for the sufferers in the streets of Madrid. The town of Temples has been converted into an island by the flood, and communication with the town is almost impossible.

The storm wrought immense damage in Murcia, Huesca and Malaga. The railway works at Ronda were greatly damaged, three persons were drowned and many cattle perished. The consignment of goods delayed on the railways are heavy losses.

The disaster published by Royal authority a request to Spanish agents abroad to receive contributions for the flood sufferers.

China Comes to Time.

PARIS, Sept. 17.—The Chinese Charge D'Affaires visited Foreign Minister Ribot yesterday, and after a long conversation Ribot recognized that the measures hitherto taken to protect Europeans in China were insufficient, and that the slightest disturbances would be disastrous and the rioters punished. He added that six of the latter have already been hanged. It is feared that these promises will remain a dead letter.

LONDON, Sept. 17.—Mr. Spargen has had a relapse.

TWO BROTHERS LYNCHED.

Strangely in two brothers were shot for the murder of a Kentucky sheriff.

ROBERTS, Ky., Sept. 17.—The Gilliland brothers, James H. and Joseph, were lynched yesterday by a mob for the murder of Sheriff McGowan, who was killed last Saturday. The mob is supposed to have come mostly from Whitley and Laurel counties. McGowan was raised in Laurel county and had many friends in that section.

At a late hour the night before there was a great gathering of persons in front of the court-house, and the ominous words "one o'clock" were whispered from one to another. Without any conference they all entered the court-house and were repelled for the moment by a guard of some ten men in charge of the chief of police. The guard then saw it and they were allowed to enter. The men were hanged on the limbs of two sawn trees, one on each tree, about three square west of the court-house, in sight of the cemetery.

The Gillilands were taken to the hat and no confession could be procured. They asked leave to kneel and pray and prevent their execution. Their request was answered by angry curses from the mob. The authorities at this place did all in their power to suppress and quell the angry mob. The men were hanged on the limbs of two sawn trees, one on each tree, about three square west of the court-house, in sight of the cemetery.

New York's Democratic Candidate.

SARATOGA, N.Y., Sept. 17.—Rowell P. Flower, of Watertown, N.Y., was nominated on the first ballot at the Democratic state convention yesterday to oppose J. R. Foster, of New York city, for governor of New York state.

At Amargosa, the flood destroyed four stone bridges and twenty miles, besides an enormous number of horses. Wreckage and corpses were carried forty miles. The mayor of Castile puts the fatality there at 5,000. In some places the bodies have been found separated from the bodies. The officials have telegraphed for time to prevent an outbreak of disease. The guard then saw it and they were allowed to enter. The men were hanged on the limbs of two sawn trees, one on each tree, about three square west of the court-house, in sight of the cemetery.

The Gillilands were taken to the hat and no confession could be procured. They asked leave to kneel and pray and prevent their execution. Their request was answered by angry curses from the mob. The authorities at this place did all in their power to suppress and quell the angry mob. The men were hanged on the limbs of two sawn trees, one on each tree, about three square west of the court-house, in sight of the cemetery.

New York's Democratic Candidate.

SARATOGA, N.Y., Sept. 17.—Rowell P. Flower, of Watertown, N.Y., was nominated on the first ballot at the Democratic state convention yesterday to oppose J. R. Foster, of New York city, for governor of New York state.

At Amargosa, the flood destroyed four stone bridges and twenty miles, besides an enormous number of horses. Wreckage and corpses were carried forty miles. The mayor of Castile puts the fatality there at 5,000. In some places the bodies have been found separated from the bodies. The officials have telegraphed for time to prevent an outbreak of disease. Large numbers of passengers on route to the south are detained here on account of the floods. Passengers coming to this city from Seville, Cadix, Corra, Granada, Valencia and Alicante are obliged to journey by way of Barcelona. A terrible storm, which set in near Valencia Tuesday morning, has destroyed the rice crop. The rivers Turia and Jucar are rising rapidly and threaten further disaster. The government has set apart \$100,000 for relief measures and has asked the Bank of Spain to grant credits to the government of the suffering provinces.

Correspondents who have been able to reach Castile describe it as a "city of the dead," while the monetary loss exceeds \$5,000,000.

THE HORRIBLE STORY IN DETAIL.

A pandemonium at Castile, who was an eyewitness of the disaster, says: The storm was accompanied by terrific thunder and lightning. While I was standing near the town hall I was startled by hearing the Mayor shouting from the balcony of his residence to the guards to run to the river as the waters were flooding the houses. I hurried with several companions to the lower part of the town. We found the water already in many places neck-high. With much difficulty we saved thirty persons. The Mayor presently arrived on the scene and appealed to all possessing carts to assist in transferring people to the upper part of the town. Only three persons responded, although two hundred possessed conveyances.

The same difficulty was experienced in obtaining the proper lodgings, and, in fact, it was necessary for receiving people in danger. The callous indifference of those in safety contributed to a great extent to the enormous fatality. Even those whose houses were flooded seemed incapable of realizing their danger. In vain we begged them to abandon their dwellings.

The storm having abated, they believed all danger past and stolidly refused to budge. Torrents suddenly commenced to run from the mountain gorges in all directions into the valley. Thus the day passed and at night many people, in spite of warnings, retired to sleep in their threatened dwellings. Now the storm commenced with redoubled violence. The river rose by leaps and bounds and carried everything before it with resistless fury. It was a awful sight to see the now thoroughly terrified people climbing to the roofs of their houses and shrieking vainly for help, which it was impossible any longer to render. The houses collapsed one after another and were swallowed up in the swelling torrent. Daybreak saw hundreds of men and women struggling in the water, clinging in despair to wreckage, and whirling along so rapidly that they were in a moment lost to sight.

The misery existing at Castile is intense. The inhabitants are compelled to sleep in the open air and the food supply is of the meagrest description. The guards are obliged to resort to force to compel men to assist in recovering bodies. Sixteen soldiers have been caught riding horses. No less than 343 corpses have been recovered.

The national relief fund has reached \$100,000. Money is being collected for the sufferers in the streets of Madrid. The town of Temples has been converted into an island by the flood, and communication with the town is almost impossible.

The storm wrought immense damage in Murcia, Huesca and Malaga. The railway works at Ronda were greatly damaged, three persons were drowned and many cattle perished. The consignment of goods delayed on the railways are heavy losses.

The disaster published by Royal authority a request to Spanish agents abroad to receive contributions for the flood sufferers.

China Comes to Time.

PARIS, Sept. 17.—The Chinese Charge D'Affaires visited Foreign Minister Ribot yesterday, and after a long conversation Ribot recognized that the measures hitherto taken to protect Europeans in China were insufficient, and that the slightest disturbances would be disastrous and the rioters punished. He added that six of the latter have already been hanged. It is feared that these promises will remain a dead letter.

TWO BROTHERS LYNCHED.

Strangely in two brothers were shot for the murder of a Kentucky sheriff.

ROBERTS, Ky., Sept. 17.—The Gilliland brothers, James H. and Joseph, were lynched yesterday by a mob for the murder of Sheriff McGowan, who was killed last Saturday. The mob is supposed to have come mostly from Whitley and Laurel counties. McGowan was raised in Laurel county and had many friends in that section.

At a late hour the night before there was a great gathering of persons in front of the court-house, and the ominous words "one o'clock" were whispered from one to another. Without any conference they all entered the court-house and were repelled for the moment by a guard of some ten men in charge of the chief of police. The guard then saw it and they were allowed to enter. The men were hanged on the limbs of two sawn trees, one on each tree, about three square west of the court-house, in sight of the cemetery.

Save Your Hair

By a timely use of Ayer's Hair Vigor. This preparation has no equal as a dressing. It keeps the scalp clean, cool, and healthy, and preserves the color, fullness, and beauty of the hair.

"I was rapidly becoming bald and gray, but after using two or three bottles of Ayer's Hair Vigor my hair grew thick and glossy and the original color was restored."—Melvin Aldrich, Canton, O., U.S.A.

"Some time ago I lost all my hair in consequence of disease. After due medical treatment, however, I used Ayer's Hair Vigor and my hair grew again."

Thick and Strong. It has apparently come to stay. The hair is growing rapidly and is now as thick and strong as ever.

"I have used Ayer's Hair Vigor for the past four or five years and find it a most satisfactory dressing for the hair. It is all I could desire, being harmless, causing the hair to retain its natural color, and restoring it to its former condition."

"I have been using Ayer's Hair Vigor for several years, and believe that it has caused my hair to retain its natural color."—Mrs. M. J. King, Dealer in Dry Goods, No. 5, Main St., Lowell, Mass.

THE CHINESE RIOT WHILE THE AUTHORITIES ARE HELPLESS.

A Brutal Child Murder at Liverpool—The
Effect of the Smothering Powder—\$2,000,000 Bounties Provided by the Russian Government to Retire Disfranchisement.

SHANGHAI, Sept. 18.—The Chinese riot was planned at Kaitse and excited by disgraced Chinese soldiers. Catholic and Protestant missions, and property of members of the foreign settlement have been looted and burned. The custom house and Chinese property inside the city were protected by the police. The civil and military authorities are helpless; they fear to seize the looting.

London, Sept. 18.—The Berlin correspondent of the Standard telegraphs that the German Foreign Office has been receiving dispatches containing very quieting news from China within the last few days. China, according to these advices, is unable to do anything more than to request the withdrawal of the Powers, that she would punish those who were implicated in the recent outbreak.

Two Liverpool Boys Commit Murder.
LIVERPOOL, Sept. 18.—The details of a horrible murder committed by two boys, both of them about 15 years old, have just come to light in this city. Two lads named Crawford and Pearson were arrested here to-day, charged with murdering one of their comrades, a boy also about 15 years old, named John, who was found dead in a ditch.

The boys said that they wanted to steal the clothes of the murdered boy, and so pushed him into the water, intending to drown him. When the poor little fellow managed to scramble out (Crawford and Pearson pushed him in again, and then Crawford went down on his knees, and kneeling on the drowning boy's head, held him under the water until he finally ceased struggling.

The young murderers then watched the dead boy for a considerable length of time to see if he stirred and then they stripped the body of the clothes, dried them, and afterward obtained some money upon them at a pawn shop. This led to their identification and eventual arrest.

The Effect of Smothering Powder.
MELBOURNE, Sept. 18.—The eleventh army corps encountered the fourth army corps yesterday. A battle of several hours duration was fought in the presence of the Emperor. The fourth corps had its artillery in position on the summit of Kaitse Hill, the main body occupying (Grenoble), a village at the foot of the hill, commanded by General Hamelin.

The eleventh corps, under Baron Gull, first made a feint against Kaitse Hill, and then made a real attack on (Grenoble), the face of a heavy fire, but failed to dislodge General Hamelin. The Emperor galloped from point to point with indefatigable activity throughout the battle. Fifty thousand men were engaged. The firing was incessant, yet owing to the use of smothering powder the atmosphere was perfectly clear.

\$5,000,000 Bounties for Relief.
ST. PETERSBURG, Sept. 18.—The Government has provided the sum of 25,000,000 rubles to be used as a fund for the relief of the distress arising among the poorer classes in consequence of the failure of the grain crops and from other causes. This money will also be used to purchase and distribute a supply of food for winter sowing. Official reports show that the harvest has failed utterly in 15 Russian provinces, and partially in eight other provinces.

The distress in the Volga provinces is intense. In Penza women and children wander about, almost utterly exhausted, shrieking for food in the market places.

Merrill's Death of a Woman.

CLEVELAND, Ohio, Sept. 18.—John McCallister was shot up a wire yesterday. He fastened his climber securely into the pole, just above the first cross-arm, when his right leg touched a bare electric light wire. With a sickening groan McCallister leaped his hold on the pole and fell head downward. The body of the climber was, however, and he was held in this position fully ten minutes before the men who rushed to his assistance released his dead body. A search revealed just below the hip three internal spots where the deadly fluid had entered the body.

That Barley—A Fatal Duet.

PETERBOROUGH, Minn., Sept. 18.—A probably fatal duel occurred yesterday in the north end of the township. Tom Allerton and James Arrowsmith have been enemies for years. Naturally they had a personal encounter, and yesterday they met again and fought a duel with swords. They are both expert swordsmen and fought fiercely. Suddenly Allerton dropped his sword, where Arrowsmith sprang forward, claving the left side of his antagonist's head open. Allerton is now expected to die.

A Mystery in the Sea.

SAN FRANCISCO, Sept. 18.—The mystery surrounding the fate of the schooner Panama no longer overhangs this port from the Marshall Islands is at last cleared up. The vessel sailed for San Francisco on May 1 with a general cargo and besides a crew of seven had two captains, Lovelady, wife and three children. It is also said that several missionaries had taken passage on the Panama. The schooner was wrecked on a reef north-west of the Hawaiian Islands and every soul on board drowned.

Dead Between Editors.

SULFUR SPRING, Texas, Sept. 18.—E. W. Tate and Everett Moore, respectively, editors of The Echo and The Alliance Visitor, who have been attacking each other for some time, met in the streets and began a fist fight which terminated in both drawing pistols. Moore received five bullet wounds and fired but a few hours. Tate received one slight wound. Tate was arrested.

Anxiety About the Str. Corvus.

NEW YORK, Sept. 18.—Much apprehension is felt here for the safety of the steamer Corvus, reported disabled near Tahiti. The ship's agents have sent out tug boats to look for the vessel, but have no trace of her. It is supposed she has drifted out of the track of vessels.

Not in It.

ST. PAUL, Minn., Sept. 18.—Regarding the rumored combination of the Canadian Pacific, Soo and Great Northern railway systems, mentioned by special from the city, Col. Chas. H. Brown, vice president of the Great Northern, enters an emphatic and sweeping denial.

Earthquake Shocks.

PUNTA ARENA, Chile, Sept. 18.—About 8.35 last night several slight shocks of earthquake, lasting ten to fifteen seconds, were felt here, but no damage was done.

Fires of the Telegraph.

The Memphis, Tenn., theatre was burned yesterday. Loss \$50,000.
A cave-in occurred at the Alta mine at Virginia City, Nev., yesterday and five men were killed. The cave-in was caused by a falling rock.

A Canadian Killed in Montana.

STANFORD, Sept. 18.—Through an accident on the Montana Central Railroad on Tuesday afternoon W. A. Miller, brother of John Miller of this city, was killed. The deceased left Stanford for the west last April. Up to that he was running out of this city.

MILLINERY AND MANTLE DISPLAY TURNBULL'S

On Tuesday and Wednesday, the 22nd and 23rd Sept., our Millinery Showrooms will be open for the Fall Trade, when all the new Fall Patterns will be on display. As there is considerable change in the styles this season, ladies may expect to see novelties with us. We will also show an extensive range of Pattern Mantles and keep a well selected stock of Cloths and Trimmings, so that ladies preferring to leave their order for anything in the Mantle line, will find everything desirable with us. Our stock of Dress Goods is now complete. We are showing some novelties in Camel's Hair Cloths, Polka Dot and Check Robes, Cheviot Cloths and Fancy Serges. Miss Mercier, our Dressmaker, has returned from a trip to Rochester, Buffalo and Toronto and is well posted on all the latest styles. We feel we owe an apology to some of our customers for the unpardonable time their dresses were kept before made in the past, but as with any first-class dressmaker, Miss Mercier got over-crowded. We have made a rule not to take any orders but what can be filled in a reasonable time so that this will be avoided in the future. Our stock of Men's Suits and Overcoats are well bought and cheaper than ever. We claim to be the best house in town for Ordered Clothing. Arrived today, seven shades of Ladies Diagonal Suits (wide) at 15c. Three-quarter Table Napkins, 1.00 doz. All the leading makes of Corsets at the lowest prices in the trade.

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting artificial strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

crashes an appetite, purifies the blood, and, in short, gives great health, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." Dr. J. H. HARRIS, M.D., Surgeon, N.Y.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it built me up. There is nothing like it." E. C. ROGERS, Editor Enterprise, Belleville, Ill.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully that it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." Mrs. F. J. MOORE, N.Y.

Where Freedom Shines. Freedom—This may be a free country, but it is not the freedom that has any effect on the people. Such a patient, subdued but of humbly I never saw in my life. I should think it free born American would act as if he were monarch of all he surveyed.

Native. While until you see a passenger car broken down who expects soon to be a conductor. Good News.

Paraffine from East. A new industry that is flourishing in Brazil is the distillation of paraffine from a peculiar kind of peat, which is found in great beds. This peat is rich in paraffine, and the distilled product is used in the manufacture of candles. Some of the beds have been worked to great depth, but there is no evidence of the exhaustion of the supply. New York Journal.

Here Lies. Epitaphy is a demoralizing kind of life. It appears on the tombstones, and endorses the dead almost to the very stars. The usual method of beginning is: "Here lies." Very suggestive, for the line is frequently quite astonishing—almost enough so to both amuse and amaze the dead of whom they are written. A faithful epitaph is many instances, would be: "Here lies one who committed to take Dr. Pierce's Golden Medical Discovery." If sick and suffering, and dreading premature death, test the potent remedy. It cures all chronic liver, blood, and lung diseases, a biliousness, and all kinds of diseases, scrofulous sores and swellings, and all kinds of diseases, and even scrofulous of the lungs for Consumption, if taken in time.

Did you try my 50c. Black Tea—best value in town! ALAN ELLIOTT.

POISONS.

Their Remedies and How to Secure Their Effects in Time.

The first remedial effort in case of poisoning should be to enable the system to reject the poison; the next, to counteract its serious effects; and, finally, to begin the restoration of its normal tone. The poisons substances usually found in the household may be divided into three classes, which include: (1) the corrosive mineral and vegetable acids, such as sulphuric, nitric, carbolic, and oxalic acids; (2) the simple irritants, like the strong alkalies—potash, lime, soda, etc.; (3) the specific irritants, like arsenic, iodine, and phosphorus. Ferrous acid, chloroform, and opium belong to the neurotic poisons, some of which stimulate in their effects the symptoms of diseases of the brain and spinal cord, producing delirium, convulsions, paralysis, and syncope. Tannin says that morphine and alcohol specially affect the brain, derange the spinal cord, and diminish the activity of the stomach, and digitalis the heart. The solid poisons are less active than fluids and gases, while those soluble in water or in the digestive fluids are most injurious, because they are the most rapidly absorbed.

When after eating or drinking a person is attacked with violent pain, nausea, purging, convulsions, delirium, or great drowsiness, the supposition is probable that poison has been taken, and immediate medical aid should be obtained. While the use of the stomach pump is the most thorough means of emptying and cleansing the stomach, its operation by an inexperienced person may cause serious injury, either by flooding the lungs or by irritating the surface of the stomach, which has already been injured by the corrosive action of certain poisons. The safest course of procedure by non-medical persons is the promotion of the nausea, which is one of the indications of poisoning, until free vomiting has been effected. The simplest means to this end is the use of the hands of any one but a physician, that is, the use of lukewarm water in which mustard has been dissolved; a teaspoonful to a half-pint of water, repeated until the stomach is fairly empty.

The second remedial action is the application of some antidote calculated to counteract the effect of the poison either by combining with it, or depriving it of its deleterious qualities. The combination of antidotes with poisons forms harmless chemical compounds, or those which are insoluble in the gastric fluids. It then remains to neutralize the effect of the poison upon the system, and to overcome any depression or shock it may have caused; these are purely the physical effects.

Of the corrosive poisons, those most frequently used in the household are oxalic and carbolic acids, crotonol, and the caustic alkalies, potash, soda, and ammonia. Oxalic acid has sometimes been taken by mistake for Epsom-salts; the salt of sorrel, or the essential salt of lemon, used, like oxalic acid, for cleaning purposes and bleaching has caused poisoning.

The symptoms of oxalic acid poisoning are a burning sensation during swallowing, burning pain in the stomach, and almost immediate nausea. When there is no vomiting, great prostration, feeble pulse, and convulsions, death is likely to follow from collapse. The antidote in this case is—potash or soda, or Epsom-salts, or any of the other salts, mixed with water; but no fluid without an antidote, because it would favor the absorption of the poison. As in the case with most poisons, white of egg is a useful remedy.

Crotonol and carbolic acid are often used as disinfectants; they may prove dangerous, especially as death so rapidly follows a dose of the latter. The mouth and lips of the patient of the eyes are very much contracted, the breathing becomes stertorous, and coma is soon followed by death. The possibility of relief is small, but oil may be freely given, and immediately repeated for the first two hours.

Crotonol, potash, soda, caustic soda, washing soda, and household ammonia have an acid burning taste extending to the throat and stomach, accompanied by great pain, tenderness upon pressure, abdominal pain, and suffocation. The immediate relief may be followed by death from starvation, owing to the closing of the esophagus by stricture. From the case, a remedy for acute throat stricture of potash, has been known to cause death. In a recent instance an ounce of the alkaline was taken in mistake for Epsom-salts, and death ensued within a few hours.

The remedial treatment consists of neutralizing the poison by use of some weak acid, like lemon juice, and the free consumption of the acid from fruit juices, lemon especially, followed by draughts of mild oil.—Harper's Bazar.

The Human Mechanism. Just as every well regulated system of human progress (telegraphic communications) and in place automatic switches and signals, so all parts of the human mechanism are controlled by nerves, the head center being in the brain and numerous subsidiary offices situated in various parts of the body. The organism has advantages over all ordinary systems of telegraphic communications in that it is more complete and more than any transit system possesses. And very fortunately for the case, the vital functions, including circulation, respiration and digestion, might otherwise cease to be performed.

The mechanism being complete and the fuel supply sufficient, the growth of the body depends on the multiplication of cells. As to the origin of cells opinions differ. The German school holding that each new cell proceeds from a prior cell, while the French school declares that some cells are produced spontaneously from the plasma. Certain it is that in the lymphatics the white corpuscles of the blood are found in abundance, the same that are found in the living plasma and are always numerous in the vicinity of wounds where repairs have to be made.

Further, where anything occurs to check the flow of this white blood, either by effecting the nerves that control the lymphatic and lacteal or these organs directly, bodily growth is checked. To some such influence we attribute the diminutive stature of the "Lilliputians."—New York Times.

A Gallie Find in Denmark. An antiquarian find, which will excite interest all over Europe, has lately been made in Roskilde, near Copenhagen. The objects are all of silver, the principal piece being a very large basin, on which have been fastened plates of silver hammered out with figures of men, women and animals. The basin is twenty-six Danish inches in diameter, but scarcely eight inches high. The two pieces are apparently wanting; but it is hoped they will turn up when the basin is minutely examined.

The skeleton of the figure are now empty but had evidently been filled with colored glass. One of the plates, which is nearly seventeen inches long, shows warriors, with helmets and other ornaments. One figure is a god with a wheel at his side, and on another are two elephants. A third shows a horned god in a sitting posture with his legs crossed orientalwise.

All these have apparently nothing to do with northern mythology, as was at first supposed. The whole find has now reached the Danish national museum, and we see that these pieces belong to the god lore of the little people. The god with the wheel, for instance, is the Gallic sun god. The whole is the work of a Gallic artist at that early period when the Romans and Gallic people first came in contact. Allowing time for these things to wander so far north, the date would seem to be, so regards Denmark, the first century before Christ. Other things belonging to this Gallic group have been found previously in this country. The total weight of precious metal hitherto discovered is about twenty Danish pounds.—Academy.

Save Your Hair

By a timely use of Ayer's Hair Vigor. This preparation has no equal as a dressing. It keeps the scalp cool, and healthy, and preserves the color, fullness, and beauty of the hair.

I was recently becoming bald and gray, but after using two or three bottles of Ayer's Hair Vigor my hair grew thick and glossy, and the original color was restored. —*Malvin Alkirk, Oshawa, Ont., N. E.*

Some time ago I lost all my hair in consequence of measles. After due washing, no new growth appeared. I then used Ayer's Hair Vigor and my hair grew.

Thick and Strong.

It has appeared to me, that the Vigor is a very good and safe hair dressing. —*J. B. Williams, Peterborough, Ont.*

"I have used Ayer's Hair Vigor for the past four or five years and find it a most satisfactory dressing for the hair. It is all I could desire, being harmless, cooling the hair to its natural color, and preventing loss of small quantity to the scalp. —*Mrs. M. A. Bailey, 8 Charles street, Montreal, N. E.*

"I have been using Ayer's Hair Vigor for several years, and believe that it has done up for me, more than any other hair dressing, to keep my hair in its natural color. —*Rev. J. J. Jones, Dealer in Dry Goods, etc., Bishopville, Md.*

BALMACEIDA SUICIDES.

THE EXCITATOR OF CHILI TAKES HIS OWN LIFE.

Unable to bear disgrace and defeat he makes his exit to the West World in a sensational manner — death of his career.

New York, Sept. 20.—A special from Valparaiso says that Balmaceda, ex-President of Chile, committed suicide Saturday morning at 9 o'clock.

Jose Manuel Balmaceda came of one of the oldest and wealthiest families in Chile. He was born in Santiago in 1860. He was educated at the University of Chile, and then studied law in Europe. He returned to Chile in 1888 and began his political career. He was elected President in 1891 and re-elected in 1893. He was a strong supporter of the liberal reform movement in Chile. He was a member of Congress, and there he remained until 1894. He was then elected Minister of Foreign Affairs and afterward promoted him to the highest official position in the Cabinet. Throughout his career, Balmaceda was a staunch supporter of his policy, and did much to secure the passage of anti-clerical laws, aimed to bring about eventually a separation of church and state. When he was elected President in 1891 his victory was generally regarded as a triumph of progressive principles. He pledged himself to effect economies in public expenditures, to promote the objects of the party which had elected him, and to exert himself to prevent officials from interfering with elections.

Balmaceda was of the passionate sort of politicians who allow absolutely nothing to interfere with their plans. Balmaceda was inaugurated in 1891 and was elected for five years. He was charged with attempting to execute a plan by which he would become permanent dictator of the republic. The events leading up to his overthrow are of sufficiently recent date not to require repetition.

Associated Press. President. BOCAS DEL TORO, Colombia, Sept. 18.—Passengers by the American schooner Wilford, from Baltimore via Nova Island and the Honduras and Mosquito coasts, announce that the settlements along the Honduras coast at which the vessel touched are rife with wild rumors of the recent Liberal coup d'etat at Tegucigalpa, and President Bogota is said to have been assassinated in his private office by a prominent member of Hostia's party who was granted an audience by the President upon the pretext that he had a petition to present.

NAY ANTONIA, Texas, Sept. 20.—Juan Macorita, who has arrived from Nier Mes, says the Mexican revolutionists were overtaken north of that place by Government troops and that a battle ensued in which several on both sides were killed and wounded. Caterina (Lara), the leader of the revolution, was seriously shot and then hanged to a tree. Gen. Nandovai, (ten, (Lara's) chief lieutenant, escaped to the mountains with a few followers. He is being pursued and will be captured.

Mr. Parsell, speaking at Cambridge yesterday, said that one of the dangers of the future was a diminished Irish representation in Parliament. No English party, he said, could be trusted. The adoption of the "one man one vote" principle would mean a serious reduction of Ireland's electoral strength.

A 6-year-old Lad Drowned. WINSTON, Sept. 20.—The 6-year-old son of W. Raab was drowned in the river yesterday morning. He was playing on the U. T. R. dock with a number of playmates and slipped off a pile of lumber.

Burned to Death. BIRMINGHAM, N. D., Sept. 20.—Word has just reached here that George W. Johnson and son, living about 60 miles south of here in Kemmons County, were burned to death while fighting one of the worst prairie fires ever witnessed in that county.

A Steamer's Paper Diet. BOSTON, Sept. 19.—An steamer which was en route to America, Carl Weismann's experience on from London, is instructive. The boatman discovered him on Sept. 1, and 30 tons of cargo had to be displaced to get him out of the hold. There, since Aug. 27, Weismann had eaten nothing but paper and drank nothing but the sweat on the iron plates of the hold.

Providence from his connection with a liberal reform movement. Two years later he was elected a member of Congress, and there he remained until 1894. He was then elected Minister of Foreign Affairs and afterward promoted him to the highest official position in the Cabinet. Throughout his career, Balmaceda was a staunch supporter of his policy, and did much to secure the passage of anti-clerical laws, aimed to bring about eventually a separation of church and state. When he was elected President in 1891 his victory was generally regarded as a triumph of progressive principles. He pledged himself to effect economies in public expenditures, to promote the objects of the party which had elected him, and to exert himself to prevent officials from interfering with elections.

Balmaceda was of the passionate sort of politicians who allow absolutely nothing to interfere with their plans. Balmaceda was inaugurated in 1891 and was elected for five years. He was charged with attempting to execute a plan by which he would become permanent dictator of the republic. The events leading up to his overthrow are of sufficiently recent date not to require repetition.

Associated Press. President. BOCAS DEL TORO, Colombia, Sept. 18.—Passengers by the American schooner Wilford, from Baltimore via Nova Island and the Honduras and Mosquito coasts, announce that the settlements along the Honduras coast at which the vessel touched are rife with wild rumors of the recent Liberal coup d'etat at Tegucigalpa, and President Bogota is said to have been assassinated in his private office by a prominent member of Hostia's party who was granted an audience by the President upon the pretext that he had a petition to present.

NAY ANTONIA, Texas, Sept. 20.—Juan Macorita, who has arrived from Nier Mes, says the Mexican revolutionists were overtaken north of that place by Government troops and that a battle ensued in which several on both sides were killed and wounded. Caterina (Lara), the leader of the revolution, was seriously shot and then hanged to a tree. Gen. Nandovai, (ten, (Lara's) chief lieutenant, escaped to the mountains with a few followers. He is being pursued and will be captured.

Mr. Parsell, speaking at Cambridge yesterday, said that one of the dangers of the future was a diminished Irish representation in Parliament. No English party, he said, could be trusted. The adoption of the "one man one vote" principle would mean a serious reduction of Ireland's electoral strength.

Save Your Hair

BY THE USE OF AYER'S HAIR VIGOR.
This preparation has no equal as a dressing. It keeps the scalp clean, cool, and healthy, and prevents the hair from falling out, and keeps the hair from becoming thin and gray. It is the only hair dressing that will restore the hair to its original color and growth. "I have used Ayer's Hair Vigor for several years, and have been able to grow my hair thick and glossy and the original color restored."—Mrs. M. A. Bailey, of New York City.

Thick and Strong.
It has recently come to my attention that many people are using Ayer's Hair Vigor for several years, and have been able to grow their hair thick and glossy and the original color restored. BANK THIEVES STEAL NEARLY A MILLION DOLLARS.

One of the most extensive robberies ever reported—accidents to workmen—further reports concerning the night incident—foreign news of a night.

LONDON, Sept. 22.—The banking world of this city has just been startled by the announcement that an important bank robbery has taken place in the city. The police and bank officials are trying to keep the matter as quiet as possible, so that the entire faith in the case is not shaken. It is known, however, that the institution that has suffered is the London and Westminster Bank, an important establishment having over 15 branches in this city. The money stolen consisted of a large parcel of bills returned from the country banks to the London and Westminster Bank. It is currently reported that the amount stolen is not less than \$1,250,000, and that it may amount to as much as \$1,500,000.

IN FAVOR OF THE PEOPLE.

Mr. John E. Gore, says a Change Must Be Made.
LONDON, Sept. 22.—Mr. John E. Gore, Member of Parliament for the City of London, has just delivered a speech in the House of Commons in which he declared that the present system of taxation was not only unfair but also was a burden upon the people. He declared that the present system of taxation was not only unfair but also was a burden upon the people. He declared that the present system of taxation was not only unfair but also was a burden upon the people.

A Hurricane Adds Its List of Dead to That of Cholera.
MADRID, Sept. 22.—A hurricane last evening added to the damage done by the recent floods to the unfortunate town of Consuegra. Many of the houses which were undermined or otherwise weakened by the floods collapsed last night beneath the force of the wind. An epidemic of cholera has broken out at Consuegra, capital of the province of that name. There are already over 2000 severe cases of that disease in the city and it is feared that the epidemic will spread over Spain.

A Hurricane and the Mercury.

LIVERPOOL, Sept. 22.—A hurricane swept over the River Mersey Monday, doing considerable damage to shipping. At Black Point, near the mouth of the river, a number of boats were wrecked, and a great amount of damage has been done to the crops. Reports from several sections of North Wales show that the storm has flooded the valleys in that section of the country and farmers have suffered severely. The River Mersey last went out two to the high water mark, and the schooner "Aukland" was wrecked, and the crew were saved. Navigation on the Mersey is dangerous on account of floating trees and wreckage, and immense quantities of corn are rotting down. Several yachts have been sunk at Llandudno. Heavily loaded small boats have been destroyed at Port Bello, and the pier has been damaged. Railway bridges at Penrith and in the Ribblesdale have collapsed, and traffic is interrupted in many cases.

many ships. The new schooner "Blowen" has been wrecked at Cardigan. The crew were saved.

Mainstream in Berlin.

BERLIN, Sept. 22.—A terrible thunderstorm passed over Berlin Monday. Several houses were struck by lightning. An incessant downpour of rain extinguished fires and stopped traffic on the streets.

A Fleet With Torpedoes.

LONDON, Sept. 22.—The British squadron in the Levant, Admiral Lord Kerr commanding, left the waters of Smyrna on Sunday last. It is now known that it was occupied in extensive submarine mining operations off Nigri last week and engaged in several trial night attacks with torpedoes. The information comes, presumably, from Admiral Kerr's official report of the proceedings, which has reached the Admiralty Office. No mention is made of the landing of marines or guns on the island.

Accidents to Workmen.

BIRMINGHAM, Sept. 22.—The International Congress to discuss the causes of accidents to workmen, the employers' liability in such cases and the best means to be taken to prevent such accidents, opened here Monday. Up to this time there are only 100 delegates present, out of the 300 appointed by various labor organizations and the employers' associations. Among the delegates are four Americans: M. Druce, Minister of Foreign Affairs, welcomed the delegates on behalf of the Government. M. Druce said he hoped the deliberations of the congress would result in an improvement in the condition of the existence of working people throughout the world.

Damage Done to a Gale.

LONDON, Sept. 22.—A despatch from Berlin on Tuesday, North Wales, announced that a furious gale has been raging there and that several vessels have been wrecked. In addition, a great amount of damage has been done by the storm to harbor, which has recently been much improved. The crops throughout the borough have also suffered severely.

Fire in Toronto.

TORONTO, Sept. 22.—Last night the premises of Thompson & Co., slaughterers, was damaged to the extent of \$5000 by fire.

A British Columbia Earthquake.

VICTORIA, B.C., Sept. 22.—Victoria was visited by a sharp shock of earthquake about 1.40 yesterday. Although no damage to property was sustained the shock was felt all over the city. It lasted about 7 seconds.

A Fatal Fire.

QUEBEC, Sept. 22.—A houseman named Quibault, aged 50, residing at Cap Blanc, a suburb of this city, was killed by falling from a ship down on his ladder, which was lying alongside the vessel to discharge some cargo.

Darlington, Wis., Sept. 22.

At noon Monday an Italian mob took from the county jail Anton Nicolodi, who brutally murdered James McKeighan, a neighbor, last Wednesday, and hanged him to a tree in the court house yard.

The Pope on Dressing.

ROME, Sept. 22.—The Pope has sent a letter to the German and Austrian Catholic clergy urging them to make the strongest endeavor to eradicate during the Pope's visit to the French provinces.

Large Shipment of Salmon.

VICTORIA, B.C., Sept. 22.—The steamer "Princess Louise" has returned from the north carrying with her a large quantity of salmon, valued at \$50,000, which will be shipped to England by the last cable ship.

INTERESTING ITEMS BY WIRE.

Allerton went another mile in 2.09 yesterday thus putting an end to all dispute as to the nation's champion.

The Pope is organizing an international congress to be held at Freiburg in 1902, to consider the rural laborers and the smaller class of farmers. I am a learner, and am planning by personal contact facts which will justify me to form a definite policy upon the English land question.

The Mar to-day predicts that Mr. John E. Gore will be the leading Tory-Democrat, and intimates that he is preparing to go high for the rural vote.

ALLEGED SCANDAL IN CONNECTION WITH "SECTION E," C.P.R.

Mr. Lester Makes Charges Against the Postmaster-General Which the Letter Says He Will Reply To—The Report on the Privileges and Elections Committee Report

OTTAWA, Sept. 23.—In the House yesterday Mr. Lester rose and declared that he is emphatically informed, and that he believes that

It is able to establish by satisfactory evidence:

1. That in the year 1878 Messrs. Alexander Manning, John Hindele, John James Macdonald, Alexander McDonald, James Macleod, and Peter McLaughlin entered into a contract with the Government for the construction of a portion of the Canadian Pacific Railway, between Port Arthur and Regina, and
2. That said contract and the works in connection therewith were completed by the said contractors to whom they were a source of great profit.
3. During the whole period covered by the said contract, the Hon. John G. Macgill, Minister of the Interior, and a member of Her Majesty's Privy Council for Canada, was a member of the House of Commons, and the Riding of Larnark, and still is such member.
4. That the said Hon. John G. Macgill became and was lawfully interested in the said contract, and that he received the share thereof standing in the name of Peter McLaughlin, and has received large sums of money from the said contract, and derived direct and substantial pecuniary benefit therefrom.
5. That during the progress of said works, and while the Hon. John G. Macgill was interested therein, members of the firm were called upon by members of the Government to purchase bonds and shares of the said railway, and subscriptions were paid out of moneys of said firm and with the knowledge and consent of the said Hon. John G. Macgill, and that the said moneys of the firm and while the said contributions were so demanded and paid the said firm of the said contractors were not paid over upon the Government by reason of many matters being unsettled and in dispute in relation to the said contract which were at the time of the said payments, and subsequently settled not unfavourably to the said contractors.

Asked for a Committee.

Mr. Laidlaw, therefore, moved that a select committee be appointed to inquire fully into these allegations. He said the first witness would be the Hon. member of the House of Commons, the member of the said firm Hon. Frank Smith. The motion he made the motion at so late a period of the session was that the information and evidence should be collected and presented within the next few days. He hoped that the investigation would be completed in four or five days.

Motion to be moved to-morrow.

Mr. Haggart said he was prepared to report on the subject but he thought the motion he would make his answer to-day.

The debate on the report of the Committee on the *Whitlock* case was held on Monday night, the 22nd inst., at the Quebec Hotel. The speaker was Mr. J. A. McLean, president of the Quebec Harbour Commission, and he showed the Public Works Department, and yet it was not claimed that the commission was guilty of complicity in these frauds. Mr. McLean said that the labourers of the works, under whom worked the inspectors, who received the sum of \$3000 in bribes; yet the inspectors were not guilty of anything, and were in the front, but it was claimed that it was impossible that frauds, the result of a deep-laid conspiracy, could be carried on with the connivance and complicity of Mr. Hector Langens.

He reviewed the evidence and declared that the evidence bore witness in favor of the majority report.

Mr. Davies followed, questioning Sir Hector Langens severely, and concluded by carrying in amendment the minority report.

PUBLIC ACCOUNTS COMMITTEE.

The Whitlock Company Had to Pay Com-
mission on the Purchase of the

OTAWA, Sept. 22.—At a sub-committee meeting of the Public Accounts Committee Hon. Peter Mitchell of The Montreal Herald was examined in regard to a press advertisement published in the Montreal Herald, in which it was stated that the *Whitlock* company had purchased the press for \$100,000. It will be remembered that Mr. Danneberg, when examined before the committee, stated that the press was purchased for \$100,000 on the press purchased for that newspaper from the Whitlock Machine Company.

businessman John H. Hendrick of Montreal, who was not a party to the statement. Along with the manager of The Herald, Mr. White, he is in the fall of 1907, and purchased a share of the company for \$2,100, another \$1,600 and another \$1,150 and a further for \$440. After making the negotiations with the company down to what they said were business terms, Mr. Hendrick, the manager of the company, said if he (Hendrick) would take the commission on the shares, Mr. Mitchell would do it for him. Mr. Mitchell replied that he thought they had got bottom prices for the shares, and that he would not have to go through a conversation. "This is not customary on our side of the line," replied Mr. Mitchell. "I think you are wrong," was the answer. Mr. Hendrick took a commission on their group. Mr. Mitchell then asked The Herald manager to get the commission taken off the face of the amount, so that the newspaper would gain the benefit of it. This was done. The commission was reduced in price to the amount of the commission, while those of the bureau would be increased by the amount of the commission, owing to its being diverted to another person, the person who made the purchase.

This contained the evidence and the commission adjourned.

Two Bang Dies
Morristown, Sept. 28.—A French-Canadian family named Lingo, living at 504 Mangrove-street, partook of cabbage soup as dinner yesterday afternoon. The mother and her seven children were taken seriously ill. A doctor was called in and pronounced the case one of poisoning. The two youngest children died and the cabbage was found to be contaminated with strychnine. It is supposed that the cabbage was spoiled with Paris green.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

For people have suffered more recovery from dyspepsia than from any other ailment. I have known greater cases of it. My wife before 1898 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 100 pounds, suffering burning sensations in the stomach, palpitations of the heart, nervousness, and indigestion. I could not sleep, but all night in my work, had fits of melancholia, and on days at times I would have vomited.

I became nervous, restless and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day I was comforted by my mother-in-law, who told me to take Hood's Sarsaparilla.

I took Hood's Sarsaparilla, and before taking the whole of a bottle I began to feel like a new man. The terrible pains in the stomach subsided, the palpitations of the heart subsided, my stomach became content, nervousness disappeared, and my entire system began to improve. With regular use of Hood's Sarsaparilla, the strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla.

H. B. If you desire to buy Hood's Sarsaparilla do not be induced to buy any other.

ANOTHER DISCUSSION IN THE HOUSE ON THE TRENT VALLEY CANAL.

Addressed by Mr. Stevenson and Mr. Burrows—The Postmaster-General speaks for the Government.

Continued from Tuesday.

Mr. CONYER.—I have listened to the remarks of the hon. member for North Victoria (Mr. Burrows), and on this occasion I suppose I may be allowed to make a few remarks in regard to it. I think the member for North Victoria (Mr. Burrows) is not sincere in coming before this House and introducing this canal. I certainly think from his speech, from the time he took him to deliver it and the time it must have taken him to prepare it, that he expected to deliver the last session of Parliament, but that he had not done so.

Mr. Burrows, I think the hon. member's speech is a very good one. He has done for his own constituency and not in behalf of the Trent Valley Canal. He has done it in the interest of his own constituency. He has done it in the interest of his own constituency. He has done it in the interest of his own constituency.

Mr. Burrows, I think the hon. member's speech is a very good one. He has done for his own constituency and not in behalf of the Trent Valley Canal. He has done it in the interest of his own constituency. He has done it in the interest of his own constituency. He has done it in the interest of his own constituency.

is nearly double the amount of all the grain in the form of wheat, oats, barley, and other agricultural products, in the form of breadstuffs, that are exported from this country to all the world.

Mr. Burrows.—What was Mr. Charles Tupper's statement?

Mr. Burrows.—I do not know. I am speaking about your statement. I believe, as the hon. gentleman from Peterborough stated, that the canal would serve a great advantage in carrying through freight from Ontario to the coast, that large ships, instead of passing through the Welland Canal and passing down to Kingston and there making long trips, may possibly adopt the shorter route and go to the coast of the Georgian Bay and the Lake Huron, and he takes it as a matter of course that the canal would be of great benefit to the Dominion and an immense benefit to the people of the country in which it is built, and we all know that the indirect advantage in the shape of developing water power and manufacturing on canals will compensate more than compensate for the amount of money expended upon the canal. I conclude by repeating the statement which I gave to the hon. gentleman who has spoken before me, that the policy of the Government in carrying out this project and building this canal remains unchanged.

Mr. Burrows.—I am not acquainted with the locality of this proposed canal. During this session we have had several matters before us involving requests for grants to railways, and to-night there is a demand made for aid to a canal. There is no motion before us from the hon. member for the construction of this canal. From what I understand, this canal will cost from five to six millions of money. I merely rise to put in my protest against the aid of these proposed canals or railways until the Prince Edward Island tunnel is taken in hand. The hon. gentleman from Peterborough (Mr. Stevenson), the hon. gentleman from Victoria (Mr. Burrows), and the Postmaster-General, have all spoken in favor of this work, so that it is not necessary for me to take up the time of the House in discussing it. But I wish to say to the hon. gentleman on both sides of the House that I for one—and I am sure every hon. gentleman representing Prince Edward Island will agree with me—will not support any canal or railway until the Prince Edward Island tunnel is taken in hand. I think it is high time there was a change. The hon. member for Peterborough, while speaking about this canal, rambling away and began to talk about the National Policy, about the greater employment to people and encouraging home manufacturing. He says that we make all our wool and buy everything cheaper. Well, Mr. Burrows, I tell him that the hon. member for the National Policy the better. Nearly twelve months ago the late Parliament was dissolved because it was a moribund Parliament and therefore it was dissolved. That is not far from the truth, and the hon. member for the National Policy, who had devoted years of his life to bring this matter before the people, resigned his seat in the House and came down to Prince Edward Island, and ran as a candidate on the National Policy. Every member who is elected to this House is elected on the National Policy, and I am sure that this Parliament will be a moribund Parliament before they get re-elected. I think that the property of this country depends altogether on the obtaining of unopposed popularity.

Mr. Burrows.—A hon. member may not speak in the House until he has been called to the attention of the House. I am sure that the hon. member for the National Policy, who had devoted years of his life to bring this matter before the people, resigned his seat in the House and came down to Prince Edward Island, and ran as a candidate on the National Policy. GOOD REASONS

Why We Should do a

GOOD TRADE!

Come Friends, Buyers, Countrymen let us reason together, let us tell you our reasons for the belief that is within us that we shall do a big, a good trade, good for us, good for you.

- 1.—GOOD CROPS!
- 2.—GOOD MARKETS!
- 3.—GOOD STOCK!
- 4.—GOOD PRICES!
- 5.—GOOD STAND AND GOOD HELP!

Our Fall Purchases are coming to hand including a

\$25,000, Stock from Montreal

Scooped in by us at 58c. on the dollar. Those who are curious to know how we secured such a plum may be told that our ability to pay spot cash secured us the goods from the bankrupt estates of G. F. Burnett & Co. and Radford Bros., of the city of Montreal.

This is our share of fuel to help on the business fire that will burn brightly all over the Midland District and brightest of all at the mammoth stores of Gough Bros. We are bound to shine, and shine we must. When you come to buy, don't forget to buy at the right place.

Rheumatism,

BEING due to the presence of acid in the blood, is most effectively cured by the use of Ayer's Sarsaparilla. He who gets Ayer's and no other, and takes it till the poison is thoroughly expelled from the system. We challenge attention to this testimony:—

"About two years ago, after suffering for nearly two years from rheumatism, being able to walk only with great difficulty, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months, and am pleased to state that it has effected a complete cure. I have since had no return of the disease."—Mrs. R. Irving Dodge, 118 West 128th st., New York.

"One year ago I was taken ill with inflammatory rheumatism, being confined to my house for several months, and the disease very much debilitated, with no appetite, and my system disordered in every way. I commenced using Ayer's Sarsaparilla and began to improve at once, gaining in strength and some recovery of my usual health. I cannot say too much in praise of this medicine."—Mrs. L. A. Clark, Madison, N. H.

MR. MERCIER REPLIES.

HIS EXPLANATION OF THE BAIE DES CHALEURS AFFAIR.

Letters laid before Parliament yesterday.

Government members to have precedence over all other members in future—Parliament will also meet on Saturday.

Ottawa, Sept. 24.—Mr. Abbott yesterday laid on the table of the Senate the answer of Premier Laurier to Lord Aberdeen's angry demand for an explanation of the Baie des Chaleurs railway matter. The reply is dated Sept. 18.

Mr. Mercer says his colleagues and himself have decided to act according to the House's desire and limit their action to simple vote of censure on the Premier.

He denies the jurisdiction of the Senate in the matter and the equity of its proceedings. Mr. Mercer, after reviewing the whole of the transaction, reviewed by the investigation of the committee at very great length, goes on to explain the manner in which the letters of credit were issued. He maintains that the payment thereunder was perfectly regular and made with the sanction of the Crown. The official procedure, in his view, was entirely correct.

With respect to the financial revelation, Mr. Mercer says the incident was very much to be regretted. But it was not his duty to condemn the Premier for a matter between two persons (Laurier and Armstrong). "If my colleagues," he said, "for myself, had any other course to follow, I would have followed it."

With regard to the \$100,000, divided into notes of \$500 each, he represents that the products of the notes, with the exception of one or two, were not intended for personal use, but for political purposes. He had authorized the notes in bank and sent them to Montreal.

He then quotes the evidence to that effect.

Reporting the note exchanged for a letter of exchange in Paris in favor of Mr. Mercer, producing \$2,500 francs, the Premier says he is informed that the money was used on one of the bank notes advanced, and concludes: "I affirm that when in Europe and waiting this sum I asked it to be sent me, and I am naturally expecting to pay the expenses of the transaction, seeing it was for my personal expenses." "I affirm also that in asking for this money I was not aware of the transactions connected with the railway, or of Mr. Laurier having obtained \$100,000 or any other sum."

He then goes on to speak of the conversation referred to by Lord Aberdeen, with Mr. Mercer, to show that so far as he was aware everything that took place during his absence had been in good faith. He maintains that the acceptance by Armstrong of \$175,000 in payment of his contract was legal.

In conclusion Mr. Mercer says he hopes he has explained satisfactorily and justified the action of his Government in the matter connected with the Baie des Chaleurs Railway.

A. P. Bradley, Secretary of the Department of Railways and Canals, was accompanied by the Government, owing to his submission to the Public Accounts Committee that he had confined to his own work in the department for 15 months at \$50 a month, when as a matter of fact the man was away at college in Toronto or Montreal.

Mr. John Thompson gave notice to-night that he would move on Friday that the House sit on Saturday and that Government orders have precedence.

Mayor Clarke, D. Creighton (Municipal), Frank Turner (President Albany Club), W. R. Brock and W. Bennett (Natalist), Toronto, arrived in the city this morning.

The debate on the report of the Committee on Privileges and Elections was resumed. It is probable that a vote will not be reached until Friday.

PREMIER MERCIER WILL RETIRE.

Pleading the Rights of the Royal Commission, Mr. Mercer will retire.

Q. (Mr. Mercer).—It is stated that Mr. Mercer will retire from office pending the enquiry into the scandal which has been made in connection with the understanding that Mr. July de Lottinville will be Acting Premier.

An extra of The Quebec Gazette has been

issued containing the proclamation of the Lord Governor appointing Judge Jette (chairman), Baby and Davidson commissioners to enquire into and report on the Baie des Chaleurs transactions, to employ a clerk, stenographer and other officers who may be required, and to cause the minutes of their proceedings, the proof and their report to be printed. The sitting of the commission may be held in the city of Quebec or elsewhere in the province, if the acts of justice require it.

TROUBLE IN CHINA.

Insurrection in the valley of Yangtze River, thought, threatened.

SHANGHAI, Sept. 24.—The situation here is much worse. Disorders are increasing at Ichang, and this is the prelude to other disorders. The valley of the Yangtze River is in rebellion. Wuchang, the central seat of the Viceroy, is nearly to revolt, and the towns open to steamers—Hanow and Changshu—are likely to follow. The latter town is difficult to defend by warships owing to the shallowness of the river. The first excitement prevails. Steamers are fleeing from Shanghai, which is among the threatened towns, but no one of defence are being taken. Three ships of war are at Wuchang and the boats are concentrating at Shanghai. Minister Lammie of France has left here for Peking.

YANKOW, R.C. Sept. 22.—The C.P.R. Steamship Company of China, which arrived here to-day, brings the following Chinese and Japanese advices up to Sept. 11: At Ichang, Sept. 2, the American and Catholic missionaries and Mr. Aldridge's and Don's houses were burned and Mr. Chuk-burn's house by the anti-Christian Chinese rioters, the Franciscan Mission and one of the Sisters being badly hurt. On the following day the Catholic and Protestant missions were plundered and burned, but the English consulate and customs were left intact. The French mission was moved with difficulty by the Chinese authorities. The cause of the riot was a stolen child being brought to the convent by a young Chinese person. There was no warning of any trouble. It is presumed the stolen child was only an excuse for the outbreak, and was taken to the convent by one of the leading priests, as the outbreak was evidently premeditated and had long been fired to come upon that day. The date was carefully kept secret.

The Thousand Islands.

We-chang, spoken of in the above dispatch, is a walled town on the Yangtze River, in the Province of Hoo-Pan. It is the seat of a great native and foreign trade and possesses important native educational establishments. The population is about 80,000.

Kow Kow, in the same province, is a treaty port at the mouth of one of the tributaries of the Yangtze River, and 700 miles from the latter being badly hurt. On the following day the Catholic and Protestant missions were plundered and burned, but the English consulate and customs were left intact. The French mission was moved with difficulty by the Chinese authorities. The cause of the riot was a stolen child being brought to the convent by a young Chinese person. There was no warning of any trouble. It is presumed the stolen child was only an excuse for the outbreak, and was taken to the convent by one of the leading priests, as the outbreak was evidently premeditated and had long been fired to come upon that day. The date was carefully kept secret.

THE BOMB EXPLODED.
ELEVEN PEOPLE ARE DEAD AND 30
WOUNDED.

New York, Sept. 28.—Eleven people are dead and 30 wounded as the result of the bomb explosion at the Italian celebration in the neighborhood of Baylen and Nassau streets here for several days been preparing for.

A platform for musicians was erected in the street next door to Ilario's saloon and a large copper casing mortar was used for the bombs. These were filled with colored fire and exploded, throwing out a shower of varicolored sparks. It was this mortar which exploded and caused the explosion.

The bomb casing was about three inches in diameter and 30 inches long. About 11 pounds of dynamite were packed in it and lighted. It is supposed that the bomb exploded in it. There were hundreds of people watching with great expectancy. When it exploded the air was filled with the shriek of the explosion and the crowd rushed for confusion followed. A platoon of police were on the scene and they had great difficulty in preventing the crowd from rushing into the street trampling the injured to death. The explosion is supposed to be due to an overcharge.

The names of the dead are: Michael Arcadone, 19 years old; Charles Stewart Carlini, 20 years old; Joseph J. Carlini, 20 years old; Silasio, Frederick Westin, 15; Giuseppe Yano, Frank Miller, 31; Arthur Flynn, 19 years old; and Louis Marley.

500 Negroes Break For The Door One
JACKSONVILLE, Fla., Sept. 28.—Just before 12 o'clock last night a panic occurred in the Harmony Baptist Church (colored), in which one woman was killed, three received fatal injuries, and about 200 persons were seriously cut and bruised. An all-night riot followed, with the participation of 500 negroes. Suddenly the anguished began to flounder badly, then went out entirely. One frenzied survivor shouted: "Judgment, judgment," at which the crowd became wild with fear. A grand old negro woman, 70 years of age, a stronger one than trampled on the weak and rushed over their prostrate bodies. Many of the women were in the habit of wearing the tall but broken glass. The panic lasted 15 or 20 minutes and when the rioters were being driven out of the church, many were dead.

EASIER THAN MARRIAGE

In Twenty Years 228,716 Divorces Were Granted

SARATOGA, N. Y., Sept. 28.—"Marriage is easier than divorce," said a statistician

the marriage statutes in the various States in the Union, Mr Wright said: "From 1867 to 1886, inclusive, there were granted in the United States 228,716 decrees of divorce, the increase being steady and rapid yearly, showing an increase of 157 per

population increased only 60 per cent. Of the 228,716 divorces granted in the 20 years specified, 216,176 were granted on the petition of the wives. The duration of the married time is also an interesting study.

"In the period named it averaged 4.97 years for the women and 2.9 years for the men."

parties are divorced in other States than those in which they were married. In the number of divorces examined in 57,330 there were no children, and 141,810 the children formed no part of the question arising."

RUSSIAN MANOEUVRES VER. SERIES.
ST. PETERSBURG, Sept. 26. General Mir-
kavotch, who is in command of the Fif-
teenth Army Corps at Warsaw, and is in
charge of the Russian army manoeuvres in
Poland, has issued an order for the immu-

from the maneuvers without a passport from himself, and he is said to be under the influence of the German officers, engineers and newspaper correspondents. Therefore the behavior of the Russian troops in the Baltic is not to be taken into account with much severity is felt in Moscow. It is not likely to be known.

It is reported that the German army supplied every nerve to keep the army sufficiently supplied with food and thereby prevent the Russian troops from being starved, so that the garrison at Kherkoff was on half rations during 10 days of the month, owing to the failure of the Russian troops to do their duty. The disposable element is degraded in rank.

The Belgian Military Establishment.

BRUXELLES, Sept. 28. The "Journal ne le Mieux," of Liege, publishes an opinion on Belgium's military establishment which the Belgian Government has not yet answered. The Belgian general attending King Leopold on the occasion of the latter's visit to Berlin, has been reported to have said that in case of war the whole Belgian army would be required to garrison Antwerp and the forts of the Scheldt estuary, and that, what, although the Meuse forts were built as a protection against Germany, Belgian troops would be required to garrison them. Belgium should add 70,000 more men to her army, and adopt military institutions

Terrible Horrors of Destitution.
LONDON, Sept. 28.—The Telegraph's St. Petersburg correspondent says: "The distress among the peasantry is increasing. Potatoes are failing in many districts, and new wheat, knowing as the monks, more destructive than even the Russian fly, has appeared."

The whole population of some villages in the north is dying of starvation. The doctors prescribe opium instead of medicine. There are stories abroad of parents eating their children at Nijni-Novgorod. The authorities in Moscow are organizing a tax on laborers wherever they obtain work.

Gladiators on Temperance.
LONDON, Sept. 28.—Mr. Gladstone has written a letter to the Temperance League saying that the defeat of the measure introduced by Mr. Chamberlain is a calamity, and that the only way to overcome the evil-inducing publicans was in its first effect negative, but that it really created a movement which would grow in vigor. "The good which will grow in vigor," says the "freedom," Mr. Gladstone adds, "is a new system and a calamity the nature and force of which cannot be foretold. I have been using their most earnest endeavors to alter it."

Unlike the Jews, the Rumanians are not to be driven out of Rumania. The Czar wants them, and is trying to convert them."

Among them is Mr. Harrison, who the late Mr. Parnell had befriended and himself slightly and to sing Mr. Redmond's songs.

A Corpse in a River.
DUBLIN, Sept. 28.—A sensation has been caused at Villiersstown by the discovery of the corpse of a man, a stranger, in the river. It is supposed to be a case of murder like that of the "Black and White" man. Some workmen say they saw a carriage stop at the river a few evenings ago and somebody throw something into the water. The arrests have been made on suspicion.

Crops in France.
PARIS, Sept. 28.—The official results of the enquiry made by the department of agriculture of France shows that the wheat crop of 18,408,000 double quintals against 17,223,000 in 1890. The summer and winter crops together show a surplus of 1,185,000 double quintals over the same crops of

Rheumatism,

BRING due to the presence of uric acid in the blood, is most effectively cured by the use of Ayer's Sarsaparilla. Be sure you get Ayer's and no other, and take it till you are cured. It is thoroughly expellor from the system. We challenge attention to this testimony:

"About two years ago, after suffering for nearly two years from rheumatism, being able to walk only with great difficulty, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months, and am pleased to state that it has effected a complete cure. I have since had no return of the disease."—Mrs. R. Irving Dodge, 110 West 125th st., New York.

"One year ago I was taken ill with inflammatory rheumatism, being confined by my house six months, and with no appetite, and my system disordered in every way. I commenced using Ayer's Sarsaparilla and began to improve at once, and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."—Mrs. L. A. Stark, Nashua, N. H.

The Assassination of Rev. Mr. Large.

Peterborough, Sept. 25. Mrs. (Dr.)

Newart received a letter from her sister,

Mrs. Large, on Tuesday, announcing her

arrival in Tokyo, Japan. In the letter

was enclosed a clipping from The Japan

published in that city the day before

her arrival, which is as follows: "It was

stated some time ago that a man under

today at the principal police station in

Chiba Prefecture, had confessed to the

murder of Rev. Mr. Large, which event

will be remembered, took place in April

of last year. He was described as a youth

about 30, by name of Isomine Kurume,

native of Koto, in the Nara district of

Kansai Province. At first it was supposed

that he was insane, but the Kyushu Shin-

shu alleges that the examination conducted

at the Chiba magistracy goes to prove him

the real murderer, and that the fact was

reported to Tokyo on the 24th instant." Mrs.

Large knows the prisoner well.

BUY NOW IF AT ALL.

VERY day makes more apparent the fact that the town is getting ahead rapidly. Many workmen are buying houses and lots of land on the outskirts of the town. One of the most suitable locations is that known as the Erie property, at the west end, owned by Mr. W. M. Fitzgerald. This week he has closed the sale of a very desirable house and lot, and has every thing in this property to dispose of. Property in this neighbourhood is rapidly becoming scarce, and it will be well to have a look at this one if one is at all disposed to buy. The terms are very favorable and especially low for cash, though payment on time may be arranged.

TURNBULL'S

We want to call your attention to our magnificent line of Black Cashmere and Henrietta Cloths which have just arrived. We offer a Union Cashmere, nice quality 44 inches wide, at 35c., a yard, a finer grade at 45c., and a beauty 46 inches wide, at 50c. We show a good all-wool 44 in. wide at 40c., finer qualities at 50, 60 and 70. At 75, 90 and 1.00 we show a special make of German Henrietta Cloths in Blue and Jet Blacks, having the combined qualities of being bright in the finish, fine quality and heavy weight. We feel we cannot speak too confidently of this line as we believe there is not a better cloth brought into Canada and offered for sale. In all-wool Crepe Cloths we show both the fine and coarse twill, also something new and pretty in a fancy Polka-spot Crepe Cloth. We also show the new things in Fast Black Serges, Cheviot and Camel's Hair cloths. Dress Goods have been going out rapidly. We have now a table of Remnants in lengths suitable for children, marked regardless of original price. Cold weather is coming. We are showing an attractive stock of Infant's and Children's Coats, Hoods, etc.

RIBING IN GUATEMALA.

A Three Days' Fight, in Which Over 500 Lives were Sacrificed.

City of Mexico, Sept. 30.—Dispatches indicate that the Guatemalan riot was a serious affair after all. It appears the people were celebrating their national holiday and President Barrios personally appointed the officers of the day. To this the riotous mob took exception, and as the rioters took the riot was the signal for a storm of stones, which set them to flight, they being pursued across the big plaza by a howling mob, shouting "Down with the Government!" "Down with the Government!" "Down with the Government!"

A Good Pickling Receipt

For many instances spoiled by using an inferior recipe or a poor quality of vinegar.

To prevent such an occurrence and have all annoyance of having pickles spoiled to procure a pure article. This will cost you no more than the inferior compound.

The finest pickling recipe that can be had is our White Mixed Spice, a combination of fine herbs and spices properly blended, possessing a peculiar piquancy not to be found in any other recipe.

We have an extra fine article in Vinegars which are unsurpassed for strength and quality.

THURSDAY, OCTOBER 1, 1931.

THE CITY AND SUBURBS.

Castle Mill. Mr. John Ogleston, of North Moulton, lost four head of cattle on the C.P.R. and C.T.R. Wednesday night.

W. C. V. Annual Meeting. A report of the annual meeting of the W.C.V. with the President's address is crowded out of this issue.

This is a season when colds in the head are alarmingly prevalent. They lead to catarrhs, perhaps consumption and death. Nasal Hairs give immediate relief and certain cure. Sold by all dealers.

Free Booter. Kidd the Booter, is not a free booter, but price are so low at his shop that it might almost be said that he is giving boots away free and charging for the paper, twine, etc. 475-4011

He Did not Know. Was Landed. Again. The foot are here at last yet. This time it is a case of one brother slitting at what was supposed to be an empty revolver. Result—Death to one, remorse for the other. Moral—Smile, Taste, Wool & Co., "Raced" 475-4011

Across Out of Business Connections. James West, a sewing machine agent, having been identified had an altercation with Mr. McCarty, the Singer Co. agent, this morning. He was arrested with a cut on his head and fined \$2 or ten days. The fine was paid.

As Care for Constipation and Headache. Dr. Silas Lane, while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is the fruit of dry roots and is known as Lane's Family Medicine. It will cure sick-headaches and in the best Spring Medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 25c, and \$1 a package.

Preparing for this Evening. Busy hands have been at work to-day busily decorating St. John's school house for the social entertainment this evening. The general effect is very pretty. The entertainment to-night is being given by the Woman's Auxiliary. The Amateur Orchestra has kindly promised to play during the evening.

Crushed Beneath a Falling Tree. Additional particulars have been received of the death in a lumbering camp of the Parry Sound Lumber Co. of Mr. Fred Crowe, son of Mr. Wm. Crowe, of Dumfries. It appears that the young man while engaged with others felling trees was struck on the head and killed by a falling maple and died in an hour from the injury.

Blinding Nodules. In the ears, and defective hearing are the result of Catarrh. The disease works in all directions, and one of these routes is through the Eustachian tube to the drum of the ear. Catarrh of the Eustachian tube is the result of the removal of the cause, when the tube is not effectively treated. From the first application the nose becomes itchy, and the Eustachian tube is once more wet and healthy. Constipation,

It is not remedied in season, is liable to become habitual and chronic. Drastic purgatives, by weakening the bowels, confirm, rather than cure, the evil. Ayer's Pills, being mild, effective, and strengthening in their action, are generally recommended by the faculty as the best of a purgative.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills. I found it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years I have taken one of these pills every night before retiring. I would not willingly be without them."—G. W. JOURNAL, 20 East Main St., Carleton Place.

"I have been taking Ayer's Pills, and finding them in my family since 1877, and cheerfully recommend them to all in need of a safe and effective cathartic."—John M. Rogers, Louisville, Ky.

"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon after the bowels recovered their natural and regular action, so that now I am in excellent health."—S. L. Loughbridge, N. Y.

"Having used Ayer's Pills, with good results, I fully endorse them for the purpose for which they are recommended."—T. Conner, M. D., Centre Bridge, Pa.

THE SCENE AT THE END.

LAST DAY OF THE SESSION AT OTTAWA.

The speech from the Throne—His Excellency's Reference to the Recent Session and Various Other Affairs—Closing Business of the Session.

OTTAWA, Oct. 1.—In the House yesterday the Speaker announced that he had found the writ for a new election in Quebec West. In reply to Mr. Laurier, Sir John Thompson said the election would not be held until the new voters' lists were ready. The Northern Ontario Convention had dropped because unanimous consent was necessary. Hon. Mr. La Riviere objected to the resolution in the representation from Saskatchewan in the Territorial Assembly.

At 3 o'clock in the afternoon His Excellency the Governor General proceeded in state to the Parliament building, and the members of the House of Commons having been announced to the Chamber of the Senate His Excellency was escorted to the first session of the seventh Parliament of the Dominion of Canada with the following speech:

Honorable Gentlemen of the Senate, Gentlemen of the House of Commons:

I desire to convey to you my high appreciation of the earnestness and solidarity which you have devoted to the discharge of your duties during this protracted session.

I have also to express my sympathy in the regret which you and the whole Dominion must feel, and which I sincerely share, for the untimely loss of the late Prime Minister, the Right Hon. Sir John Macdonald, who died full of years and honors in the midst of your deliberations on the legislative business of the country under the moderation and patriotism which you manifested in that crisis, and which enabled the legislative business of the country to be continued without serious interruption.

An agreement was made in June last between Great Britain and the United States for the practical cessation of seal fishing in Behring Sea during the next season for the benefit of the protection of seal life, pending an investigation by experts of both countries has taken place, into the question of the necessity of measures for preventing its extinction. The bulk of this has gone to the United States on the subject of the extension and development of our trade with that country and other important matters, the provisions of the protocol of 1880, known as the Bering Sea Convention, have been revised. The measures have been approved in passing are important and useful. The reorganization of the Legislature of the Northwest Territories and the readjustment and increase of its powers are just tributes to the southeast capacity for self-government which that important and rapidly increasing section of Canada has manifested.

The acts for the improvement of the law respecting elections will, I hope, be found beneficial by simplifying procedure and facilitating the representation of overseas practices.

The measures respecting the cattle trade, the loading of ships, registration of trade marks and the vice-admiralty courts will prove advantageous to trade, commerce and shipping.

The enactments respecting the inspection of ships must prove of great value in the protection of the lives of persons employed upon them, while the act respecting the forewreck of the Dominion and the destruction of navigable waters will remove a possible source of discussion between this Government and the provinces.

Notwithstanding that the result of the census shows a less important increase in population than was expected it is satisfactory to observe the evidence of the general prosperity of the country, and the bountiful harvest with which Providence has blessed us this year will give a fresh impetus to the settlement of the North-west and to the enterprise and interests of the country generally.

It is gratifying to perceive that you have felt justified in reducing the duty upon sugar to the extent of three millions of dollars, thus materially lessening the cost of an article of universal consumption, and that you have not judged it necessary to provide for repaying the revenue to the extent of more than half the reduction thus made. It is a further recommendation of this important measure that, while it has largely reduced the cost of a necessary article of food, it provides for supplying the commonest loss of revenue by the imposition of duties on luxuries only.

by a group of contractors, and the irregularities of certain persons in the civil service, which have been discovered in investigations by your committees are much to be regretted. The punishment with which many of them have already been visited, the steps which are to be taken in regard to others, and the operation of the statute you have passed for their repression in future, will, I trust, have the effect of preventing their recurrence, and it is the intention of my ministers to procure the issue of a commission to investigate the organization of the Civil Service and report as to measures for its improvement.

The question of the restriction or prohibition of the liquor traffic has a serious occupying the attention of my ministers, and a commission will issue during terms to enquire into and report upon this important subject.

Gentlemen of the House of Commons:

I thank you for your loyal and prompt support of the public service.

Honorable Gentlemen of the Senate, Gentlemen of the House of Commons:

The House discussed the address to Her Majesty adopted by the Senate, praying the Imperial Government to do away with the "most favored nation" clause in the commercial treaties between Great Britain and the Kingdom of Belgium and Zululand, which are an obstruction to the expansion of Canada's foreign trade.

Mrs. Laurier and Mills proposed amendments, embodying the principle that Canada should make her own commercial treaties, and striking out from the address the affirmations approving of the Government's policy of protection.

These amendments were negatived and the address in its original form passed.

Express Train Robbed

URICA, N.Y., Oct. 1.—Special American express train No. 31, due here at 3:10 a.m. today, was robbed between here and Little Falls. The robbers brought the train to a standstill a mile east of this city by applying the air-brake which means of the valve in the car, and then escaped in the darkness. The express agent in charge of the car was A. R. Moore, who resides in Buffalo. It is not known how much was taken, but one package of \$3000 in currency was concealed by Moore, and was therefore saved.

The Veteran Conductor's Death.

ASBURY PARK, N.J., Oct. 1.—Andrew Quinlan, aged 79, the oldest railroad conductor in this country, was killed by a train at Asbury Park this morning, while attempting to cross the New York & Long Branch tracks.

Immense Exports of Grain.

DULUTH, Minn., Oct. 1.—The head of probably the largest wheat exporting house in the west to-day said: Of the 6,500,000 bushels of wheat shipped from this city in six weeks about 4,000,000 were for direct export. The bulk of this has gone to the United Kingdom. This amount of export business is at least twice as heavy as has ever before been seen here. The wheat is still contained and there is a large amount of wheat yet to go forward. In the last six weeks the output of flour here has been about 100,000 barrels and probably about one-quarter of this has been exported.

Nine Months' Failures.

NEW YORK, Oct. 1.—The total number of mercantile failures in the Dominion of Canada reported to Bradstreet's for nine months in the current year is 1235, against 1194 in nine months of 1890. The total liabilities this year are \$11,139,000, against \$10,488,000 in nine months of 1890; assets are \$4,922,000, against \$3,355,000 last year.

Honorable Gentlemen of the Senate, Gentlemen of the House of Commons:

I desire to convey to you my high appreciation of the earnestness and solidarity which you have devoted to the discharge of your duties during this protracted session.

I have also to express my sympathy in the regret which you and the whole Dominion must feel, and which I sincerely share, for the untimely loss of the late Prime Minister, the Right Hon. Purity

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scurvy, salt rheum, or other foul humor is hereditary and transmitted to generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is more poison in the blood than in the water. Hood's Sarsaparilla cures all diseases of the blood. This medicine, when fully tried, does expel every trace of scurvy or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

REVIEWS.

HARPER'S MAGAZINE.—Harper's for October opens with the first of two papers on Carlo in 1890, by Constantine Fenimore Woolson. This article, which comprises the best description of the Egyptian capital yet written, is accompanied by illustrations and photographs and from drawings by the most accomplished artists. Dr. John C. Van Dyke contributes to the same number an appreciative article on the Art Students' League of New York—the pickiest and yet the most important of the art schools in the world—relating its brief history and describing its methods and purposes. Ten illustrations drawn by pupils of the school accompany the article. Montgomery Schuyler's glimpses of Western Architecture (third paper) includes his impressions of the architecture of St. Paul and Minneapolis, with views of a number of characteristic buildings in these cities. Frank D. Miller, in "Quarrier's Ride," relates the story of an adventurer in Belgravia while serving as war correspondent in the Russo-Turkish war of 1877. Walter Beaman's paper on London describes the life of the common people in the Plantagenet period. It is appropriately illustrated from drawings by Harry Fenn and H. D. Nicholson.

Among other important articles are the Letters of Charles Dickens to Wilkie Collins, (second installment), edited by Laurence Hutton, and a popular and highly interesting article on Common Sense in Surgery, written by Helen R. Gardner. The fiction of the number includes the continuation of George de Maurier's Peter Ibbotson, with fourteen characteristic illustrations by the author; the conclusion of Mr. Howell's An Imperative Duty; a striking short story, entitled A Legend of Sorrow, by Ellengarde Hawthorne; and An Unfinished Story, by Richard Harding Davis, a remarkable piece of literary conception, which will appeal to the advocates of realism in fiction no less than to the lovers of romanticism. In the Editorial Departments, conducted by George W. Ham Curtis, William Dean Howells, and Charles Dudley Warner, there are discussions, as usual, on a variety of entertaining topics relating to society, manners, meals, art and literature.

Bonnamant's Magazine.—Bonnamant's for October is led by the fourth article in the series on Great Streets of the World. Mr. W. W. Story, the eminent American sculptor and writer, who has spent the most of his life in that city, writes of The Corso of Rome, recalling the medieval glories and giving many personal reminiscences of his sojourn there, with picturesque descriptions of the street as it exists at the present day—its palaces, monuments, churches and public buildings, a vivid account of the Carnival in its gayest days, and the races of the Barberi and the closing night when thousands of wax tapers are lighted and carried about the street. The illustrations for this article are by Elmore Tito, a Roman artist, who has caught the spirit of this most historic street. There are also several very entertaining out-of-door articles.—Archibald Rogers' adventures in Hunting American Big Game, and with it Dr. J. N. Hall's short paper on the Actions of Wounded Animals, which sportsman will find of very practical interest. Edward L. Wilson's Biography of the Oyster, from the planting of the seed to the market; and Major J. W. Powell's account of the origin and probable effects of the new lake in the Colorado Desert. The fiction of this issue includes a long and amusing installment of The Wreckers, by Robert Louis Stevenson and Lloyd Osbourne; a detective story, Captain Black, by Charles E. Barry; and a tale of the chaotic days of Greece and Rome by Ernest Solchire, a German writer of New York, who originally wrote this tale in his mother tongue. A paper on Carlyle's Fables as revealed in his essays, with poems and the Point of View—completes a strong number. The artists represented in this issue are notable, including Elmore Tito, A. R. Frost, Kenyon Cox, William Hele, Carlos T. Chapman, and Broughton

KEENE CHRONICLES.

Correspondence of the Review.

FALL SHOW.—Better arrangements than ever before are being made for our Fair on Oct. 8th and 9th.

SCHOOL MATRONS.—There appears to be a dead lock in our section. Two of the trustees want to get rid of Mr. Mark and the other one does not. The one in favor of Mr. Mark is backed up by position almost by over three-fourths of the ratepayers of the section. Mr. Mark's success with pupils at the school examinations has been very good, the school is doing well in every way, and if the section can do so they will keep Mr. Mark. There is a very strong feeling in favor of the teacher, who as an instructor has been so successful.

WILD RICE, &c.—The Indians have harvested a large crop of wild rice this year and have recently sold it in Keene. It is a very fine sample. Fishing has been very good. Ducks are scarce yet.

LESSONS FOR THE QUARTER ENDING SEPTEMBER 30th were reviewed by the Rev. Mr. Andrews, of the Wesleyan church, in his usual able manner.

HARVEST HOME SERVICE.—A very successful harvest home dinner, under the auspices of the Ladies' Aid of the Methodist church, was held at the town hall, Keene, on Friday evening of last week. After the refreshments were disposed of the assembly adjourned to the church, where addresses were delivered by the Rev. Messrs. Parker, of Campbellton, Thom, of Peterborough, and the resident pastor. The music by the choir was excellent, as were also the recitations and singing by individual members and other friends. The proceeds amounted to \$22.

COME AND TAKE TEA.—This is a general invitation. Will you be one? Take tea! certainly! But where? Why at Hawley Bros., George-st., where the tea is to be had for the taking, the only preliminary being the small sum of, say, 10c. per lb. Come and take tea at Hawley's.

Evening Drawing Class.

A class for instruction in mechanical drawing, geometry and freehand will be formed at an early date in the Mechanical Institute, Water-st. Mr. A. G. McCallum, mechanical draughtsman to the Wm. Hamilton & Co., will conduct the class. Those intending to join the class are requested to leave their names with the librarians of the Institute. All information regarding the class will be supplied by the librarians at the Institute.

HOW TO HANDLE GUNS.

A Few Rules That Should be Remembered and Followed.

Having been asked by friends frequently for advice for their boys in handling guns, I send you a digest of same. Perhaps, as the shooting season will now be on soon, you might think them worth publication:

1. Empty or loaded, never point a gun toward yourself or any other person.
2. When a field, carry your gun at the half-cock. If in cover, let your hand shield the hammer from whipping twigs.
3. When aiming from one shooting ground to another, or whenever you have your gun in any conveyance, remove the cartridges, if a breech-loader, it being so easy to replace them. If a muzzle-loader, remove the caps, brush off the nipples, and place a wad on nipple, letting down the hammer on wad—simply running caps sometimes leaves a little fulminate on the nipple, and a blow on the hammer when down discharges it.
4. Never draw a gun toward you by the barrel.

5. More care is necessary in the use of a gun in a boat than elsewhere; the limited space, confined action, and uncertain motion making it dangerous at the best. If possible, no more than two persons should occupy a boat. Hammerless guns are a constant danger to persons boating.

6. Always clean your gun thoroughly as soon as you return from a day's sport, no matter how tired you feel; the consequence of it always being ready for use is ample return for the few minutes' irksome labor.—Forest and Stream.

A Madman Tries to Kill His Brother. SAULT STE. MARIE, Ont., Oct. 2.—A dangerously insane man named Joseph Ball, who lives near Desert road in the township of Johnston, was taken in custody and brought to the jail this week, prior to his disposal by the authorities. He attempted to kill his two brothers in law, his wife's house by making a treacherous onslaught on them with a scythe.

The Printing Bureau Superintendent. OTTAWA, Oct. 2.—It is reported here that objection has been raised to Mr. E. F. Clarke as superintendent of the Printing Bureau, that he cannot speak French. An other report is that for this same reason Mr. J. C. Roger, late Government printing superintendent, will be appointed. Mr. Roger's successor, he has command of the two tongues.

Fall from a Traps. BRACKVILLE, Oct. 2.—A little boy 13 years of age, son of Michael Collins, of Perth and Abbott-streets, fell from a trap on yesterday and injured his spine to such an extent that his brain was affected. It was feared through the night that he would not survive.

Pleasant Dreams For Murphy. PITTSBURGH, Pa., Oct. 2.—Murderer Fitzsimmons has written that he will kill Detective Murphy for testifying against Mrs. Fitz in the recent murder trial.

How to Cook Potatoes.

I have been dining at one of the best clubs in London. But the potatoes are uniformly bad, waxy and indigestible. I do not write merely of a club grievance. I am an old housekeeper—married over twenty years. I am passionately fond of potatoes, and I rarely ever get them to my liking. I had to go to the other day, and my host is a large potato grower. At dinner the potatoes were delicious—crispy. A few questions and answers elicited the remarkable fact that my own table was usually supplied by my host's potatoes. But mine were always like those of the club—dull, sodden, waxy and abominable. His were light, dry, easily and perfectly delicious.

But a bit of a cook myself I arranged with my host to spend the next forenoon in his kitchen. The potato is composed almost entirely of pure starch. To make this starch agreeable to the eye and the palate its corpuscular elements must be split up by heat in the presence of excess of moisture, and at a temperature just a little higher than boiling water at sea level (212 deg.). Now, I happen to live at such a height above sea level that water probably boils at 210 deg. Hence I never get good potatoes. My host's house was just as mine, and his cook said that the water in his well did not boil potatoes—he knew something about the sea level and temperature—that she was obliged to "soak" it with salt.

She put a big handful of salt in the pot of potatoes, and then raised the boiling point to about 216 degs. Then, after boiling them till the skins burst, she poured off the water, cocked the lid half off the pot, put the latter on the hob, and thus for about fifteen minutes she thoroughly dried them. The result was amazing and delightful. I went home, and I made a series of careful experiments. You cannot steam a potato into "perfection" unless you increase the steam so as to raise its temperature to about 216 degs. Potatoes that always boiled in their skins and in a pretty strong saline solution in order to get them in perfection, delighted me. I went home, and I made a series of careful experiments. Constipation,

If not remedied in season, is liable to become habitual and chronic. Drastic purgatives, by weakening the bowels, confirm, rather than cure, the evil. Ayer's Pills, being mild, effective, and strengthening in their action, are generally recommended by the faculty as the best of a purgative.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills. I found it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years I have taken one of these pills every night before retiring. I would not willingly be without them."—G. W. Lowman, 26 East Main st., Canfield, Pa.

"I have been taking Ayer's Pills and using it in my family since 1877, and cheerfully recommend them to all in need of a safe and effective cathartic."—John M. Rogers, Louisville, Ky.

"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their normal and regular action, so that now I am in excellent health."—S. L. Loughbridge, Bryan, Texas.

"Having used Ayer's Pills with good results, I fully endorse them for the purpose for which they are recommended."—T. Conners, M. D., Canfield, Pa.

BOMBS FOR AN EMPEROR.

ATTEMPT TO DYNASTIC AUSTRIA'S RULER.

Morley's significant speech at the Newcastle conference—Proposal to Abolish the House of Lords—Hitting in Harcourt—A Nehemiah Mink With All Hands.

VICTORIA, Oct. 2.—A profound sensation has been created by a dispatch from Berlin, announcing the arrival of the Emperor Francis Joseph, also brings the startling news that during the night, while the Emperor was blowing up the bridge at Rosenau, a suburb of Reichenberg, by means of a bomb. Fortunately the plot was discovered and frustrated. It is supposed that the bomb was placed where it was discovered in the hope of killing the Emperor, whose train crossed the bridge in question. No arrests have been made.

The official investigation shows that two bombs charged with nitro-glycerine were placed in the gutter of the bridge. Attached to these bombs was a time fuse, evidently calculated to cause an explosion at the moment the Emperor's train was passing. The fuse was lighted several hours before the train drew near. The explosion destroyed the masonry above and about the bridge tunnel. The railroad officials soon had the road in good repair.

The investigating officials profess to believe the explosion was the work of a demonstration of disapproval with some of the Emperor's acts. Now that it is officially admitted that bombs have been used along the line of the Emperor's journey the utmost indignation prevails.

A dispatch from Reichenberg says the Commission of inquiry has discovered 13 bombs at the Rosenau railway bridge.

The Liberal Platform.

NEWCASTLE, Oct. 2.—The great National Liberal Federation Congress formally opened in the town hall, Newcastle, which was packed. Mr. Morley, M.P., addressed the federation. The city is crowded with visitors, all attracted by the red, in a flatbed arrived last night.

When Mr. Morley began to speak there was a large number of members of the House of Commons on the platform. Mr. Morley said Ireland had vindicated the confidence the Liberals had placed in her by refusing to follow a leader the Liberals could not conscientiously work with.

In regard to the temperance reform question Mr. Morley said that it was not the Liberal's fault if they had not legislatively advanced it, for as usual the Conservatives had blocked the way. On this, as on most of the other questions the Liberals had at heart, they must boldly face the enemy. There was a prospect, however, that even if victorious the members of the House of Commons would find to all such measures unyielding obstacles to progress in the House of Lords. Therefore it became a matter of serious consideration as to how long that privileged house, non-representative and unaccountable as it was, could sympathize and act of touch with the majority of the representative chamber, was to endure. [Loud and prolonged cheers.]

Aluding to the obstacles existing in the exercise of the franchise the speaker said that he did not know how the voice of the workmen could be heard with full effect in Parliament until England followed the example of every other country in having a constitution and by placing some moderate substance within the reach of those aspiring to serve the people in Parliament. [Loud cheers.]

Sir Edward Grey moved a resolution to the effect that the National Liberal Federation declares its perfect trust in Mr. Gladstone, and its belief that no wise or durable settlement of the Irish question can be effected except by the establishment of an Irish legislative body for the management exclusively of Irish affairs.

Mr. Broadhurst, M.P., seconded the resolution, which was supported with cheers. Dr. Spence Watson, president of the National Liberal Federation, referring to the discussion carried on recently by the delegates to the Trades Union Congress on the eight-hour question, defended the attitude which the Federation's council had taken upon that subject, namely, that its definite adoption as one of the Trades Union's demands depended upon the

gree of unanimity reported on from the local Liberal associations of which the Federation is the ultimate voice.

Resolutions in favor of disestablishing the Welsh church and to amend free education by increasing the popular control of the schools were passed.

An Unknown Schooner Lost.

LONDON, Oct. 2.—During a severe storm last evening an unknown schooner in distress was discovered by the cutter, Curlew, (being to the heavy sea) eight members of the lifeboat crew put out to her assistance. Seaside visitors from London thereupon volunteered to take the men's place and the lifeboat started for the distressed vessel. It failed to reach the schooner, which probably foundered with all on board. The men in the lifeboat had a terrible experience, being tossed about all night on the waves. The boat finally reached St. Ives in safety.

Plot to Establish a Republic.

MADRID, Oct. 2.—Another conspiracy has been discovered in Barcelona, where on Aug. 2 last a revolutionary plot brought about an attack on the barracks. The time conspirators had arranged to surprise the guard at the prison, liberate the prisoners and proclaim a republic. An army officer, a major who was to head the movement, an apothecary and an innkeeper, also implicated in the conspiracy, have been arrested.

State of the Famous Puritan.

LONDON, Oct. 1.—The Duxbury estate, near Shirley, Lancashire, the home of Miles Standish, was the scene on Monday of a remarkable conflict for the possession of that estate, which is held in trust for Colonel Paulet, whose rights are disputed by one William Hall, who claims to be a descendant of Miles Standish. On Monday evening the estate was held by the trustees, entered by Hall and announced his intention of holding it against all comers. The steward of the estate then collected a force of farmers and laborers of the vicinity, broke down the main door of the hall and evicted the intruders after a severe fight. Duxbury Hall is now guarded by the stewards' men, and a long and interesting period of litigation is promised.

Striking Nova Scotia Miners.

HALIFAX, N.S., Oct. 2.—Another strike is threatened here among the miners. At a meeting of workmen's lodges last night it was decided to stop all work to-morrow if the manager refuses to adhere to the agreement made last autumn regarding the weight of loaded coal boxes. The men base their decision on an alleged breach of the agreement on the part of the company. They are determined that it shall be enforced.

Met Death While Gathering Beech Nuts.

GAIR, Oct. 2.—The 8-year-old adopted son of Mr. J. Stubbs climbed a tree on Mill Creek to gather beech nuts and by some means fell to the ground, alighting with considerable force on the back of his head, causing severe concussion of the brain. He will die.

And This Is the End.

OTTAWA, Oct. 2.—Part of Sir Hector Langevin's furniture was being removed to Quebec to-day. Several large trunks laden heavily with cash and goods were shipped by C.P.R. Sir Hector himself expects to leave on Saturday.

Advantages of a Twisted Neck.

MILWAUKEE, Oct. 2.—Barney Baldwin, a time museum freak who is known as "The Living Man with the Broken Neck," attempted to cut his big last evening by taking poison. Owing to the kinks in his esophagus all the poison did not reach his stomach, and he is now recovering.

INTERCOLONIAL

Railway of Canada.

The direct route between the West and the East points on the Lower St. Lawrence and St. Lawrence Rivers, Nova Scotia, Prince Edward Island, Cape Breton and Magdalen Islands, Newfoundland and St. Pierre.

Express trains leave Montreal and Halifax daily (Sunday excepted) and run through without change between these points in 27 hours and 20 minutes.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travellers.

New and elegant buffet sleeping and day cars are run on St. Lawrence express trains. The popular summer sea bathing and fishing resorts of Canada, are along the Intercolonial, or are reached by that route.

The attention of shippers is directed to the superior facilities offered by this route for the transport of flour and general merchandise intended for the Eastern Provinces including Cape Breton and Newfoundland; also for shipments of grain and produce intended for the European market.

Freights may be obtained and all information about the route; also freight and passenger rates on application to

How to Sell More Goods.

Has it ever occurred to you, that you might profitably increase your present volume of business by doing a little general newspaper advertising with the idea of reaching the Consumer? Take some special brand or make of goods which you honestly believe possesses merit, and push it with a moderate amount of advertising in the widely circulating news papers and magazines, or in the leading dailies and weeklies of some selected State or section. If done judiciously, you will soon begin to realize results in the form of increased orders through the trade.

These assertions are proved by the experience of business houses whose names are familiar from one end of the country to the other. Look at the record made by the manufacturers of "Royal Baking Powder," "Sapolio," "Pearline," "Pears' Soap," "Alcock's Porous Plasters," etc. It is not necessary to advertise your entire line of goods, but, by selecting some good article as a "leader," and persistently pushing that, it is possible to build up a large and independent trade.

**AT THE GREAT LIBERAL CONGRESS
ON THE TYNE.**

The Grand Old Man Lays Down the Pro-
gram of His Party—Three Million Li-
beral Electors Represented—118 De-
legates Make Speeches.

NEWCASTLE, Oct. 3.—The Great Liberal
Congress Friday passed resolutions favoring
that elections should be held upon the same
day and recognize the principle of paying
members of the House of Commons as being
the only means of securing an adequate
representation of the working classes in
Parliament. Sir George Grey, in a speech
pointed out the crying abuses which
now infested the electoral system of the
British Isles. Sir George thought it was one
should be a member of parliament's stipend
exceed £200 a year.

A resolution was also carried to the effect
that the condition of the rural population is
such as to require immediate attention upon
the part of Parliament.

The Marquis of Ripon speaks.
The Marquis said it was of primary im-
portance that Parliament should provide for
the establishment of "district and parish
councils," or local governing bodies under
the control of the central authority, to the
district and parish matters of their
vicinity. The members of these
councils, he suggested, should be
elected by popular vote. Touching upon
the present restricted allotment, the
Marquis advocated their complete reforma-
tion by the removal of restrictions com-
plained of and by giving security of tenure
and the right to collect full compensation
for improvements made. He said that the
present condition of the agricultural
laborer was not the ideal that we ought
to content ourselves with in these
democratic days. [Loud applause.] The
Marquis' resolution was passed amid en-
thusiasm.

Sir Wilfrid Lawson aroused enthusiasm
by submitting resolutions reaffirming the
declaration of the council of the National
Liberal Federation in favor of amending or
ending "charters" of the House of Lords.
[More cheering.] The resolutions also
declared that the franchise should be
regarded as public law regulations and
advanced through reform of the land
system, the removal of the present
disfranchisement of the working classes,
and the enfranchisement of the working
classes and the disfranchisement and
disenfranchisement of the Church of Scotland.
[Loud applause.] The resolutions were
passed by a large majority. The Marquis
said that the period for mending the
House of Lords is passed—[cheers]—and I
advise its complete abolition. [En-
thusiastic applause.]

Sir Henry Fowler, M.P., in supporting
Sir Wilfrid Lawson's resolution, raised ap-
plause by the energetic manner in which he
denounced the Government of Lord Salis-
bury. He said, "Salisbury's Government was
a great failure" and its "legislation a par-
tial success." He said that the Govern-
ment had failed to carry out its promises
and that the country was in a state of
anarchy. [Loud applause.] The Libera-
lites, he said, "never had better prospects before
them than they have now with the coming
annual meeting. The council of the
National Liberal Federation was adopted with
hearty cheers."

Over 400 people were packed in the
Theatre to-night. Mr. Gladstone, the
Marquis of Ripon, Sir Henry Fowler, and
members of the House of Commons, of-
ficials of Liberal associations, etc., while
the Association was crowded with delegates
and other influential members of the party.
The appearance of Mr. and Mrs. Gladstone
was the signal for a prolonged ovation.
When quiet was restored, Sir Henry
Watson moved a resolution expressing af-
fection for and undiminished confidence in
Mr. Gladstone.

When the cheering subsided Mr. Glad-
stone rose to speak. After expressing
thanks for the cordial reception accorded
him, he said he was not there to speak
as a citizen of Newcastle, but more
particularly as representative of the
Liberal Unionist movement. He said that
the Liberal Unionist movement was a
movement for the future, and that he
believed that the Liberal Unionist move-
ment would be a movement for the future.
He said that he believed that the Liberal
Unionist movement would be a movement
for the future. [Loud applause.]

Mr. Gladstone, in replying to the spoken
men and he was a man of a high order
and thoroughly appreciated the generous na-
ture of the Irish and he assured the dele-
gation that he would in the future, as in the
past, do all that he could to further their
interests.

Local electoral reform for county coun-
cils and local boards; the disfranchisement
of the Welsh and Scotch Churches; direct
popular vote of the liquor traffic; the equal-
ization of the death duty upon real and
personal property; better housing of work-
ing classes; the extinction of the factory
acts, and the mending or collecting of the
House of Lords—that is the program.

The Irishmen of Tyneside have presented
Mr. Gladstone with a handsome illuminat-
ed address of welcome to Tyneside and
expressing appreciation for his efforts in
half of Ireland.

TRAGIC DEATH OF A STATHROY

OCTOGENARIAN.

Particulars of the Death of Stathroy

Stathroy, Oct. 5.—A well-known resident of Stathroy

and Alameda, Friday evening entered

the Western Hotel by Peter-
borough. While there he met William
Wilson of Montreal, a powerful young man
of about 33 years of age. They were
drinking together when an altercation arose
between them, and it is said Wilson pushed
him away from him, which caused him to
fall and strike his head on a large spittoon,
fracturing his skull and causing his death.
Wilson was arrested. An inquest is in
progress.

Killed Her Son.

CHATHAM, Oct. 5.—A heart-rending

accident occurred at the home of Mr. Wil-

liam Ashbury, near Holland Centre. In
the middle of the night, Mrs. Ashbury
was sitting up in bed, when she was
startled through her keyhole by a powerful
electric shock. Her 2-year-old boy was
toddling past the window at the time and
received the shock. He was thrown on the
back of the head and neck and back. The
shock was too much for the poor little sufferer's
nerves and convulsions set in the following
day, resulting in the death of the child in a
little over 24 hours after the accident oc-
curred.

Murder At a Feast.

HALIFAX, Oct. 5.—J. O'Connor and Hugh

Macmaster, two neighbors, among whom
had been a long-standing feud, were at
Port Hood, Inverness, C.B. While O'Connor
was dancing Macmaster jumped up and
struck him a violent blow on the side of
the head with his fist. O'Connor fell sense-
less, but came to some time afterwards,
went to an adjoining house, was placed in
bed and died the next morning. The cor-
oner's jury verdict was that the death was
caused by the blow delivered by Macmaster,
and the latter is in jail on a charge of murder.

Poisoned by Methylyated Spirit.

ATLANTA, Oct. 5.—Mrs. Langstaff, wife

of William Langstaff, shoemaker, has been
on a spree for the past two weeks. This
forenoon about 1 o'clock Dr. Hart
called and found her dying. She died
about 1 o'clock. Part of a bottle of
methylyated spirits was found which she
had been drinking and doubtless poisoned
her.

Constipation.

It is a well known fact, that constipation, if neglected, is liable to produce a variety of ailments, such as headache, neuralgia, indigestion, and other disorders, by weakening the bowels, and thus rendering the system more susceptible to the influence of the evil.

Ayer's Pills, being mild, effective, and strengthening in their action, are generally recommended by the faculty as the best of purgatives.

"Having been subject, for years, to constipation, which at last became so bad that I was unable to do my work, I tried Ayer's Pills, and soon found them to be the best of purgatives. I have taken one of these pills every night before retiring, and I would not willingly be without them."—G. W. Bowman, 25 East Main St., Canfield, Pa.

"I have been taking Ayer's Pills, and with them in my family since 1877, and cheerfully recommend them to all in need of a safe and effective cathartic."—John M. Rogers, Louisville, Ky.

"For eight years I was afflicted with constipation, which at last became so bad that I was unable to do my work. I tried Ayer's Pills, and soon found them to be the best of purgatives. I have taken one of these pills every night before retiring, and I would not willingly be without them."—G. W. Bowman, 25 East Main St., Canfield, Pa.

"Having used Ayer's Pills, with good results, I fully endorse them for the purpose for which they are recommended."—T. Conner, 10 Centre Bridge, Pa.

Thousands of citizens marched in procession to the Pantheon in Rome to-day to deposit a wreath on King Victor Emmanuel's tomb, where on Friday last a number of French Catholic pilgrims made an insulting demonstration. While the crowd was in the church a number of radicals mounted some of the altars and made violent speeches, denouncing the Vatican and shouting "Down with the priests!" It is reported that the Pope has decided to annul the consecration of some of the altars in the Pantheon which were desecrated by the anti-clerical demonstrations on Friday last.

The Yemeni Rebellion.
Aden, Oct. 5.—It is announced that the Turkish troops in the Province of Yemen, Arabia, have captured Sana, the principal city of the province, and that the leading chiefs have submitted to the Turkish authorities. The announcement adds that the revolt in Yemen is now ended.

A Painter Dead.
London, Oct. 5.—Vincent Van Gogh, the Italian sculptor, is dead.

A Monument to Garibaldi.
Napoli, Oct. 5.—The Mayor of this city unveiled a monument to Garibaldi here to-day in the presence of M. Rouvier, representing the French Government, General Cavour, representing the Italian family, several French and Italian deputies, many notables, civil and military, and a large concourse of people.

Richmond Visits Egypt and Italy.
London, Oct. 5.—John Redmond has had an interview with the Irish convicts Daly and Ryan in Portland prison as their legal adviser. Both prisoners are in good health.

A Married Couple.
Vienna, Oct. 5.—Count Knerich Esterhazy has been found drowned in the Danube near Prossburg. He fell with his carriage, horse and driver over a dam 15 feet high. The fact that his trunk had been rifled points to robbery with the connivance of the coachman. The count leaves an immense fortune, which he had hoarded through a miserly life.

Entombed Alive.
One Man Killed, Three Fatally Injured, Six Impressed.
Pittsburgh, Pa., Oct. 5.—An explosion occurred in the Richmond colliery of the Philadelphia and Reading Coal and Iron Company at Glen Carbon last evening. One man was taken out dead and three others fatally injured. Six men are imprisoned behind a wall of rock brought down by the explosion. The accident occurred just before quitting time.

Mrs. Frank Leslie Married.
New York, Oct. 5.—Mrs. Frank Leslie was married to-day by Rev. G. F. Deane, at St. Paul's Church, New York. The bride is the daughter of Mr. and Mrs. W. W. Wilde, M.D. of Dublin.

Interesting Morning by Wire.
Early this morning fire broke out on Mack and Brown's wharf in Tooley-street, London, and is burning fiercely.

The petroleum basin at Brunswick, together with oil works and 1200 casks of oil, were burned last Saturday. The loss is heavy.

At Corpus Christi, Texas, yesterday, Horace Hamlin, who had failed in business, drowned himself and his three children aged 13, 11 and 2 years.

At Walla Walla, Wash., yesterday Fritz Zorn, an old soldier, shot and killed his wife from whom he was divorced, his mother-in-law and himself.

Constipation,

It is a well known fact, that a person who is liable to become habitually constipated, is liable to become purgative, by weakening the bowels, and thus, rather than cure, the evil. Ayer's Pills, being mild, effective, and strengthening in their action, are generally recommended by the faculty as the best of purgatives.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills. I deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years I have taken one of these pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 30 East Main St., Carleton Place, Ont.

"I have been taking Ayer's Pills and using them in my family since 1877, and cheerfully recommend them to all in need of a safe and efficient cathartic."—John M. Boggs, Louisville, Ky.

"For eight years I was afflicted with constipation, which at last became so bad that the doctor could do no more for me. Then I began to take Ayer's Pills, and soon began to feel better. Their natural and regular action, so that now I am in excellent health."—S. L. Longbridge, Bryn Mawr, Pa.

"Having used Ayer's Pills, with good results, I fully endorse them for the purpose for which they are recommended."—A. C. Conner, 111 Centre Bridge, N. Y.

"COLLARS AND CUFFS"

MIXED UP IN THE LATEST LONDON SCANDAL.

An Actress Commits Suicide by Taking Carbolic Acid—Owner Refuses Access to The Depositions Taken and The Inquest.

LONDON, Oct. 6.—Considerable interest is still being taken in the case of Lydia Miller, or Mantou, the chorus girl of the Gaiety Theatre who recently committed suicide by drinking carbolic acid. At the inquiry Saturday Lord Charles Montagu, brother of the Duke of Manchester, testified to having been on very intimate terms with the deceased and had been late on keeping an appointment to luncheon on the day of her death. This failure to keep the appointment is said to have greatly annoyed the girl.

Since the inquest efforts have been made by the newspapers to ascertain the high percentage, understood to be Prince Albert Victor, eldest son of the Prince of Wales, who also is said to have been on intimate relations with the girl. The coroner's inquest is said to have been adjourned, and it is stated the members of the coroner's jury were called upon to sign a blank paper, instead of the usual record of the proceedings.

The girl lived in great style, had a large quantity of diamonds and used to drive to the Gaiety Theatre in a motor car of dog cart with a "tiger" behind her.

The St. James Gazette, The Globe and other papers denounce the coroner's secrecy.

\$100,000 for Raphael's "Borgia."
PARIS, Oct. 6.—Raphael's picture of the Borgia family, for the sum of \$250,000 (\$100,000). It used to hang in the Borghese Gallery, Rome.

This sale has been rendered possible by the repeal of a law which makes it an offence to sell any of the works of the great masters. The proceeds of the Borghese family, however, head and ears in debt, and the law was repealed in order that the inalienable art treasures of the Borghese palace might be sold into foreign hands. This is only the first of a series of such sales, for other masterpieces of the Borghese and other collections will be offered for sale. The committee of the Chicago fair will endeavor to secure some famous ones as fair attractions.

The Car Has Some Good Traits.
ST. PETERSBURG, Oct. 6.—By order of the city court balls will be given during the coming season of winter festivities. The money usually devoted to such entertainments will be devoted to the relief of famine sufferers.

A British Bark Wrecked.
LONDON, Oct. 6.—The British bark Santeau has been wrecked at Matamoras. The captain and 15 of the crew were drowned.

The Oldest Triplets.
MONTROSE, N.B., Oct. 6.—A paragraph has been going the rounds claiming for Winchester, Indiana, the distinction of having the oldest triplets living in the world. The Winchester triplets were born in 1877 and are consequently 34 years of age. Thomas Brown, a Montrose butcher, is one of a family which boasts triplets, two males and one female, all living at 36 years of age. They were born at Hampton, Kings county, the Franco Minister's constituency, in September, 1857.

Canadian Oyster Culture.
MONTROSE, N.B., Oct. 6.—Mr. Hutton of Montreal has leased a part of Baie du Vin and the river of the same name for the purpose of engaging in oyster culture on a large scale. He has chartered the Miramichi pilot schooner Empress for one month at \$250 to fetch seed oysters from Malpene, Prince Edward Island, one of the best fishing grounds in the country. The oysters have become almost extinct in sections of the Baie du Vin as the result of overfishing and carelessness.

New York, Oct. 6.—A fire in a three-story brick tenement house at the corner of Hudson and Dominick streets to-day caused the death of Mrs. Annie Murphy, aged 30; Miss Katie Dunn, aged 22; a dressmaker who boarded with Mrs. Murphy; Josephine Ryan, 5 years old; and Martin D. Tobey, 11 years old. Mrs. Murphy's son by her first husband.

"SAMUEL OF POSEN."

Belief That He is Being Made the Victim of San Francisco Police.

SAN FRANCISCO, Cal., Oct. 6.—The examination of Maurice B. Curtis, charged with the murder of Officer Grant, was continued in the Police Court this afternoon. The feeling is becoming very general that Curtis is innocent and is the victim of a police conspiracy. The attorneys for Curtis state that when the proper time arrives they will have no difficulty in showing "Samuel of Posen" to be innocent of killing the policeman.

CABINET RECONSTRUCTION.

The Names of Messrs. Meredith, Kirkpatrick, and White are being mentioned. Toronto, Oct. 6.—An Ottawa special to The World says: "Talk of cabinet reconstruction is taking on more definite shape. Mr. Meredith's name is freely mentioned. He will be taken in if he will accept, and there is no intimation received here that he will not make the sacrifice. Any opportunity he will come from some men in the House who think their chances of cabinet preference will be injured by Mr. Meredith going over their heads. Mr. Speaker Kirkpatrick is another name prominently mentioned, though against him there is alleged his C.P.R. directorship. He would resign this, of course, if he went in, but there would then be two ex-directors of that road in the cabinet, one the Premier. Mr. Clarke Wallace might be chosen and represent Toronto district. White is another name mentioned to a seat. It is true that Dr. Montague is going out to the Pacific coast, it is not unlikely that he may take root in a western constituency, and if he does he will certainly be a cabinet favorite.

The vacancies the new men will fill will be those of Sir John Macdonald and Sir Hector Langevin and any resignations of present members that may be placed in Mr. Abbott's hands. Mr. Carling will certainly not ask to be kept in the Government if the Premier has another man to put forward. Frank Smith is also like minded. In regard to Quebec's representation, nothing very definite can be said. Perhaps, in view of the Premier being from that province, that Mr. Chaplin and Sir Adolphe Casan will still be his colleagues, the French Conservatives will not press for a successor of their race to Sir Hector Langevin."

The Bear Licked Her Hand.
KINGSTON, Oct. 6.—Mrs. Celina Ledcor, who escaped from the asylum to Sept. 15, was discovered at Trenton. She was in an exhausted condition and her limbs and feet were badly swollen. She slept in the woods. Two nights before she was found she was awakened by something looking like her hand. She says it was a bear and she thought her last hour had come, but the bear quickly walked away without molesting her. She subsisted almost entirely on apples found along the road, and her appearance gave evidence of severe exposure and privation.

Travelers to Atlantic.
WINNIPEG, Oct. 6.—If sedition of Toronto, representing the Commercial Travelers Association of Canada, met representatives of the Northwest Association here to-night and submitted a scheme for affiliation of the two associations. After full discussion the representatives decided to recommend acceptance of the offer.

Swearing in of the Royal Commission.
QUEBEC, Oct. 6.—The Royal Commission was sworn in this afternoon. It is known there will be no lawyer appointed officially to conduct the investigation, and the Government has been informed by Mr. Beique, spokesman of the Montreal bar, and Col. Anyot, M.P., that they will act as its representatives.

A Calgary Boulder.
WINNIPEG, Oct. 6.—The autumn term of the Supreme Court opened at Calgary yesterday. Charles L. Gouin, late Crown timber agent, pleaded guilty to embezzling \$5383 of Government funds. Sentence was deferred. Gouin came from Three Rivers.

Fall from a Tree.
BRANTFORD, Oct. 6.—George Souler climbed a tree in Snyk Hollow to gather hickory nuts when the broken bough and he fell to the ground, fracturing his back. He was brought home, and now lies in a precarious condition.

CURE YOURSELF!

It is a well known fact, that a person who is liable to become habitually constipated, is liable to become purgative, by weakening the bowels, and thus, rather than cure, the evil. Ayer's Pills, being mild, effective, and strengthening in their action, are generally recommended by the faculty as the best of purgatives.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills. I deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years I have taken one of these pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 30 East Main St., Carleton Place, Ont.

"I have been taking Ayer's Pills and using them in my family since 1877, and cheerfully recommend them to all in need of a safe and efficient cathartic."—John M. Boggs, Louisville, Ky.

"For eight years I was afflicted with constipation, which at last became so bad that the doctor could do no more for me. Then I began to take Ayer's Pills, and soon began to feel better. Their natural and regular action, so that now I am in excellent health."—S. L. Longbridge, Bryn Mawr, Pa.

"Having used Ayer's Pills, with good results, I fully endorse them for the purpose for which they are recommended."—A. C. Conner, 111 Centre Bridge, N. Y.

"COLLARS AND CUFFS"

MIXED UP IN THE LATEST LONDON SCANDAL.

An Actress Commits Suicide by Taking Carbolic Acid—Owner Refuses Access to The Depositions Taken and The Inquest.

LONDON, Oct. 6.—Considerable interest is still being taken in the case of Lydia Miller, or Mantou, the chorus girl of the Gaiety Theatre who recently committed suicide by drinking carbolic acid. At the inquiry Saturday Lord Charles Montagu, brother of the Duke of Manchester, testified to having been on very intimate terms with the deceased and had been late on keeping an appointment to luncheon on the day of her death. This failure to keep the appointment is said to have greatly annoyed the girl.

Since the inquest efforts have been made by the newspapers to ascertain the high percentage, understood to be Prince Albert Victor, eldest son of the Prince of Wales, who also is said to have been on intimate relations with the girl. The coroner's inquest is said to have been adjourned, and it is stated the members of the coroner's jury were called upon to sign a blank paper, instead of the usual record of the proceedings.

The girl lived in great style, had a large quantity of diamonds and used to drive to the Gaiety Theatre in a motor car of dog cart with a "tiger" behind her.

The St. James Gazette, The Globe and other papers denounce the coroner's secrecy.

\$100,000 for Raphael's "Borgia."
PARIS, Oct. 6.—Raphael's picture of the Borgia family, for the sum of \$250,000 (\$100,000). It used to hang in the Borghese Gallery, Rome.

This sale has been rendered possible by the repeal of a law which makes it an offence to sell any of the works of the great masters. The proceeds of the Borghese family, however, head and ears in debt, and the law was repealed in order that the inalienable art treasures of the Borghese palace might be sold into foreign hands. This is only the first of a series of such sales, for other masterpieces of the Borghese and other collections will be offered for sale. The committee of the Chicago fair will endeavor to secure some famous ones as fair attractions.

The Car Has Some Good Traits.
ST. PETERSBURG, Oct. 6.—By order of the city court balls will be given during the coming season of winter festivities. The money usually devoted to such entertainments will be devoted to the relief of famine sufferers.

A British Bark Wrecked.
LONDON, Oct. 6.—The British bark Santeau has been wrecked at Matamoras. The captain and 15 of the crew were drowned.

The Oldest Triplets.
MONTROSE, N.B., Oct. 6.—A paragraph has been going the rounds claiming for Winchester, Indiana, the distinction of having the oldest triplets living in the world. The Winchester triplets were born in 1877 and are consequently 34 years of age. Thomas Brown, a Montrose butcher, is one of a family which boasts triplets, two males and one female, all living at 36 years of age. They were born at Hampton, Kings county, the Franco Minister's constituency, in September, 1857.

Canadian Oyster Culture.
MONTROSE, N.B., Oct. 6.—Mr. Hutton of Montreal has leased a part of Baie du Vin and the river of the same name for the purpose of engaging in oyster culture on a large scale. He has chartered the Miramichi pilot schooner Empress for one month at \$250 to fetch seed oysters from Malpene, Prince Edward Island, one of the best fishing grounds in the country. The oysters have become almost extinct in sections of the Baie du Vin as the result of overfishing and carelessness.

New York, Oct. 6.—A fire in a three-story brick tenement house at the corner of Hudson and Dominick streets to-day caused the death of Mrs. Annie Murphy, aged 30; Miss Katie Dunn, aged 22; a dressmaker who boarded with Mrs. Murphy; Josephine Ryan, 5 years old; and Martin D. Tobey, 11 years old. Mrs. Murphy's son by her first husband.

INTERCOLONIAL

Railway of Canada.

The direct route between the West and all points on the Lower St. Lawrence and Lake Ontario, and the route to the West, also for New Brunswick, Nova Scotia, Prince Edward Island, Cape Breton and the Maritime Provinces, New Brunswick and St. Pierre.

Express trains leave Montreal and Halifax daily (Sundays excepted) and run through without change between these points in 24 hours and 30 minutes.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travellers.

New and elegant dining sleeping and day cars are run on all through express trains.

The popular summer sea bathing and fishing resorts of Canada, are along the Intercolonial, or are reached by this route.

For full information of the route to the superior facilities offered by this route for the transport of flour and general merchandise intended for the Western Provinces including the St. Lawrence and Ottawa Rivers, and for shipments of grain and produce intended for the Western Provinces, apply to the General Agent at Montreal or to the General Agent at Halifax.

Tickets may be obtained and all information about the route; also freight and passenger rates on application to

We want to call your attention

to our magnificent line of Black

Cashmeres and Henrietta Cloths

which have just arrived. We

offer a Union Cashmere, nice

quality 44 inches wide, at 35c.

a yard, a finer grade at 45c. and

a beauty 46 inches wide, at 50c.

We show a good all-wool 44 in.

wide at 40c., finer qualities at

50, 60 and 70. At 75, 90 and

1.00 we show a special make of

German Henrietta Cloths in

Blue and Jet Blacks, having the

combined qualities of being

bright in the finish, fine quality

and heavy weight. We feel we

cannot speak too confidently of

this line as we believe there is

not a better cloth brought into

Canada and offered for sale. In

all-wool Crepe Cloths we show

both the fine and coarse twill,

also something new and pretty

in a fancy Polka-spot Crepe

cloth. We also show the new

things in Fast Black Serges,

Cheviot and Camel's Hair cloths.

Dress Goods have been going

out rapidly. We have now a

table of Remnants in lengths

suitable for children, marked

regardless of original price.

Cold weather is coming. We

are showing an attractive stock

of Infant's and Children's Coats,

Hoods, etc.

Shawls are new in design and

so pretty this year that we would

like all who have an idea of buy-

ing a wrap this season to call

and examine our stock.

VESSEL BLOWN TO PIECES OFF A

SCOTTISH SHIP.

The Entire Crew Believed to Have

Perished. Death of the Leader of the

British House of Commons—Speculation

as to His Successor.

LONDON, Oct. 7.—A vessel which was to-
day standing off Newburgh, a short dis-
tance from Aberdeen, was seen to be
on fire. The flames spread rapidly to all
parts of the ship and after a time an as-
sessment was made and the vessel was
blown to fragments. Charred pieces of the
wreckage are strewn along the shore, and
among the parts of the unfortunate vessel
which float ashore is the same board con-
taining the word "Wave." The fate of the
crew is unknown, but it is feared that all
hands have been lost.

Death of the Leader of the British House

of Commons.

LONDON, Oct. 7.—Right Hon. William

Henry Smith died yesterday afternoon.

The death of Mr. Smith, who was uni-
versally popular, has caused the most pro-
found regret in Conservative and other
circles. Mr. Smith, who was one of the
representative business men of England,
was popularly reputed to have a fortune
of about \$10,000,000. Mr. Smith made
valuable progress towards recovery until
yesterday, when he became weaker and
suffered a great deal of pain owing to a recurrence
of gout. Towards evening he recovered
his usual condition, but his strength was
not sufficient to enable him to leave his
bed. He died at 10.15, at the official residence
of the Lord Warden of the Cinque Ports, where
Mr. Smith had been seeking to regain his
strength since his appointment as successor
to the late Earl (Granville) and returned to
London. This morning Mr. Smith's con-
dition became critical and he died at 3

P.M.

The Right Honorable Arthur J. Balfour,

M.P. for East Manchester and Chief Sec-
retary for Ireland, will succeed the late Mr.

Smith as Conservative leader in the House

of Commons, if the influence of the power-
ful Carlton Club and the opinion of the

Conservative party as a whole is in favor
of the decision to be made by Lord Salisbury.

On the other hand, if the negotiations now
pending for a reconstruction of the Cabinet
should result in the appointment of Mr. Balfour
as Premier, the Conservative party would
be in a position to claim the leadership.

An intimate friend of Mr. Goschen in-
formed the Associated Press correspondent
that Lord Salisbury during a critical period
in the history of the coalition between the
Conservative and Liberal Unionist parties
gave written assurance that Mr. Goschen
should have the leadership of the Conserva-
tive party in the House of Commons in the
event (then a possibility) of coming to Mr.
Smith's state of health and the rumor that
he was about to be raised to the peerage) on
the retirement of the First Lord of the
Treasury from that position.

Mr. Gladstone has wired a message of
condolence to the relatives of Mr. Smith.

The Liberals have decided to contest the
Parliamentary seat for the Strand made
vacant by the death of Mr. Smith.

(The Right Hon. William Henry Smith,
D.C.L., M.P., D.L., was born in Lon-
don, Jan. 18, 1818, and died at his residence,
10, Grosvenor-st., London, Oct. 6, 1891, at the
age of 73 years.)

SUNDAY SCHOOL WORK.

The Institute Class—The interesting Sabbath School meeting held in St. Paul's church school room under the auspices of the Presbytery of Peterborough was concluded last evening.

The meeting was of an interesting and profitable character, although the attendance at some of the classes was not large.

Yesterday afternoon the session was very ably attended. Rev. John McKewen, of Lakeside, gave an address on "The English Bible and the International System of Lessons."

Rev. A. McWilliams was to have read a conference on "Primary Class Work," but he being absent from town only one subject was taken up in the afternoon.

In the evening Rev. Mr. McKewen spoke on "The Spirit and Process of Teaching." This was a profitable address for those who heard it being full of information helpful to Sunday school workers.

Rev. Mr. McKewen led a conference on "Teaching Training," which was discussed by Rev. Mr. McKewen and others.

This concluded the programme for the Institute and the meeting closed in the usual manner.

Do You Cough? Don't delay. Take Kamp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and \$1.

ORDAINED AND INDUCTED.

Mr. Hugh Brown Ordained as a Minister and Inducted as Pastor at Havelock.

At Havelock yesterday afternoon a large congregation assembled in the Presbyterian church to witness the solemn rite of ordination celebrated by Mr. Hugh Brown, of Toronto, according to appointment of the Presbytery of Peterborough, being ordained into the ministry and inducted into the pastorate of the Presbyterian church at Havelock.

Rev. Mr. Campbell, of Norwood, conducted the impressive ordination services as Moderator. Rev. A. McWilliams, of St. Andrew's church, preached the sermon for the occasion, delivering a forcible discourse based on the words found in St. John xii, 32. Rev. Mr. Thompson, of Hastings, addressed the newly ordained pastor. Rev. Mr. Scott, of Campbellford, addressed the people, and Rev. Mr. Bethune, of Peterborough, gave the benediction.

The service was conducted with the usual solemnity and according to the church laws.

After the service a sumptuous tea was served by the ladies and in the evening an entertainment was held at which speeches were delivered by the clergymen who assisted at the induction.

The new pastor enters upon his first charge as a minister with bright and happy prospects. He was warmly received by his congregation.

An Old Resident Gone. Yesterday evening Mr. James P. Dunn, one of the oldest residents of the town, quietly passed away at his late residence on Simcoe-st. The deceased gentleman had reached an advanced age, being in his eighty-second year, and his death was the result of heart failure. He came to Peterborough about half a century ago and was well known and respected by the general community. Several years ago the deceased was proprietor of an hotel on Simcoe-st. and was a popular, genial and kind-hearted host. Of late years he has not been actively engaged. He leaves a wife and seven children all grown up, and two of whom, Miss Annie Dunn and Mr. Thos. Dunn, are known to every concert-going person in Peterborough, being singers of rare abilities. The funeral takes place from his late residence on Simcoe-st. at 9 a.m. on Thursday to St. Peter's Cathedral thence to the cemetery.

A Pair of Accidents. Mr. H. B. Dansey, employed with Mr. Thos. Bradburn, had his collar bone broken yesterday. He was opening a door for a horse when the animal rushed past and crushed the man against the side of the half open door.

A scaffold collapsed at the Edison Works on Monday and precipitated several men to the ground. Two only were seriously injured. Edward Hockridge had his heel bone crushed and J. Bourne had his ankle severely sprained and sustained severe bruises.

Of to the Lakes and Woods. The first of the Rutherford hunting party went to the back country this morning. Those who left this morning were Messrs. Sam Ray, G. M. Roger, J. Stranger, B. Smith and A. Blane. They will try their luck hunting until the 15th when they will be joined by the remainder of the party and hunt Eagle, Bottle and Buckner lakes. The remainder of the party who will go up for the hunting will probably be made up of Messrs. Geo. Fitzgerald, Thos. Rutherford, J. Clancy, W. Snowden and S. Clegg.

A Coming Concert.
The concert in aid of the building fund of the tower of the George-st. Methodist church is promising to be a great success. The tickets are being readily taken, as the citizens appear pleased to have an opportunity of showing their gratification at the erection of the handsome tower. The programme is going to be varied and of a high quality. The concert will be held in the church on Thursday, 15th Oct.

A Pleasant Irish Breeze—Astringent Medicine.
The druggist tell us that the people call daily for the new cure for constipation and sick-headache discovered by Dr. Williams. It is said to be Oregon grape root (a great remedy for the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells at 25c and 50c a package and is called Lane's Family Medicine.

Another Aged Peterboro Resident.
Old residents of Peterborough will remember Rev. Wm. Scott, a Methodist minister who labored here in 1874 and was highly esteemed and beloved by many friends here, who will regret to learn of his death, which occurred at Ottawa on Monday. The deceased gentleman was one of the best known Methodist clergymen in the Dominion. He had held many important positions, especially in connection with missions, and for the past few years he had been employed in the Indian Department at Ottawa. He was in his 85th year.

Their Weekly Concert.
The weekly concert in the Royal Temple hall was, as usual, quite a success. Master Percy and Sister Owsen, who were very talented musicians, considering their youth, opened with an instrumental duet, which was unanimously enjoyed. Miss Ella Owsen, who is ever a favorite with the music loving public, rendered a touching song with feeling and pathos. Miss Owsen then gave a reading, the perfect diction and realistic rendering of which were listened to with great attention, and which addresses were delivered by Messrs. Hill and Large. Miss Owsen closed with an instrumental solo, ably aided by a most pleasant evening. The advice promises coffee and cake for next Tuesday in addition to the usual programme. No charge.

This is a season when colds in the head are alarmingly prevalent. They lead to catarrh, perhaps consumption and death. Nasal Rinses from our druggist relief and certain cure. Sold by all druggists.

THE SCHOOLS AS THEY ARE

THE INSPECTOR'S REPORT PRESENTED TO THE BOARD.

A Regular Meeting of the Board of Education—Consistable Business—A Trust—School Wanted—A Commercial Course—Suggested for the Public Schools.

The Board of Education at its meeting last evening did considerable business of interest. Mr. Wrighton, Chairman, presided, and present were Messrs. Stevenson, McKee, Donnell, Bradburn, Ferguson, Hamilton, Kennedy, McElnay and Dumble. The minutes of the last meeting were read and confirmed.

THE INSTITUTE AGAIN.
Two communications were read from the Deputy Minister of Education. The first inquired what steps had been taken to comply with the recommendations made by the Inspector in regard to the improvement in the Collegiate Institute accommodation. The second communication was written after the receipt of a letter explaining the building operations in progress to give the necessary accommodation, and stated that while these were satisfactory yet the Department wished to notify the Board that the Collegiate Institute play grounds must be separated from the public school grounds, and that the gymnasium should be moved to the Institute grounds and used by the pupils of the Institute only.—Received.

OTHER COMMUNICATIONS.
Mr. John Whirling, late Principal of the South Ward School, sent in a long communication in regard to the entrance examinations. The document contained several complaints as to the management of the examinations.—Received.

Dr. Tilley wrote complaining of the condition of the closet in the West Ward School.

Mr. Ketcham sent in a communication asking the Board to purchase musical chairs for use in teaching music in the public school.—Received.

The Board's attention in its report as to the condition of the boiler in the Central School building.—Received.

Mr. H. B. McHenry, in a letter, asked the Board to divide the insurance carried on the school property and give his companies a chance.—Received.

Mr. J. C. Smith, teacher, made application for a hundred dollar increase in his salary.—Committee on Appointments.

A notice was read of the annual meeting of the Association of High and Public School Teachers to be held in Toronto on November 10th.—Received.

THE INSPECTOR'S REPORT.
The annual report of the Inspector, Dr. Tilley, was read as follows:—

GENTLEMEN,—I herewith submit for your consideration my third annual report on the condition of your public schools supposed to be the year ending the 30th day of June, 1891.

ACCOMMODATION.
Your public school accommodation remains as at the time of my last report, but it is gratifying to know that the small building at the Central being remodelled, enlarged and fitted up with the modern system of heating and ventilation. Board to abandon the most objectionable of the basement rooms at the Central as a place for the attendance of the pupils and the lighting of some of the rooms of the present Institute building and to use the West Ward school building as a public school accommodation will be very good, indeed.

STAFF AND SUBSTITUTES.
The furniture in many of the rooms is new and excellent, but some of the older rooms are still supplied with seats and desks of a very inferior quality. The pupils attending them. I feel sure, however, from the intelligent interest taken by the Board in all that pertains to the comfort and well-being of the little ones attending your schools, that this will be made as light as possible as the Board can see its way clear to do so. The new furniture of a year or two ago has been taken care of by the teachers of the various rooms, and now it is, in most instances, as free from stain or break as when first placed in the room. Many teachers take a commendable pride in keeping their rooms neat and tidy and their excellent taste in decorating the windows with flowers and the blackboards with neatly executed borders, notices, etc. The textbook side of education by which the child mind is stored with useful knowledge and the child is taught to think, to observe, to apply, and to use the judicious disposal of time is certainly very good, and it is not the whole of the education. That which tends more directly to character building must not be allowed to be crowded out of the mind of the child. The period of child life is spent in the school room, under the teacher and away from home influences, the parents who contribute so freely to provide schools and pay teachers have a right to expect that every influence of the school room shall tend to develop the moral and the aesthetic equally with the intellectual faculties of those whose bright futures are in our hands.

SCHOOL WORK.
Although badly broken into by sickness, the work of your schools during the year has been quite satisfactory in most of the grades of the school. The reports on the promotion examinations, which are enclosed with this report, render further comment on the work here unnecessary.

The results of the promotion examinations from the junior IV, and some of the senior III, classes were disappointing, but as these results were not as much as expected as some of the others were during the past term the light promotions from them will be a disappointment to the parents. The promotion examinations will make unnecessary the formation of another entrance class at the beginning of the next term. To keep in touch with the annual entrance examinations it will be necessary to make the public examinations thorough. It will be necessary, therefore, to make the public examinations for the promotion of a few of the best pupils from each room. I would suggest that the honor certificates earned at the examination just completed, with those that may be earned at Christmas, be awarded to the pupils of the classes mentioned above the first half of next year—say at Easter. I have no objection to the Board's approval, before the end of the year, a few of the best certificates to be awarded to the successful midwinter examinations. In future, the whole class in each room will be expected to write. It will then be in place to make such comparisons on the percentage of pass certificates as may be deemed best, but as only such pupils as the teachers selected wrote at this examination no such

comparisons should be made. A set of the questions and answers on promotion examinations accompanies this report.

Your obedient servant,
W. E. TILLEY,
Inspector of Schools.

Peterborough, Aug. 12th, 1891.

MR. BRADBURN asked the Board's advice in regard to windows in the east side of the new addition to the Central school. Some members had complained of the dead wall on this side of the building.

MR. DUMBLE moved, seconded by Mr. McKee, That the architect be instructed to place two windows on the east side of the north-east room of the new building.

THE JANITORS WILL DO IT.
Mr. HAMILTON asked whose duty it was to clean out ink wells? His little girl had some home from school with her dresses covered with ink and had said in explanation that they had soiled their clothes while cleaning ink wells.

MR. STEVENSON moved, seconded by Mr. HAMILTON, that the janitors in the different schools be instructed to see that the ink wells are properly cleaned and filled once a week.

THIS WAS CARRIED.
GROUND IMPROVEMENTS.
Mr. DUMBLE said there was a resolution on the books ordering the removal of the shed on the Central school grounds, but he asked if it would be well to do this work.

MR. BRADBURN, Chairman of the Building Committee, said the room occupied by the shed was required for play ground, that the grounds could not be levelled up until the old building was removed, but that the shed was left they would only be an eyesore.

Many improvements in the grounds were talked over in an informal way and finally the matter was left in the hands of the Property Committee.

A COMMERCIAL COURSE.
Dr. TILLEY in a communication referred to a matter which he had not touched upon in his report. He spoke of the many pupils who left school before finishing the public school course and suggested that a room be set apart for the teaching of book-keeping. The object was to give those entering the business world an education which would be a great benefit to them.

Mr. DUMBLE then took up the suggestion of Dr. Tilley's in regard to the commercial course. He pointed out that Mr. Smith, Principal of the Central school, was over-crowded with pupils and work and to meet the suggestion he thought two rooms of the same grade as Mr. Smith's could be opened and some commercial work introduced. In this way Mr. Smith would be relieved.

This was allowed to stand as a notice of motion until next meeting.

A MODERN LANGUAGE TEACHER.
Mr. DUMBLE spoke of the urgency of moving early in the fall of securing a modern language teacher for the Institute and advised that the Committee on Appointments be authorized to engage a modern language teacher.

On motion the Committee were given the necessary authority.

A TRUST OFFICER'S WORK.
Mr. BRADBURN, on motion, was heard, and said he wanted to bring the matter of trustee before the Board. He understood there was a trust officer, but he was afraid that the matter was not being looked after. Mr. Bradburn said it must be apparent to any person who travelled the streets that there were a large number of boys roaming around the streets who had been sent to school. There were others who had not been sent to school, but the result was alike in each, the rule of the boys. He hoped that something would be done to rectify this evil.

Mr. KENDRY said he understood they had a trust officer whose salary had been raised recently. He thought that the Board should call his attention to the matter and have it properly attended to.

Mr. BRADBURN enquired how the trust officer was to be paid. He said that the trust officer was to be paid out of the children who should be at school and were not. Was an officer supposed to pick up every child he met on the street?

THE CHAIRMAN said the Principals of the schools were supposed to notify the officer. The CHAIRMAN said the officer was to be paid out of the parents and, unless there were no parents, the parents were to be prosecuted.

Mr. DUMBLE said the class of children who did not go to school at all were the ones of whom Mr. Bradburn complained. There could only be remedied by an officer going round the streets and enquiring if children were at school and then send them to school.

Mr. TILLEY pointed out that under the new Act the Council should appoint the trust officer who had the same powers as a constable.

INTERESTING EXERCISES.
Principal FERGUSON of the Institute suggested that the Board appoint a committee to act with the Institute staff and people making preparations for the coming year. He suggested that the committee should be composed of a teacher and a parent, and that the committee should be given a medal given by Mr. J. B. Burnham presented and exercises given by the pupils.

The suggestion was commended by the Board and the arrangements left in the hands of the Principal and his staff.

SAD WATER.
Mr. WALKER, Principal of the North Ward school, called the attention of the Chairman of the Property Committee to the fact that the water at his school was bad and unfit for use.

Mr. KENDRY moved, seconded by Mr. DUMBLE, That water works service be put in at the school at once.—Carried.

The Board then adjourned.

Constipation,

If not remedied in season, is liable to become habitual and chronic. Dr. J. C. Ayer's Pills, being mild, effective, and strengthening in their action, are generally recommended by the faculty as the best of agents.

"Having been subject, for years, to constipation, without being able to find relief, I at last tried Ayer's Pills. I do not know how to express my gratitude for the relief they have given me. I have taken one of these pills every day before bedtime. I would not willingly be without them."—G. W. BOWMAN, 25 East Main St., Carleton Place, Ont.

"I have been taking Ayer's Pills, with good results, for many years. They are the best medicine I have ever used for the purpose for which they are recommended."—T. CONNOR, 25 East Main St., Carleton Place, Ont.

"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels began to move, and my health improved, so that now I am in excellent health."—S. L. Loughridge, 25 East Main St., Carleton Place, Ont.

"Having used Ayer's Pills, with good results, I fully endorse them for the purpose for which they are recommended."—T. CONNOR, 25 East Main St., Carleton Place, Ont.

EDMUND YATES' GOSSIP
A BREEZY BUDGET RESPECTING NOTABLES.

The Queen's Regard for Lord Methuen—States on the Continent—The Salvation Army's Projected Building.

LONDON, Oct. 7.—The Queen entertained great regard for the late Lord Methuen, not only on account of his long connection with the Household—but also because he was a great favorite with the Prince of Wales. When the Queen heard that Lord Methuen was dying she herself wrote him a long and touching letter of sympathy.

Last week was the last narrow escape for continental royalty. To say nothing of the attempts on the life of the Emperor of Austria, his daughter-in-law, Grand Duchess Stephanie, had an awkward fall from her horse at Karwin, and a similar mischance befell the little infant of Spain at Madrid. The Crown Prince of Spain, it is said, is in the doctor's opinion, but probably stay in the hands of France must be abandoned in favor of another visit to Egypt, where they advise her to remain till April or May of next year.

I hear that Franz von Lumbach is painting a full-length portrait of the King of Saxony for Emperor William, who is believed to have directed the appointment of King Albert as Regent of Prussia in the event of his own demise before his eldest son comes of age.

The Duke of Sutherland has been seriously ill at Dunrobin, though he is now reported to be somewhat better. He is thought to have strained his heart while deer-stalking.

Use of the most important cases which will come before the Court of Session during the approaching sitting will be that of the claim of the Crown against the Duke of Hamilton for £30,000 in respect of Government duties upon the value of the art treasures of Hamilton Palace, which were sold a few years ago. This case will be heard by the Lord Justice, and a certain to be carried to the House of Lords.

Mr. Gladstone on Thursday morning and afternoon passed a high Churchman at Trinity College, Glendalough, of which he was one of the original founders. He took up a parable on behalf of the clergy, whom he enthusiastically eulogized, and then rushed off to Newlands to take part in a gathering of his Radical followers, where the disestablishment of the Church of Wales was one of the chief topics.

Another time Rembrandt has just been purchased for the Royal Gallery at the Hague. It is signed, and is dated 1657, and is believed to be a portrait of the painter's mother, Adriaen Hartenboom.

Much indignation and annoyance are being felt and expressed in the city at the mere suggestion that the Salvation Army is desirous of acquiring one of the largest vacant sites on the Thames Embankment, near the Temple, for the erection of stupendous and colossal headquarters and assembly halls.

In connection with the fact about the

Travel Holy Coat, the curious fact has just been discovered that all the robes of the cardinals have been supplied to the Vatican for more than two centuries by a Protestant firm at Barchin, near Aachen, which has always enjoyed a monopoly in the manufacture of cloth of this particular color and quality.

I hear from Chatham, apropos of the arrival of the Benbow at that port to pay off, that the three ships cursed with the impostant impostress, 110-ton guns, are to be kept in future strictly in reserve so that their tender and wry-necked ordinance shall not be prematurely worn out in time of peace by firing reduced charges at long intervals.

Police Protect Dillon and O'Brien.
DUBLIN, Oct. 7.—Messrs. Dillon, O'Brien and Healy addressed a meeting at Thurles today. Some hostility was manifested towards the gentlemen referred to, and they had to be protected by a force of 300 police. The speakers declared they had finally abandoned making any further appeal to Mr. Parnell to help the evicted tenants.

"Free Trade in Religion."
LONDON, Oct. 7.—The Archbishop of Canterbury, the Most Rev. Edward White Benson, D.D., today opened the Church Congress at Blythe. The Archbishop in his opening address said such meetings would be the means of drawing bodies of Christians together and promoting mutual justice, love and charity.

The Bishop of Manchester defended the maintenance of the establishment and endorsement of the church. He said, "I am clear that 'free trade in religion' was not suited to the disposition and circumstances of mankind."

THE ENTOMBED MINERS.

Digging for the Bodies in the Richardson Colliery.

PITTSVILLE, Pa., Oct. 7.—Double shifts of men have been at work since Saturday night trying to find the six miners who were entombed by a fall of coal in the Richardson Colliery. At a late hour to-night the air current was established, and it is thought that the men will be reached early to-morrow morning. It is believed that the miners were suffocated if they were not burned to death.

When the accident occurred the force of the concussion caused a rush of gas and steam which killed Valentine Mack outright, injured several others and raised a cloud of dust out of the mouth of the slope, 500 yards from the scene of the accident.

Mack's body was hurled down the gangway and against a pillar of coal 30 yards away. Nearly every bone in his body was broken. The injured are: Inside Supt. Kelly of Martinsville, badly bruised on the left side; Michael Grant of Thompson, skull crushed and cannot live; James F. Brennan of Taylorsville, back hurt and internally injured; Thomas Conville of Coal Castle, head cut and badly bruised; George Orf, bruised, but not badly hurt.

JUMPED FOR THEIR LIVES.

Thrilling Scene at a Tenement House Fire in Boston.

BOSTON, Mass., Oct. 7.—A three-story tenement house, No. 70 N. Main street, caught fire last night, and a family of four persons, living on the upper floor, were so frightened that they threw themselves to the sidewalk and then jumped after it. Daniel Kelly, 33 years old, was slightly hurt; his wife, Hannah, had several ribs and a leg broken, while two children, Nina, aged 8, and Joseph, aged 10, were terribly injured and will probably die. Captain Ryan of steam No. 3 fell downstairs, receiving severe injuries.

THE DEATH OF PARNELL.

HAD BEEN SUFFERING FROM AN AT-
TACK OF RHEUMATISM.

Interviews With Mr. McCarthy, Michael Davitt
and Others. The Dead Man's Fallings
Forgotten in the Universal Mourning
Caused by His Death.

LONDON, Oct. 8.—Mr. Parnell, Mr. Par-
nell's stepdaughter and the servants, accord-
ing to the latest accounts of the death of
Mr. Parnell, were the only occupants of the
house in Walsingham-terrace when the
Irish leader expired. The end, these later
reports state, was of intense agony, for
the sick man until the moment when he be-
came unconscious, and eventually died with-
out pain.

This account of Mr. Parnell's death, Mr.
Parnell's fatal illness is as follows: Mr.
Parnell arrived at his home at Brighton
from Ireland on Thursday and complained
of suffering from a chill. On the Friday
following he was unable to leave his bed
and his regular physician was summoned.
He seems to have considered Mr. Parnell's
illness to have been of a serious nature, for
he sent for another physician, with whom he
held a long consultation.

This consultation was resumed Sunday
when Mr. Parnell was found to be in great
pain and apparently growing weaker every
hour. His sickness was pronounced to be
an attack of acute rheumatism, and every
attention was paid to the sufferer. He was
carefully and untiringly nursed by his wife,
who hardly left his bedside from the mo-
ment her husband's illness was pronounced
serious. Mr. Parnell, in spite of the care
and attention which he received, did not
seem to recover from the rheumatic attack
and as remained until he died.

Owing to the suddenness of the Irish
leader's illness and the belief of his wife and
of the attending physicians that he would
recover, his friends and relatives, in general,
were not present at Mr. Parnell's death. Mr.
Parnell's bedside was alone in attendance.

His aged mother.
How the News of Her Son's Death Affected
Her.

BIRMINGHAM, N.J., Oct. 8.—When Mrs.
Parnell was informed of the death of
her son, Charles Stewart Parnell, she fell
from her chair to the floor shrieking and
groaning. "Oh, my son, my Charles, they
have killed you!" she moaned. She became
hysterical, and it was some time before she
was sufficiently composed to receive the
particulars of the death of her son. She
was old and quite feeble and her grief was
heartrending. She is now suffering from
hysteria. She hopes that the body will be
embalmed so that she can see it laid away
in the grave.

WHAT MR. MCCARTHY THINKS.
A Complete Reminiscence of all Shades of
Politics Among Irishmen.

LONDON, Oct. 8.—In an interview to-day
Justin McCarthy said it was not possible
to forecast the political effect of the death
of Mr. Parnell. Mr. McCarthy added,
however, that he hoped it would lead to
the movement for the self-government
of Ireland.

Mr. McCarthy said he believed all feel-
ings of hostility between individual members
of the Irish Parliamentary party would be
forgotten and a completely new era would
be inaugurated in the feeling of genuine and
universal regret which was experienced among
Irishmen at the death of Mr. Parnell.

"Three weeks ago," Mr. McCarthy con-
tinued, "we had a long and friendly con-
ference. This conference took place at my
house at Chelsea and we mutually agreed
to draw part of the Paris fund from the
bankers in the French capital in order to
defray the expenses of registering which
were incurred before the death of the party."
"Before the divorce proceedings," said
Mr. McCarthy, "I was a close friend of
Mr. Parnell, whom I admired intensely.
Mr. Parnell controlled me in regard to
the last moment had done so, and I was
of a spirit of personal devotion to the Irish
leader. With the removal of Mr. Parnell
from the scene, my personal devotion to the
Irish leader did not depend any longer
upon any man. Mr. Parnell himself
was the point. He was the man who
as it depended upon himself alone, was
done. The cause stands now beyond the
reach of any man's hand."

THE NEWS IN DUBLIN.
The Divorce Troubles of the Dead Man
Forgotten in the Universal Mourning.
DUBLIN, Oct. 8.—The general feeling in

the leading political clubs in both Great
Britain and Ireland is that the death of
Charles Stewart Parnell will be the death
which has long existed in the ranks of
the Irish Parliamentary party. There was
great excitement in the city when the report
of Parnell's death spread among the masses.
One of the results was a great rush for
the various newspaper offices, in consequence
of a confirmation of the startling information.

The offices of the National League were
fairly besieged with an excited concourse
of warm-hearted Irishmen, who had forgotten
all about the divorce troubles of Parnell in
their desire to express sympathy with the
great leader of the Irish people, who had
fought so many battles for them in behalf
of Home Rule. Many a tear-stained face
was seen among the crowd as the good
qualities of the dead man were referred to
and when his efforts in the cause of
Irish independence were mentioned.

Prominent personalities who have been in-
terviewed upon the subject of Parnell's de-
cease have all expressed their sympathy with
the party which has fought against its leader.
The members of Parliament and others
who remained followers of Mr. Parnell in
spite of everything at a meeting to-day ap-
pointed Pierce Mahoney and John Red-
mond a committee to prepare a resolution
to-night in order to be of all the assistance
in making the arrangements for the funeral
of Mr. Parnell.

The corporation of Dublin has been sum-
moned to a meeting to-morrow, at which
sympathy with Mrs. Parnell will be ex-
pressed and a call will be issued for a public
funeral.

MICHAEL DAVITT.
Parnell's Death Will Put an End to Un-
happy Disunion.

NEW YORK, Oct. 8.—Michael Davitt re-
gards either Sexton or Dillon as the suc-
cessor of Mr. Parnell as the official head
of the Irish movement. Due very important
effect of Mr. Parnell's death, Mr. Davitt
thought, would be the release of the
\$200,000 of Irish funds now tied up in the
hands of Paris bankers. A part of this
money would be devoted, he said, undoubt-
edly toward the aid of evicted tenants and
the remainder used by the Irish Parliamen-
tary party for the expenses of the general
election.

"My opinion about Parnell," said Mr.
Davitt, "is one of universal sorrow at
his sudden death. The occasion demands
the expression of deep regret that he should
have been cut off at a comparatively early
age. We should remember only the good
work which he performed for Ireland in a

Dyspepsia

Intense Suffering for 8 Years - Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McKelton, a well known grocer at Stanton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 100 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, irritable and fitful, and for eight years my life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, and I cured my wife of her dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to come up. With renewed strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural vivacity. I am today well and I ascribe it to taking Hood's Sarsaparilla."

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

A HUGE FACTORY.

A New York Paper's Description of the Edison Works.

The Electrical Engineer of New York contains an illustrated description of the Edison Works in Peterborough, which is reproduced in the Canadian Electrical News. The New York paper's description is as follows:

"It is a well-known fact that Edison lamps and other electrical apparatus are now being made and used all over the world by various corporations, as the result of the exploitation of the patents secured. But in the growing Dominion of Canada, where the Edison Works are already so numerous, the Edison General Electric Co. is carrying on the business itself. From a very small beginning, with only a dozen men in February, 1888, the company has already come to employ hundreds of skilled mechanics, and is now concentrating its productive energies in a huge new factory at Peterborough, Ont. These Canadian works are in many ways a replica of the vast shops at Menlo Park. The property consists of about thirty acres of level ground, and the main building is without a doubt the finest machine shop in the province. It is 110 feet wide, 372 feet long, with a gallery of 25 feet on each side, and a central height of 60 feet. In it are employed about 400 hands engaged in the manufacture of dynamos, motors for stationary power and electric railway purposes; mining locomotives; underground conductors; various small electrical instruments and appliances; electric cables and insulated wire. When the other buildings are finished, the works will be used exclusively as a machine shop at once, and with that end in view it has already been equipped with a 10-ton travelling crane. Two other buildings, one 50 feet by 272, two stories high, and the other, 80 feet by 272, one story, are in course of erection, and when finished will be occupied by the wire insulating and cable department. A power station is also in process of construction, with an ultimate engine and dynamo capacity of 1,000 h.p. In the distribution of power the same methods are followed at Peterborough as at Menlo Park; namely, all the power is transmitted electrically by means of underground conductors, and each shop is provided with an Edison motor to drive each main line of the shafting. This mode of distributing power is at once a great convenience and a great economy, since the motors are entirely automatic and require no attention."

"But this does not exhaust the plans. Two new buildings for the lamp factory, two for underground conductors, a second machine shop, iron foundry, brass foundry, office and store houses are already laid out and will soon constitute an imposing suburb, with the others, to the prosperous little city of Peterborough. The works have, moreover, direct railway connections with the Canadian Pacific and Grand Trunk railroads. These connections are for the exclusive use of the company and unite with four tracks running parallel between the two rows of buildings throughout the entire length of the property 1,800 feet. Besides these steam railway connections there are railroad tracks connecting all the buildings, over which loaded flat-cars may be run to any portion of the establishment. The Dominion may well be proud of this addition to its manufacturing industries."

THE ENDEAVOR CONVENTION.

The Large Delegation Expected—The Opening Programme.

The time is drawing near for the holding of the third annual convention of the Ontario Provincial Union of Y.P.S.C.E. Already over 800 applications for tickets have been received. The Billeting Committee have worked assiduously. They hold their final meeting in the Y.M.C.A. rooms on Wednesday evening, when the delegates will be billeted. The convention will be held in the St. Paul's Presbyterian church on Wednesday, Thursday and Friday, October 22nd, 23rd and 24th. On Wednesday evening, 21st, at 7.30, there will be a very attractive song service under the direction of Prof. Ketchum; at 8 o'clock devotional exercises, conducted by Rev. J. H. Locke, pastor of George-st. Methodist church. At 8.15 Mr. James Stevenson, M.P., Mayor of Peterborough, will deliver the address of welcome on behalf of the town; and Rev. E. F. Forrance, M.A., on behalf of the Christian organizations of Peterborough. The reply on behalf of the delegates will be given by Rev. J. A. E. Dickson, D.D., of Oakville. Vice President of the Ontario Provincial Union.

Leading workers and eloquent divines from the United States and Canada will be present, among whom are the names of Rev. W. F. Wilson and Rev. W. F. Patterson, of Toronto; Rev. W. S. Hanna, B.A., of Uxbridge; Rev. D. Laing, of Kingston; Rev. E. B. Burton, of Downsview; Rev. W. H. Harvey, B.A., of Guelph; Rev. G. Robertson, B.A., of Toronto; Rev. Jas. Kines, of Kingston; Mr. J. W. Barr, of Boston, Mass.; Rev. Jas. Wood, Ottawa; Rev. Prof. Du Varney, Toronto; Rev. G. H. Wells, D.D., of Montreal, and a host of others.

Fully five hundred delegates are expected at this great convention, which will be the largest gathering of Christian workers that has ever taken place in Peterborough.

A Rare Visitor.
To the Editor of the Review.
Sir.—Last Saturday afternoon I captured in my porch a beautiful specimen of the male golden crested wren, *Sylvia Regina*. The colors of the crest, particularly the flame color, which is distinct from the golden yellow, were unusually brilliant.

These birds, small as they are, are good friends to the horticulturist, inasmuch as they destroy a great number of the smaller insect pests of the garden.

Not finding it in my heart, despite the claims of taxidermy, to crush out the little life so completely in my power, after a careful inspection I opened my hand and set the panting prisoner free, happy to notice, by the flight, that it had sustained no injury from my tender manipulation.

The price of boots and shoes are coming down, because Kidd the Bootmaker says so. Why, where else in Ontario can you get men's shoes for \$5.00 a pair, women's fine button boots at \$1.00 a pair or women's slippers at 20c. a pair.

A Pleasant Herb Drink—Asparagus Medicines.
The druggists tell us that the people call daily for the new cure for constipation and sick-headache discovered by Dr. S. H. Lane. It is said to be Oregon grape root (a great remedy in the far west for those ailments) reduced to a simple herb, and is made for use by pouring on boiling water to draw out the strength. It sells at 50c and \$1 a package and is called Lane's Family Medicine.

WET WEATHER IN MANITOBA.
Threshing for some time at a standstill—Much Grain Still in Stalk.

WINNIPEG, Oct. 12.—The wet season has apparently passed. Yesterday was clear and windy, the first really fine day for some fortnight. While the rain lasted threshing was at a standstill and the result of the season was at a standstill. The result of the season was at a standstill. The result of the season was at a standstill.

Where the wheat is stacked it is all over the grain to sweat properly and improve the color. However, Mr. Ogilvie feels that Manitoba is to be congratulated on the very large quantity of wheat raised this year. The quantity of good milling wheat is certainly far in excess of any previous year; but he thinks that the quantity of good wheat might have been still further augmented if less had been allowed to remain in the stock before the weather set in. He hopes that the farmers will not overlook the importance of sowing the very best seed.

Mr. Ogilvie was pleased to notice the very large increase in the number of cattle in the country. This trade, he observed, appeared to be developing rapidly and would, no doubt, assume very large proportions before long.

Sudden Death in Elora.
Elora, Ont., Oct. 12.—David Foote, aged 68, attended the Fergus Fair yesterday and was apparently in his usual health. In the evening he started for his own home just north of the fair. He did not go far before he was seized with a fit and fell by the wayside. His family felt that he was in a bad way, and about 8 o'clock he did not reach home, and about 8 o'clock one of the boys went in search of him. When found he appeared to be in a stupor, and no serious result was looked for, as he was put to bed. On going to his room this morning the family found that he was dead. Deceased was reeve of the village up to two years ago.

Choked to Death.
HAMILTON, Oct. 12.—David Ross, driver of the steamer at the Central Fire Station died yesterday. He got up to come to work, but on rising was seized with a fit of coughing and a clot of phlegm on the lungs closed up the bronchial tubes and he choked to death before anything could be done to relieve him. He was appointed to the department in 1887.

Fatal Case of Blood Poisoning.
Rockwood, Oct. 12.—On exhibition day a little girl, daughter of Mr. George Bolton, got some advertising cards at the show. She had a scratch on her face at the time and one of the cards having come in contact with the wound a violent attack of blood poisoning ensued. The little one's face is dreadfully swollen, her eyes being closed. Drs. McKinnon and Dryden are attending the little sufferer, but very faint hopes are entertained of her recovery.

The Disobedient Husband.
Mrs. Rual (angrily)—You promised me when you went up to the city last winter that you wouldn't go near Cousin Maggie's.

Mr. Rual—Yes, I did.

"But you did."

"I—I only took one meal there, my dear."

"I knew it—I knew you had taken a meal there or something. Murder will out."

"What's happened, my dear?"

"She writes that she is coming here with her six children to stay all summer."

A SCIENCE STARTLER.

AN EMINENT ENDORSEMENT OF THOUGHT READING.

A Notable Speaker Before the British Association Declares His Belief in Thought Reading and Recommends It for Scientific Study.

The first meeting of Section A, Mathematical and Physical Science section was held at the Hotel Oliver Lodge, 11, St. Ls. Dr. F. R. S., in the chair. He said:

"The ordinary processes of observation and experiment are establishing the truth of some phenomena not at present contemplated by science, and to which the orthodox man shuts his ears. For instance, there is the question whether it has or has not been established by direct experiment that a method of communication exists between mind and mind irrespective of the ordinary channels of consciousness and the known organs of sense, and if so, what is the process. It can hardly be through some unknown sense organ, but it may be by some direct physical influence on the other, or it may be in some still more subtle manner. For brevity it may be styled 'thought transference,' though the name may turn out to be an unsuitable one after further investigation."

"Further investigation is just what is wanted. There are individual scientific men who have investigated these matters for themselves and others, and they who are willing to receive evidence, who hold their minds open and their judgment in suspense; but these are only individuals. The great majority feel active hostility to these researches and a determined opposition to the reception or discussion of evidence. A few tricks at the public performance, or the artifice of some impostor, and they decline to consider the matter further. The field is the boundary of psychology, the connection between life and energy, or the connection between mind and matter."

"By what means is force exerted, and what, definitely is the process? There is something not provided for in the orthodox scheme of physics, modern physics is not complete and a line of possible advance lies in this direction. Given that force can be exerted by an act of will, do we understand the mechanism by which this is done? And if there is a gap in our knowledge between the conscious idea of a motion and the liberation of muscular energy needed to accomplish it, how do we know that a body may not be moved without ordinary material contact by an act of will?"

"It is familiar that a thought may be excited in the brain of another person, transferred thither from our brain by pulling a material trigger, by liberating energy in the form of sound, for instance, or by the mechanical act of writing, or in other ways. A prearranged code called language, and a material medium of communication, are the recognized methods. May there not also be an immaterial (perhaps an 'etherical') medium of communication?"

"Is it possible that an idea can be transferred from one person to another by a process such as we have not yet grown accustomed to, and know practically nothing about? In this I have evidence. I have seen, I assert that I have seen it done, and am perfectly convinced of the fact. Many others are satisfied of the truth of it, too. Why must we speak of it with hesitation, as of a thing of which we are ashamed? It is sometimes objected that, granting thought transference or telepathy to be a fact, it is of no use to us, as it is lower forms of life, and that as the cerebral hemisphere develop we become independent of it; that what we notice is the relief of a decaying faculty, or the getting of a new faculty, and that progress is not to be made by studying or attending to it. It may be that it is an immature mode of communication, adapted to lower stages of consciousness than ours but how much can we not learn by studying immature stages?"

"It may, on the other hand, be an indication of a high stage of consciousness, which shall survive our temporary connection with ordinary matter. I have spoken of the apparently direct action of mind on mind and of a possible action of mind on matter. But the whole region is unexplored territory, and it is conceivable that matter may react on mind in a way which at present only dimly suggests itself. The barrier between the two may gradually melt away, as so many other barriers have done, and we may find in a wider perception of the unity of nature, such as philosophers have already dreamt of. I care not what the end may be. I do not care that the inquiry shall be conducted by us, and we shall be free from the disagreeing juggling along accustomed roads, leaving to outsiders the work, the ridicule, and the gratification of unaiding a new region to unaiding eyes."

THE GUN THAT WON.
A Sketch of the New Rifle Used Against Balmaceda.

Through the courtesy of General Flagler, Chief of Ordnance, U. S. A., the Washington Post has been enabled to print a cut of the new magazine rifle used by the Congressionalists in the battles in which they have Balmaceda's political career.

The magazine is seen on the under side of the gun just in front of the trigger guard. Five cartridges are put in at a time. When the trigger is pulled, the five cartridges, in place in the magazine, are fired, and the pressure being the same on the last cartridge as on the first.

In the cut of the gun the bolt is drawn back. The magazine is seen ready to be driven to its place. This is accomplished by pushing the bolt straight ahead.

The bullet is about the size of the cigarette of commerce and sharp pointed, and weighs about 220 grains.

The point-blank range of these modern death-dealers is from 200 to 250 yards, and they have been sighted up to 2000 yards. They were first used in actual action—recoiled their "baptism of fire," as it were—on Chile.

DRIVING HOME THE FACTS!

There's no Mystery About Cough Bros.' Way of Doing Trade.

OUR CLAIM!

To sell Better Goods than any other dealer.
To sell at Lower Prices than any other dealer.
To Meet all Competition from any other dealer.

There you have our platform, and the planks are thick and strong. They are dovetailed together to stand the racket of trade. Not a defective spot in the timber. We don't care where the competition comes from, whether the man or men who run against us come from Philadelphia, Boston or Timbuctoo, we are alive and in the ring for dollar for dollar.

We fear no foe and stand to our guns.

Those who are not very old can remember when Gough Bros. were defied to meet competition. We met it and sold goods at a profit cheaper than our competitors could buy them.

Here are a few of the spikes that hold our platform together:

NO ADVANTAGE TAKEN.

The Ladies Should Go.
Guy Brothers' orchestra arrived in town this morning and are in the Opera House to-night. At noon to-day the street parade of the company and band, in sailor uniforms, headed by the wonderful juggler, was very creditable. The music of the band was very fine. The performance this evening was of a most character as the company desire especially to give an entertainment which the ladies can attend. It will be funny, with clever dancing and specialties and there should be a crowded house.

The late Mrs. W. J. Macdonald, widow of Mr. Michael Macdonald, who took place at the family residence in Smith-st. on Saturday last, was a very old lady, and had been ill for some time. She was a very kind and generous person, and was much beloved by all who knew her. Her death was a great loss to the family and to the community.

Ladies who are suffering from suppression, bearing-down pains, nervousness, and all forms of female weakness, will find Dr. Williams' Pink Pills as an infallible cure.

THE VIRTUE OF FAITH.

FAITH THE CAUSE AND LOVE THE EFFECT.

The Anniversary Services of the Methodist Church—Sermons by Rev. Mr. Edwards, of the Charlotte-st. Church, and Rev. Mr. McWilliams, of St. Andrew's.

The close of another year in the history of the Methodist Church in Peterborough was marked by special and happy services yesterday, services at which the congregations were large and the discourses earnest and forcible. Since the last anniversary of the pastorate of the church, in the course of the itinerancy system of the Methodist Church, has changed. Under the former pastor, Rev. A. C. Wilson, the congregation had a season of continued success and now under the present pastor, Rev. Mr. Edwards, that success bids fair to continue and the congregation can enter upon another year with hopeful hearts and joyful thanksgiving.

THE MORNING SERVICE.
At the morning service every pew in the church was occupied. Rev. Mr. Edwards, of the Charlotte-st. Church, was in the pulpit and preached a sermon filled with earnest and impressive truth. The theme of the discourse was faith, and the basis the words:

"And Jesus answering said unto them, have faith in God."—Mark xi, 22.

In opening the service, the pastor, in explaining his text, said Jesus had cured the fig tree and returning His disciples noticed it was withered and, marveling, called His attention to it. Jesus answered and said unto them, "Have faith in God, it was not of human but of divine power that this fig tree was withered and it will be withered and living communion with the Divine Father. If you would be able to move mountains you must be in living communion with the Divine Being and to do this you must have faith in God." The preacher said he hoped that the services on this anniversary occasion would be successful and pointed out that to have good service they must have two things—communion with God and fellowship with each other. To have fellowship with each other they must realize each others presence and have a confidence in each other, and to have communion with God, they must have a confidence in His presence and a confidence in His power. The will power had something to do with the exercising of the services of their body. This was the reason that there were some in the congregation who were weary, they had not come under complete submission to God because of failure to exercise their will power. No one could be saved without faith and they would have no faith until they would do so. If they were saved, if they ever reached heaven they would have to put forth an effort. Therefore it was Christ who said to His disciples "Have faith in God." Faith was the principal thing. Increase of faith in mercantile men inspired enterprise, increase of faith in the soldier inspired courage that carried him to victory, increase of faith in the student inspired him to win the crown of glory.

INCREASE OF FAITH.
In the case of the Christian inspired hope that maketh not ashamed. "According to your faith be it unto you," the speaker had said and he preached that he believed the behavior meant exactly what he said. A great many people thought feeling was the principal thing and would not do anything unless they felt like doing it. Their whole life was built upon feeling. If they could keep these people on the mountain top, they might get some good service out of them, but they might not get them there at all and if they did not keep them there at all and therefore some people who went on feeling accomplished little. There was something deeper, something firmer, and that something was faith, which was the strongest influence to bring man out for God and humanity. The behavior did not dwell much on feeling. He did not tell His disciples to love God and love Himself, but did tell them to "have faith in God, have faith in Me." Faith was the cause and love was the effect which Christ knew would follow. The disciples never prayed "Lord increase our feeling," but they did pray "Lord increase our faith." Sam Jones had said this was nonsense, but the rev. gentleman said he did not think the Rev. Mr. Jones was right. He said there was no record that he ever prayed that but rather that he encouraged the prayer, for this faith was the fundamental principle, the foundation of a strong moral character. Noah or Abraham did not act by feeling, but by faith, and so the Old Testament prophets were rendered heroic by faith in the Divine Being. What was faith? Paul said it was the substance of things hoped for and the evidence of things not seen. Scripture said it was the power by which they took hold of that outside of themselves and appropriated unto themselves. So man must reach out and take hold of God and appropriate Him to himself before he could be of the Kingdom. Faith was also represented in Scripture as THE VITALIZING POWER that assimilated truth with dead nature. God would not put truth in a man, but had made it plain, had made man able to take hold of it and take it in. By faith they could take in the truth and be transformed in their moral nature like unto truth itself. Faith was also represented in the Scripture as the condition in which they received the Holy Spirit. Faith was the gift of God objectively as well as subjectively. They might have faith and not be saved, so matter how strong or unwearying it might be. They might think this and that and be clinging with the teaching of God, but he went on to point out that it was the object of their faith that saved. As the ravens were the means by which Elijah was fed, and the network of pipes was the means that carried water to the house of the lame child, so faith was the channel by which the grace of God flowed into the soul. It was not faith that saved, but what faith brought out. In conclusion the rev. gentleman pointed out that by failing to have faith they robbed the world of that upon which it fed, robbed the church of the power which it needed, and robbed the life of the individual. He contrasted the dark, hopeless future of the unbeliever with the bright, inspiring outlook of the Christian and closed with the hope that this faith might be theirs.

The rev. gentleman said, briefly stated, that the eagle rose out the down and wings of her nest from under her feelings when she thought it time for them to fly, and when nothing remained beneath them they had to fly or be dashed to pieces on the rocks below. If they flew the mother eagle soared above them and led them outward and upward; if they became weak she spread out her wings under them and supported them. The chapter from which the text was taken was the song of Moses to the children of Israel and was intended to illustrate God's dealings with them. They had lived in Egypt, but God thought it time to stir up the nest, which he did by means of Pharaoh and his taskmasters. When the last straw had been put under them they had to flee. Then the Lord, like the mother eagle, went with them, protected them from the enemies, fed them, strengthened them and led them to the promised land. There was an application to our case. The Lord stirred up the needy diabolical affliction and sought to tear us away from the soft things and pleasures of this life. We ought to see the wisdom of God's hand on it all and follow his guidance to the heavenly land.

AMONG THE CHURCHES.

Items Gathered From the Churches—The

Palpita Yesterday.

Rev. Mr. Thom, pastor of the Mark-st. Methodist Church, Ashburnham, preached in the Charlotte-st. church yesterday morning and was in the pulpit at the St. Andrew's church in the evening. He preached the text, "Have faith in God," with the pastors of these two churches who were preaching in his church, Rev. Mr. Edwards in the morning and Rev. Mr. McWilliams in the evening.

The annual convention of the Baptist churches of Ontario and Quebec, is to open in Toronto on Saturday next. The delegates from the congregation here will be Rev. Mr. Trotter, the pastor, and Messrs. Wm. Aldridge and M. R. Kidd. Rev. Mr. Trotter has been chosen to preach the educational sermon in the College-st. Baptist church. He preached the sermon, a powerful discourse full of information, to his congregation here yesterday morning.

Rev. Mr. Edwards began a series of sermons on "Winning Souls at the Church-door" last evening. The series will be continued at the evening services. Rev. Dr. Wells, of Montreal, is expected to occupy the pulpit at one of the services at St. Paul's church on a week from next Sunday.

Rev. Mr. Bartlett, of Lakeside, occupied the pulpit and preached good sermons at both the services at the George-st. Methodist church yesterday. The pastor, Rev. Mr. Locke, is absent attending the Methodist Episcopal Council which is being held in Washington, D.C.

IN THE POLICE COURT.

Those Who Appeared Before the Magistrate—

A Girl Gets a Year.

There was quite an audience at the Police Court this morning and the following programme presented to satisfy their curiosity.

A charge of assault was first taken up. Mrs. Sarah Gibbs charged Miss Lettie Carson with assault. The two women occupied rooms in the same house on Charlotte-st. and the quarrel arose over the use of a hall. They had been living together for years, but when ill-feeling arose the dispute over the use of the hall dropped up and Mrs. Carson had thrown Mrs. Gibbs around and called her names, according to the evidence. The Magistrate allowed the case to stand. Mrs. Carson saying she was going to move.

Thomas Tully, who has several charges of stealing preferred against him, and who has pleaded guilty to the theft of \$30 from his grandmother, was up on remand. Mr. Stone appeared for the prisoner and was the plea of guilty withdrawn. The court would not allow this. The charge of stealing fifty cents from the house of Mr. John Sawyer was adjourned for hearing until Friday next. The youthful prisoner seems to be in good spirits notwithstanding his sojourn on the hill.

Chris Graham was next arraigned on a charge of having indecently assaulted Mary Allan, the Norwood girl who was remanded to gaol on Saturday. The girl in giving her evidence was frequently overcome with fits of laughing and weeping. An amusement out of her own rather indignant story. Other evidence was put in and the case was adjourned for hearing until Friday next. The youthful prisoner seems to be in good spirits notwithstanding his sojourn on the hill.

True Blue Meeting.
A meeting of King William Lodge, No. 43, True Blues, is called for this (Monday) evening. A full attendance is requested.

The Fervid and Serene.
Articles known to the medical science are used in preparing Hood's Sarsaparilla. Every ingredient is carefully selected, perfectly pure, and only the best retained. The medicine is prepared under the supervision of thorough medical practitioners with a view to securing the most beneficial results.

The First of the Season.
Mr. Theo. Telford writes:—Saturday, the 10th, the thermometer at sunrise stood at 32 degrees, Sunday, the 11th at 30 o'clock, with some snow flying, being the first of the season. This morning was a good one, with a good crust on the ground and vegetation pretty well checked.

A Tribute to the Dead.
At the regular meeting of the Central Lodge, No. 114, I.O.O.F., of Peterborough, the following resolution was adopted:—Whereas it has pleased our Heavenly Father to remove from our midst our late esteemed brother, William Smith, who for the time he had been with us had been an upright, honest member of our beloved order; therefore, be it resolved, that in the death of our brother the Lodge has lost a firm and energetic member and the cause a serious loss; and that we deplore the loss with feelings of deep regret, and hope that his spirit will find rest in the better world; and that we tender to his bereaved mother, sisters and brothers our heartfelt sympathy at the loss of a devoted and affectionate brother, and we trust that what has been their loss will be his gain; be it further resolved, that a prayer be offered for a period of thirty days, and that a copy of this resolution be sent to the mother of our late brother, also be recorded in our minutes.

Wives of great men do remind us.
We may drink the tea that's strong, Ruing from the breakfast table, But into selfishness some, In the praise of Hawley Bruce, And their tea so rich and pure, For desecration and dishonor.

BATTERS AND KICKERS.

A BASEBALL AND A FOOTBALL MATCH.

A glorious day for sports—11 to 3 in favor of the Peterboroughs in Baseball—A Tie Was the Result of the Football Struggle—The Teams and Scores.

Saturday was a glorious day for sports, the sky was clear, the air bracing and yet so tempered by the warm sun that the spectators on the bleaching boards were not suffering from chilliness. There were two events on the programme at the P.A.A.A. grounds, first a baseball match and then a Rugby struggle.

THE BASEBALL MATCH.
The baseball match was between the Edison team and the Peterborough nine and was the result of a challenge issued by the former to play for the championship of the city. It will probably be the last match of the season and was one of the best exhibitions that has been seen on the diamond this year. It resulted in a victory for the Peterboroughs by a score of 15 to 3 in a seven innings game, thus giving the Peterboroughs the claim to the championship.

Pomphrey was in the box for the Edison men with Parkes receiving him. For the first two innings the Peterboroughs did not find the Edison pitcher and were retired without scoring, but after the third they scored every run. The Edison pitchers showed they were largely accountable for this regular scoring. The Peterboroughs, on the other hand, had a clean record, only 2 errors being credited to them. Head did the throwing for them and was a puzzle to the Edison men, striking out three men in the first inning. The Edison pitchers did some good hitting at times, however, but they struck into a good field and hence their run column did not swell. Sweetlove made the day of the day, a clean three-bagger to the fence, while Head and Allison each made two baggers. The Edison pitchers were largely accountable for this regular scoring. "IRELAND HAS LOST HER LEADER
BUT HER CAUSE REMAINS."

NO UNCLE TOM WITH THE MCCARTHYITES WILL BE CONSIDERED BY THE PARLIAMENTS—A MEETING OF REPRESENTATIVE FRANKS—A MEETING CALLED.

LONDON, Oct. 13.—Mr. Parrell's Parliamentary colleagues have issued this manifesto: "Ireland has lost her leader, but her cause remains the duty to the living and dead to maintain erect and unswayed the flag of national independence. You, the people of Ireland, gave into the hands of Mr. Parrell and his Parliamentary colleagues the charge of your political interests."

And the host and safety of the national capital. You are not a party to the means to restore property and freedom to our country, and animated by his spirit, guided by his clear intelligence and frankness of soul we carried the cause to a point at which the Government was forced to yield to our terms. But on an unfortunate hour a majority of the Irish representatives at the bidding of an English statesman, broke our ranks, abandoned the flag of independent opposition, ranged themselves as followers and satellites of the Government, and were thus bound to become parties to the treason resulting upon the national conviction and the maintained intact the allegiance to the independent national party in the conviction that the people would justify and support them.

live on. Relying on your devotion to Irish nationalism we propose to carry on the struggle until the principle for which we live and died triumphs and the Republic is restored. The Provisionalist party, by its refusal to accept the terms of the Anglo-Irish agreement, has placed itself in the vanguard of an independent operation absolutely free from the control of any foreign power or party. This is our resolution. It realises our deepest hopes and we will continue our struggle until we can all pronounce ourselves to be free.

The Provisionalists state that it is their intention to call a convention of representative Irishmen and women to meet to carry out the policy and programme suggested by Parnell in 1906, and say:

"To our ranks we will welcome all those who have been deemed."

affairs of Ireland should be controlled and directed by the representatives of the Irish people alone; but with men who are immediately responsible for the disruption of the National party who, in obedience to foreign interests, betrayed to the death the foremost man of our rank we can have no fellowship.

"There can be no safety between them and the men who stood true to the cause of National Independence. Ireland must choose. On the one hand, the man who is our leader we mourned defined our duty in these unpalatable words: 'If I am dead and gone to-morrow the men fighting against English influence in Irish public life must fight on my behalf. They may still believe in the future of Ireland and in the national interest that it was not by taking the or-

A Plot to Kill the Cmr.

LONDON, Oct. 12.—The Telegraph's St. Petersburg correspondent says: A conspiracy against the life of the Czar has been discovered in Kiel. A printing press, used in the publication of seditious matter, has been seized and there is a serious outbreak among the students of the university, many of whom have been arrested.

heavy seas was encountered and much water was shipped, necessitating the closing of the ventilators and battening down of the hatches. This prevented access of air to the hold and a number of the cattle in the stalls were suffocated. The stalls on deck were of the usual flimsy construction, and some of the seas which howled the ships tore them to pieces and carried them and the cattle they contained overboard. Two men were badly injured by the rolling and pitching of the steamer that they had to be killed.

The religious press should not be regarded as a rival in the pulpit. It supplemented and backed up the teachings of the preacher. A Good Pickling Receipt

It is many instances spoiled by using an adulterated spice or a poor quality of vinegar.

To prevent such an occurrence and have all annoyance of having pickles spoiled is to procure a pure article. This will cost you no more than the inferior compound.

The finest pickling spice that can be had is our "W. J. Mason & Sons' Pickling Spice," a combination of the finest seeds and spices properly blended, possessing a peculiar pungency not to be found in any other spice.

We have an extra fine article in Vinegars which are unsurpassed for strength and quality.

Will kick in Coburg.
The football club of the Oudgulate Institute goes to Coburg on Saturday to play Victoria University. The boys are in fairly good form and it is not improbable that "Vics" may learn a point or two from them on Saturday. Our team is as follows: Goal, Dodds; back, Drape and E. Burnham; half-back, T. Burnham, Torrey and G. Edmiston; forward, Goldsmith, Porter, McNulty, Heep and L. King.

Yesterday Turner the Mail, Tent, and wing and life saving man, received an order from the Deseronto Navigation Company for twenty-four life preservers, for use on the Company's boats. This order is a good one or Turner and from a buoyant point of view one that will float. Should a wrecked passenger have to lay hold of one in the cold water of Ontario he will have reason to bless Turner, who keeps him afloat.

Mr. Wm. J. Holland Road.
It is with regret that we chronicle the death of Elizabeth Sweeting, wife of Mr. Wm. Holland, which occurred on Saturday afternoon at the family residence. The deceased lady had been a sufferer for some time past, but her death was unexpected news for many of her friends. She was born in Coburg in the year 1823, being 39 years of age when she died. She was married in Peterborough to Mr. Wm. Holland in the year 1857. She was a devoted wife, kind mother and a Christian lady greatly esteemed by the community. The funeral will take place from the family residence at three o'clock on Saturday afternoon.

Don't Fail to Hear them.

RESCUED BY FIREMEN.

An Early Morning Blaze Attended with Horrifying Incidents—A Lady's Terrible Fall.

The residents of the Dunford block on Water-st. were startled from their sleep a few minutes after one o'clock this morning by cries of "Fire! Fire! Help! Help!" The cries came from Mr. and Mrs. J. W. McCreary who had awakened in their bed to find themselves almost suffocated with a dense smoke which filled the room and made breathing difficult. Their cries from the front window reached the ears of Constable McMillan in the Police Station and at once ran and sounded an alarm. The firemen were out promptly and Mr. and Mrs. McCreary were still in jeopardy when they arrived with the hose wagon. Fireman John Hayes and Constable McMillan took a ladder from the truck in the front yard and the horses were being hitched, carried it to the burning building and the fireman rescued Mr. and Mrs. McCreary and their little son, all in their night clothes from the second storey window.

Mr. McCreary is the local agent for the Singer Sewing Machine Co. and occupies the most southerly store in the block. Next to him is Mr. A. Kingscott, test and awning dealer, and north of the latter is Mr. John Armstrong, saddler, and the office of the Rochester Star Nursery. The brigade found that the fire had originated in the kitchen, which is a small room, and in a few minutes they had the flames under control and succeeded in confining the fire to the one room. How it originated is not exactly known, although it is supposed to have been ignited from the cook stove.

A lady, Mrs. J. W. McCreary, was rescued by a painful accident and narrow escape which will make Mr. and Mrs. McCreary remember the night for many a long day. Their sleeping apartments are on the second storey and with their little boy, they were sleeping in a room directly over the kitchen. There is only one way of escape from the upper rooms and that is by a steep, narrow staircase which opens into a little sitting room next to the kitchen. When they awoke with the stifling smoke Mr. McCreary attempted to go downstairs but upon reaching the bottom of the staircase was forced to retreat by the thick, suffocating smoke. Going upstairs he went to try to batter down a wooden partition between his rooms and Mr. Kingscott's.

The latter gentleman and his wife were awakened and they too found themselves in a volume of smoke. When Mr. McCreary had secured a passage through the wall into his neighbor's he found the smoke as bad there, and concluded that the fire must be in both places and retired to his own part of the building. Mr. McCreary is moving in the thick smoke lost herself and fell headlong down the narrow staircase. It was a fearful fall. Fortunately her husband had closed the door at the bottom when he was down or the unfortunate woman would have been shot out into the street below close to the raging flames and must have been inevitably suffocated. As it was she received a severe wound on the head, a couple of inches in length and very deep. Her husband succeeded in rescuing her from the bottom of the staircase and they were rescued as told above. It was a most fortunate escape for Mrs. McCreary for she is a heavy lady and the staircase was steep and narrow. Dr. Pigeon was summoned and took several stitches in the scalp wound. This morning the injured lady is considered to be better, having recovered from the excitement of her perilous adventure.

The building, which is owned by Mr. Geo. Dunford, is insured and Mr. McCreary's loss will also be covered by insurance. The smoke from the fire penetrated the entire block and Mr. Kingscott, next door, will sustain some damage from the smoke. The firemen's prompt and well-directed efforts prevented a great conflagration for once under headway the flames would have eaten their way through the whole block.

HOMES WANTED.

An Appeal Urgently Made to the Citizens of Peterborough—The Great Convention.

The following appeal from the officers of the local Union is commended to sympathetic readers.
The great Christian Endeavor Convention which meets in Peterborough next week is undoubtedly going to prove a great boon to our town, and every citizen is going to reap an advantage by the courtesy and hospitality shown to the names of one hundred delegates who are still unprovided with homes or billets, and we take this opportunity of making an urgent appeal to the citizens of Peterborough to open their homes and to lend a helping hand in the good work. We ask the thanks of those who have done their duty in this respect, but the fact remains one hundred more delegates are to be placed somewhere. For the sake of our town, for the sake of the Christian community of Peterborough, for the sake of those who have charge of this important work, we ask you to lend your aid and all the assistance which lies in your power. If you can take one, two or three delegates, kindly let the fact be known to A. E. SCOTT, Pres. of Local Union, or A. J. JOHNSON, Chairman Billet Com.

The Great Benefit.
Which people in run down state of health derive from "Hodges' Sarsaparilla" is conclusively proven that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength, but it purifies the blood, restores vitality to the purities of those important organs, the kidney and liver.

First of the season. Just the thing for breakfast. Try them. Yeast, lamb, mutton, pork and beef of the choicest, and vegetables of all kinds in season at J. J. HODGES, 441 George-st.

Monsoon India Tea, celebrated for its strength and purity, at STAPLETON & KLOONER'S. 479

No Misleading.
The price of boots and shoes are coming down, because Kild the Booter says so. Why, where else in Ontario can you get men's shoes for \$5.00 a pair, women's slipper boots for \$1.00 a pair or women's slippers for \$0.50 a pair?

Lecture on Feet, Adam, Esq.
A gentleman who lectured on feet, printed his tickets as above, suggestive, certainly, and even sarcastic. What fools are they who suffer the torments of disease when they might be cured. Dr. Fiores' Golden Medical Discovery is sold under a positive guarantee of its benefit or curing in every case of Liver, Blood and Lung disease, or any of the kind of disease, fully refunded. In all blood taints and impurities of whatever name or nature, it is the most positive in its curative effects. Pimples, blotches, eruptions, and all skin and scalp diseases, are radically cured by this wonderful medicine. Scrofulous disease may affect the glands, causing swellings or tumors; the bones, causing "Pott's Disease," "White Swellings," "Hip-Joint Disease," or the tissues of the lungs, causing Pulmonary Consumption. Whatever its manifestations may be, "Golden Medical Discovery" cures it.

THE EAST RIDING FAIR

A Successful Exhibition at Norwood.

LARGE NUMBER OF EXHIBITS

AND OF EXCELLENT QUALITY IN EVERY DEPARTMENT.

A Large Attendance of Spectators—Favored with Beautiful Weather—Financial Results Good and in Every Way a Pronounced Success—List of Prize Winners.

A complete success. That was the verdict of all who attended the twenty-third annual exhibition of the East Peterborough Agricultural Society which was held at Norwood on Tuesday and Wednesday. The weather on the second day was beautiful, and the attendance was large, about three thousand people passing through the gates. The number of entries ran over 1,500 and with the numerous exhibits and the large number of people the grounds were crowded to the limit. In fact, more space should be provided for this growing institution, and this will be a necessity if the exhibition grows any larger. The receipts were very satisfactory, amounting to about \$600, \$200 of which was contributed by the Directors. The members of the Society are to be congratulated on the result of the exhibition and Norwood upon having such a successful fair held there.

The Outside Departments.
The grounds were filled. The live stock and special exhibits took up a large amount of space, and the large number of spectators pretty well filled the remainder.

THE HORSES.
There was a really good show of horses. The number shown was large, and there were some very fine animals shown in the roadster, carriage, heavy draught and agricultural classes. The different sections in these classes were well filled, and there were many driving horses of the appearance, and those who liked to see a collection of the horses—which includes almost everyone—had an opportunity to do so that is not often presented.

CATTLE.
There was also a fine show of cattle. The principal exhibitors being Mr. R. Keeser, of Markham, who showed a herd of twenty; Messrs. F. Birdsell & Son, of Asphodel; Mr. Anthony Terrill, of Wooler, and Mr. D. H. Ketcheson, of Seymour.

Of Durham there were a number of fine animals, every section of the prize list in this section being represented. The principal exhibitors in this class were Messrs. F. Birdsell & Son, who won the Agricultural and Arts Association silver medal, Messrs. John Keeser and Knox Bros., of Asphodel, J. H. Douglas, of Percy, W. G. Patterson, of Belmont, and Geo. English, of Asphodel.

Holstein cattle were also well represented, by several fine herds. The chief exhibitors were Messrs. T. B. Carlow, of Percy, R. Campbell, of Asphodel, and C. Honey, of G. Ayreville cattle there was a good show, one bull, owned by Mr. Terrill, of Wooler, having taken six first prizes this year, among them the first prize and silver medal at Toronto and the first at London. Other exhibitors in this class were Messrs. R. Humphries, of Asphodel, A. Humphries, of Asphodel, and J. H. Douglas, of Percy.

OTHER STOCK.
The sheep was a notable feature of the exhibition, both on account of the number shown and the quality of the animals. There were a number of exhibitors of Leicester, Cotswold, Southdown and Shropshire Down, and Messrs. F. Birdsell & Son had a fine flock of Oxford Down. A novelty was a Lincoln ram exhibited by Mr. T. B. Carlow, of Percy. This breed was not called for in the prize list, but the judges recommended it for a prize saying that in their judgment it was the best sheep on the grounds.

There was a very good show of swine, of different breeds.
Of poultry there was a very good exhibit, one that was creditable to the section and to the exhibitors.

SPECIAL EXHIBITS.
Mr. W. F. Flint, of the Norwood Foundry, had a good display of implements from that factory, including a straw cutter, mower, roller, root cutter, turnip seeder and a number of other implements.

Mr. Henry Owens, of Peterborough, had on exhibition two of his well-known Model pumps.

Messrs. D. J. Smith & Co., of Norwood, showed two pumps from their factory set up ready for use.

Mr. Thos. Hendon showed a couple of well-made and finely finished buxles.

Mr. George McWilliams, of Peterborough, exhibited one of his favorite and celebrated Champion (bagger) farming mills.

Mr. J. E. Connor displayed a couple of washing machines.

Inside Departments.
The L-shaped building of the society was filled with a fine display. On entering the visitor was confronted with a display of handsome plants, giving a good impression at once that was deepened as one walked through the building.

The display of grain was excellent, the number of entries being large and the samples superior.

The roots were great, their being a large display, and the turnips, mangolds, potatoes and other roots were large and fine specimens.

In fruit there was a large display of apples, and the varieties were represented by large specimens of fine appearance. There were also pears, grapes and other fruit.

The display of canned and preserved fruit and pickles was unusually large, and there was a good display of honey, butter, home made bread, etc.

There was a good display of domestic manufactures, embracing the articles usually shown, and the exhibit of fancy work was very creditable.

Mr. Thos. Walker, of Norwood, Mr. T. B. Carlow, of Percy, Mr. F. Birdsell & Son, of Asphodel, and Mr. J. H. Douglas, of Percy, exhibited samples of harness manufactured by them.

Mr. R. J. Stewart, of Norwood, showed a collection of the wares from his shop.

Mr. W. Ebo, of Norwood, showed a collection of the wares from his shop.

Mr. J. Hendon, of Norwood, had on exhibition a Karn piano and Karn organs.

Mr. I. N. Ackerman, of Norwood, showed a Dominion organ and New Williams sewing machine.

Mr. J. M. Brierley, of Norwood, a Law's spraying outfit for use in orchards.

The Races.
There were three events on the track, in which considerable interest was taken. The first was a trial of the walking qualities of

game and it was won by Messrs. G. M. Elliott, 1st, D. Cameron, 2nd, and T. Bieard, 3rd.

The green trot had three starters and W. Omsack's Minnie U. took first place and Geo. Lipsett's Lady D. second in straight heats.

There were five entries in the open trot. The number of heats and the locality of the judge's stand consumed time and the last three heats were trotted after the sun had sunk behind the western horizon. W. Omsack's Minnie U. was given first place in this race also. The winner of second money may be officially known later when the record is explained by those who occupied the position of judges of the event.

The Norwood band was present during the afternoon and played a number of good selections of music.

The ladies of the congregation of the Christ Church served dinner and tea on the ground in a tent procured from Messrs. J. J. Turner & Son.

A couple of candy and fruit merchants did a thriving business on the grounds. There were, as usual, several "fairs" present, disposing in various ways of various articles.

A movement is on foot to procure more space for the exhibition. It should succeed in the fourth heat in the open trot Mr. Geo. Bae, who was driving "Sultan of Turkey," ran a wheel on the side of the track and was upset. He was dragged a short distance, but beyond a shaking up was not injured, and his car escaped with a damaged axle.

Mr. E. B. Edwards, of Peterborough, sent down an exhibit of a new variety of potatoes which arrived too late to be formally entered. They were "Seattle" potatoes and were shown in the grounds. They were very fine tubers.

A large number went from Peterborough to the exhibition on the noon train. The Lakeside district was also well represented.

BUY NOW IF AT ALL.

EVERY day makes more apparent the fact that the town is going down rapidly. Immediate changes have taken place in the way of ownership of property. Many workmen who have been employed in the town have been laid off. One of the most reliable means to build up the town is to buy property at once. This week he has done the sale of a very desirable house and lot, and has several other lots on this property to dispose of. Property in this neighborhood is rapidly being built up, and it will be well to buy a lot at the present time. The lot is situated on the corner of the street, and is a very desirable one. The terms are very favorable. Apply to the undersigned on time may be arranged.

THE QUEBEC SCANDAL.

A STATEMENT WHICH CREATED A COMMOTION.

Quebec, Oct. 15.—When the Royal Commission opened its session yesterday Mr. Beigne announced that he and his colleagues did not appear for the Executive but merely for the ministers. He also announced that they knew that the procedure would be followed, had suggested a number of residents from along the road to testify to the good condition of the road and the excellence of the work done there, and that they were anxious to return to their homes as soon as possible but were asked that if convenient they might be examined by the commission.

Mr. Hall objected to this, the principal point of his objection being that these people, though in all probability very respectable, were not competent to give evidence. Mr. Beigne, in reply, said that he had already stated the actions of the commission could not be controlled, but that the witnesses were honest and trustworthy, and that their testimony might bring out some point or other that would throw light on the matter.

Judge Davidson then gave his decision on Judge Irvine's objection of yesterday afternoon. He pointed out that Mr. Armstrong had made the suggestion to pay witness \$100.00 for his influence with the Government. He (Armstrong) admitted that he was acting on the precedent established between McLaren and Ponce when the former agreed to pay the latter for his influence as intermediary with the Government. His evidence was of the gravest character, affecting the reputation of the administration at Quebec. The belief of the commission was that the evidence now objected to was of such a grave character that they would insist on the investigation in reference to this point being pressed to the fullest extent.

Mr. Beigne was thereupon put in the box to tell what he had done with the five checks of \$50.00 each when he visited Ponce's office.

Mr. Beigne having endorsed the checks for Mr. Ponce, and said he had always expected to do so, though it seemed from his evidence before the Senate Committee, that he had not intended to do so. He was not satisfied as having to do so.

Being asked why he was so ready to pay the \$100.00, he said he was greatly in fear of the consequences of not doing so. He was lost, and then such complications would arise as to effectively prevent anyone from getting anything. He was then asked to say how much he had paid to Mr. Ponce, and why he believed so much in his influence.

Witnesses replied that he knew Mr. Ponce had great influence with the Government. He was a party manager, an intimate friend of the ministers, and besides he had been acting as an agent for the other syndicate.

He was then asked again about the time Mr. Ponce showed uneasiness at the delay in payment of the checks and said: "One day when I complained to Mr. Ponce of the delay he replied that he himself was very anxious to have the matter closed so as to be able to return to his home, and that he would pay him \$50.00."

After testifying that he had not paid either Mr. Ponce or anyone else any money in addition to the \$100.00, Mr. Beigne was handed over to the tender mercies of the private prosecution.

Mr. Cagrain, taking charge of the examination of the witness, gave the following story of his several interviews with Mr. Ponce again without eliciting anything new. Mr. Armstrong was asked if Mr. Ponce had ever said to him that he would give him \$100.00, and why he believed so much in his influence.

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered I was in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven scores appeared and broke, causing me great pain and suffering. I feared I never should get well."

"Early in 1901 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Cure,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the 'Wint & Walling Mfg. Co., and since then I have not lost a single day on account of sickness. I believe the disease was expelled from my system, I always feel well, and in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores turned out my right leg. To my friends my recovery seems almost miraculous, and I thank Hood's Sarsaparilla as the king of medicines." WILLIAM A. LEMMON, 811 Railroad St., Kendallville, Ind.

CABINET RECONSTRUCTION.

Advice is being freely tendered the Government from different quarters regarding the expected reconstruction of the Ministry. There is a vacancy in the Cabinet now, and it is said that there will be others. The vacant portfolio is one of the most important and another may be filled also of first importance. Under these circumstances, from competent and unprejudiced persons, would not doubt receive due consideration by the Premier and his colleagues, but when advice is urged by a journal of unstable principles that proved a traitor to its party, it needs careful scrutiny before being accepted. No doubt the Globe and the Mail are very kind to tell Mr. Abbott what he should do, and what would be best for a party and other points of view, but their distastefulness and their desire to do either the country or the Conservative party a service in tendering their advice will be looked upon, to say the least, with great suspicion.

Other journals, friendly and trustworthy to the Government, are advocating the claims of particular members to a seat in the Cabinet, generally a member from the constituency in which they are published. It is right enough to call public attention and the attention of the Premier to the ability of a member and his fitness for administering a department, but it does strike one as being odd to see the fact that a constituency has returned members of a certain party for a number of years regarded as a reason why its representative should be given a Cabinet position. If the member's ability is not sufficient to justify his promotion to such an important position, the constituency's political record would not make up for the deficiency in any way that we can see.

It is a fortunate fact that there are men of first rate ability in the House and on the Conservative side who may be chosen to fill any vacancy that arises or that may arise in the Cabinet. What the country requires is able administrators, able and careful men, to preside over the department, and any man who enters the Cabinet will, the people may rest assured, be of that class. The Conservative party has, ever since it was returned to power had more men of unquestioned ability and integrity than were required to fill the portfolios and they have served the country faithfully in their positions as members. In making a choice of members for promotion to the Cabinet the Premier has reasonable duty, and those who will be able administrators should and no doubt will be chosen, for of such men there are a number on the Conservative side, and the Government will be found to deserve and to retain the confidence of the people, as it has for so many years.

ONE of the motions displayed in the Liberal demonstration at Barns was "Liberal, a Worthy Successor of Lambton's Great Statesman." That was heard on Mr. Mackenzie.

A JOURNALISTIC supporter of Mr. Macleod calls upon the Governor-General or the Queen to interfere with the Tyranny of the Lieutenant Governor of Quebec or trouble will ensue. X. Mr. Macleod and his colleagues have agreed to all that has been done by the Lieutenant Governor. He has been and those who about with it are right should at once endeavor to bring about Mr. Macleod's removal from office.

An English Liberal paper is quoted by the Globe as saying that it is scarcely satisfactory to be told that the outcome of the investigations at Ottawa "is the appointment of a committee to enquire into the organization of the civil service." The English paper is misinformed. That will not be the only outcome. The committee will report and action will be taken.

taken. Besides these are to be actions at law taken against those who are amenable to the law for their actions.

THE BIRMINGHAM POST, a leading organ of English opinion, says:—"The evidence of the complexity of the situation in the worst transactions was by no means direct or conclusive. That he had chosen an unworthy confidant, and had been negligent in enquiring as to his conduct of affairs, and, further, that he allowed his subordinate to manage transactions which demanded his own personal supervision could not be denied. But for that folly, or weakness, those who knew him best might think that he had been already sufficiently punished. He has had to resign his office, and to vacate a position in the councils of the Dominion which was second only to that of the Premier. And it must be supposed that his public career is virtually ended. What that means for a man who has devoted his whole life to political action, who has abandoned all other objects and aims for the pursuit of public affairs, may be imagined." It also adds:—"Allowing for inevitable bias on one side or the other their remains one satisfactory element in the proceedings. They have effected no condonation of the offence itself. On the contrary, the feeling of the country has been practically obliged in the House."

A Good Pickling Receipt

In many instances spoiled by using an adulterated spice or a poor quality of vinegar.

To prevent such an occurrence and have all annoyance of having pickles spoiled is to procure a pure article. This will cost you no more than the inferior compound.

The finest pickling spice that can be had is our Whole Mixed Spice, a combination of fine seeds and spices properly blended possessing a peculiar pungency not to be found in any other spice.

We have an extra fine article in Vinegar which are unsurpassed for strength and quality.

St. Luke's Anniversary.

On Sunday next the annual anniversary services will be held at St. Luke's church. The time is appropriate and has been chosen because of St. Luke's Day, which this year falls on that date. The Ven. Archbishop Allen, of Millbrook, will be the preacher both morning and evening and will also conduct the services. His experience as a preacher and his position as Archbishop eminently fit him to address the congregation on such an occasion. The usual Sunday services will be held characterized by special music from the choir of preparation.

The Storage of Oil.

Work on the oil storehouse which was being erected near the C.P.R. station has been stopped. The complaint of residents in the vicinity caused the law to be enforced out, and an Order-in-Council passed in 1889 has been found which makes it illegal to store oil within 100 yards of any other building. The company claims that there was another Order-in-Council passed rescinding the one mentioned. If the enactments of the Order-in-Council of 1889 are good and are enforced, it is said it will affect several places now used for the storage of more than two barrels of petroleum.

THE TOWER FUND CONCERT.

A Successful Musical Event—A Large and Well Pleased Audience.

Thursday evening, despite the threatened rain, George St. church held a large audience drawn together to hear the vocal and instrumental programme provided for their entertainment. The seats in the auditorium were filled and a fair number seated in the gallery. Some disappointment was felt that the Charlotte-st. church choir were unable to sing as arranged, but circumstances of an exceptional character fully accounted for the choir's absence.

George St. church choir sang the opening anthem, "Blessed is the People," with excellent effect. The opening anthem of the second part, Beethoven's "Jubilate," was carefully sung. The tenor solo by Mr. W. H. Manning was well rendered, and the solo for mezzo strong and telling. The final "Good Night, Farewell," a pleasing and appropriate finish to the programme.

Mr. J. Churchill Arlidge gave a very fine exhibition of his marvellous skill and ability as a pianist. In his selections "Bede's Air" and the fantasia on "Boswell's Dream," his rapid and brilliant execution of the most difficult passages were singularly effective and loudly applauded.

When Mrs. Daly appeared she was warmly greeted. Her first selection "To Thy Temple I Repair," was sung with all the clearness of enunciation and sympathetic feeling for which Mrs. Daly's singing is remarkable. Her second selection, "Book of Ages" was beautifully and delicately sung, a thoroughly satisfactory performance. Mrs. Daly also sang in duet with Mr. H. Seward, the ladies singing a very beautiful arrangement of the familiar hymn, "Love of My Country." Mrs. Seward taking the alto in excellent voice.

Dr. Davies, organist of St. John's, gave as his first organ voluntary a composition of his own, "Tempo al Minuetto," a selection well adapted to display his mastery skill of which was heard to advantage. Owing to some defect in the organ pedals Dr. Davies excused himself from playing in the second part of the programme.

Messrs. Manning, Matthews, Lount and Knowles sang in bold and vigorous style the chorale, "Oh, Hail, ye Free," and made a very favorable impression.

Master Arlidge, well known as the boy soprano, sang two selections, "The Valley of Silence," and "Night and Morn." Master Arlidge sang clearly and sweetly and with a freedom and correctness of tone and emphasis that indicate careful training and promise well for his progress in the future. Few youths at his early age attain a like proficiency, and his gift of song is sure to bring him into prominence.

St. Andrew's choir contributed a fine anthem to the first part of the programme, under Mr. Ketchum's direction, with Miss Clarke at the organ. The choir sang in correct tone and with strict attention to the score, and were heartily applauded.

Under the direction of Prof. Arlidge, choir master and organist, twelve of the ladies of the choir of St. Paul's church sang a selection for soprano and alto voices from "The Christian Pilgrim." The parts were well taken and the melody clear and well sustained.

The accompaniments for Prof. Arlidge (piano) were played by Mr. Geo. Schneider, Jr., organist of Charlotte-st. church.

At the close of the programme Mr. D. W. Dumble, for the trustees of the church, thanked the audience for their patronage and expressed the hope that the tower fund would be materially helped by the proceeds from the entertainment.

Comments of approval were made on the good feeling shown by the St. Andrew's and St. Paul's choir in kindly assisting in the programme and the hope was expressed that mutual interchange of service on such occasions would lead to a concert being given at some time in the future at which the choirs could sing individually and also together. The Charlotte-st. choir, as already stated, were unavailably absent, though ready to have done their part. Mrs. W. J. Morrow was also unable to contribute her voice on account of illness in her family.

THE SCOTCH VERDICT.

Thos. Tully tried on the Charge of Stealing Fifty Cents but Not Convicted—Five Months in Jail on Another Charge.

"Tommy" Tully, the young man who has been in jail awaiting trial on a couple of charges of stealing, came up at the Police Court this morning. It will be remembered that the prisoner pleaded guilty to the charge of stealing thirty dollars from his grandmother. Mr. Wood, County Crown Attorney, conducted the prosecution, and Mr. E. B. Stone defended the prisoner.

The first charge taken up was that of stealing fifty cents from the residence of Mr. John Bowers, corner of Aymer and London-ets., on Sunday, Oct. 12th. The witnesses for the prosecution were Mr. and Mrs. Bowers, little Vina Fair, Mrs. Thos. Fair, Chief Constable Constable Stewart. The story that came out was something like this. Mr. and Mrs. Bowers were both out on the Sunday morning in question. When Mr. Bowers returned he found the prisoner in his house. When spoken to the boy said he wanted a drink. On Tuesday the fifty cents were missed from a sideboard drawer. Mr. Bowers had also found his trunk disturbed. When the money was missed footprints were found under the window at the side of the house and into the kitchen. The prisoner's boots fitted nicely. A young man put in the box for the defence said he was with the prisoner on that morning and was to wait for him while he went over Mr. Bowers' fence to get a drink. He waited for the prisoner to come and not coming he walked up Robinson-st. and was overtaken by Tully at McDonald-st. In cross-examination this young man stated that he and Tully had been out to Lakeland on Saturday night, had been drinking and remained in the village all night.

The Magistrate, in giving judgment reviewed the evidence which was consistent and very suspicious, but he would give the prisoner the benefit of the doubt and render the Scotch verdict of "Not proven."

The Court then adjourned until three o'clock when the charge against the prisoner of stealing \$50 from Mr. J. A. Tucker was proceeded with.

The evidence in this case did not bring the charge home to the prisoner and it was dismissed.

The Magistrate then sentenced the prisoner to the charge to which he had pleaded guilty, of stealing \$50 from his grandmother. The Magistrate referred to the boy's grandfather and father known as exemplary honest people, gave him the pleasure of knowing, however, that the boy's grandfather and father were not to be taken for granted, and he sentenced him to five months in jail at hard labor.

DEATH OF A VETERAN.

A Former Citizen of Peterborough Dies in Milwaukee.

The Claret, Milwaukee, Wis. Oct. 10th. The death of Mr. Joseph Graham, who was until a few years ago a resident of Ashburnham, Mass., was announced here last night.

Mr. Graham was again entered our midst, and this time has claimed for its own a good citizen of Claret, an honorable man and a veteran soldier, who fought and died for the country of his adoption. We refer to the death of Mr. Joseph Graham, whose spirit was called to another and better world on Tuesday night of this week at 10 o'clock. Deceased came to Claret in the year 1880 and from the time of his entrance into Claret has been made the recipient of the good will and esteem of our people. He was a man of distinguished bearing and marked appearance, his erect, military bearing always attracting attention from those who beheld him. He was also a genial, whole-souled gentleman, with whom it was a pleasure to converse or have dealing of any nature. As a member of the Presbyterian church he was circumspect in all his actions and revered devotedly the name of the Supreme Being. The Pine Knot proceeds to say that about a year and a half ago Mr. Graham first felt the effects of the illness that carried him away. Two months ago he entered the Duluth hospital, but became worse and returned home, where he died. He leaves on him five sons and two daughters, the latter being both married. For the bereaved household the warmest feeling of commiseration is felt. He faced death calmly, and steadily, as his old regiment used to face the foe when he had served about one year. Shortly after this, he, with his mother and brother (his father being dead) emigrated to the United States, settling at Newburg, on the Hudson, where his brother engaged in the shoe business. Mr. Graham went to work with his brother to learn the business, but the love of military was strong in him, and upon the breaking out of the Mexican war he at once went to New York and enlisted in the Second Infantry, U.S.A., and after a short time spent on Governor's Island he received his first active service. He served under Gen. Taylor, in first part of the campaign, and upon that officers recall, and Gen. Scott taking command, he was present under that general at the taking of Vera Cruz and participated in the series of brilliant victories that marked Scott's march from Vera Cruz to the capital, including Cerro Gordo, Churubusco, Monterey, Buena Vista (where his regiment formed in square, related the fiercest charges of the Mexican cavalry for three long hours), the storming of Chapultepec, and the final assault on the city of Mexico, in which the Americans were completely victorious. He could give graphic descriptions of the campaign, for his memory was phenomenal, but most frequently spoke of the storming of Chapultepec. In this engagement he was one of 1,000 picked men who carried the storming party to carry the Mexican works by assault. Shortly before day-break, on the morning of Sept. 13th, 1847, the flash of a rocket in the American lines gave the signal for the "lost children," as the stormers are called, to advance. They did so, every man in the fortress opened fire on them, the American artillery returning the fire, and the thunder of heaven bursting out at the same time, all combined forming a most grand and awful accompaniment to the march of the stormers. Nothing could stop them, and the place was carried, with the bayonet, in less than an hour, but at an awful sacrifice of life, for when the stormers passed after the battle they numbered barely 400 out of 1,000.

"At the close of the war he returned to this country with his regiment, and upon the expiration of his term of enlistment he left the service. After leaving the army he went to Canada, where he married. In that country he took an active interest in military affairs, being connected with the militia for over twenty years. In 1890 he came to Claret, to join his son living here. Mr. Graham was a great reader, and a man better posted on English and American history and literature was seldom to be met with."

They Paid the Expense.

Councillor W. H. Moore this morning received a cheque for \$200 from Messrs. Patterson & Corbin, the St. Catharines car works, to pay the expenses connected with the voting on the by-law granting aid to the firm on condition that they would come here. The town is thus repaid for its expenditure on the by-law, and all that the Councillors have to regret in connection with the matter is that they had their work and trouble for nothing. They have the pleasure of knowing, however, that they did their best for the town and will receive credit accordingly.

The Mayrally.

To the Editor of the Review.

Sir,—The people of the town are beginning to ask who will be our next Mayor? Mr. Stevenson has been the servant of the people in this position for a great many years. He has had a large number of such positions and ought to be relieved. I believe he is, or was till very lately, presiding officer in nearly everything about the town, and he has had a great deal to do, of course, if we had no likely men to take his place we should have to ask him to stand aside. I am sure that Mr. Stevenson, if elected, will be a most successful Mayor. For my part, I am in favor of Mr. Cahill for next year and then, instead of having him for the rest of the century, we could ask Mr. Kenry to take his share of civic responsibility and accept the position in 1892, and so on, believe a change does good, no matter how well things are going on. Let us hear from others.

Yours, &c.

ADVERTISEMENTS.

Mrs. Winslow's Sarsaparilla has been used by millions of mothers for children teething over fifty years with perfect success. It leaves the little sufferer at once, produces no action, and the little mother awakes as "bright as a button." It is very pleasant to taste, the mildness of the sugar allows the mother to relieve wind, regulate the bowels, and whether arising from teething or other causes. Twenty-five cents a bottle.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Hamilton, Ont. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. To that year an ailment developed into acute dyspepsia, and soon I was reduced to 125 pounds, suffering during excursions in the stomach, palpitation of the heart, nervousness, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla. It had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became healthy, nausea disappeared, and my entire system began to ease up. With returning strength came activity of mind and body. Before the first bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla. I have written this to the Editor of the Review." Mr. McMahon is now a healthy man and he does not intend to buy any other.

A Cowardly Policy.

If the enemies of the Conservative party would be judged by what they say it would be thought they were daily praying that the Government they must hate should save itself by at once throwing overboard the Secretary of State. Mr. Chapleau is at the moment the subject of a general attack all along the line. All that has been alleged against him in a long public career is being brought up again and as his enemies have ever been bitter and never scrupulous the list is a long one. It is to be remembered, however, that if Mr. Chapleau were dead, the Liberals who now attack him were anxious to condemn all his actions if he would consent to work with them for the overthrow of the Cabinet of which he was and is a member. Mr. Chapleau's refusal to do this thing is his chief cause of offence. The Liberal movement led by Messrs. Laurier and Mercier is to-day the chief cause for the division felt to him by his enemies, who wished to be his allies. People do not forget that, determined as are his opponents, they have never been able to bring proof of their allegations that would convince a reasonably unprejudiced person. Mr. Chapleau's career to be one of unrelenting evil they do not lay their hands on even one spot and say: "There is a stain on his record and we are true," they seek by continued iteration to convince the people, if not themselves, that he must be a bad man against whom so much that is evil is said. Such a style of political fighting is not fair and mainly and not honest; but it is characteristic of a party and a press whose ideal of political sagacity is to discover or magnify some new slander against an enemy. — Montreal Gazette.

Some Remarks on the Census. To the Editor of the Review.

DEAR SIR,—Although a naturalized citizen of the U.S., and at present residing under the broad folds of the "Starry Banner," figuratively speaking, I have not lost interest in the land of my birth and what concerns her. In this connection I may say that I have been looking forward with some anxiety to the result of the census, to be taken of the Dominion this year, and it is needless to say I was much disappointed at the showing made, not only for the country at large, but for my old town as well.

The Dominion not quite five million and Peterborough a barely six or seven thousand. What added to my chagrin and disappointment is the fact that I know lots of towns in this State and Wisconsin, not half the size of Peterborough, that are credited with larger populations than that which shows that the American census enumerator understands his business, while it is evident that the Canadian is somewhat deficient in that respect. For example, the city of Superior, Wis., appears to me about the size of Peterborough, but without Peterborough's solidity or beauty, yet Superior has over 25,000 inhabitants on her census returns, Duluth, across the bay, appears very little larger than your town, and not so large as Kingston, yet what do we find? That Duluth has a population of 45,000; yet, and her citizens kicked on that, and what they have done thousands! The whole secret lies in this. Every municipality in the U.S., from New York to New Mexico, strain every nerve to make their population appear as large as possible and they are bound to swell it if they have to count one half of the people twice, while in Canada the reverse is almost the case. No one seems to care particularly whether they are growing or not. Why, in this country last year, as glaring were the census frauds in some cities that strict official records were ordered, with the result that they lost a third of their paper population, to the intense disgust of the citizens. In Canada it is much more likely to be the other way, and knowing such to be the case it is vexing to see the census of this country so far below that of the American papers.

Now, I must say that a little of the same style would not be at all amiss in Canada; at least it would elevate them very much in the esteem of their American cousins and prevent them from pointing to their apparently small increase with their self-complacent "I told you so" remarks that come now in every paper he picks up. They believe that the Canadians are demagogues and a general rule, live principally on a diet of salt fish, work eighteen hours out of the twenty-four and are "ground under the iron heel of monarchy." An American gentleman who was boasting of the way the census was being taken in this country was very much amazed when I told him the Canadians could have "outstepped three times a day," too if they wanted it, and not out of so close to the bone as they say it out in Duluth, either. But when I told him they had better common schools in Canada than here, he simply turned away with a smile of incredulous contempt. Of course, the Globe and other patriotic papers of its stamp are largely to blame for many of the erroneous impressions that are abroad in this country regarding Canada.

As for Canada.

Ladies who are suffering from suppression, bearing-down pains, nervousness, or any form of female weakness, will find Dr. Williams' Pink Pills are an infallible cure. Try them.

No Humbugging.

The price of boots and shoes are coming down, because Kidd the Booter says so. Why, where else in Ontario can you get men's shoes for 50c, a pair, women's for 40c, and children's for 25c, a pair or women's slippers at 20c, a pair.

Men who feel "run down" and "out of sorts," whether from mental worry, overwork, excesses or indiscretions, will find a speedy cure in Dr. Williams' Pink Pills. All dealers.

It is a mistake to suppose that a remedy for constipation, stomach and liver troubles, should be harsh or purgative, as the great success of Dr. Williams' Pink Pills fully prove. They are mild and natural in their action, prompt and effective in results, and are especially adapted to ladies, children, and persons of weak constitution.

STARTLING FACTS

Home of Sorrow and Suffering—Many Trife With the Cause—A Malady that often leads to the Tomb—Anemia!

Matthew Henry says: "Sleep gives some intermission to the cares and pains and griefs that afflict us; it is the parenthesis of our sorrows." Sweet, balmy sleep is that blessed agent which refreshes and strengthens the peasant as well as the prince. Sleep dispenses her bounties to the poor as well as the rich, provided nature's laws are observed.

But alas! from hundreds and thousands of our Canadian homes we hear wails of sorrow, from sufferers who cannot enjoy the blessings of sleep. Nature's laws have been transgressed, and she is very exacting, and in these cases is demanding her severest penalty—insomnia or sleeplessness.

The causes of sleeplessness are many and varied. Continual headaches, irritated and worn nerves, feelings of exhaustion, overwork of brain or body, dissipation and irregular hours; all these contribute to that dreadful malady insomnia.

You cannot afford to trifle with sleeplessness. Are you aware of the consequences? Do you know where it will lead you? If not, let me say to you that there is a great possibility of your becoming an inmate of one of our insane asylums, or it may lead you to a suicide's grave.

Think not of powerful opiates such as opium, chloral or bromides; these will only clog and deaden the brain, and weaken both mind and body. Physicians have, at last, after many severe tests and trials, become convinced that the only remedy now in use is of Faine's Ointment Compound. It is the acknowledged remedy for building up the body, strengthening the nerves, and giving sound, natural sleep. In this dreadful form of disease—insomnia, Faine's Ointment Compound has a record of complete and astonishing successes.

Reader, if you are suffering from any of the symptoms which lead to this terrible disease, go at once and take hold of that life preserver held out to you in the form of Faine's Ointment Compound; it has brought to the shores of peace, joy and pleasure, thousands in the past, and now will do the same good work for you. It is all-sufficient and powerful in every case of difficulty and danger, and holds out to you a guarantee of new life.

The Blind Pianist. Blind Boone, the famous pianist, will play in the Opera House, Peterborough, Thursday, Oct. 22nd. Of him and his marvelous playing the St. Paul Daily Globe says:—"Blind Boone, who has come to be regarded as one of the greatest phenomena of the musical world, entertained a good audience at the Opera House last night, with his marvellous genius. There seemed absolutely no limit to his memory, while his technique was perfection itself. Beneath his manipulation the piano seemed alive, and one moment thrilled his auditors with an exquisite strain of delicious melody and the next shrieked and groined with terror. The great feature was the execution of a composition depicting the tornado of March 1st, which was grandly and terribly realistic. Blind Boone will appear in another concert to-night. During the day he gave interesting exhibitions at Dyer's Music Hall and the High School." Plan of house at Greatrex's drug store. Prices, 50c and 25c. 479

Of him and his marvelous playing the St. Paul Daily Globe says:—"Blind Boone, who has come to be regarded as one of the greatest phenomena of the musical world, entertained a good audience at the Opera House last night, with his marvellous genius. There seemed absolutely no limit to his memory, while his technique was perfection itself. Beneath his manipulation the piano seemed alive, and one moment thrilled his auditors with an exquisite strain of delicious melody and the next shrieked and groined with terror. The great feature was the execution of a composition depicting the tornado of March 1st, which was grandly and terribly realistic. Blind Boone will appear in another concert to-night. During the day he gave interesting exhibitions at Dyer's Music Hall and the High School." Plan of house at Greatrex's drug store. Prices, 50c and 25c. 479

BUY NOW IF AT ALL.
EVERY day makes more apparent the fact that the town is going ahead rapidly. Numerous changes have taken place in the ownership of property. Many workmen are buying houses and lots on which to build. One of the most suitable locations in that known as the 22nd property, at the west end, owned largely by Mr. Wm. Fitzgerald. This work has been done, the sale of a very desirable house and lot, and has several eligible lots on this property to dispose of. The terms are very favorable and especially low for cash, though payment on time may be arranged.

Coughing

18 Years' effort to expel foreign substances from the bronchial passages. Frequently, this causes inflammation and the need of an anodyne. No other expectorant or anodyne is equal to Ayer's Cherry Pectoral. It soothes the inflamed membrane, allays irritation, induces repose, and is the most popular of all cough cures.

"Of the many preparations before the public for the cure of colds, coughs, croup, and kindred diseases, there is none, within the range of my experience, so reliable as Ayer's Cherry Pectoral. We have tried many others, and followed by terrible results. About four years ago, when so afflicted, I was advised to try Ayer's Cherry Pectoral, and to lay all other remedies aside. I did so, and within a week was well of my cold and cough. Since then I have always kept this preparation in the house, and feel comparatively secure."

Mrs. L. E. Brown, Dunsmuir, Miss.

"A few years ago I took a severe cold which affected my lungs. I had a terrible cough, and could not sleep at night without sleep. The doctors gave me up. I tried Ayer's Cherry Pectoral, which relieved my lungs, induced sleep, and afforded the rest necessary for the recovery of my strength. By the continual use of the Pectoral, my cough was cured. It was effected."—J. J. O'Connell, Rockingham, Vt.

THE SPLIT PERMANENT.

G. W. Smealley's Review of the Irish Situation. No Prospect of Union.

New York, Oct. 18.—G. W. Smealley, editor of the "Tribune," has published an article on the Irish situation, in which he expresses his opinion that the prospects of a permanent union between the two countries are not bright. He points out the many difficulties that stand in the way of a successful union, and concludes that the Irish people are not yet ready to accept of English rule. He also points out the many difficulties that stand in the way of a successful union, and concludes that the Irish people are not yet ready to accept of English rule.

Settled on the Quiet.

LONDON, Oct. 19.—The action for breach of contract, recently brought by the Countess of Warwick (formerly the Countess of Warwick) against the late Duke of Warwick, has been settled on the quiet.

supplying to the revolution of Mr. O'Brien, said that the followers of Parnell never made the assertion that O'Brien was not sincere in his desire to secure a settlement at the Boulogne conference. He denied that the negotiations were based on the absolute retirement of Parnell, and added that the sooner O'Brien published the text of the negotiations the more delighted the followers of Parnell would be. No better testimony could be offered to the marvellous skill and statesmanship of the dead leader and the party insignificance of the party which rejected his leadership.

Dublin, Oct. 17.—Delegates Zimanski arrived here to-day from Warsaw, bringing with him a handsome wreath to be placed upon the grave of Parnell. Zimanski says it was intended that he should be present at the funeral of the Irish leader, but the Russian Government did not allow the date of the funeral to be published in the Polish newspapers. The wreath is composed of laurel leaves, entwined with the Polish colors and with broad silk bands bearing inscriptions expressing sympathy with the deceased's friends and the cause for which he fought. The Poles who sent this testimonial of their regard and appreciation of the work of Parnell were obliged to smuggle it across the frontier.

Threats of violence having been made by certain families against Timothy Healy, the police have furnished that gentleman with an escort of three officers in plain clothing, who accompany him wherever he goes.

Several eminent French lawyers have been consulted upon the matter of the release of the fund of the Irish Parliamentary party. They believe that the first step must be an application to the Court of Chancery by the heirs of Mr. Parnell. The French judges will not act, probably, contrary to the decision of the English Court unless in declaring themselves incompetent to adopt it.

This would cause prolonged trouble. If the money goes into the Cause des Condamnations, it is lost to all but the French treasury. Legal proceedings will serve to keep it from everybody for many years and then it will fall to the state. Meanwhile Messrs. Munro & Co. the Paris bankers, have secured the whole insurance, bearing 3 1/2 per cent interest, realizing £2500 annually. This amount added to the fund will reach a large total before the vexatious legal question can be settled.

Stage Robbers Captured.

LENNVILLE, Oregon, Oct. 19.—At Lakeview, Oregon, 13 men have been arrested, suspected of participating in the late robbery of the stage running between Lakeview and Leno. Among those arrested are the Howard brothers. The officers found in the possession of the men arrested several personal notes and money orders.

Jewish Persecutions.

LONDON, Oct. 19.—A despatch to The Standard from Odessa says: "Orders have been received here for the suspension of the operation of the anti-Jewish laws issued by the Imperial Government in 1882."

BUY NOW IF AT ALL.

EVERY day makes more apparent the fact that the time is going almost rapidly. Numerous changes have taken place in the way of ownership of property. Many work-places are being bought and sold or sold on lease to build. One of the most suitable places in this neighborhood is rapidly being built up, and it will be well to have a look at the same if one is at all disposed to buy. This work has been done the sale of a very desirable house and lot, and has several eligible lots on this property to dispose of. Property in this neighborhood is rapidly being built up, and it will be well to have a look at the same if one is at all disposed to buy. The terms are very favorable and especially low for cash, though payment on time may be arranged.

MANTLES
—AT—
TURNBULL'S.**

We have to offer this week a large quantity of Children's Mantles, the choice of the lot for \$3.00. They are all sizes and a bargain that will be appreciated by those who need them. We have also a large lot of Ladies' Long Coats and Ulsters at from \$5.00 to \$7.00 in Black and Colored Beavers and Fancy Cloths, many of them the cloth could not be bought for the price we are offering them. In three quarter lengths Plain and Fancy Mantles we have a fine assortment from \$5.00 to \$15.00 each. We have left between two and three dozen of those short Mantles at \$2.00 and \$3.00 each; when they are cleared out we do not expect to have any more to offer at the same price.

We want to say a word about our Sealettes. We keep Leister's, therefore we know the value is right and the right make as Leister's Sealettes and Plushes are known the world over as being the best. We guarantee to turn out a Mantle that will be perfect in fit and style to all who entrust us with their orders. Millinery arriving daily. Everything new and neat to be found with us.

A big lot of Boys' and Youths' Clothing and Overcoats arrived this week. See the Gentlemen's Overcoats we make to order at \$14.00.

DECEMBER IS THE DATE.

FOR TESTING THE CANADA PACIFIC RAILWAY.

As a basis for the transportation of Imperial Troops—Arrangements completed between the Railway Authorities and the British Government.

LONDON, Oct. 20.—Arrangements have just been completed between the C. P. R. Company and the British director of transport for the trial of the Canadian Pacific as a route for the carriage of Imperial troops. The trial takes place in December, when detachments of about 700 marines and sailors, each with officers, will be exchanged between Halifax and Vancouver and vice versa. The Imperial authorities accepted the company's terms to-day. The necessary preparations will be made forthwith. This is the first full formal recognition of the Canadian Pacific for Imperial military purposes and is a sure sign of the world-wide attention to the route as a British highway to the east and a rival to the Great Eastern. The force to be transported through Canada will comprise the usual units for the fleet on the Pacific and China stations, and that coming eastward will comprise men whose terms of duty on foreign stations have been completed.

ONLY BY AN INSTANT.

Unique Service Involved in a Johnstown Flood.

JOHNSTOWN, Pa., Oct. 20.—A \$300,000 estate will be Mrs. Geo. Hoffman by her husband, who died just before the famous flood, is tied up in an unprecedented tangle of litigation. Mrs. Hoffman and her seven children were drowned in the flood. If it shall be found that any of her children survived her, by even so much as a moment, then Mrs. Hoffman's estate may get the estate, which they claim. If the mother survived all her children, though only by an instant, then her estate will inherit. They also claim the estate.

A Lover's Murders Deed.

McGOWAN, Pa., Oct. 20.—Henry Hahn, who has been paying attention to Mary Otto, a beautiful young girl living near here, asked her to become his wife. She refused. He went crazy, and procuring a revolver went to her home and called for her. Hahn, who had overpowered her, then made an ineffectual attempt to kill himself and then fled to the woods. The city marshal summoned a posse and started after the murderer. Mrs. Otto, who is a widow, is in a state of great distress, and it is feared she may lose her reason.

"The Rev." Sam Small Arrested.

BOSTON, Oct. 20.—The Rev. Sam Small is in trouble, and so is the auditory State Committee. Small was imported to speak for the Prohibitionists. But he has been arrested on a civil writ brought by the Rev. Mr. Moore of Newton. Mr. Small was sent \$1000 to Small's year ago to invest in Ogden, Utah. He is not satisfied with Small's report of his stewardship, and hence the charge of swindling.

Mr. Mulock Will Keep His Seat.

ALBANY, Oct. 20.—The trial of the alleged plot against the return of William Mulock, Q.C., M.P. for North York, was opened Saturday before Justices Ferguson and Robertson here. Counsel on behalf of the prisoner against Mr. Mulock stated that he had no evidence to offer in support of the position. The judge, therefore, dismissed the protest and awarded Mr. Mulock the seat.

A Severity of Threshers.

WINNIPEG, Oct. 20.—It is evident that although scores of new threshers have been brought into the province this autumn there will not be enough threshing outfits to thresh the grain out in reasonable time. A Morden paper says that 500 additional threshing outfits could find profitable employment for the whole winter and urges the C.P.R. to give special rates to induce Ontario men to bring threshers in here for the season.

Forty-two Feet From a Tree.

HAMILTON, Oct. 20.—John Tutty, who resides at No. 81 Gore-street and is one of the fast riders of the Hamilton Bicycle Club, climbed a tree near the sulphur springs to gather chestnuts. When at the height of 42 feet from the ground he lost his hold and fell. He was not hurt, but he was heavily bruised on his left side and shoulder. He was seriously hurt.

Mistake Made for Whiskey.

CANTON, Que., Oct. 20.—S. Lemoine, a bluff, white-faceted fellow in which a death from diphtheria had taken place, took a swallow of carbolio acid in mistake for whiskey, and though assistance was promptly obtained he died in about an hour.

INTERESTING ITEMS BY WIRE.

By the explosion of a locomotive boiler at St. Clair, Pa., yesterday, three men were killed and one fatally injured.

The pigsticker has resulted in the adoption of the few tariff in Switzerland and the State bank note monopoly.

The Pope is preparing a statement concerning the recent French pilgrim disorders at the Pantheon.

A French ship of war was wrecked yesterday off St. Catharines Point. Five men of the crew were drowned.

Sir Morell Mackenzie has written a letter in which he says he has no objections to preachers smoking, but he thinks they should use good tobacco.

An express train came into collision at Kohlfeld, Silesia, with a steaming engine. The express train was derailed and five persons were killed and many injured.

Burglars entered Talmage's Tabernacle in New York, wrapped up the silverware for removal and were about to decamp with it when they were frightened off.

At the Ecumenical Council at Washington, a resolution was passed recommending that the week beginning November 15 be set aside as a week of prayer.

The earthquake shocks at the Island of Puntarenas and its vicinity continue. A volcano has been in the bed of the sea of the Pacific, and the Pacific has been a scene of storms to a great height.

By an explosion of fire damp in a pit at Rye, Bahamas, yesterday, three men were killed outright and 10 others received injuries from which they have since died. Several more were less severely injured.

Lost His Head.

BRANTFORD, Oct. 20.—George Smoak, employed at the Grand Trunk Station, was engaged in coupling some cars which belonged to a down freight when his head was caught and crushed to a jelly. He was immediately taken to the hospital, where it was found necessary to amputate the wounded member.

When you ask for Small's you do not get the Small's you want. Just as good a substitute. It is the only remedy yet discovered that will thoroughly cure eczema. Sold by all druggists.

IRELAND'S REAL ISSUE.

A Liberal Unionist Says It Is Against the Control of Romanism.

LONDON, Oct. 20.—Parnell Mahony, the successor of Parnell in command of the Parcellite party, is said to have spoken yesterday of his opposition to the Clerical party, a well-known Liberal Unionist, speaking of the Irish situation to-day, said:

"Ireland is simply undergoing the experience of all countries where the majority of the people are Roman Catholics. The Roman Church makes an effort to control the situation and a party is formed for and against such control. That is the real issue to-day in Ireland, just as it has been in France, in Mexico and in all such countries where the people are at liberty to form parties. In Ireland the Roman Church is rather sooner than it might have on account of Parnell's personal difficulties, but it is bound to come."

The British Gale.

LONDON, Oct. 20.—The gale has been raging with unusual ferocity about Queenstown and vicinity. About 30 crafts, mostly fishing smacks and small coasters, have been driven ashore in that vicinity. In addition considerable damage has been done to crops, trees and other property ashore. At Youghal the sea has been so heavy that many parts of the town are flooded. The Black Water River has overflowed its banks and much damage has been done. Many sheep and cattle have been drowned.

Despatches from Holyhead state 200 vessels, many of them much damaged, have sought refuge at that port from the storm. The gravest apprehensions are felt by the inhabitants of Sand Dale, a small town on the English Channel two miles from Folkestone. Storms have caused a most abnormal tide and this, combined with the hurricane which is blowing, is destroying the sea wall. Many houses situated near the shore have already been washed over by the angry waves, and the highest landing to Hythe and Folkestone is submerged and destroyed in many places.

The River Thames at Windsor, Eton and other places is overflowing its banks and inundating the lower parts of many houses.

The severe stormy weather which has prevailed in England for a week past still continues. The Irish Sea has been principally the sufferer.

The River Shannon has burst its banks in County Limerick, inundating large tracts of land. The reclamation works near Ennis in County Clare, which recently cost the Government £120,000, have been nearly ruined. Many villages in the Trent Valley are submerged. The Rivers Ock, Elbow, Runney and Otway have overflowed their banks. Many thousands of acres of land are covered with water and the roads are impassable. The loss of live stock is very great.

Killed Her Children and Herself.

QUEENSBURY, Oct. 20.—The wife of a potter named Falkmann, at Matzingen, strangled her two children to death yesterday and then hanged herself while suffering with religious mania. The unfortunate woman's mind had been deranged in consequence of the excitement attending a series of revival meetings in which she had taken a great interest.

The City of Rome in Peril.

QUEENSBURY, Oct. 20.—The Anchor Line steamship (City of Rome), the safety of which some apprehension was felt last week, owing to a report that she had been wrecked off the coast of Newfoundland, was sighted off the Irish coast yesterday. She is now safe at her dock in Liverpool.

Sir Henry Parkes Steps Down.

SYDNEY, N.S.W., Oct. 20.—Sir Henry Parkes, Premier of New South Wales, has resigned as a result of the defeat of the government on Thursday last. It is said that owing to his advanced age he will retire permanently to private life.

The leader of the Opposition, Mr. Dibbs, will form a new Cabinet.

POET WHITTIER ILL.

He is Too Sick to See Even His Friends—A Cold on His Lungs.

AMHERST, Mass., Oct. 20.—John Greenleaf Whittier, the famous Quaker poet, is ill that even his close friends were deterred from seeing him to-day, on the order of his physician.

Mr. Whittier had been ill for a long time, but was recovering. On Wednesday he walked out of doors for the first time in many weeks. He caught a severe cold, which has settled on his lungs, and he is again confined to his room.

The Quebec Commission.

QUEBEC, Oct. 20.—The Quebec Commission is greatly pleased at the evidence brought out. It compares the commission with an old piece of evidence loaded to the muzzle, which may burst at any time in every direction, and advises Mr. Casgrain to give his life insurance. This is the opinion of the Liberals expressed for the benefit of the public, but it slightly differs from their real private opinion. Though allowing as nearly everyone does, that not quite as much has been brought out by the prosecution as was expected, it is admitted by them that already enough has been stated to give the Lieutenant-Governor an excuse to show Mr. Mercier the door. "General elections will be the result," said a close follower of Mr. Mercier. "There is no doubt we will sweep the country, but we fear that even in that case, acting on a precedent established in New South Wales, the Lieutenant-Governor will dismiss Mr. Mercier before he is allowed to resign. Purify Your Blood

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, with rheum, or other blood impurities, is transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from breathing, eating, or drinking. There is more contamination than the food we eat, or the water we drink. Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly used, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrhs, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to its superiority as a blood purifier. Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

KING WINTER IS COMING

AND THE CURLEERS ARE SCENTING THE BATTLE AFAR.

The Annual Meeting of the Skating and Curling Club Company was held last night at the Curling Club. The Curling Club Company and the Skating Club both held their annual meetings last night.

The company's meeting.

The annual meeting of the Skating and Curling Club Company was held last night at the Curling Club. The Curling Club Company and the Skating Club both held their annual meetings last night.

The election of officers resulted as follows:

DIRECTORS.—Dr. Boucher, Messrs. W. G. Ferguson, Adam Hall, G. McGill and R. B. Davidson.

PRESIDENT.—W. G. Ferguson.

SECRETARY.—F. J. McGill.

The Curling Club's Conference.

Immediately following the meeting of the company the annual meeting of the Curling Club was held. There was a fair attendance of the ardent supporters of the game. Mr. R. B. Davidson, President, presided.

THE OFFICERS AND SKIPS.

The first business was the reading of the minutes and reports. These were adopted, the latter being of a very satisfactory character. Then the election of officers was proceeded with with the following result:

SKIPS.—Judge Weller.

SKIPS.—Mrs. Weller.

PRESIDENT.—R. M. Dennison.

VICE-PRESIDENT.—D. W. Dumble.

RECORDING SECRETARY.—G. McGill.

COMMITTEES.—W. G. Ferguson, T. R. Bradburn and W. H. Biddle.

CHAIRMAN.—Rev. A. MacWilliams.

REPRESENTATIVES.—Dr. Boucher and T. R. Bradburn.

SKIPS.—T. R. Bradburn, Sam Ray, W. G. Ferguson, T. R. Bradburn, Judge Weller, Dr. Boucher, W. H. Biddle, T. P. Atchiff, J. B. Penland, R. M. Dennison, G. McGill and J. Connal.

AS TO MEMBERSHIP.

In past years the club has labored under a disadvantage in regard to membership. A great many gentlemen have participated in the play, have gone onto the ice, and enjoyed the privileges of the club and never paid one cent towards expenses. This is going to be stopped.

Mr. Dumble introduced the question and said he found that they only had thirty-five paying members on the books last year when they should have at least eighty. He moved that some person be appointed to solicit members for the club and that no person be permitted to engage in the game who has not paid for a member's ticket.

This resolution was carried and will be rigidly adhered to.

THE CLUB MATCHES.

Mr. Dumble brought up the question of club matches. He said last year's experience in their matches did not want to

be repeated, and to prevent this he proposed a new system, which would shorten the contest. He moved, that the club matches be contested on the system of six, that the skip draw in pairs and six sinks play against each other. The losers then drop out and the winners play the final.

Mr. Dumble proposed another scheme which would be shorter than last year and yet require more time to finish than Mr. Dennison's. He moved in amendment that two groups be formed, six sinks playing against six, the winners then play against each other, and the winners in this play for the final.

The question was discussed a little and upon a vote Mr. Dennison's scheme was adopted.

THE CLUB TROPHIES.

The President and Vice-President will each give a medal for competition by the club this year.

On motion it was directed that the President's medal be presented to the winner of the rink game, and the Vice-President's trophy to the winner of a point game.

This will make two point games the regular one for the club cup and the one for the Vice-President's medal.

It was also decided to close the rink on the 25th of the month.

The arrangement of the tournament was read, but the groups were not given until ratified at the Ontario convention.

The meeting adjourned about ten o'clock.

"Don't Care to Eat."

It is with the greatest confidence that Hood's Sarsaparilla is recommended for loss of appetite, indigestion, headache, and similar troubles. This medicine greatly tones the stomach, aids digestion, and makes one "real hungry." Persons in delicate health, after taking Hood's Sarsaparilla a few days, find themselves longing for food and eating the plainest food with unexpected relish.

Room For a Few More Pupils.

The drawing class at the Mechanics' Institute is to be held once a week, every Wednesday evening from 7.30 to 9.30 o'clock. There is room for a few more pupils. This class will be of great assistance to the apprentices engaged in learning mechanical trades. The subjects taught are machine construction and mechanical drawing, also freehand. For particulars apply to the Librarian at the Institute, Water-st. d198

CHEESE!

Ripe cheese is half digested before being eaten. New cheese is the opposite. We have just received a lot of splendid, ripe, mellow and finely flavored cheese, in both large and small packages. Those who like a good article should try this cheese. The price is a trifle higher than for new cheese, but the flavor and nutriment will make up the difference. Suppose you order a few pounds and try it.

The Daily Review.

TUESDAY, OCTOBER 20, 1891.

THE CITY AND SUBURBS.

Local Talent at Summit.
Rev. Mr. Twiss' congregation of the Trinity, Marian Church at Summit, held special harvest home services on Sunday and last night. Miss Sophie Cameron rendered two solos, delighting her audience, and Mr. R. R. Hall gave a happy address.

The peculiar operating effect of summer weather is driven off by Hood's Sarsaparilla, which "makes the weak strong."

Unstable Adams' Mother Dead.
Constantine Adams is off duty on a sad mission. On Saturday night he received word of the illness of his mother and left for the township of Belmont where his father resided. This morning the sad news was received here that the lady had died. The deceased lady had been ill for some time.

Burned With Molten Metal.
Two moulders at the Lock works were painfully injured yesterday. A ladie of red hot iron upset and the boiling contents fell upon the foot of Mr. J. Callahan, a moulder, inflicting a severe and painful burn. Mr. F. Logan, another employee, also had his foot burned by the molten metal.

A person is permanently blind when baldness occurs before the forty-fifth year. Use Hall's Hair Renewer to keep the scalp healthy and prevent baldness.

The Late James Noble.
An old citizen passed away this morning. Mr. James Noble, at the age of 63 years. Deceased was a well known citizen and for many years was engaged in book keeping for different firms in town. He was a prominent member of the Orange order and as the time of his death Secretary of L.O.L. No. 42. The funeral will be conducted under the auspices of the Order and local lodges of "Fraternal Boys and True Blues" on Wednesday, 21st inst.

The Anniversary Entertainment.
The entertainment held last evening in connection with the anniversary commemoration of St. Luke's church, Ashburnham, was a very enjoyable and successful event. There was a large attendance. Rev. J. W. McCleary presiding. A programme of a decidedly talented and highly entertaining character was rendered. Mr. and Mrs. Wilson gave an instrumental duet, Miss Lillian Jackson a vocal solo, Miss Tivy and Mr. Clark a vocal duet, Mrs. Staphelen's songs, Mr. F. C. Loun's vocal solo, Miss F. Staphelen a vocal duet, Mr. J. J. Turner, Jr., a similar rendition. The whole commenced with the "Lullaby of the Waters." It was a good programme well rendered.

Police Court Forenoon.
At the Police Court this morning Mr. Thos. Bradburn charged Mr. Matthew Carten with having assaulted and used abusive language towards him on George-st. yesterday. The trouble arose out of the Bradburn-Carten case of this spring. Mr. E. W. Wood appeared for Mr. Bradburn. The evidence for the prosecution was fully contradicted by the defence. Mr. Bradburn and Mr. Carten had the words that led to the laying of the charge about noon yesterday. The Magistrate said there was no evidence that would lead to a conviction and dismissed the charge.

Matthew Wren, Walter Kerr's assistant, came down from jail this morning and was again remanded back until Friday. Wm. Neil, a drunk, was allowed to go free of charge.

Mrs. Margaret McNeil was in the prisoners' box, having been arrested on a charge of larceny. The woman has been in court before for drunkenness. She has been working lately at Mr. Wm. J. Scollie's and it is alleged that she stole \$22 on the 18th inst. She pleaded not guilty and was remanded until Friday. Mr. E. B. Stone will defend her.

THE LATE JOHN WALTON.

A Pioneer and Former Warden of the County has Passed Away.

At seven o'clock this morning Mr. John Walton, one of the pioneers of this county, passed away at his residence on Hunter-st. Mr. Walton had been feeble for some time with the weight of years. He was not afflicted with disease, but the wheels of life had run their course, and his spirit passed peacefully and quietly away.

Mr. Walton was born in Cumberland, England, on May 6th, 1827, and was 64 years of age. His father, Joseph Walton, came to this country in 1818 with his family. They went to Little York, now Toronto, and from there to Whitby, and two years later to Cayuga, where they resided a year and a half. In 1821 the family settled in Smith township with which they have ever since been connected. They were there among the very early pioneers of the county, only a few families having settled in Smith previous to that time, and endured all the hardships of that period when wild berries were gathered on the ground where the main street of the town now stands. Mr. John Walton, upon the death of the father in 1826, became the head of the family and resided on the homestead.

The deceased gentleman was an enterprising farmer and prominent in public affairs. In 1854 he was elected Reeve of Smith, a position he held for four years, and in 1856 he was again elected and retained the position for three years. After a brief interregnum of one year he was again called upon by the electors to serve in the Township and County Council and did so from 1857 until the end of 1873, and in 1875 he held the highest municipal position in the county, that of Warden. In 1887 he was an unsuccessful candidate for a seat in the Legislature as the Reform candidate, being defeated by Mr. John Carnegie.

While Mr. Walton did good service in the municipal offices he held, he also did much to advance the interests of the county in other ways. He was the first to introduce thoroughbred stock into the county, and in 1868 he and his sons established a cheese factory in the township. In the first season making 1,000 pounds of excellent cheese, chiefly from their own cows, and to them is due the credit for being the first to introduce the manufacturing of cheese on so extensive a scale into this county. Mr. Walton's enterprise and success as a farmer was recognized by the district in his being elected to represent the district on the board of the Provincial Agricultural and Arts Association. He was also a Justice of the Peace and an advocate of marriage licenses. In 1877 he retired from his profession as a farmer and had since resided in Peterborough.

Mr. Walton was married in the year 1851 to Miss Jane Hall, a daughter of the late Wm. Hall, of Smith, and sister of the late Wm. Hall, of Nicholas & Hall, who survives him. He also leaves two sons, Mr. Joseph Walton, Jr., of Smith, and Mr. Wm. Walton, of Regina, Manitoba, and one daughter, Miss Walton, who resides at home and has been a most affectionate and faithful daughter to her aged parents.

The great Dr. Boon have laid three directions for preserving the health—keep the feet warm, the head cool, and the bowels open. Had he practiced in our day, he might have added; and purify the blood with Ayer's Sarsaparilla; for he certainly would consider it the best.

After a Traveller's Samples.
Mr. Brandt, station agent of the G.T.R., made a lucky discovery about twelve o'clock last night. He saw a man at work cutting up a commercial traveller's suitcase, which had been left out on the platform. Mr. Brandt frightened the thief away before he had succeeded in cutting through the basket.

A Grand Wind Up.
The Harvest Home Festival of the Salvation Army closed last night with a great jubilee. An unlimited street parade was held at 7:30 o'clock, the novel feature of which was the presence of two columns in organized formation. The parade was an attractive one. At the barracks a blood and fire time was enjoyed, enthusiasm and salvation vigor characterizing the meeting.

Ask Your Friends About It.
Your distressing cough can be cured. We know it because Kemp's Balsam, within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been entirely due to the fact that it is what Kemp's Balsam. There is no medicine so positive to relieve Large bottles 50c, and 60c at all druggists.

A Remarkable Good-fellows Assembly.
There was a good-fellows assembly of the two local lodges and visiting brethren at (Ontario) Lodge rooms last evening to meet and extend a fraternal greeting to Rev. Bro. Kines, Past Grand Master of the Order in the Province of Quebec. The distinguished divine and brother arrived on the 9 o'clock train on the G.T.R., and was driven to the lodge rooms. The Rev. brother gave a very happy address. He is a smooth speaker, possessing eloquence and an easy flow of good language, and was listened to with much interest by the brethren. He dealt with the benefits attached to Odd-fellowship and on the good work the Order was doing. A vote of thanks was moved by Bro. D. Bell, of Ontario Lodge, seconded by Bro. D. H. Moore, P.G. of Peterborough Lodge, and was enthusiastically tendered the speaker of the evening. Bro. Reid, Past Grand Master of Ontario, also made a few remarks. There was quite an array of distinguished Odd-fellow brethren in the lodge room. Among those present were three Past Grand Masters, Rev. Bro. Kines, Bro. D. Bell and Bro. J. A. Reid, and the Grand Secretary of the Grand Encampment, Bro. D. H. Moore. Rev. Bro. Kines left for home this morning and will return on Thursday for the Brotherhood convention at which he delivers an address on that night.

Butter was well known and appreciated by our grand parents for its medicinal qualities. In fact it is one of the most valuable remedies used for habitual constipation, indigestion and biliousness. The great difficulty was the necessity of preparing from the fresh green nuts which could only be done in a small quantity, the medicinal strength weakened from keeping. Mother's Butterfat Pills are prepared with a concentrated extract made from the Butterfat held in combination with other valuable and purely vegetable ingredients, and the sulfur is retained for any time in any climate. They are the best liver and stomach pills in the world.

THE GREAT CONVENTION.

DELEGATES FROM ALL OVER ONTARIO COMING.

Who They Will Be, Where They Are From and Where They Will Reside While Here—The Town Will Be Flooded With Visitors.
The great convention of the Christian Endeavor Union will open in St. Paul's church to-morrow evening at 7:30 o'clock. The Convention will continue in progress until Friday, when the closing meeting will be held.

This Convention will be an event of great interest throughout the Province and will attract to Peterborough the eyes of all the Christian Endeavor workers, Societies of whom are now to be found in every part of Ontario.

Peterborough will have with her four or five hundred visitors for the next few days. These delegates come, as the subject has just shown, from every portion of the province, and will be welcomed by friends of the local Union, who have kindly opened their doors to admit the strangers to their hospitality. Among these delegates are many eminent divines of different denominations, and the Convention will undoubtedly be marked by some fine deliverances. Every meeting, as the programme already published gave evidence, will be teeming with profit and interest to Endeavor workers and Christian workers generally.

At the opening session to-morrow night the visitors will be welcomed on behalf of the town by Mayor Stevenson, and Rev. E. F. Torrance, of St. Paul's church, will extend the welcome of the local Christian organizations. This meeting will be fraught with much interest. The programme of subsequent meetings will be published daily.

As will be readily believed the officers of the Union and the committees have been doing an immense amount of work in connection with making necessary preparations for the reception of so many visitors. This work is now nearing completion and the prospects point to a smooth and pleasant pathway for the Convention when it begins its session.

There is the suggestion thrown out in last evening's Review which might be emphasized again. With so many visitors in town representing so many different places, it is most important that their impression of Peterborough should be a good one. Nothing will advertise a town better than to have a number of visitors leave the town with golden opinions of the town and its people. Of course they will meet with nothing but courtesy among Peterborough's citizens, but an effort at decoration would be an evidence of enterprise that would not be good for nothing. Let this effort be made by the business men and the Christian Endeavor Convention will not be without its good results to Peterborough.

THE GREAT CONVENTION.

DELEGATES FROM ALL OVER ONTARIO COMING.

Who They Will Be, Where They Are From and Where They Will Reside While Here—The Town Will Be Flooded With Visitors.
The great convention of the Christian Endeavor Union will open in St. Paul's church to-morrow evening at 7:30 o'clock. The Convention will continue in progress until Friday, when the closing meeting will be held.

This Convention will be an event of great interest throughout the Province and will attract to Peterborough the eyes of all the Christian Endeavor workers, Societies of whom are now to be found in every part of Ontario.

Peterborough will have with her four or five hundred visitors for the next few days. These delegates come, as the subject has just shown, from every portion of the province, and will be welcomed by friends of the local Union, who have kindly opened their doors to admit the strangers to their hospitality. Among these delegates are many eminent divines of different denominations, and the Convention will undoubtedly be marked by some fine deliverances. Every meeting, as the programme already published gave evidence, will be teeming with profit and interest to Endeavor workers and Christian workers generally.

At the opening session to-morrow night the visitors will be welcomed on behalf of the town by Mayor Stevenson, and Rev. E. F. Torrance, of St. Paul's church, will extend the welcome of the local Christian organizations. This meeting will be fraught with much interest. The programme of subsequent meetings will be published daily.

As will be readily believed the officers of the Union and the committees have been doing an immense amount of work in connection with making necessary preparations for the reception of so many visitors. This work is now nearing completion and the prospects point to a smooth and pleasant pathway for the Convention when it begins its session.

There is the suggestion thrown out in last evening's Review which might be emphasized again. With so many visitors in town representing so many different places, it is most important that their impression of Peterborough should be a good one. Nothing will advertise a town better than to have a number of visitors leave the town with golden opinions of the town and its people. Of course they will meet with nothing but courtesy among Peterborough's citizens, but an effort at decoration would be an evidence of enterprise that would not be good for nothing. Let this effort be made by the business men and the Christian Endeavor Convention will not be without its good results to Peterborough.

OTTAWA, Oct. 21.—The news of Andre

excitement here last night. Sir John

Thompson had been informed of Senecal's

arrest and he could give no particulars of

the indictment against Senecal. The Gov-

ernment had instructed Mr. Hamilton of

Montreal to effect Mr. Senecal's arrest on

a charge in connection with the case of

THE VITROL FIEND.

Holding a Boy's Head in a Vat of the Ter-

rible Fluid.

THIRYVILLE, Conn., Oct. 21.—A brutal

crime was perpetrated by Engineer James

A. Bradshaw of the Maple Lock Company

late yesterday afternoon. As he was going

through the shop he approached W. A.

Hough, aged 17 years, who was at work

cleaning locks at his bench, and

ordered him to go to another part

of the shop on an errand. Bradshaw

has no authority over the men in the

factory, and the boy, acting on the

advice of the men in the room, refused to

obey. Bradshaw repeated the command,

and on a second refusal, picked the boy

up in his arms, and carrying him to a vat

of vitriol in the room, dipped him in, head

downward, several times before the other

employees of the room, too horrified to

stir at first, could interfere. The boy's

screams were agonizing. His hair was all

burned off, his body was raw, his face and

neck were horribly burned, and both eyes

were burned out. His recovery is doubtful.

Bradshaw returned to the engine room and

was at once discharged. He walked out of

the shop unmolested and disappeared. He

has not yet been arrested. The employees

of the shop among whom Hough was a gen-

King of Medicines

A Cure "Almost Miraculous"

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, sciatica, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven more attacks appeared and broke, causing me great pain and suffering. I feared I never should get well. "Early in 1901 I went to Chicago to visit a sister, but was confined to my bed most of the time. In July I read a book, 'A Day with a Cure', in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the statements of this medicine that I decided to try it. To my great gratification the same soon disappeared, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, having used six bottles. I had become so fully recovered from the disease that I went to work for the Pitt & Walling Mfg. Co., and since then have not lost a single day on account of sickness. I believe the disease is expelled from my system. I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sore formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

Continued from 3rd page.

were animated by the spirit of Christ. The Province owed Peterborough a great debt and they prayed that the reward might be a wonderful inspiration to them in their work and many souls won for the Lord. The report concluded with three suggestions, an increased use of the press, a more extended acquaintance with and use of the Province, and a more thorough organization of every town and county.

The report was received with applause, a standing vote of thanks was tendered the Secretary-Treasurer and the report was referred to the Resolution Committee.

CONVENTION CONTINUED. Reports from Local and County Unions were then received, this part of the session being conducted by Mr. Hardy. Reports were received from Toronto, Hamilton, Guelph, London, Kingston, Peterborough, Mississauga, Niagara Falls, Stratford, Aylmer, Ottawa, Paris, Niagara Falls, Parry Sound, Uxbridge, Port Hope, Perth, Galesburg, Tilbury East, St. Thomas, and the following county unions: Lincoln, North Wellington, Victoria, Perth. The reports were, almost without exception, encouraging.

Catarrh

Is a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla—the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physicians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint and completely restored my health."—Jesse M. Bogg, Holman's Mills, N. O.

"When Ayer's Sarsaparilla was recommended to me for catarrh, I was inclined to doubt its efficacy. Having tried so many remedies, with little benefit, I had no faith that anything would cure me. I became, however, from fear of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and, to my surprise, after taking half a dozen bottles of this medicine, I am convinced that the only sure way of treating this obstinate disease is through the blood."—Charles H. Maloney, 113 River St., Lowell, Mass.

FIRE AT PORT PERRY.

Twenty thousand dollar loss yesterday. Losses and insurance.

PORT PERRY, Ont., Oct. 22.—Yesterday a fire broke out in rear of the premises of Laing & McHerry, and through the efforts of the firemen the flames were confined to this block, although considerable damage was done to the Alison Block adjoining by an explosion of gunpowder. The total loss will reach \$20,000 as follows:

Laing & McHerry, loss on building \$8000, on stock \$10,000, insured for \$20,000 on building and \$5000 on stock; E. J. Muir, Standard printing office, complete wreck, loss about \$2000, insured for \$1500; D. J. Adams, broker, loss about \$1000, fully insured; M. G. Rolson, insurance agent, loss \$200, no insurance; Salvation Army barracks, loss \$100, no insurance; N. F. Patterson, Q. C., damage by removal \$100, fully insured; F. M. Yarnold, solicitor, damage by removal \$100, insured; T. C. Forman & Son, grocers, damage by water and removal \$200, fully insured; Mrs. Allison, damage to buildings \$500, insured; J. A. Murray, dentist, damage by removal \$100, insured; Miss Harrison, dressmaker, damage by removal \$50, no insurance; Rose & Son, damage to building and on stock small.

Mr. Demolin, manager of the Banque du Peuple was examined as to certain transactions in connection with the Baie des Chaleurs Railway question. A check was negotiated by Mr. Villiers in favor of other parties on May 6. Mr. Pacaud drew \$1000, \$5000 and \$2500. Witness could not say what Mr. Pacaud did with the money. Most of witness' evidence has been heard in Ottawa.

Mr. Casgrain made application to have produced Mr. Pacaud's checks given at the Banque du Peuple up to July 11. Witness stated that he would produce the checks provided they refer to the Baie des Chaleurs Railway. Witness to produce the checks and the commissioners will judge whether they are to be laid on the table or not.

Mr. Carrier, M. P. for Caspe, questioned the witness as to a certain note endorsed.

Mr. Lafrenoy, cashier of the Banque Nationale, was next examined. Witness never had any conversation with anyone else but the parties mentioned above.

Mr. Thomas Reagin.

QUEBEC, Oct. 22.—The Hon. T. McGreevy has resigned his seat on the Harbor Commission. There are now four vacancies on the board, the Government having practically only the chairman.

Bowie Knife v. Machete.

SAN ANTONIO, Oct. 22.—A desperate stabbing affair between John T. Moulton, an American, and Leonardo Rodriguez and Antonio Vento, Mexicans, occurred last night at the San Pablo mine near Buena Ventura, State of Coahuila, Mexico. The Mexicans were drunk and attacked Moulton, who is one of the officials of the mining company. They used machetes and the American wielded a Bowie knife. Vento was killed, Rodriguez badly stabbed in four places and Moulton so hacked and slashed that he cannot live.

**A LIFE SENTENCE FOR A MITCHELL
WIFE MURDERER.**

Sensational Suicide at St. John's, N. B.

**A Paris Newspaper Proprietor Taken
to Court for Lunaticism With Suicide
Infant: The Apparatus to St. John's
Tunnel Completed.**

ST. JOHN'S, Oct. 23.—Daniel Whale of Mitchell was yesterday found guilty of man slaughter in causing the death of his wife in August of last year, and sentenced to life imprisonment for life. The court room was every seat occupied with jurymen and inquisitors, and the spectators were numerous.

The prisoner was apparently cool and collected, walking with a firm step to the dock, and with a steady gaze directed at his daughter, Mrs. Neldin, who were in court.

The evidence against the accused was not very strong. Whale did not deny the fact of the death, that it was occasioned by a fall, was contradicted, however, by the medical testimony which went to show that the wound which caused Deceased's death could not have been made by a fall.

calony of neighbors showed that the whale was not a common sight. The Whale gave the alarm; that Whale was not intoxicated and that he had made threats of getting even with some one.

Mr. R. B. Alder had moved to quash the indictment against the Whale on the ground that it was defective.

The prisoner, slightly pale, never affected a muscle when the foreman announced the verdict. He was not a man to be so unreluctant, while he maintained through out the trial, remained with him to the last. Mrs. Seldon, his daughter, lit her lip, looked at the prisoner's lawyer, and her eyes filled with tears.

The prisoner was asked to stand up, and his Lordship in a kindly, sorrowful, yet judicial tone, addressing him, said: "I am glad the charge of murder was not left, as you are innocent of it. But I am sorry that my belief is that you came home that morning inflamed with liquor, in a quarrelsome frame of mind, and struck the blow which caused the fatal result in the wound which caused the death of the poor fellow."

true verdict, given on the evidence the jury had to consider, and I consider it the only verdict possible under the circumstances.

His Lordship then asked the prisoners, "Do you anything to say, Daniel Whale, before the sentence of the court is passed upon you?"

The prisoners, who were leading with both hands on the door of the dock, merely raised his hands, brought them down gently on the door post and said in a clear, but slightly wavering tone: "I have nothing to say, sir."

His Lordship found me guilty and mustered up the sentence.

His Lordship: "The sentence of this court is that you be imprisoned in the penitentiary for the remainder of your natural life."

A DOSE OF LAUDNUM.

A Farts Newspaper Proprietor Who Was Tired of Chronicleing Suitcases

PABIN, Oct. 23—Richard M. Comyn, one of the proprietors of the Pabine Times, has been indicted by the grand jury of trial to put an end to his life in the

American Hotel, Paris. On Tuesday evening he came off the 5.49 train from the west, and instead of going home he put up at the American. Before retiring he asked for some writing material, which was given him. When the porter went up to arouse McComyn he found the door of his bedroom locked. He broke in the door and found McComyn lying on the bed gasping for breath. Dr. McEwan was

promptly called in and he saw at once that the man had taken poison, and proceeded to administer an emetic and to use other remedies to bring him around. His efforts were successful after a two and a half hours' hard and persistent work, and the patient is now on the road to complete recovery. A note was found on the bureau of the bedroom, in McComyn's hand-writing, to the effect, that he was tired of life, and had

his relatives and friends would forgive him for the rash act he was about to commit, and he desired that no inquest be held on his remains." The poison taken was laudanum. Constable Cook placed McCormyn under arrest yesterday, and as soon as he is able to be removed he will be taken before Squire Powell to stand his trial on the charge of attempting to commit suicide.

BLEW OUT HIS BRAINS.
Sensational Suicide by an Ex-U.S. Minister
at N. John, N.B.
ST. JOHN, N.B., Oct. 23.—A sensation
was caused here yesterday by the suicide of
Ex-United States Consul James Murray.
He had been away from home and returned
by the early train this morning and went
to bed. About 11:30 he was found lying on the
floor of his room, with a pool of blood around
his head. He had shot himself in the head with
a revolver. The body was taken to the hospital
and the police are investigating the case.

to best. About 11:30 he rose, and taking a loaded rifle that was in his room he stood before the mirror in his night dress, placed the muzzle of the rifle at the side of his head below the ear and pulled the trigger with his thumb. The ball passed clean through his head and struck the ceiling of the room, causing almost instant death. He leaves a wife and three children. Since being American Consul Mr. Murray was

MONTREAL, Oct. 23.—The Dominion Board of Examiners for the inspection of flour and meal and the fixing of standards held their annual meeting yesterday in the board room. These members of the board were present: Messrs. W. Galbraith, J. N. Peer, W. E. Mack, Toronto; C. B. Smith, Robert Evans,

and R. R. Morgan, Hamilton; W. T. Gartley, J. D. Saunby, C. B. Hunt, London. The members got through with their work and report that the standards are practically the same as last year.

How Mail Clerks Passed at Ottawa.
OTTAWA, Ont., Oct. 23.—John McGillivuddy, an ex-printer in the Government Printing Bureau, was examined by the Civil Service Board of Examiners yesterday in relation to the stealing of certain printed

examination papers from the Reading Bureau. The stolen documents enabled certain railway mail clerks to pass the examination without difficulty. McGillicuddy, who was represented by counsel, absolutely refused to say anything which would incriminate himself. He, however, admitted that he had been offered a bribe by Clerk Armstrong if he would steal the papers. A previous witness recently implicated McGilli-

CHEESE!

Ripe cheese is half digested before being eaten. New cheese is the opposite. We have just received a lot of splendid, ripe, mellow and finely flavored cheese, in both large and small packages. Those who like a good article should try this cheese. The price is a trifle higher than for new cheese, but the flavor and nutriment will make up the difference. Suppose you order a few pounds and try it.

The Daily Review.

FRIDAY OCTOBER 23, 1891.

THE CITY AND SUBURBS.

Ayer's Pills, being convenient, efficacious, and safe, are the best cathartic, whether on land or sea, in city or country. For constipation, sick headache, indigestion, and torpid liver, they never fail. Try a box of them; they are sugar-coated.

They Will Kick to-morrow.
There will be another football game to-morrow if the weather permits. The association team of the Lindsay Collegiate Institute will be here and play the team of the Institute here. It will be a lively struggle. Ball will be kicked at three o'clock. The Business College was to go to Norwood to-day to play the Norwood team.

Personal.
Mr. Robt. Menzies of Lindsay, was in town yesterday on business in connection with the Blind Bazaar performance.
Mr. Chas. W. N. Kennedy, Deputy Registrar, Lands Title District, Winnipeg, son of the late Col. Kennedy, is in town re-visiting, after an absence of seventeen years, the scenes of his childhood. He is on his wedding tour and is bound for Chicago via London.

The friends of Mr. Harry Lewis will be pleased to learn that he has passed the Senior Matriculation into Victoria University. He was privately taught by Mr. Geo. Bean, B. A., B. Sc., of the Business College. The Winnipeg Tribune of the 15th inst. contains a felicitous hymenial on the occasion of the marriage of Mr. Robt. F. Greer, a former resident of the town, to Miss Bebe Dixon. His friends here will extend congratulations to the happy couple.

If the hair has been made to grow a natural color on bald heads, why not grow a case, by using Hair Renewer, why will it not in your case?

The Blind Musicians.
There was a very good attendance at the Opera House last evening for Blind Bazaar, the lightest musical. Mr. Boone is a musical wonder. Although unable to see either the music or the key board he played accurately and with good expression a number of selections, from Swanee River with variations in composition by Liszt and Beethoven. A remarkable test of his ability was made when Mrs. W. J. Morrow, at the request of the management and of the audience, played a favorite selection, a waltz by Chopin, and Blind Boone who had listened intently and applauded the music, at once took the seat at the piano and imitated the music very accurately, at the same time rendering it in good time and with expression. He also gave a very enjoyable. Miss Stella May sang a couple of plantation songs during the evening and was recalled each time.

A Pleasant Herb Balm—Aspirin Medicine.
The drugstore tell us that the people call it jelly for the new cure for constipation and sick-headache discovered by Dr. Elias Lane. It is said to be the best remedy in the far west for those complaints combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells at 50c and 5c a package and is called Lane's Family Medicine.

GREAT GATHERINGS.

The Endeavor Convention Sessions.

ENTHUSIASTIC INTEREST MANIFESTED IN THE DELEGATES' DOINGS.

The Visitors Delighted—The Meetings and Addresses—A Social Reunion—An Evening of the United Society—A Brilliant Address by Rev. Wm. Patterson, of Cook's Church—Convention Chit-Chat.
The Endeavor Convention is being marked by an enthusiastic interest and delightful smoothness. "We are having a grand time," remarks a London delegate to the Review last evening. "The meetings are grand, the arrangements are grand and the Peterborough people are using us grandly." This is undoubtedly the sentiment of the majority of the Endeavorers. The registration delegates last evening totaled about 450, which is a very large advance of expectation. The Convention closes tonight when the meeting is to be held in the George-st. Methodist church.

Thursday Afternoon.
The convention returned at 2 o'clock with an attendance even larger than that at the morning session, the church being well filled. After devotional exercises the Secretary read a telegram from Rev. Jas. Kline, of Kingston, stating that he would be unable to attend the convention tonight, the serious illness of his mother.

Rev. W. F. Wilson, of Toronto, Second Vice-President, was called to the chair.
ASSOCIATE MEMBERS.
Mr. J. L. Allen, of Lindsay, gave an interesting address on "Our Responsibility to our Associate Members." The subject, he said, should arouse their most serious and prayerful consideration, because, while the associate members had not given themselves to Christ, the fact of their uniting with the society showed that they desired to place themselves under good influence. In their attitude towards associate members they should have but one object, namely, to win them for Christ. They should make the associate members feel at home and have the meetings full of interest, each active member should give his influence on the side of right, each associate member should be given something to do, and each one should be prepared to impart instruction and encouragement to associate members who require it. The names should be given by the prayer meeting members and each given to an active member to speak to. He referred to the importance of prayer and of living according to their profession in business and in amusements, and closed by pointing out the great work the 15,000 active members could do by taking as a motto "Our associate members for Christ."

MR. JOHN OCHARD, of Toronto, gave an address on "Our Junior Society." He outlined how the first junior society was formed in Toronto by gathering the little ones into a meeting, and its success, having slightly members now. He thought the children had been neglected. They should be taught to take part in meetings where they were young and there would be fewer silent ones in the prayer meetings of the future, and he dwelt upon the benefit to the church of teaching the children, and gathering them into the church. He urged them to "give the child a chance" and to organize junior societies, and to choose from among the Christianite to take charge of them.

THE EPWORTH LEAGUE.
Rev. Dr. Lyle, Hamilton, presented the report of the special committee appointed to confer with a committee of the Methodist Conference in regard to the affiliation of the Epworth League.
The Epworth League Board had met with an earnest desire for affiliation, and they had adopted as a basis that any society affiliating should adopt the principal features of the Epworth constitution, and the Methodist League constitution did so, and the Methodist societies were asked to adopt the name Epworth League of Christian Endeavor. He made an appeal for Christian unity, and that the union might be consummated in the spirit of love.

Rev. John McKenney moved that the report be received and adopted.
Rev. J. A. DICKSON moved an amendment expressing gratification with the report of the committee's work, adopting the report, and inviting the Epworth League to adopt the name of Christian Endeavor and to unite with this Union.

Mr. McKenney seconded the amendment after some discussion, and it was carried unanimously, after which the doxology was sung.

THE PASTORS' HOUR.
The pastors' conference was then taken up, with Rev. W. G. Hanna, B. A., of Uxbridge in the chair. He represented the Presbyterian pastors and said that he found the Christian Endeavor was an aid to him in his work and imparted a warmth to all lines of work in the church. It gave an impulse to the study of the Bible, and to missionary work, and their idea was Canada evangelized.

Rev. R. G. BOWLING, of Hamilton, spoke for the Baptists. He was pleased to be present in this beautiful town and beautiful church, with his fellow Endeavorers. His young people's society was doing a grand work and since last year had united with the Endeavor Society, for while principle should not be sacrificed to prejudice, he said his society influenced the pulpit by supplying flowers, and the pew by resting seats and going on Saturday nights to the hotels and inviting strangers to attend the church and occupy their pews. The Endeavor Society was an excellent training school for young people. Rev. W. N. COWLEY, of Eddystone, represented the Christians. The Endeavor Society, he said, had as its central feature co-operation to Christ and he would go away with an inspiration to form at least a society and with an inspiration in his work. He was glad that there was an inter-denominational spirit in this work. They were getting closer together and were one in Christ Jesus.

Rev. G. ROBERTSON, B. A., Toronto, a Congregationalist, was then called on. He said the society aided them to use the individual for the benefit of all, brought the young people and the pulpit into sympathy with each other and made the young people helpful. He gave an illustration of the spiritual results following the work of the flower mission and said it was a fallacy to suppose that the young people's meetings would ignore the regular prayer meeting.

MR. E. F. CLARKE, D. D., President and Founder of the United Society.

side the church—it was the church on fire calling on all to come in.
Rev. G. B. SAGE, B. A., of London, represented the Episcopalians. He said something of this kind had been a want in the Church of England and it would have more members in that church if it were better known. That church had a young men's society, which did good work, and that partly accounted for the fact that there were not more Endeavor societies in connection with the Church of England. When he saw the motto of this Society, "For Christ and the Church," he said that was his religion and felt that that was a society they needed, and one was established in connection with his church. The Society had been of benefit in his church and the members were among those who loved the church best. The Society was purely inter-denominational. Much had been said of Christian union and he believed that the time would come when, in some way, the churches would be united.

Rev. J. VAN WORM, of Hamilton, represented the Methodists. He said his present church was the first of which he had been pastor that had an Endeavor Society, and he had not been in a church where the young people were so active in good work. He found young people reading and praying with the sick, looking after a junior society, and studying the Bible. There was a grand field for labor in the junior work. He was glad to see the spirit of catholicity exhibited. The time was past for the denominations to make faces at each other and he looked forward to closer union.

THE SOCIAL RE-UNION.
The convention adjourned to the George Street Methodist church, where the social union was tendered the delegates by the local union. The tea was served in the basement of the church, and the arrangements were of the most complete character. Miss Mann, convener of the social committee, had the arrangements in charge and well indeed did they perform their part. Five long tables stretched the length of the Sunday School room, and these tables were laid with an abundance, which would make a man wonder where all the good things came from. The citizens had made a noble response and there was enough and to spare. It was an enjoyable social time that was spent by the hundreds of delegates. They partook of the refreshments, discussed the topics or mingled in fraternal intercourse. The visitors from all parts meeting as Endeavorers on common ground as Christians. The visitors were delighted with their entertainment and the local Endeavorers were jubilant, of course, at the realization that their visitors were pleased.

WEDNESDAY EVENING SESSION.
At 7.30 when the evening session was to open St. Paul's Church had not a vacant seat. It was, if possible, a larger audience than at the opening and taxed to its fullest the accommodation of the sacred edifice, chairs being used in all the aisles. A sermon of praise was the opening feature of the session. Several hymns were sung, the Union choir leading. The singing was an improvement on the first night, there being more volume and confidence. A hymn sung by the choir was "God's Word is the seed of life." Mr. John Miller held the baton as conductor. Sharp at 8 o'clock the song service ended and Mr. Colville, President, as chairman called upon Rev. Dr. Lyle, of his present church, of St. Paul's, Toronto, who offered an earnest prayer, and the commencement hymn, "Faith is the Victory," was heartily rendered by the vast audience, led by the choir.

GOD'S WORD IN THE WORK.
Rev. JOHN WOOD, who stepped into the breach caused by the unavoidable absence of Rev. Jas. Kline, of Kingston, then gave an address, his subject being "God's Word in Christian Endeavor Work." The Rev. gentleman is pastor of the Congregational Church at Ottawa. He was received with applause. He said he came hoping to see a grand gathering and enthusiasm in the work in which they were engaged and he had not been disappointed. He rejoiced in the grand decorations, rejoiced in the complete arrangements and thought this town, or city as it should be, should feel proud in the grand success that had characterized the convention. Coming to his subject, "God's Word in Christian Endeavor Work," he said it was one of great importance to the work of Christian Endeavor. There were two things about the title he liked. He liked the term "God's Word" better than the term "Bible" because it was the good Anglo-Saxon term and suggested that it was "God's Word." Then he liked the term "in connection with Christian Endeavor Work." He spoke of the necessity of being up and doing, and he said that the word business was much abused and made synonymous with enterprise and push, but the business of this life was what God would have them do, the Lord's work. The Lord wanted them to give themselves and their energies to his work, and did not want them to be idle. What was the relation of God to Christian Endeavor Work? He answered that by another question, what place does the Lord give to the Christian work by proxy? They read of it as "a sword," "a lamp unto their feet," "a light," and the Saviour Himself when found

in the future and the Word of God was the only book that would tell them of the future, and it was in this way, and only in this way, that they could reach men. The early church and the Christian Endeavor had reached the hearts of men in this way. The Christian Endeavor Society was composed of young men and young women, and he believed the organization had been raised up to do a great work for God. Many of the educated men of the colleges were splitting hairs with the razors of criticism while the world was starving for the Gospel. It was the rank and file of the young people who would take the Word and give men what they wanted. They wanted to feed upon the Word of God and give it in its simplicity. Another distinctive feature was that the members had given themselves to God, and said "Here God is, send me, send me." If they were willing to decrease as God increased then would they become a success. But they were so selfish. It was this selfishness, this vanity that held them down. Just when they were willing to be made fools for God, when they were willing to have men laugh at them, then would they be ready to do God's work. Let them, he said, go forward willing to be true to the Word of God. If ever they ceased to be distinctly religious then would their success cease, but so long as they were faithful they might as well try to stop the relentless tide as to stay this Christian Endeavor work which was going on until they crowned "Him Lord of All."

Miss Vair then rendered a charming solo "Come Into Me," and after the announcements had been made and a hymn sung, the session closed with the benediction by Rev. E. F. Torrance.

The complete report of to-day's meetings will appear to-morrow with the grand closing address. Delegates wishing to have Review either daily or weekly, sent to their homes will have it attended to by leaving instructions at the Review office, George-st.

CONVENTION CHIT-CHAT.
It is expected that to-night's will be a grand meeting and that the audience will overflow the George-st. church. There will be a service of song, resolutions adopted, an address by Rev. Dr. Wells, of Montreal, one of the ablest and most eloquent divines of the day, and an address by Rev. Prof. Du Vernet, of Wycliffe College, General Secretary Bar, who arrived this morning, will also be present. This is sure to be a magnificent closing.

When the announcement was made to the great audience last night that Rev. Dr. Wells was in town and would speak to-night there was a great burst of applause, manifesting a keen appreciation of an anticipated treat.

The Endeavor Herald has a table in the hall for the sale of Society literature. The newspaper reports are evidently appreciated. The Review's increased sales was an evidence of this.

WHO WILL BE CANDIDATE?

Mayor Stevenson Will Not Be a Candidate Again—Question of Interest.
There is an awakening interest in the question of the Mayoralty for 1892, although there are yet a couple of months before the question will have to be decided at the polls. Who will be the candidate is a question that has been asked, and the Review has had several correspondents writing on the question. Knowing that an important light would be thrown on the question if Mayor Stevenson's intentions were known, he was seen by the Review to-day and stated positively that he would not be a candidate next year. Mr. Stevenson is a busy man and he feels that he must relieve himself of some of his burdens, and, after many years of faithful services as Chief Magistrate he now intends to step out of the Mayor's chair. He has given his time and means in the interests of the town and these services the people have recognized and have returned him by acclamation.

Mr. Stevenson's retirement will open the way for a contest and undoubtedly some of the names which have been mentioned will be in the field. As Mr. Stevenson remarked there are plenty of able men to succeed him.

ONE OF THE PILLARS
upon which the Christian Endeavor Society rested its strength. Another distinctive feature was its religious aspect. It was born in a prayer meeting and one of the great secrets of its success was in the fact that it was distinctively religious. They reached the world in the old Primitive Methodist style. Some had said "You will have to have much theatre in the church to hold the young people's (laughter), or you will not get them from their club rooms unless you have little clubs in the church." But no; if they got men's hearts right their heads would be right and engaged. Men were more interested, he said, in religion than in politics, more interested in future than in politics, and more people with backbone required to be interested in politics. (Applause.) Men were always interested

Catarrh

Is a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla—the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physicians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint, and completely restored my health."—Jesse M. Bogg, Holman's Mills, N. C.

"When Ayer's Sarsaparilla was recommended to me for catarrh, I was inclined to doubt its efficacy. Having tried so many remedies, with little benefit, I had no faith that anything would cure me. I became disgusted from loss of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and referred me to persons whom it had cured of catarrh. After taking a few bottles of this medicine, I am convinced that the only sure way of treating this obstinate disease is through the blood."—Charles H. Maloney, 113 River st., Lowell, Mass.

BRITISH AND FOREIGN.

THE RUSSIAN FAMINE STILL ON THE MARCH.

An Insurance in China—Insurgents to the Number of Three Thousand Capture a Town & Cholera Epidemic—Hundreds of Natives Die in Amoy, China.

ST. PETERSBURG, Oct. 23.—The famine has extended to Siberia. Advice from the interior of the empire are continually of worse import. The people are commencing to riot in Samarkand and Vronetz.

Reports from the provinces of Sunbakh and Samarkand show that the local government is unable to cope with the prevailing distress and that relief has not reached the more remote districts. The authorities have forbidden the export of grain from the state of affairs. The provincial assemblies are panic-stricken and are utterly unable to remedy the disaster. The supposed reserves of grain are melting away. It has been discovered that when the czar ordered the distribution of the reserve grain in the government granaries, the officials did not dare to acknowledge that the stores were empty, and tried to make up the deficiency from military granaries in order to conceal the peculation. It is now known that the military commissariat in the event of Russia engaging in a war, funds for relief of the starving people have also been deplorably mismanaged. In some districts which are under powerful patronage there is more than an abundance of relief, while in other districts no relief is paid to the starving peasants. Many government employees complain that their superiors deduct a certain amount from their wages as a relief, thereby leaving them poverty-stricken.

INSURRECTION IN CHINA.

How the Insurgents Treat Prisoners—Nailed to a Board and Cut Up.

SAN FRANCISCO, Cal., Oct. 23.—Shanghai advice state that details have been received of a revolution in the province of Fukien. The centre of the disturbance is in the city of Thina. The leader of the insurgents is named Chen, and he has a force of 3000 men. The first expedition was directed against the salt office, which was stormed and burned. One unfortunate fell into the hands of the insurgents, who nailed his hands and feet to a board and cut him up by piecemeal. The insurgents, flushed with success, made a complete circuit around the city. They were met with a stubborn resistance. For three days the city held out. The insurgents finally scaled the walls, when a bloody struggle ensued, resulting in favor of the attacking party. The higher authorities, on learning of the insurrection, dispatched over 1000 soldiers to the place. The latest intelligence is that the insurgents have left the city and are encamped on a hill. The loss on both sides is very heavy. It is said the insurgents butchered all the prisoners who fell into their hands.

The steamship Oceanic also brings advice from Amoy, China, of the terrible epidemic of cholera prevailing there. Hundreds of people have died and many English and American missionaries have succumbed to the disease. Mrs. McGregor, wife of Dr. McGregor of the Church of England mission died of cholera on Oct. 2 and was buried the same day. The lady died within six hours after being seized by the disease. The Chinese are dying by hundreds. The suburbs of Chin-Kiang are devastated by cholera. The ignorant natives, instead of taking preventive measures, have recourse to worshipping the god of sickness and death. Large sums of money have been subscribed to burn sacrifices and to act theatrical plays to please the terrible deity.

The British Gales.

LONDON, Oct. 23.—Last evening the fierce gales which have been sweeping over England, Ireland and the south of Scotland for nearly two weeks renewed their work of destruction. The Thames to-day rose four inches at Windsor, flooding the meadows, a portion of the racetrack, and the play fields at Eton College. Miles of Home Park and Egham Meadows were submerged by the overflow, which now threatens serious damage. The mail boat which arrived at Kingstown to-day from

Holyhead reports having encountered a terrible thunderstorm. When 15 miles from Holyhead the passengers saw a complete waterspout two miles distant from the steamer. The waterspout lasted a quarter of an hour, when it was dispersed by a squall.

From Bath comes the report of the drowning of two boys in the flood. The situation in low-lying parts of the country is becoming serious. In Lincolnshire and Wiltshire many factories have been compelled to stop operations, their ground floors being inundated.

The Spanish Floods.

MADRID, Oct. 23.—Vast tracts of land to the south of the Sierras have been submerged by the floods which have followed the recent rain storms. The Galar River and its tributaries have overflowed the plains of Albuñol and Berchules. Crops in those districts have been destroyed and a number of persons have been drowned. Terrible distress exists among the inhabitants. The country around Maurea, province of Barcelona, has been swept by a hurricane, which has done much damage to crops and other property.

Ernest Condole with the Widow.

DUBLIN, Oct. 23.—The Board of Poor Law Guardians of Westport, County Mayo, has rejected a message of condolence to Mr. Parnell's relative, because it included the name of the dead leader's wife.

In presiding at a convention in Westford yesterday John Dillon denounced the action of Mr. Redmond, who, he said, after sharing the full responsibility with Mr. O'Brien and Mr. St. John, had attempted to campaign independently of Parnell, was now assisting to deprive the tenants of the benefits of the Parnell fund.

John E. Redmond, the Parnellite candidate for the vacancy in the House of Commons caused by the death of Parnell, who arrived at Cork last night, replying to an address of welcome, announced that he spoke as "The elected leader of the Parliamentary party."

Wurttemberg's New King.

STUTTGART, Oct. 22.—King William of Wurttemberg to-day opened the Parliament of his kingdom. The new king expressed warm satisfaction at the reunification of the kingdom of Wurttemberg with Germany under the late King Charles. King William also announced that bills would be introduced providing for the revision of the constitution and for reform in taxation.

Shot His Companion.

GALT, Oct. 23.—Two boys named Everett and Byrne were playing with a "chuck" revolver, which they "didn't know" was loaded, and whilst in the hands of Byrne off the bullet striking Everett in the right leg below the knee. The bullet, which was about 38 calibre, shattered the large bone of the leg and traveling down the limb and broke the small bone near the ankle.

Six Were Killed.

MATVILLE, N.D., Oct. 23.—A terrible threshing machine accident occurred here to-day on division No. 4 of the Gibbston farm. The boiler of the threshing machine burst and killed six men. The explosion was due to cold water forced into a heat boiler when the water was low.

He said he was earning \$3000 a year as a lawyer, and \$4000 more as a minister. Any one who knows Mr. Langellier, Mr. Pacaud said, knows that his requirements and wants, as well as personal expenses, are very modest.

a fine house, and that if he would follow his advice, he, Mr. Pacaud, would furnish the money necessary for the present. The reason he made the generous offer was that for 20 years Messrs. Pacaud and Langelier had been the closest of friends, sailing together through all kinds of weather. This and much more to the same effect Mr. Pacaud said as an explanation of the majority of his money transactions with Mr.

His statement is altogether a funny thing. It shows that Mr. Pacaud has used the Baie Chaleurs money in a way that suggests a keen desire of getting rid of it. He went as far as paying his friends' contribution in one of Quebec's best clubs. Mr. Duhamel was thus treated. Mr. Duhamel did not care about the club, but Mr. Pacaud would have him and

that was that the theme did not fall to some one more deeply endowed with the Grace of God for it was in the highest position of their work, the ultimate object of Christianity was to make man like the divine image. The supreme fruit of human hope was found in Christ and this hope was to be like Him. What was meant by likeness? Generally speaking it was a resemblance to objects but some times it meant more than outward resemblance. Sometimes it meant inward resemblance. It was that likeness of Christ that made them like him, like his mother or of the Holy Spirit, like his Father again; meaning that the moral qualities of the parent were reproduced in the child. Their lives of Christ should be so exalted that the likeness of His character would be reproduced in them. There was good reason for this for the world challenged the manhood of Whose image and superscription is this? There should be no situation in saying "It is Christ." Christ's likeness was inherited. As likeness of God developed more like the Father as years went by, so the human character, developed more like Christ as they increased in His grace. In the attainment of Christ's likeness there were four thoughts around which they could build their thoughts. They were regeneration, sanctification, glorification and imitation. He extended upon these three points holding the close relation of his vast audience by his clear and eloquent enlargement. Were they sometimes discouraged he told them to be good cheer for there were precious promises to encourage the Christian in his work. In giving the picture of the Christians upward path through discouragement to the bright morning, he was loudly applauded as he concluded his learned discourse.

A sweet solo was sung by Miss M. M. Cameron in pleasing voice elicited prolonged applause.

REV. PROF. DU VERNEY.

"Power for service" was the subject of a short, impressive address given by Rev. Prof. Du Verney, of Wytheville College. He described this power as a Niagara and said it simply remained for them to receive this power. To do this there must be the daily and hourly communion with God. Only let them consecrate themselves to the love Jesus Christ, willing to do anything for him and God would bless them and they would be men and women full of Christ and His power. With a beautiful full picture of the transfiguration on the mount and the scene with the disciples below he illustrated that the transfiguration was the power was the secret of failure and success. As they parted and went down the mountain of prayer he said that the power was a shower of blessing. Let their language be as the Psalmist of old, "Be thou exalted in thy own strength."

THE CLOSING.

A farewell anthem was sung by the choir. A service of benediction. Then the chairman introduced the new Provincial officers to the Convention, and the newly elected President, Rev. Dr. Dickson, spoke on behalf of the officers.

The consecration meeting was then opened. General Secretary Ross taking charge. Mr. Ross gave a thrilling address on consecration and asked those who would consecrate their lives to God and by His grace win one soul for Him during the year to stand. There was a large response from all parts of the audience. It was an impressive service. (And be with you till we meet again) was the closing hymn and Rev. Dr. Dickson pronounced the benediction. The Convention closed with the Misses benediction.

CONVENTION CITY-CRAT.

The Peterborough delegates were at the station this morning to give a farewell to departing delegates. As the train moved out the hymns "God Be With You Till We Meet Again" and "Glad He'll Be Thee Thee Binds" were sung.

Many of the delegates will remain in town over Sunday.

Mr. Ketcham, musical conductor, and his assistants can well feel pride in the services they rendered the Convention.

RESCUED FROM DEATH.

A Well-known Toronto Young Man was in Great Peril—His Brother-in-Law Came to His Aid.

"Poor fellow!" "It is too bad!" "He is in consumption!" Such expressions were frequently made by those who knew (we will call him) Harry Benton.

Harry was employed in the office of one of the largest public institutions in Toronto and for years was a faithful servant and diligent worker. Special times made it necessary to employ extra help in the various departments, but as far as Harry's department was concerned, he secured the manager it was not necessary, as he felt sure of being able to keep pace with all increased work.

During the six or seven weeks of extra rush and work, Harry was obliged to work early and late. All connected with the institution were pleased, and highly commended Harry for his devotion and assiduity.

There was one, however, who noted with alarm Harry's looks during the period of rush and activity—it was his wife. She noted the traces of nervousness, the sleepless nights, the hollow look and dull eyes. She was aware that it was the result of overwork of brain and body. She pleaded with him, only to be put off in a kindly and affectionate manner by some excuse or joke. His friends observed the sad change, and freely commented on his serious condition.

He was soon stricken down, was used up; in fact his life was despaired of by all. Overworked, the enemy, had accomplished its designs.

His wife's brother, however, seeing the condition of things, came at once to the rescue with comforting intelligence gained by personal experience, as well as bringing to him the true remedial agent for his afflicted brother-in-law. He came to the rescue with that God-given remedy, Paine's Celery Compound, which had once restored him to health and vigor.

Harry Benton's condition, desperate though it was, soon showed a marked change; strength was gradually returning, appetite increased, the bright eye and clear complexion once more appeared. In four weeks' time Paine's Celery Compound completed a most wonderful cure, and restored a valuable clerk to an office where his manager and fellow clerks gladly welcomed him.

They often speak there of Paine's Celery Compound, and owing to Harry's wonderful cure, recommend it at every opportunity.

Clever Brains Did It.

This is pre-eminently an age of invention. That statement is as true as it is true. Evidence of it is in every hand. Ambition prompts invention. The desire for large and useful results stimulates it. Fulfillment will use the highest invention for purposes of amelioration, but the thought of the man who sets out to put an idea into the concrete is not usually ethical. He does not necessarily say to himself "this will uplift humanity." What he chiefly thinks is "this will supply a need. There is room for it. People want it, but they have not known how to get it."

The invention of our times are remarkable for their utility. They subserve the general comfort. They lessen labor. They make it easier to govern. They help the state, the municipality, and the house. They enter into the daily life and occupation of the people. Sometimes their utility is so obvious that everybody exclaims: "why hadn't we this years ago?"

This remark might be used with respect to a protective rain-proof without the application being apparent. The ordinary waterproof coat has never been satisfactory. It has been scolded, because there was nothing better, and some kind of waterproof was a necessity. They ran proof-flooding; but, as we all know to our sorrow, they are air proof as well. They are non-porous. They told you in a clumsy rubbery coat that was no air.

The Big Fete of John.
The "Two Johns" were at the opera house last night and played to a very good audience. The presentation was humorous and allowed the introduction of some clever dancing and other specialties. The audience enjoyed the entertainment.

The great Dr. Boerhaave left three directions for preserving the health—keep the feet warm, the head cool, and the bowels open. Had he practised in our day, he might have added; and purify the blood with Ayer's Sarsaparilla; for he certainly would consider it the best.

Harvard Wins.
The football team of the Harvard College went to Montreal yesterday to play the local team. A defeat was the result, the Harvard men securing four games, while the Peterborough students failed to score. The game was a gentlemanly one and the visit to the village was enjoyed by the team.

Ayer's Pills. being convenient, efficacious, and safe, are the best cathartic, whether on land or sea, in city or country. For constipation, sick headache, indigestion, and torpid liver, they never fail. Try a box of them; they are sugar-coated.

Special Service.
Tomorrow, Sunday 25th, special reopening services will be held at George street church. Rev. Dr. Sutherland, of Toronto, will preach morning and evening, and the evening service music of a special attractive character will be sung by the choir. Dr. Sutherland is one of the ablest preachers of the Methodist body and many will, no doubt, take advantage of the opportunity to hear him.

If you are suffering from a feeling of constant tiredness, the result of mental worry or over work, Dr. Williams' Pink Pills will promptly cure you. Give them a trial.

Three Men in Goal.
When the Police Court resumed yesterday afternoon on the charge of stealing preferred against Mrs. Margaret Mitchell by Mr. W. S. Scollie at whose house the woman had been working as a domestic for a week, Miss Sutherland and Mrs. Croucher, another domestic at Mrs. Scollie's, gave evidence for the prosecution. Mrs. Croucher stated that Mrs. Mitchell had no money on Saturday as she borrowed a quarter from her to buy what was necessary for the defence were not strong and after hearing the evidence the Magistrate found the woman guilty and sentenced her to three months in goal.

Buckingham's Dye for the Washers is a popular preparation in one bottle, and colors evenly a brown or black. Any person can easily apply it to his home.

Rock From the Boat.
The Morrow-Whitcomb hunting party arrived home early this morning. The party were hunting at Jack's Lake and had very good luck. They hunted ten days and captured nine fine deer. They were unfortunately enough, however, to have three canoes smashed, one going in to the lake and two coming out. There was no truth whatever in the story published by local contemporaries.

The Roy-Wilgander party also got home this morning from their hunt at Katchewan Lake. They had poor luck, capturing only two deer. It is said that pirates have cleaned out the antlered monarchs before the season opened. The party had a pleasant outing, notwithstanding that the game was scarce. Mr. Roy got several good snap shots with his camera.

A Pleasant Herb Drink—Astringent Medicines.
The druggists tell us that the people call daily for the new cure for constipation and sick-headache discovered by Dr. Williams' Pink Pills. It is said to be Oregon grape root (a great remedy in the West for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells at 25c and 50c a package and is called **Laxative Family Medicine.**

The Endeavor Convention Closed.

DELEGATES DELIGHTED

WITH THE CONVENTION AND ITS ARRANGEMENTS.

The Report of the Meetings of the Last Day—The Officers Elected—The Address—The Big Closing Gathering in the George-st. Church.

The Christian Endeavor Convention is closed and the majority of the delegates left for their different homes to-day. It was a grand convention, marked by an interest and profit which was manifested at every session. The attendance at every meeting was large, while the evening meetings were overflowing. The closing was a grand meeting, participated in by twelve or fifteen hundred. The delegates leave with pleasant memories of the Convention, golden opinions of Peterborough and its people and a warm affection for the local Endeavorers, who did such complete work in making the arrangements. It was a great event and much good should follow.

Friday Morning.
The sunrise prayer meeting at 6.30 o'clock was largely attended this morning, the large church being well filled at that early hour. The meeting was conducted by Rev. W. H. Harvey, B.A., of Guelph.

The convention resumed at 9.30 this morning, and after a song service President Colville called on Mr. H. W. Frost, Toronto, of the China Inland Mission, who conducted a Bible reading on "Consecration."

DISTINGUISHED VISITORS.
Mr. J. W. Baer, of Boston, Mass., General Secretary of the United Society, and Rev. G. H. Wells, D.D., of Montreal, who had arrived, were invited to take seats on the platform and were received with the enthusiastic salute.

Mr. Baer was introduced to the convention, and said he knew that he would receive an inspiration from it.

Rev. Dr. Wells was also introduced. After a few pleasant remarks he said he rejoiced to be at the convention and see so many present, and prayed for the success of the convention and that they might return home with renewed consecration.

REVISION OF CONSTITUTION.
Rev. J. A. R. Dickson presented the report of the special committee on the revision of the constitution. He said the constitution as revised was a crystallization of the present modes of action of the society, and the workings were made clear. The report was taken up clause by clause and adopted, and on motion of Rev. M. Thos. Morris, it was ordered to be printed together with a constitution for local unions.

OFFICIALS ELECTED.
Mr. E. A. Hardy presented the report of the Nominating Committee, which nominated the following officers for 1891-92:—
PRESIDENT.—Rev. J. A. R. Dickson, B.D., Ph.D., Galt.
VICE-PRESIDENT.—Mr. Thos. Morris, Jr., Hamilton.

2ND VICE-PRESIDENT.—Rev. G. B. Bage, B.A., London.
SECRETARY.—Mr. E. A. Hardy, B.A., Lindsay.

ASSISTANT SECRETARIES.—Miss E. M. Carson, of London, and Mr. A. E. Scott, of Peterborough.

In presenting this report Mr. Hardy said that this convention owed a great deal to Mr. Scott, the President of the Peterborough Executive.

The report was adopted by a standing vote.

PLACE OF MEETING.
The Nominating Committee also recommended that the next Convention be held in London, which was unanimously adopted.

Rev. Canon Richardson returned thanks on behalf of the city of London. They would do their best to make the convention of 1892 a success, and if they succeeded as well as Peterborough they would be well satisfied.

MONTREAL, '92.
Rev. G. H. Wells, M.A., B.D., of Dundas, was then called to the chair.

Mr. Rogers, Mayor, President of the Montreal Union, who introduced and cordially received. He conveyed to the convention greetings from the Montreal and Quebec Unions, which he was asked to do by the Executive of these Unions. The United Society Convention would be held in Montreal in 1893, and already they had appointed a committee to prepare for that great gathering. He outlined some of the arrangements and asked the assistance of the unions throughout Canada. They had secured the Montreal drill hall for the gathering which would hold 15,000 chairs on the floor. Their committees would work hard to perfect the arrangements, and he asked them to pray that this Canadian convention, at which 35,000 delegates were expected, would be a great blessing. They had heard of boodling, which was a demonstration of one character, and they wanted in this great Endeavor convention to make a counter demonstration and show the people of Quebec, of Canada, and of the world that the Christian Endeavor was a living principle. He asked them all to attend the Montreal gathering in 1893 and advised them to attend the convention next year in New York.

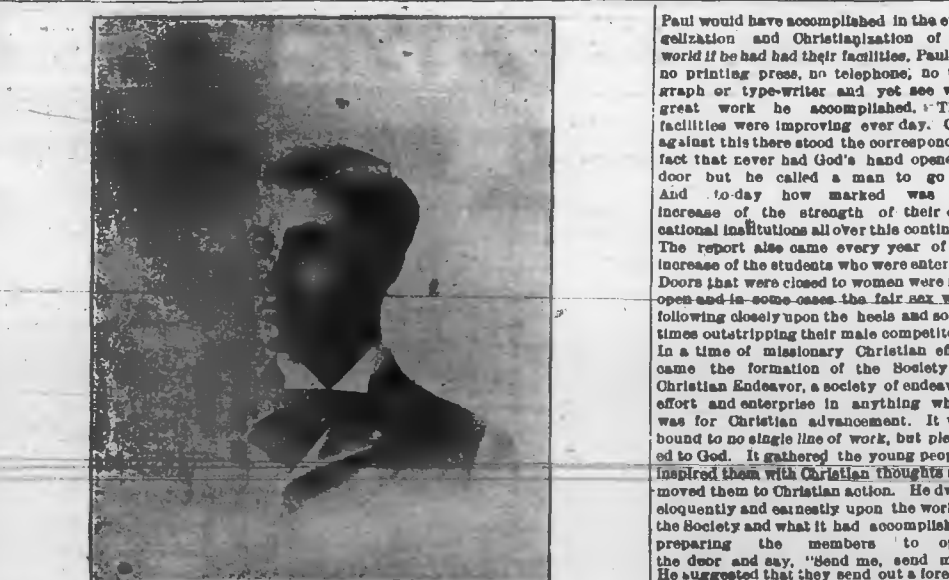

OFFICERS THANKED.
Rev. J. Van Wyck moved a vote of thanks be tendered the officers of the past year for their faithful services.

The motion was adopted by a standing vote.

THE QUESTION DRAVER.
President R. J. Colville said that the officers appreciated their thanks. They were pleased that their labors had given the delegates pleasure and he hoped they would result in great good.

Mr. E. A. Hardy moved, seconded by President Colville, a vote of thanks to Mr. W. H. Wells, of Toronto, editor of the Endeavor Herald, who had labored hard in the interest of the society and was unable to be present on account of sickness, which was carried.

MODEL BUSINESS MEETING.
An hour was devoted to a "model business meeting," when reports were received from the different committees. The exercise was a practical one and calculated to be of benefit as an illustration of society work. Reports were received from the following committees:—
Lookout Committee, by Mr. W. H. Bailey, Port Hope.
Prayer Meeting Committee, by Mr. T. G. King, Orillia.
Music Committee, by Miss J. R. McKride, St. Thomas.
Social Committee, from Mr. E. R. Horsey, Kingston.
Sunday School Committee, by Miss Annie

MR. J. W. BAER, General Secretary of the United Society.

Henry, Hamilton.
Homes Missionary Committee, by Mr. Matthews, Lindsay.
Foreign Missionary Committee, from Mr. A. J. Colvin, Galt.
Flower Committee, by Miss McIntyre, Stratford.
Visiting Committee, by Mr. R. N. Bebb, London.
Good Literature Committee, by Miss P. Smith, Toronto.
Temperance Committee, by Mrs. Price, Peterborough.

The Convention then adjourned until 3 o'clock.

Friday Afternoon.
The convention reassembled at 2 o'clock in the afternoon. The praise and prayer service was conducted by F. G. Haultain, of Cardinal, Ont., and Mr. H. W. Frost gave a Bible reading based on John xiii., opening verses.

Mr. Thos. Morris, Jr., of Hamilton, Assistant Secretary and Vice-President elect, presided, and upon taking the chair addressed the convention briefly.

TO REACH YOUTH.
Mr. F. M. Eratt, Secretary of the Hamilton Y. M. C. A., gave an address on "How can the Y. M. C. A. best reach Young Men?"

All Christian organizations, he said, had difficulty in getting young men and this Society had evidently been met by the same problem, the greatest problem facing the church. He believed that there were certain principles underlying successful work for young men. A great expenditure of time, money and effort was required to reach young men, much more than was required to reach young women or children, and to secure the young men they must be terribly earnest; they must have power and more effective methods, must have young men in the work, and must have courage, definite personal effort, and with all divine power. As to how they could best reach the young men of their churches, they should have hearty meetings, might hold prior meetings for young men, should themselves advertise their work, and should organize a special band of workers who would speak to the young men one by one. Special meetings of a religious or social character were recommended. He thought the Endeavor Societies should appoint a committee to work with the Y. M. C. A., which had the machinery, for the young men, and they could do much by sending young men to the Y. M. C. A. rooms, which were always open. In closing he said it seemed to him that the key to the whole matter was concentrated manhood, and they should go forth determined to hold Christ up to be young men.

REDAVANCE WATERWORKS.
Mr. J. W. Baer, of Boston, General Secretary of the United Society, gave an address on Waterworks of Endeavor Conventions. Mr. Baer is a young man with a pleasing appearance, a sprightly manner, and is an earnest and eloquent speaker. The first waterwork should be Christ. Christ was the ideal Endeavorer and through His death they lived. Stand thoroughly, he said, on the word, the old Bible, from cover to cover. Co-operation, the second waterwork, was a delightful word. He was an American, but he rejoiced to work together with the Endeavorers of all lands, Methodists, Episcopalians and members of other churches united in a common work. They were Christians. They could not find a better name than that and should stick to it. They were loyal to their churches, but in this missionary work they dropped denominationalism and co-operated in an evangelistic spirit. He urged the importance of junior societies, and of marshalling the little ones into definite work. The third waterwork was co-operation. There are 12,000 local Endeavor societies and a membership of 1,000,000. But they must not depend on numbers; individual work would carry the work forward. They should stand together for a definite service and that service was the conquest of not only Canada and the United States, but of the world for Christ, and he believed that could be done, for with God all things were possible. They should not depend too much on machinery. The Society was an engine to be used, but God was the engineer.

MISSIONS.
Mr. H. W. Frost, Toronto, of the China Inland Mission, took up the subject of "Missions." He said that they wanted the Word to go to all people. The Lord had commanded it, and they would be disobedient if they did not send it. He illustrated the missionary methods and encouraged by referring to incidents in connection with the China Inland Mission.

THE QUESTION DRAVER.
Mr. Baer then conducted a question drafter and answered a number of questions on methods of Endeavor Society work in a clear and pithy manner.

The Convention then adjourned until evening.

Friday Evening.
The great closing meeting was held in the George-st. Methodist church and the vast audience that filled every inch of space in the capacious structure put one in mind of the overflow gatherings of the Croseley-Hunter services. It was a great audience and a grand meeting, and no Endeavorer can say that Peterborough's citizens were not interested. Many were turned away, being unable to gain even standing room. The pulpit of the church had been draped with the Union Jack and Stars and Stripes, with a beautiful floral design "O.E." below.

The service of songs opened the meeting. Mr. Colville took the chair shortly after eight. In commencement the great assemblage united in an opening hymn and Rev. A. MacWilliams, of St. Andrew's, offered an earnest prayer.

Rev. Mr. Baer, Chairman of the Resolution Committee, then presented the following resolutions which were adopted

separately and then carried as a whole. Each resolution was adopted amidst applause. Here they are:—

A GENERAL TRIBUTE.
Resolved: that the thanks of this Convention are due and are hereby cordially tendered to the Christian Endeavorers of Peterborough and to the faithful committee of '91 for their indefatigable energy and win arrangement; also to the pastor and trustees of St. Paul's Presbyterian and St. George's Methodist churches for placing their churches so admirably adapted to all the purposes of the Convention, as our disposal; to the bright and courteous boys who have proved themselves genuine Christian Endeavorers; to our beloved brothers Rev. Dr. Wells, and Mr. J. W. Baer, who have come so far to address us; to the other speakers and to the people of Peterborough the cordial and generous hospitality extended to the delegates in their homes.

TO THE MUSICIANS.
Resolved: that our thanks are heartily given to the choir, to Prof. Ketcham and his able assistants; also to Miss Nellie Wright and Mr. John Miller, respectively, the talented organist and chorist, and the several societies whose musical exercises have contributed so largely in making bright and interesting our service of song.

TO THE LATE PRESIDENT.
Resolved: that we express our grateful appreciation of the services of our devoted late President, Mr. E. J. Colville, and of his tireless and efficient labors of our diligent Secretary-Treasurer, Mr. E. A. Hardy; and that we be so abundantly blessed to the Convention.

TO THE PRESS.
Resolved: that we express our gratitude to the reporters and the newspapers that have furnished such correct, complete and friendly reports of the proceedings of the Convention.

THE CONVENTION OF '91.
Having heard the admirable address of Mr. Holt, of Guelph, on "The Convention of '91," and feeling that this convention will be an inspiration to God's work in this country, we hereby extend our warmest factor in extending His glorious Kingdom.

THE ONTARIO CHRISTIAN ENDEAVOR UNION.
Resolved: that the Ontario Christian Endeavor Union commend this convention most heartily to every Society of C.E. in Ontario, asking every Society to remember it in constant prayer and to be prepared to aid it financially when the time comes to do so.

THE SUNDAY SCHOOL.
Resolved: that the President be instructed to the effect that the Sunday School of the Convention be held at the same time and place as the annual Convention of the Christian Endeavor throughout the Dominion.

THE SUNDAY SCHOOL.
Resolved: that since a wide and promising field for Christian Endeavor is right at hand among the S.S. scholars and other young people, and that we as a society to encourage the formation and further the development of junior societies.

OBSERVANCE OF THE SABBATH.
Resolved: that we, as representatives of the Y. F. S. S. G. E. in Ontario, do affirm our sacred observance of the Sabbath day and truly express our opposition to the closing of the Sabbath for recreation on that day, and that we request our Executive Committee to bring all possible legislation to bear on our Provincial and Dominion legislatures to have the Canadian departments closed on the Sabbath.

SOCIETY PRIZE.
Resolved: that while we give first place to our respective denominational papers we commend the publication of the Endeavor Herald and strongly recommend our members to secure a copy of it, and that we as a society to encourage the formation and further the development of junior societies.

POLITICAL PURITY.
Whereas the recent disclosures of dishonesty in our political life are a dishonor to the Christian faith and a reproach to our highest welfare as individuals; therefore, resolved: That the Christian Endeavorers of Ontario unite in a solemn pledge to emphasize the teaching of honesty and integrity in all matters, and declare our conviction that the purification of our political life is impossible if men are to be completely high rated about whose business integrity or general moral character is a just doubt.

MISSIONARY WORK.
Resolved: That we rejoice in the ample evidence afforded by the reports of increasing interest of Endeavorers in missions—some of our members being members in the Foreign Mission field, many others in our colleges preparing for the home field, and the practical support given to local church mission schemes and denominational enterprises, and we urge all local societies to utilize systematic and practical methods of supporting missions through the church and denominational channels.

STUDY OF THE BIBLE.
Resolved: That we commend to all the Societies the study of the Bible, and that according to the plan of inductive studies of Dr. Harper or similar plans, and that the practical application of the principles of Bible study to the intelligent acceptance of Divine truth.

Two resolutions passed by the Minneapolis Convention, the one recommending the adoption of the "revised pledge," and the other condemning intemperance, were also adopted. The platform of the United Society of Christian Endeavor was also adopted as printed on the programmes.

WORK FOR THE WORLD.
Rev. G. H. Wells, late of Montreal, but now on his way to Minneapolis, was introduced with stirring remarks by the President, and addressed the gathering on "World-Wide Movements for Christ." It was a pleasant Providence, he said, that dropped him down in this godly fellowship in this godly city of Peterborough. It was an unexpected Providence, for when he had been expected to remove to Minneapolis he had given up the visit but for a moment it could be arranged. What might be his destination and fate in Minneapolis he did not know, but he was glad to be present at such an immense gathering. He knew of no platform upon which there was more encouragement to the student than this platform of Christian Endeavor. He first referred to the condition of the world which was so promising to welcome a movement such as the Christian Endeavor. The world was open, and he asked, where did missionaries have to wait to land upon any shore? The world was brought to their door, and he wondered what the Apostle

Paul would have accomplished in the evangelization and Christianization of the world if he had had their facilities. Paul had no printing press, no telephone, no telegraph or type-writer and yet he did great work he accomplished. These facilities were improving every day. Over against this there stood the corresponding fact that never had God's hand opened a door but he called a man to go in. And to-day how marked was the increase of the strength of their educational institutions all over this continent. The report also came every year of the increase of the students who were entering. Doors that were closed to women were now open and in some cases the fair sex were following closely upon the heels and sometimes outstripping their male competitors. In a time of missionary Christian effort came the formation of the Society of Christian Endeavor, a society of endeavor, effort and enterprise in anything which was for Christian advancement. It was bound to single itself out for special notice to God. It gathered the young people, inspired them with Christian thoughts and moved them to Christian action. He dwelt eloquently and earnestly upon the work of the Society and what it had accomplished, preparing the members to open the door and say, "Send me, send me." He suggested that they send out a foreign missionary through the Christian Endeavor society of their church. They could become interested in the mission work in some way, and he confidently expected to see an awakening of interest in their church missionary societies by the efforts of the Christian Endeavor Society. He closed with farewell words, saying he went from Canada with no fear of the country, for he could go from his home to the mission field with confidence in them and affection towards them. He asked them to pledge him to God's work wherever it might call for them throughout the world.

Misses Crane and Stoby Cameron and Messrs. J. Crane and W. Nelson rendered a charming quartet. The offertory followed and during the time it was being played the hymn "Praise Thee, Jehovah," was sung.

REV. DR. SUTHERLAND.
Rev. A. SUTHERLAND, D.D., General Missionary Secretary for the Methodist Church of Canada, was warmly introduced and received a hearty reception as he rose to speak on "Christianity, how attained?"

He spoke of the uncertainty of coming and the change in his subject. He said he had enjoyed the meeting, and referred to his personal relations with Dr. Wells. He was to speak on "Christianity, how attained," and there was only one regret, and (Continued on page 4)

For several years I was practically annoyed with an excessive accumulation of dandruff and although using various preparations recommended and shampooing regularly once a week, no material relief was realized until my attention was called to Anti-Dandruff, which has produced unlooked for results in my case. (For applications removing every particle of dandruff and as a specific for this trouble certainly has no equal.)

LONDON, Oct. 26.—Mr. Balfour in his speech at Barry last night asserted that the cause that produced the Liberal split was still standing and that the Liberal party must stand or fall as one man. He said that the United Nations alliance was becoming still closer. Mr. Balfour spoke in justification of "opportunism," which he defined as the readiness by the dominant group to change its policy in accordance with evolution of society, which he wanted new changes to meet new conditions. It must be the policy of every wise statesman to follow the lead of the people, he said. His policy, Sir William Vernon Harcourt had accused the Conservatives of delaying the measures of benefit to the people until it was too late. However, he thought that sound, sober legislation could be placed to the credit of the Conservatives during the past half century than to that of the Liberals. He referred to the New Education Act, the Stone's Newcastles program to that of a musical variety show. In this connection he drew a humorous word picture, concluding that the Liberal Government under Mr. Vernon Harcourt wearing the cap of liberty, leading the attack on the House of Lords, which was descended into a wild chase after the wind, and finally ending in talk of abolishing little anomalies in the electoral system while allowing the big anomaly the over-representation of big towns to continue.

In conclusion he condemned Mr. Gladstone's land reform proposals as raising vain hopes among half-educated farmers who contributed nothing to the social and rational treatment of complex land problems.

AFFAIRS IN RUSSIA.

Stomachs of Dead Children Found Filled with Corpses.

LONDON, Oct. 29. (The Standard.) The approach of frost has caused a renewal of the cries of distress. The Novosti correspondent of The Standard says the corpses of children are everywhere without food. Statistics prove conclusively that in many places speculators go to the length of buying the meat of the dead, and the users are charged with the responsibility for the extortion. A Samara paper declares that the Jews are the cause of the famine, and that they are in the habit of reducing their own power to the lowest stage of poverty. In children showing the terrible distress of the people.

A poor woman of Ratchino, on returning home from a neighboring village, whitened her face and tried to purchase food for her sick children. She found that the market examination—being made their stomachs were found filled with rats and earth.

Catarrh

Is a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla—the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physicians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint and completely restored my health."—Jesse M. Bogg, Bolton's Mills, N. O.

"When Ayer's Sarsaparilla was recommended to me for catarrh, I was inclined to doubt its efficacy. Having tried so many remedies, with little benefit, I had no faith that anything would cure me. I became convinced from loss of appetite and impaired digestion. I had lost the use of my bowels, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and I referred me to persons whom it had cured of catarrh. After taking half a dozen bottles of this medicine, I was cured of the only sure way of treating this obstinate disease is through the blood."—Charles H. Maloney, 115 River St., Lowell, Mass.

AGAIN VISITS THE SCENE.

The Man Who Crossed Niagara on a Rope.

NIAGARA FALLS, Oct. 26.—There is nothing here a man who achieved a great degree of notoriety in his day. His name is E. D. Buck, and he was the first man to cross Niagara River on a rope by himself. The popular idea at the time was that he was a madman, but he was a man of great courage and determination. He was born in New York City, and he was a member of the New York City Police Department. He was a man of great courage and determination, and he was a man of great courage and determination.

GOT AWAY WITH THE CASH.

A Clerk Young American Who Has Been Swindling the Canadians.

TORONTO, Oct. 26.—Toronto Postmaster-General Wainman announced the arrival in the United States from Canada of a clerk offering to sell \$6 worth of Louisiana lottery tickets for the October drawing for \$5. An investigation has proved that the clerk was a fraud and a forger, and it was intended to-day to arrest him. The clerk was a man of about 30 years of age, and he was a man of great courage and determination. He was born in New York City, and he was a member of the New York City Police Department. He was a man of great courage and determination, and he was a man of great courage and determination.

THE FISHERMEN WENT OUT.

Since Which Time no One has Seen Them.

WILKINSON, Oct. 26.—Capt. Crawford of the A. V. Crawford picked up a boat near Hope Bay. He recognized the boat and towed it into the harbor. He found it there. It appears that on Saturday evening Frank Novogorod and Sylvester Kessick left the Cape for a fishing trip. They were seen on the Cape at that time, and they were seen on the Cape at that time. They were seen on the Cape at that time, and they were seen on the Cape at that time.

Mantle Cloth REMNANTS.

Owing to our very heavy
sale of Mantle Cloths during the
present season we have accumu-
lated a Quantity of Remnants
which we have placed on our
Bargain Table in the centre of
the store, and have marked them
down to half their original price
in many instances. The length
run all the way from 1 to 3 yds.,
and among these are some of our
Choicest goods. Every customer
should ask to see them. We
have also a line of Bargain
Mantles that are selling like hot
cakes, owing to their lowness in
price.

MARRIED HIM TO GET RID OF HIM.

And the Run Away from Him Three
Times since Their Wedding Day.

WATERLOO, Mass., Oct. 27.—Waldo E.
Crowley, Democratic nominee for Senator
in the Sixth Middlesex District, returned
home today with his wife, whom the police
of New York detained on Friday. He is a
bookkeeper in the South End National Bank
in Boston, and on Thursday abandoned a
close watch that he had kept upon his wife
for a month. She at once removed all their
furniture and started for her mother's home
in Newbury Park, near St. Louis, taking
with her their baby and dog.

Her maiden name was Helen Pope. She
had been Crowley's wife three years and
Crowley is 50 years old and his wife is but 24,
and she declares that her mother and
brother forced her to marry him. "I only
married him to get rid of him," is her frank
confession. When rebuffed for entering into
a serious obligation, with such a
hippant spirit, she replied, "Well, if you
got two proposals a month for a year you
would have done the same thing."

She is tall, handsome and highly accom-
plished, and comes of an aristocratic Kan-
sas City family.

In the summer of 1887 she met Mr. Crow-
ley at College City. With him it was a
case of love at first sight. She did not pro-
bate his feelings. There was a swell
wedding, but Mrs. Crowley's only pleasant
recollection of the event is that her wedding
dresses cost \$800. On their honeymoon, three
days after being married, she deserted him
in Denver, but he found her and a recon-
ciliation took place. Her second escape
occurred a year ago, when she went to her
mother's. The only evidence that Mrs.
Crowley is human is the way she spreads the
stories of her married life.

Adjourned a Lunatic.

TORONTO, Oct. 27.—Mr. Justice Meredith
yesterday made an order declaring William
McCarthy, formerly a solicitor, a lunatic.
Ottawa, a lunatic. It will be remembered
that a short time ago the Court of Appeal
gave judgment in an action by the brothers
and sisters of McCarthy to set aside a con-
veyance of property to his wife on the
ground that he was of unsound mind at the
time the conveyance was given. At the trial
judgment was given in favor of the
plaintiffs, but the Court of Appeal re-
versed and held the conveyance to the wife.
Mr. McCarthy has been for some months a
patient of the Toronto Asylum.

As a family medicine, Ayer's Pills excel
all others. They are suited to every age
and, being sugar-coated, are easy to take.
Though searching and thorough in effect,
they are mild and pleasant in action, and
their use is attended with no injurious re-
sults.

LIFE BEYOND THE OCEAN

THINGS THE PEOPLE OF THE OLD
WORLD ARE INTERESTED IN.

Socialist Politics Come to the Front—Sir
William Harcourt Says Socialism May
Have Something to Teach, and Ad-
vocates Patience and Tolerance to the
End.

LONDON, Oct. 27.—The Socialist Congress
at Erfurt has had the result of bringing
Socialist politics to the front, and politi-
cians, not only in England, but throughout
the continent, are eagerly discussing the
best means of making people better satis-
fied with their situation in life and thus
lessening the field for the agitation of the
wilder spirits of socialism. Sir William
Harcourt, one of the leading Liberal mem-
bers of Parliament in speaking on the sub-
ject to-day said:

"It is a matter of observation and the
subject of common sense that a great change
has come over the political horizon within the
past few years. The change may not be so
great as is imagined, but at any rate it
must be admitted that a new class of ques-
tions is put in the front and seem to com-
mand a preponderant share of popular sym-
pathy."

"The hours of work, the adequate re-
muneration of the workmen, the means of
providing work for the unemployed, the
claims of those who, after using their ut-
most efforts, cannot obtain work; these are
some of the questions which are invited
to discuss, and some regard them as proper
subjects for legislation. There is no
doubt that the subject of sanitation of
towns and dwellings and workhouses. The
interests of agriculture in former times were
considered mainly with reference to the
landlord and the farmer. These have al-
most disappeared, but the laborer has risen
in his social position. How is his condition to
be improved? How shall he be enabled and
encouraged to migrate to the large towns and
helping to swell the ranks of the unem-
ployed? This is one of the questions of the
hour."

"With respect to these social problems,
as they are called, which are coming to the
front, and which some propose that we
should not touch, I am in favor of solu-
tion, what shall be left? In the first
place, the mere fact that they were are to
be dealt with, and that the conversation of
them could not possibly be avoided, should
teach us patience and tolerance. In the
next place, past experience gives us abun-
dantly reason for believing that the common
sense of our countrymen, upon their appre-
ciation of what is practicable, and above
all, upon their sense of justice, will be fair
and just. The question which excites most
apprehension is the demand for an eight
hour working day for all trades, to be im-
posed by the authority of parliament."

"The expectations of the advocates of this
measure may be chimerical, and many will
think they are not, but let the question be
argued and threshed out until the ele-
mentary facts are made plain. So with Mr.
Tom Mann's proposal that state or munici-
pal employment shall be maintained for the
unemployed, and that persons en-
gaged in trades which give employment
only for six or eight months in the year
shall be maintained for the rest of the
year at the cost of the public. Let it
be discussed and let us see what fate it
meets with at the hands of the commonsense
generally. It will probably turn out to be
one of those 'radical bubbles' to which Mr.
John Morley referred so pleasantly and in-
dulgently in his speech of last night."

"As for the Socialist schemes out and out,
with which we are confronted, we are
sensible to give them a hearing and
hear and give to them a serious argu-
ment for their discomfiture. Socialism may
have something to teach us, though there is
little probability that the principles will
meet with any wide acceptance. Socialism
is not so great a power with us as it was 50
years ago when the benevolent Robert
Owen shone as chief crusader."

"The famous People's Palace in the East
End, which was started under the auspices
of At Aldred M. Toynbee and generated the
suggestions thrown out in Water House's
speech, has nearly been forced to suspend
operations for lack of funds. The disaster
has been temporarily averted by the gener-
ous action of the wealthy Drapers' Com-
pany, one of the city guilds, in loaning the
institution £40,000 at a nominal rate of in-
terest in return for which the company
will be given a large share in the Board of
Control of the palace's work."

The steamship company at Bremen have
returned 50 Russian Jews who sought pas-
sage to America. When the disappointed
emigrants reached Berlin on their way back
they were welcomed by a crowd of hun-
dreds and it was thought impossible
for them to proceed. They were placed in
barracks and sent to Charlottenburg, where
temporary sheds were erected for their
housing. They will be fed and given
medical care at the public expense until
some disposition of them is agreed upon.

The interesting event of the week at Ber-
lin was the 32nd birthday last Thursday of
the Emperor. All public and private build-
ings were decorated. Birthdays are great
occasions in Germany, and the Potsdam fes-
tivities were a very pretty sight. The light on
the military monarch, who is one of the best
of fathers and most sympathetic of men.

As the news of the sacrifice of his
life in the world country, and because
from the appearance of that heroic
adornment, it is evident that he was
an ordinary man, who would put up
with 24 hours if he could help it. "Con-
sequently, when it became known that he
had made the Emperor a present of his
heart, it became apparent that Mr. May-
held the same opinion about it everybody
else did."

Among other events the Emperor gave
his wife a life-size portrait of himself in the
uniform of the Imperial Body Guards with
the eagle helmet; also six admirably water-
colours, painted by Carl von Wittich, com-
memorating the trip to Windsor, Holland,
Greece and Turkey.

The Emperor dressed the gift table him-
self, arranging the presents for his children
and friends. The whole occasion was
happily domestic.

Popularity of the Empress.

The Empress is a favorite with the peo-
ple. The helms look upon her as a model
wife and mother and the men admire her
simplicity, benevolence and handsome face
and figure and genial manners to all who
come in contact with her.

It is said she takes a lively in-
terest in the development of her
growing capital city, studies its wants
and needs, and devotes a great deal of
time to the improving and enlarging of be-
nevolent institutions, the establishing of
charities to poor communities and to the
reading of newspapers of all shades of
opinion so as to keep up with the current
of public thought, never meddling, how-
ever, with high politics.

She is a good mother and an able ad-
ministrative person, and in her military func-
tions she is a model. Her military func-
tions in reviews, parades and other public
demonstrations, and her military procliv-
ities have made her very popular.

The people delight to see their young Em-
peror surrounded by his wife and youthful
family. The three older Princesses, for the

Emperor Frederick for Berlin. She says
her associations with that city are so pain-

sequently she spends most of her time at the
Castle of Homburg. Berlin has such an
effect upon her that her physicians have
forbidden her to go there.

Many Killed and Injured.

PARIS, Oct. 27.—A passenger train was
derailed near Melun yesterday, and as
over an embankment. A number of the car-
riages were telescoped.

The train, which was running at a high
rate of speed and was carrying a large
number of passengers, was derailed on a steep
incline and curve and it is supposed to have
been due to a defect in the brake of the
locomotive.

The embankment over which the train
rolled is 40 feet high. A dozen carriages
lie in a shapless heap at the foot of the
bank.

Fifteen persons were killed and 15 in-
jured. Three of the injured are not ex-
pected to survive. The bodies of the victims
are in a critical condition, one person having
both legs broken. The bodies of two of
the victims are crushed and mangled be-
yond recognition.

A relief train has arrived at the scene
and the work of rescuing is being carried on
with the greatest haste.

The sight is a sickening one. One of
the rescued is a little girl who was found
crying her mother dead.

France in Egypt.

PARIS, Oct. 27.—In the Chamber of
Deputies yesterday, M. Delcasse inter-
preted the position of France in Egypt
policy toward Egypt, the position they
had taken on the questions at issue with
Morocco in the matter of the Tunisian
and the alleged British intrigues on the
Tunisian frontier.

M. De Laisne also demanded that the
ministry make explanations as to the
relations between France and Italy.
He found fault with the Government for
partaking in the recent (Turkish) let-a-
Nico and also for not affording the
French pilgrims to Rome and for the
needless annexation of the Arch-
bishop of All.

M. Ribot in reply said the Government
of Morocco had been informed that France
would not tolerate any interference as
Tunisi as the district was wholly within
the zone of French influence.

In regard to Egypt he declared France
had not abandoned any of her former rights,
and recent events were tending to increase
French influence there. The rapproche-
ment between Russia and France, he said,
astonished nobody. It was simply the
sequence of all sympathies and a com-
munity of interests and formed a guarantee
of peace.

The minister justified the nation's par-
taking in the festivities at Nice, declaring
that it was in celebration of the memory of
the man who had fought for France.

Regarding the troubles which accom-
panied the French religious pilgrims to
Rome, he said the agitation provoked in
Italy by these pilgrim incidents was alto-
gether out of proportion to any offence
the pilgrims committed during their pre-
sence in Italy. The incidents having a
international bearing, the Minister de-
clared that the Government was justified in
so doing. Nobly would surely deny, M.
Ribot continued, that the bishops owed
this deference to the Government. Besides
this the Government had not hidden from
Italy its displeasure that the anti-pilgrim
manifesto had been followed by attacks
against France, and that thereupon Italy
had expressed her regret.

These ministerial statements were greeted
with applause, particularly by members of
the Left.

M. Hubbard brought forward a propo-
sition to suppress the embassy at the Vatican
on the ground that it was useless and
costly, it fostered the idea in Italy that
France admitted the possibility of the Pope's
ultimately making Rome.

M. Ribot, in a vigorous speech, combated
this proposal and it was thrown out.

Dublin Will Not Accept Killeney.

DUBLIN, Oct. 27.—Michael Davitt has
finally declined to contest the seat for North
Kilkenny, as he believes he will be more
useful outside of Parliament till the general
election occurs.

that there is no chance of Parliamen-

would defeat him and that Redmond has
less chance than Parnell.

and will get their data from the
accumulation of the late leader's papers. It
is confidently expected that the work will
take two years' time to complete.

Epidemic of Forgery.

BERLIN, Oct. 26.—There appears to be
an epidemic of forgery of notes and coins in
Germany. The police are receiving infor-
mation every day of forged and false notes.
A curious incident was the finding by a
man of a 100 mark note of 40 shillings in
his master's garden, the coin proving to be
counterfeit.

the latter were killed or wounded.

Catarrh

Is a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla—the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physicians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint and completely restored my health."—Jesse M. Bogg, Holman's Mills, N. C.

"When Ayer's Sarsaparilla was recommended to me for catarrh, I was inclined to doubt its efficacy. Having tried so many remedies, with little benefit, I had no faith that anything would cure me. I became impatient from lack of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and referred me to persons whom it had cured of catarrh. After taking half a dozen bottles of this medicine, I am convinced that the only sure way of treating this obnoxious disease is through the blood."—Charles H. Maloney, 113 River st., Lowell, Mass.

WORSE THAN MURDER.

ARREST OF A WHOLE FAMILY FOR FIRING POWDER MILLS.

In the Explosion Fifteen Lives Were Lost—The Revenge of a Discharged Employee—Tried to Spoil the Gaities of a Marriage—Fate-Clearer Work of Detectives.

WINDSOR, Ont., Oct. 27.—Edward Clark, his wife, Mary Clark and their 15-year-old son, Joseph, were arrested yesterday and held under bail in the aggregate sum of \$45,000 to meet the charge of destroying the property of E. I. Dupont & Co., the powder manufacturers.

For two years the Duponts and their vast local interests have been practically at the mercy of a gang of firebugs. The incendiaries left behind them a trail which clearly indicated the destruction of buildings had each been possibly fired. Within the period of two years the gang destroyed over \$200,000 worth of property, and the damages payable for the loss of more than a dozen lives and the despoliation of half a hundred homes.

For 18 months the Duponts have had detectives on the alert night and day, but despite the vigilance the work of destruction went on until the force of guards was strong about the properties marked for the torch that the fire fiends were stayed from the full consummation of their purpose. There has been no destruction since November last, owing to the strong guard on duty day and night, and the fearful and terrifying degradation had been partially forgotten until the sensational climax of yesterday. Others of the conspirators are under surveillance. It is rumored that two fellow-conspirators have been arrested at Philadelphia.

A Long Series of Crimes.
The first of this series of crimes was the burning of a large barn belonging to the firm the night after Christmas, 1867, involving a loss of \$25,000. Another barn was burned with 10 horses and 17 cows, January 21, 1870. This was followed by the burning of two other barns with their contents, including live stock.

About a year ago occurred the explosion of five powder houses. Fifteen men were killed and 30 or more injured, while 60 homes were wrecked. Other buildings for some around were damaged. Although the mills were so constructed that one could not be fired from the explosion of another, they went off almost simultaneously.

As if to further emphasize the hatred and vengeance of the perpetrators of this shocking crime, and to further exploit it, this explosion was timed for the eve of a sumptuous reception given in honor of the pretty bride of one of the junior members of the firm. The great preparations made for this event of themselves caused a relaxation of the vigilance maintained about the buildings against further arson.

Less than a month afterward the community on the Brandywine was terrified by the burning of a fifth barn, showing that the incendiaries were still at work. The offering of a large reward and the posting of a large force of detectives checked the work of destruction.

On the Trail of the Fiends.
Other detectives were set to ferreting out the criminals, and they came to the conclusion that the revenge of some discharged workman was at the bottom of these crimes. Suspicion after a time directed itself to Edward Clark, a surly fellow, who had been employed by the firm for 21 years and had just been discharged. Four detectives were set to work upon him.

William Wilkinson, the first to arrive upon the scene, soon had the unsuspecting Clark well in hand, and induced him to join him and his partner, a second detective named Lynch, in a hotel business. Clark was to be proprietor of the house, and Lynch, who represented himself as a moonshiner from Alabama, feeling from justice to escape punishment for having shot to death a United States marshal, was to furnish the money. Lynch had plenty of money and the bait took. After some dickerings, the two detectives began, paying for it in cash, Columbus Inn, a rural hostelry just outside the city, overlooking the Dupont properties. No expense was spared to make the place attractive.

Soon the two were successfully established in the hostelry. Shortly after a third detective named Harton appeared at this hotel

in quest of a quiet home, and in a short time was taken with a severe attack of catarrh. He was the return of a useful trouble. He needed the quietude of a cheerful retreat and the companionship of Clark. He made a proper of big pay, Clark's services as an attendant, and the two partners, declaring their ability to conduct the hotel, the pretentious patient had the pleasure of Clark's company to an asylum on the Hudson River in New York.

They were joined soon afterwards by Mrs. Harton, who seemed to have a mania for fire and explosions, and talked continually of the Duponts and their property and expressed a wish to see a "jolly blow up." Between them in time they had admissions enough from the Clark to make them feel justified in the arrests of yesterday.

WARNED TOO LATE.

The Result of a Flimsily Put Up Scaffold at Litchfield.

LITCHFIELD, Ont., Oct. 25.—A scaffold had been built out of the top window of the tower of the new furniture factory, 64 feet from the ground, and on this two men, Thomas Bailey and John Carter, were working. Contractor Leago was standing beneath and called to them that he did not think they were safe, but his warning was too late, for just as he spoke the scaffold gave way and its occupants fell to the ground. The men died in a few minutes. Bailey was married, Little was single.

Railway of Canada.

The direct route between the West and all points on the Lower St. Lawrence and St. Lawrence River, Province of Quebec, and New Brunswick, Nova Scotia, Prince Edward Island, Cape Breton and Magdalen Islands, Newfoundland and St. Pierre.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travellers.

New and elegant outfit sleeping and day cars are run on all through express trains. The popular summer sea bathing and fishing resorts of Canada, are along the Intercolonial, or are reached by that route.

The Intercolonial is the direct route to the superior facilities offered by this route for the transport of flour and general merchandise intended for the Eastern Provinces including Cape Breton and Newfoundland; also for shipments of grain and produce intended for the European market.

Personal attention given to all repairs, satisfaction guaranteed. Charge moderate. Spectacles to suit all sights. Field and Opera Glasses.

How to Sell More Goods.

Has it ever occurred to you that you might profitably increase your present volume of business by doing a little general newspaper advertising with the idea of reaching the Consumer? Take some special brand or make of goods which you honestly believe possesses merit, and push it with a moderate amount of advertising in the widely circulating news papers and magazines, or in the leading dailies and weeklies of some selected State or section. If done judiciously, you will soon begin to realize results in the form of increased orders through the trade.

These assertions are proved by the experience of business houses whose names are familiar from one end of the country to the other. Look at the record made by the manufacturers of "Royal Baking Powder," "Sapallo," "Pearline," "Pears' Soap," "Alcock's Porous Plaster," etc. It is not necessary to advertise your entire line of goods, but, by selecting some good article as a "leader," and persistently pushing that, it is possible to build up a large and independent trade.

RIGHTFUL WORK OF A JAPANESE
EARTHQUAKE.

Three Hundred Persons Killed in a Single City—The Disturbances Extend Over an Immense Extent of Territory—Gen.

LONDON, Oct. 29.—Despatches were received here last evening from Japan announcing that the telegraph wires beyond

Hiogo and Osaka were down. It was added that there had been an earthquake at Hiogo and the rumor was current that a great amount of property had been destroyed. A severe shock was experienced at Osaka

and the destruction of both life and property was very great. So severe was the shock that a number of houses were thrown to the ground and many of the occupants were caught in the falling buildings and crushed.

to death. A large number of persons succeeded in escaping from their tottering homes only to meet death in the streets. There is no means at present of estimating

the total loss of life, as all the telegraph wires in the districts affected were broken by the falling of the poles, which were thrown down by the seismic disturbance.

It is known that in Ouka alone the death

Higo is a seaport town of Japan on the island of Houdowith. It has a population of

over 40,000 and is situated about 22 miles from Osaka. Osaka in point of size is the third or fourth city in Japan, having over 350,000 people, but in social affairs, fashion, commerce and industry it takes the lead.

DUBLIN, Oct. 29.—Startling testimony was given to-day in the trial of Rev. Samuel Cotton, a rector at Carvagh, County Kildare, who was charged with criminal neglect and ill-treatment of the children in

Carvagh Orphanage. Rev. Mr. Cotton, who has conducted the affairs of the orphanage for many years, has made many appeals to the public for financial aid and has re-

received large sums of money by subscriptions for the maintenance of the orphanage. Owing to numerous complaints against that institution the Society for the Protection of Children recently made

an investigation into the manner in which the orphanage was conducted. It was ascertained that the children were in an emaciated, filthy and ragged condition. A girl had been chained by the legs to a

able-leg. The rooms of the orphanage were in the filthiest possible condition. In the kitchen was found a baby six weeks old, covered with dirty rags and dying of

cold and starvation. Other children were found in the same apartment crowded around a small fire almost frozen and half starved. All were weak and sickly and their growth had been stunted by the treat-

ment received. The sanitary condition of the establishment was perfectly horrible. The walls and floors were in a beastly condition and some of the beds used by the children were old bags and packing cases.

EVERY day makes more apparent the fact
that the town is going ahead rapidly.
Numerous changes have taken place in the
way of ownership of property. Many work-
ing men have been obliged to leave the town
which to build. One of the most suitable loca-
tions is that known as the Erie property, at
the west end, owned largely by Mr. Wm. Pit-
gerald. This tract has been closed the sale of a
very desirable house and lot, and has several
eligible lots on this property to dispose of.
The location is a most desirable one, and the
house built up, and it will be well to have a look
at the situation if one is at all disposed to buy.
The terms are very favorable and especially
low for cash, though payment on time may be
arranged.

OTTAWA SENSATION.
Mr. Adolphe Caron's Former Private Sec-
retary tried for Alleged Murder.

OTTAWA, Oct. 30.—The sensational
alleged murder of Adolphe Caron before
the Ontario Court yesterday morning.
The plaintiff, Mrs. Joseph E. Aldrich, testified
that she married her husband, G. E. P.
Aldrich, in London, England, in 1878, and
assigned to him some thousands of pounds
which had been left her by her parents. He
speedily was through the money and came
to Canada in 1880, settling in Montreal. Five
months later he received the position of
private secretary to Sir Adolphe Caron
and removed to Ottawa. His intemperance
in his position in his long and the position
Aldrich shamefully treated her, and became
infatuated with other women.
R. E. A. Beel, a boarder at Mrs. Ald-
rich's, corroborated the plaintiff's story of
ill-treatment. On one occasion Aldrich
turned his wife out of doors and she was
obliged to sleep in the police station.
Mr. Fairweather and Mr. Boardman, the
respondents, were both examined. They
denied any undue intimacy with Mrs.
Aldrich and testified that to their knowl-
edge she had been badly treated by Mr.
Aldrich on several occasions.
Mrs. W. Ball and Dr. Stillington, who
were boarders at the house, testified to the
same effect as the previous witnesses.
Martha Skinner was called as the first
witness for the defence. She was employed
as a servant girl. She swore that she saw
Mrs. Aldrich coming out of Mr. Fair-
weather's room several times, and on one
occasion she saw her coming out of his
room with her night dress on. She had
also seen her with Mr. Fairweather in a
tent in the yard. Under cross-examina-
tion of Martha Skinner she said she never
had acted improperly with Mr. Aldrich.

Daily Gets Six Months.
Toronto, Oct. 30.—When Dolly Beely,
alias Mary Shaw, appeared in the Police
Court yesterday she looked very ill.
She is suffering with inflammation of the
lungs. She was up on three charges of
fraud. She evidently had designs on the
prize of Rev. Mr. Brown, a Toronto
preacher, as she had engaged herself in his
house as a domestic. She could not speak
above a whisper and "Sergeant" Return had
to repeat his plea of guilty to the court in
each case. She was sent to the Mercer
Reformatory for six months.

BRITISH AND FOREIGN.

**THE LATE MUTINY IN THE GREN-
ADIER GUARDS.**

**Several Strenuous Wrongs Reported—
For Lorne for Parliament—The French
Railway Accidents and Directors Re-
sponsibility.**

LONDON, Oct. 30.—A report sent to the
official headquarters in regard to the recent
trouble among the Grenadier Guards says
that only two corporals were arrested, and
that the trouble was merely a childish re-
fusal on the part of the men to eat the food
provided for them because their complaint
that there was too much lard in the most
ration was ignored. There has been no
trouble since the incident referred to.

The Japanese Earthquake.
YOKOHAMA, Oct. 30.—There has been a
terrible earthquake along the southern coast
of Japan (Honshu), the principal island of
Japan. The shocks were most severely felt
in Osaka and Kobe, where most of the
foreign mercantile and consular buildings
were situated. The shocks were reported to
have been a series of small shocks, and the
destruction of the buildings was not great.
The shock was reported to have been a
series of small shocks, and the destruction
of the buildings was not great.

A Dictator Resigns.
ARIZONA, Oct. 30.—Hon. Sen. Frank
Pitman, President of the Municipal Council
and adviser to King Mafioso, has resigned.
The reason he assigns is that certain white
residents of the town have been making
attempts to force him to resign. He has
said that as a matter of fact he did not
resign, but that he was forced to do so by
the position of dictator of the town.

Joseph Replies to John.
LONDON, Oct. 30.—Joseph Chamberlain,
in a letter replying to Mr. Morley's recent
criticism of his policy, has said that he
responsible for the policy he has followed.
He says that as a matter of fact he did not
resign, but that he was forced to do so by
the position of dictator of the town.

After King Stork Comes King Log.
LONDON, Oct. 30.—W. J. Jackson, Chief
Secretary for Ireland, has stated that he
completely approves the policy and methods
of Mr. Balfour and believes that he has
done much to conciliate the people of
Great Britain and Ireland. Mr. Jackson
charges the opposition with having run away
from the issue raised by the Irish dissen-
sion.

Two Vessels Lost.
SAN FRANCISCO, Oct. 30.—The steamer
Alameda arrived today from Sydney. The
vessel brings reports of the loss of the
ships "The Albatross" and "The Eurydice."
The "Albatross" was lost on the 23rd inst.
and the "Eurydice" on the 24th inst. The
steamer "Wallara" of the T. & N. Co. is
also reported to have been lost. The ship
and cargo were valued at \$150,000.

Mr. Kenny Fined.
DUBLIN, Oct. 30.—The Mayoist Trust-
tees have resolved by a vote of 24 to 6 that
the public nuisance of Mr. Kenny, M. P.,
be removed from the city. Mr. Kenny was
found guilty of the charge, and was fined
£100. He was also ordered to pay the costs
of the prosecution.

Turkish Marauders Killed.
CONSTANTINOPLE, Oct. 30.—A conflict
between Turkish troops and an armed band
of marauders took place yesterday morning.
The marauders were killed, and the troops
were victorious.

Postoffice Record Stated.
LONDON, Oct. 30.—The mail brought by
the White Star line steamship "Tonic" which
arrived at Queenstown yesterday, after
having made a successful voyage, was
distributed in this city before 9
o'clock this morning, thus beating the best
previous postoffice record for such work.

Directors Meet Responsibly.
PARIS, Oct. 30.—The Chamber of Deputies
yesterday adopted a resolution holding the
railway directors responsible for the recent
accidents which have occurred recently on
their various lines.

Eight Men Suffocated.
BERLIN, Oct. 30.—Eight workmen were
suffocated today by gas in the cellar of a
new building at Mackrich, near Ostern,
Moravia.

Marquis of Lorne for Parliament.
LONDON, Oct. 30.—The Marquis of Lorne
has consented to stand for Central Bradford
as the Unionist candidate.

A British Steamer Lost.
LONDON, Oct. 30.—A British steamer has
been reported to have been lost. The
steamer was carrying a large cargo, and
the loss is a serious one.

The Coal Output.
NEW YORK, Oct. 30.—There was a long
meeting of the representatives of the coal
producing companies today, but the only
action was to allow an output of four million
tons. This is practically unrestricted
production, and is believed to be the maximum
that the companies can produce.
Each company will during the month go
ahead and produce as much as it possibly can.
Prices are left unchanged.

A Self-Defence Story.
PORTLAND, Ore., Oct. 30.—John Curtis,
one of the State Prison convicts at Salem
who about two years ago cut off
one of his hands to avoid work,
has just been released. As a pun-
ishment for his crime, he was ordered to
work in the State Prison for a year.
He was released today, and is now
living in Portland.

ELECTION TRIALS.

**South Perth Election Voided by the Act
of Mr. Trow's Non-Residence—Petition
Dismissed.**

STRAITFORD, Oct. 30.—South Perth elec-
tion trial was conducted here before Jus-
tices Rose and McMillan yesterday morn-
ing. The petitioner was represented by
B. H. Ouler, Q. C., and Mr. Trow, the Re-
form whip, who was the respondent, by
A. B. Aylesworth, Q. C. Several charges
were entered into but not much was ac-
complished until an alleged offer of money
to one Nicholas Schillinger, of Fullerton,
was reached. He swore that James Trow,
Jr., and Mr. Ouler, conspired to buy his
vote. This statement was corroborated by
two other witnesses but denied by Trow.
On court resuming to read Justice Rose said
that the Lordships were prepared to de-
liver judgment with respect to the Schill-
inger case. He held that the charge was
proven that it constituted an offer of money
and that James Trow, Jr., was an agent of
respondent. Justice MacMahon concurred.
After a lengthy consultation of counsel an
agreement was arrived at by which the peti-
tioner agreed not to press the personal
charges and the respondent consented to
pay costs and to the voiding of the election.
The petition against Mr. James Ouler,
M. P. for North Perth, has been set for trial
to-morrow.

South Norfolk Election Dismissed.
SUSSEX, Oct. 30.—The trial of the elec-
tion petition of William Morgan against
the return of William A. Charlton, the
member of the Legislative Assembly for the
South Riding of Norfolk, was heard here
yesterday before Mr. Justice Ouler and
Mr. Justice Street. On the opening of the
case, Mr. Morgan, counsel for Mr. Morgan,
stated that the evidence against
Mr. Charlton being insufficient to meet him
in the opinion of counsel he did not intend
to offer any evidence. On this statement
the court dismissed the petition without
costs. The cross petition of
Charlton against Morgan was also dismissed
without costs.

when Charlton was elected by 97 majority.**

Hon. C. F. Fraser in Poor Health.
BURLINGTON, Oct. 30.—The health of
Hon. C. F. Fraser, Commissioner of Public
Works, is such that his medical advisers
deem it imperative that he should spend the
coming winter in a milder climate. Mr.
Fraser will leave this week for Denver,
Colorado, where he will remain during the
winter, but if, unimpaired by his condition, he
will probably go on to Southern California.
He will be accompanied by Mrs. and Miss
Fraser.

To Recall Kagan.
WASHINGTON, Oct. 30.—The "Chilian Junta"
having declined to accede to Minister
Kagan's request for a guarantee of the pay-
ment of the obligations of the U. S. against
the Secretary of State, Secretary Blaine will
make a stern and formal demand for some im-
mediate assurance of proper action on the part
of the Junta, and if no such assurance is forth-
coming, Minister Kagan will take his passage on
the Baltimore for the United States, thus
severing diplomatic relations between the
United States and Chile.

Baptist Foreign Missions.
LONDON, Oct. 30.—The Women's Foreign
Mission Society of the Baptist Church
opened its annual session yesterday at
St. James's Hall. The finances showed receipts
\$4328.90. These officers were
elected: President, Mrs. R. McManis,
Toronto; vice-president, Mrs. Humphrey,
Toronto; second vice-president, Mrs. Barker,
Ingersoll; corresponding secretary, Mrs.
D. A. McElroy; treasurer, Mrs. John
Alexander, Toronto.

Who Left Two Husbands.
TORONTO, Oct. 30.—The Toronto General
Trusts Company applied at Osgoode Hall
yesterday for administration of the estate
of Mrs. James A. McManis, of East
Gwillimburgh. When she died, her hus-
band, who is a farmer, thought the only
process necessary was to take immediate
possession of his wife's property, which con-
sisted of a small farm and some land in
Orillia worth about \$2000. But serious
difficulties arose when it was discovered
that Mrs. Gibney left another husband
named William Smith, who is now in the
insane asylum at Hamilton. This made
Mrs. Gibney's position a very unpleasant one,
when he found he had been innocently liv-
ing with another man's wife. The order
for administration was granted.

St. Louis, Oct. 30.—Walt Jones, the

escaped from the city jail on the afternoon
of Oct. 2 and was recaptured in Kansas
City shortly afterwards, was brought before
the grand jury yesterday. In consideration
of receiving a light sentence when he comes up

that jail guard Fitzgerald for \$250 per-
suaded him to escape, and that one of

that section, to recover \$5000 damages for
the ruin of the plaintiff's business by a boy-

COUNT MERCIER'S STORY

**KNEW NOTHING OF THE ARMSTRONG
OR PACAUD BUSINESS.**

**There Was to Have Been No Interference
with the Government's Contract—It Is
Contracted—It Is Fully Performed
and Did Nothing Wrong—Got No Swag.**

QUEBEC, Oct. 30.—At the commission
yesterday Mr. Mercier, once again, de-
clined to state the truth, but he did not
deny the fact that he was in the city of
Quebec at the time of the Armstrong
contract. He had no special instructions
regarding the matter whatever. In Europe
he received two letters on the subject of the
railway affair, one from the Hon. Mr. Gar-
neau and one from Hon. Charles Langier.
Unfortunately he had destroyed both. The
first he heard was through a telegram re-
ceived from Armstrong by Charles Prolet,
which said that the matter had been set-
tled, but when the Chevalier told him
that he had been in the city of Quebec at
the time of the Armstrong contract, he had
received official notification. This was
about the 20th of April. He did not
ask permission to introduce him to a syn-
dicate of well-known French capitalists who
had ten millions ready to take hold of
the "road," but he "did not" (Mercier)
could not "do" more than say.

**He produced a type-written copy of the
letter which he sent to Mr. Charles Lan-
gier on the 19th, which stated amongst
other things that the Premier had asked
the Ministers would follow the letter of the
law in every respect, though he admitted
that they ought to be better judges than he
of the situation. It also begged them to
be very prudent in whatever they did.**

**Speaking about the blank note left by
him he brought in Mr. Laurier's name for
the first time. Mr. Pacaud had spoken of
three blank notes; he thought there were
four. About the time of the Federal elec-
tions he had extended the freedom of his
house to Mr. Laurier, and when the latter
asked him how about election expenses he
offered to have notes signed by him for
that purpose as he had often done before.
It was understood by Mr. Tarte and all the
others present that no matter whether they
endorsed the notes or not they all were to
bear equal shares.**

**The cross-examination by Mr. Casgrain
was very dramatic and lasted 30
minutes. Nothing new was brought out
in it.**

Mr. Angas was examined and corroborated
the statement given by Mr. Mercier as to

New York. At the Brunswick Hotel he spoke

The Daily Review.

FRIDAY, OCTOBER 30, 1891.

MR. BOWELL.

It is reported that Hon. Mackenzie Bowell may leave the Customs Department and take charge, in the reconstructed Cabinet, of the Department of Railways and Canals, of which he has had charge since the late death of Sir John Macdonald. How far this may be true we do not know, for the discussions of the Cabinet are secret, its members being bound to secrecy by the oath of office. At the same time the REVIEW would be pleased to see Mr. Bowell become real as he is now acting head of the Railways and Canals department. In his position as Minister of Customs, which he has held longer than any other Dominion Minister, he has shown a careful, thorough, able and economical administrator, one whose sole desire is to have the public service well performed and with as small cost to the country as is consistent with the public interest, and one who has the ability and energy to carry out his desire. We do not say that there are not others in the Cabinet or on the Conservative side of the House who could competently administer the affairs of this important department, and we do not pretend to know in whose hands it will be placed, but if Mr. Bowell should take charge of the department his appointment will give satisfaction in Ontario, not perhaps especially in this section with which he has been more closely connected, and every province will feel that the department has been placed in thoroughly capable hands.

THE VALUE OF SMOKE.

It can be made an Article of Profit by a Confession of Sinners.

Smoke-alarm is already a public question. It has become a menace to health and an irresponsible distribution of dirt in the lungs and laundries of our industrial centres. It has to go. The veto of civilization is against it. It may be innocent of bacteria, but it is synonymous with asthma and strangulation. It has taken some time to convince the average citizen that dirt in the air was not only dangerous to clean linen, but more so to public health. Common sense has at last recognized the fact, and the abatement or abolition of the smoke nuisance has called into play much of the scientific and practical ingenuity. Smoke consumption has been the objective point, but we have gone a step beyond that, and a process is announced by which smoke can, in association with tanning gases, be made into oil. Prof. V. B. Lewis, of Great Britain, has recently called public attention to certain facts in this connection. Among these practical inventions is one including three or four Nicotianum works, to which a certain gas company is paying an annual rental for the right of collecting smoke and gases from blast furnaces.

We quote the modus operandi from an English contemporary: "Invention: The smoke and gases are passed through several miles of wrought-iron tubing, diminishing in size from 6 feet diameter to 18 inches, and the gases cool there and are deposited a considerable yield of oil. At Messrs. Dixon's, at Glasgow, which is the smallest of these installations, they pump and collect about 80,000,000 cubic feet of furnace gas per day, and recover on an average 25,000 gallons of furnace oil per week, using the residue gases, consisting chiefly of carbon monoxide, as fuel for distilling and other purposes, while a considerable yield of sulphate of ammonia is also obtained. In the same way a small percentage of the coke ovens are fitted with condensing gear and produce a considerable yield of oil, for which, however, in its crude state, there is but a limited market, the chief use being for kerosene and other lamps of the same description, and for treating lumber for timber preservation."

A Pleasant Herb Drink—Astringent Medicine.

The druggists tell us that the people call it "the new cure" for constipation and sick-headache discovered by Dr. Blue Lane. It is said to be Orange Grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells at 10c and 25c a package and is called "Lane's Family Medicine."

DECADENCE OF FRANCE.

ITS ANNUAL DECREASE IN POPULATION A SOURCE OF ANXIETY.

Proposal of a Human Remedy for This Modern French Calamity—The Taming of Bachelors—The Teaching of History—An Able and Remarkable Article.

The annual decrease in the population of France must be a source of more real anxiety to thoughtful Frenchmen than fiscal burdens, governmental instability, and the triple alliance. Although the fear of the Journal Officiel that unless an immediate change takes place the French nation will soon be totally extinct may be exaggerated, the actual condition of affairs is serious enough to justify the feeling. When the number of births in a country show a diminution of nearly 100,000 every decade he may be an optimist indeed who could be very hopeful of that country's future. A society may resist many evils; hostile invasions, civil wars, despotism, or anarchy may vainly conspire for its destruction. France has been the victim of these and other calamities, and has escaped from them, not without honor. Nay, the needs of moral depravity may be wide spread among a people, and it may live and prosper notwithstanding. So long as the corruption of morals does not hinder citizens from marrying and giving in marriage it will simply be a scourge that is more or less prevalent in all societies. A nation is only in danger of death when this corruption takes the form of a general disinclination to marry. If the evil becomes permanent it will not merely produce a temporary decay from which a people sooner or later may recover; it means utter ruin in a future more or less remote.

It is of course to be expected that French legislators should be asked to provide a remedy for the evil. It has been proposed to regulate the tax on the number of children in the family of the taxpayer, and to make up for the loss of revenue thus incurred by taxing bachelors. If morals were created by the laws of a nation, some result might be expected to follow from enactments dealing with a national evil. But the teachings of history prove that all the efforts of political wisdom fail in presence of a vice deeply rooted in the habits of a people. There are severe laws on the continent of Europe against duelling. They are violated openly without fear of consequences, and the duellist appears before the magistrate, attended by crowds of friends and sure of general sympathy should he be condemned to a slight imprisonment. It is to be expected, then, that the disease is not universal as French alarmists seem to dread, as in that case legal measures would be as fruitless as an effort of the Sultan against polygamy. Many French writers are fond of comparing the social condition of their country at the close of the century with that of the Roman Empire at its decline. The fin de siècle has produced a school of authors who claim to express actual social conditions, and rejoice to be known the decadents, or offspring of social putrefaction. Many of them are men of brilliant intellect, and the extensive circulation of their works is proof that they must reproduce the ideas and aspirations of no insignificant portion of French life. Their existence is evidence of a profound moral disorder in ideas and morals which at least partially assimilates the forces generating them to those that brought about the downfall of Rome. The increasing prevalence of celibacy, the scourge at which French patriotism stands aghast to-day, attacking society in the very sources of its life, it broke through every barrier and resisted every remedy, in spite of the efforts of the State to defend society by laws which these laws were similar in scope to those that are now proposed to meet the same evil in France, a brief reference to them need not be uninteresting. Even in the time of Caesar marriage had diminished to an alarming degree, and the number of bachelors had increased in proportion. Caesar quickly discerned the evil consequences, and endeavored to apply a remedy by restoring the censorship, an office regulating the morals of citizens, and by giving rewards to those who had many children. But these measures proved insufficient to check an evil that menaced the destinies of the empire. Augustus met it with enactments of the greatest energy and severity. Bachelors were excluded from public office and subjected to every kind of degradation, and even forfeiture of rights. Rewards were lavished on husbands and fathers. But the result only gave fresh evidence that laws have little force unless backed by the sympathies of the majority of a nation, or when it deals with exceptional acts or offences. Before the Emperor died he had had experience of the futility of his efforts. Succeeding Emperors were compelled to modify them until at last they fell into disuse, a few fragments remaining in the codes as a final witness of the impotence of legislative power against a moral epidemic. The "decadents" of the modern world proved as successful in resisting the attempts made to force them into matrimony as will their nervous Parian namesakes who thought the French legislature copy the Julian and Papien jurisprudence. Yet it was not the difficulty of getting release from an irksome law that could have rendered marriage such a terror to the men of ancient Rome. The facility for divorce was far greater than in France under the Republic, or even in the United States. The memorable incident in the matrimonial experience of Cato, a name typical of austere virtue, is a case in point. The celebrated orator Hortensius, one of his most enthusiastic admirers, was anxious, at whatever cost, to ally his house and race with that of so virtuous a man. He asked his daughter in marriage, but she was betrothed to another. Repulsed on one side, he returned to the charge in an extraordinary fashion. It could give him not to become more closely connected with a sage whom he venerated so deeply. As he could not have the daughter he begged to be allowed to marry the mother. Cato's wife, Marcia, was a model spouse, and had borne her husband several children. Her easy manner of divorcing husband and wife would hardly obtain at present in the freest and easiest of the Western States of our neighbor. But Cato was not disturbed by the startling nature of his friend's request. He went at once to consult his father-in-law, Philippus. Philippus consented to the divorce provided Cato signed the new marriage contract of his daughter. Cato was as good as his word, affixed his signature, and when Hortensius died there was another marriage ceremony between him and Marcia. When divorces might be effected in the simple manner it seems strange enough that marriage should have excited such repugnance. But there was this fatal obstacle in the eye of the Romans, that while the husband could easily get rid of the mother he could not free himself from the children. He had to rear and support them, and this charge was as heavy as on the budget of his personal pleasures, and a restriction on his virility.

The Roman Empire, however, had one resource denied to the modern State. It could not "do entire tribes to slavery," and they followed the steps of its conquering armies returning into Italy. These slaves formed the nursery out of which Rome drew for some centuries the material for doing the work the larger done by the slaves of freedom. Then the slaves became free, and were as little inclined to embarrass themselves with reared children as their master, and so celibacy in its turn wasted away the new blood of a decaying society was trying to introduce into its veins, until Rome died exhausted, Christian in name but Pagan in morals and corruption. When marriage, the source of life and reproduction for families and nations, ceases to have attraction for a large element in

any nation, that nation is in danger. The condition of France, as shown by the statistics of her birth rate, is indicative of a deeply seated social malady. But it is to be hoped that the malady is neither chronic nor inveterate and the nation has shown such wonderful powers of recuperation in the material and political order that it seems rash to despair, as many of her sons do, of her moral regeneration.—Toronto Mail.

An Approach to Perpetual Motion.

Optical attention is drawn to a clock to be seen at Brussels, which comes about as near being a perpetual motion machine as can be invented, for the sun does the work. The following is the method by which it works: A shaft exposed to the solar rays causes an updraft of air, which sets the fan in motion. The fan is connected with a mechanism which raises the weight of the clock until it reaches the top and then puts a break on the fan till the weight has gone down a little, when the fan is again liberated and proceeds to act as before. As long as the sun shines frequently enough and the machinery does not wear out, the clock will keep in perpetual motion.

The Homestead Law of Texas.

The homestead law of Texas sometimes acts harshly for creditors. A letter from Austin says that a cattleman failed a short time ago and the creditors took possession of the property, subject to attachment. The man's family live in a house for which they have been offered \$50,000. The price asked is \$75,000. This is made possible by the peculiar homestead exemption law of Texas. The homestead cannot be taken for debt. And the homestead is defined to be a piece of ground costing not more than \$5,000 and whatever improvements there may be thereon. In this case the residence is the finest in the city where it is located. It is one of the finest in Texas. It cost more than \$50,000, but it is entirely out of the reach of the creditors of the estate. It is therefore easy for a man in Texas to tie up a fortune in a homestead.

A Two Shilling Petter.

Last in a little colored church congregation on Missionary Ridge one Sunday afternoon, and when the minister ascended the pulpit he said: "We haven't given to any sermon to-day. It's just given to be to take up a collection to finish off the new meeting house. I don't mean to say that each have been gathered cord to how much you give on earth. Brudger Jackson will now pass the hat."

The hat was passed, turned upside down on the desk and the contents counted. Then the preacher said: "Brudgers, dar't two bits in de hat, an' I seed de white man frow in de. He is darfore gwine to a two shillin' heaven, an' de hull rest of you won't even git a look frow de here! We will now sing de 'Hosanna'!"—New York World.

CHEESE!

Ripe cheese is half digested before being eaten. New cheese is the opposite. We have just received a lot of splendid, ripe, mellow and finely flavored cheese, in both large and small packages. Those who like a good article should try this cheese. The price is a trifle higher than for new cheese, but the flavor and nutriment will make up the difference. Suppose you order a few pounds and try it.

W. J. MASON & SONS,

Grocers, 429 George-st.

The Daily Review.

FRIDAY OCTOBER 30, 1891.

THE CITY AND SUBURBS.

Personal.
Mr. J. J. Sheehy and his bride arrived home last evening.

The Work of the Parish.
The frames and other woodwork on the outside of the George-st. Methodist church have been repaired and a further improvement in the appearance of that fine edifice has thereby been made. The work was well done by Mr. D. Kernehan.

Neglect of the hair often destroys the vitality and natural hue and causes it to fall out. Before it is too late apply Hall's Hair Restorer, a sure remedy.

After the Conspiracy.
The Dominion Government is after those whom Parliament declared to have entered into a conspiracy to defraud the Public Works department. And right enough, too. It would do no harm to such persons to have their names put in the public domain, as they are now.

Plate Glass Broken.
A stone thrown by a boy yesterday went farther than the thrower intended and struck the plate glass in the George-st. window on Mr. J. J. Sheehy's grocery at the corner of George and Armstrong-sts. A loud crash followed and the glass was badly broken. It is perhaps useless to warn boys against such carelessness, but they should take warning from such damage being done to be careful not to injure property.

Do You Cough?
Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure throat and chest. It will cure influenza and bronchitis. It will cure all diseases of the lungs. It is a pure balsam. Hold it in the mouth and see how clear and thick it is. You see the cough is cured. Large bottles 50c and \$1.

Congregational Reception.
In connection with the St. John's dedication festival a congregational reception will be held in the school house on Tuesday evening next. The meeting to arrange for this was not largely attended, and those present felt that it was unnecessary to form any special committees, on the ground that it could safely be left to the ladies of the congregation as a whole to make the necessary provision and other arrangements. Mrs. Hammond has kindly undertaken the general supervision on this occasion. Church people from all parts of the town are warmly invited to be present at the semi-annual reunion.

A New Financial Office.
Mr. Jay W. Duxsee has opened an office at 429 George-st., where he will conduct a real estate, money lending, insurance, collecting and general financial business. Mr. Duxsee has been a resident of Peterborough for some years and is well known in town as a gentleman of business ability and integrity, and he will carry into his business a reputation and capacity that will be of benefit to those who engage his services. In the real estate branch of his business he will handle town and country property, and will do fire and life insurance business, as well as account collecting and money lending.

Prevention is Better.
Than cure, and those who are subject to rheumatism can prevent attacks by keeping the blood pure and free from acid which causes the disease. For this purpose Hood's Sarsaparilla is used by thousands with great success. It is the best blood purifier.

Constipation is caused by loss of the peristaltic action of the bowels. Hood's Sarsaparilla acts and invigorates the liver.

Help nature by using Hood's Sarsaparilla. It is for habitual constipation, and all liver and stomach troubles, perfectly safe at any season and in any climate. Price 25c.

ORANGE BLOSSOMS.

A Happy Matrimonial Event—Bradburn-Winch.

The residence of Mr. H. H. Winch, George-st., was the scene of a happy event last evening, the solemnization of a felicitous matrimonial event amidst beautiful and brilliant surroundings. It was the marriage of Mr. Winch's daughter, Miss Sara, to Mr. Halliburton (Bert) Bradburn. The wedding ceremony was performed by Rev. H. H. Locke, of the George-st. Methodist church, in the presence of only the immediate friends of the contracting parties. The surroundings were beautiful and complete. The residence was beautifully decorated with flowers and the bride and groom were seated at a table beneath a heart of delicate flowers while the nuptial knot was being tied. The bridemaids were Miss May Winch, sister of the bride, Miss Alice Robinson and Miss Phoebe Fife, while Mr. Wm. Bradburn assisted the groom. The bride was becomingly and elegantly attired in a charming gown of pearl satin, with girde, trimmed with heavy gold and French lace, and wore a veil of white tulle with orange blossoms. The bridegroom wore a suit of cashmere, trimmed with silver satin and lace. Miss Robinson was attired in a dress of cashmere, trimmed with Spanish silk lace, and Miss Fife wore a salmon colored cashmere trimmed with cream lace and heavy silk cord. After the ceremony the party sat down to an elaborate dejeuner which had been prepared by Mr. H. H. Winch in his best style. Warm congratulations were extended to the happy couple and they left on the nine o'clock train amid showers of rice and well-wishes for a bright, unclouded future.

The groom is a young man popularly known in town, and the bride is an estimable young lady with an extended circle of acquaintances. Their marriage will be the occasion of congratulations and felicitous wishes extended by many friends. They take an extended honeymoon trip westward and upon their return will take up their residence on London-st.

BOARD OF HEALTH.

A Meeting at Which Some Important Business Was Transacted.

A meeting of the local Board of Health was held on Thursday evening.

The members present were Messrs. Wm. Lock, Chairman, Dr. Brennan, Dr. Fife, H. D. Denny, B. Shorley and Edgar Pearce. Chief Bozsel, Sanitary Inspector, was also on hand.

After routine a communication was read from Dr. Clarke, Medical Health Officer, referring to the previous engagement he found it impossible to attend the meeting, and stating that the town was almost free from infectious diseases, being but one case of typhoid fever reported.

Some discussion followed regarding a slaughter house at the south end of the town, and upon it being understood that the complaint would be looked after at once, the matter dropped.

Mr. Pearce drew attention to the fact that he had been informed that the well at the Central school was still being used. Mr. Shorley said it was closed, as he understood, and it was agreed to move the pump at once.

Moved by Mr. Pearce, seconded by Dr. Brennan, That the matter regarding the Edgemoor school be fully investigated by the Health Inspectors, and if the present use of it be found to be detrimental to the public health, that the parties liable be prosecuted under the Health Act.—Carried.

The meeting then adjourned.

POLICE COURT POINTERS.

The Prosecution Before the Magistrate—A Newspaper Man in Court.

Police Magistrate Dunlop was on the bench at the Police Court this morning, and had quite an array of business awaiting him.

Matthew Wynn, Walter Kerr's assailant, was to have come up for preliminary trial this morning. Walter's condition is not yet such as to make his recovery certain, and the preliminary proceedings will therefore be stayed to await developments. Wynn was remanded to goal for another week.

Henry Christmas, the young man who assaulted one of his own recognisances to appear this morning to answer to the charge of assaulting Constable Stewart, failed to answer to his name. A warrant will bring him to the Court now.

A young man was charged with having acted in a disorderly manner on the street on Sunday night last. He was found guilty and fined five dollars and costs.

Mr. W. H. Robertson, publisher and proprietor of the Morning Times, was the prosecutor in two charges. Mr. E. H. Edwards appeared for the prosecution and Mr. G. W. Hutton for the defense.

The first charge was that Mr. Robertson had on the 24th of October caused to be published an advertisement of a scheme for the disposal of personal property to wit \$40,000, by a scheme of obtaining the "ad" complaint of was that of the Gazette advertisement. Mr. Robertson when asked to plead admitted the publication of the advertisement but pleaded "not guilty" to the charge.

His counsel objected to the information holding that the charge should be more specific and name the clause of the Lottery Act under which it was laid. His objection was noted and then Constable Adams went into the box with a marked Times he had purchased at the office containing the objectionable "ad." The defense raised a doubt as to the identification of Mr. W. H. Robertson as proprietor and publisher of the Times and several witnesses were called to establish the fact. Then three local horsemen were called to tell the Court what the newspaper was, and between this and the argument by the counsel which followed, the Magistrate gained considerable enlightenment on a racing sweepstake. Mr. Hutton for the defense submitted that the charge did not come under the Act and that the sweepstake was not a scheme for the disposal of a real or personal property. The Magistrate allowed the case to stand until Tuesday for judgment.

The second charge against Mr. Robertson was that of causing to be printed cards for the disposal of personal property by a game of chance, in other words printing raffle tickets, to this charge he pleaded guilty. His counsel asked that the fine be made a nominal one, as Mr. Robertson did not know it was illegal to print raffle tickets, work which he said all the offices were doing. Mr. Edwards explained that the object of the prosecution was to make these cases so that newspapers would know whether they could publish sweepstake "ads" or not. The Magistrate reserved judgment in this case also.

The N.Y. Morning Journal.

At the Windsor Theatre last night a large audience applauded the excellent company which presented "True Irish Hearts." It is a picturesque Irish melodrama, filled with sparkling Irish wit, interspersed with songs and dances and charmingly set with several very pretty scenes. Dan McCarthy, as Larry Langan, is a clever young actor, while Danny McCarthy, as Little Bright Eyes, won constant applause.

KEENE CHRONICLES.

A Word on School Matters—Good Luck Shooting—Other Notes.

Correspondence of the Review.
SCHOOL MATTERS.—The great interest in our school section is settling down. The letter in our weekly Examiner signed "Fair Play" should have been signed "Unfairness," or something worse, as it was full of inaccuracies and besides it carried an insult to one of our respected ministers. With the subject reported of the Inspector we drop the subject, submitting what we cannot help but feel is a fair trial. Beware of imitations.

REVIEWS.

THE COSMOPOLITAN.—As the time approaches for the World's Fair, greater interest is being felt in the marvelous city of the Lakes. The Cosmopolitan Magazine has devoted 28 pages of the November number to a most interesting and exhaustive article upon Chicago from the pen of the famous novelist, Chas. Charles King. Count James, who spent some time on the ground for that purpose, and Harry Fern, have illustrated the most charming features of the city by twenty-eight sketches. An article upon Alfalfa Farming in this number, is by John Brien Walker, who, as the result of ten years spent in the saddle, in direct supervision of his farm Berkeley, one of the largest alfalfa farms in Colorado, gives the reader much valuable information in regard to the irrigation and curing of the wonderful plant which is destined to become one of the most valuable products of the United States.

General Sherman's letters to his daughter, written from the field during the war, are a valuable contribution to the literature of the war. Judge Tourgeon's charming story called an Outing with the Queen of Hearts. Louise Chandler Moulton's story called an Outing with the Queen of Hearts. Louise Chandler Moulton's story called an Outing with the Queen of Hearts.

CHEESE!

Ripe cheese is half digested before being eaten. New cheese is the opposite.

We have just received a lot of splendid, ripe, mellow and finely flavored cheese, in both large and small packages.

Those who like a good article should try this cheese. The price is a trifle higher than for raw cheese, but the flavor and nutriment will make up the difference.

Suppose you order a few pounds and try it.

NOTICE TO CONSERVATORS.

Monday is the last day for putting your name on the voters' list.

If your name is not already on the list you can have it put on by calling at the office of Dennison & Stevenson, 417 Water-st., between the hours of 9 a.m. and 9 p.m. to-day or Monday.

Deal Skin in All Stages.

Fairweather & Co. have an exhibit in the way of fur that cannot be seen in any other fur store in Canada. It is a large skin of an Alaska seal. One part of the skin is in its natural state, another is plucked, the third shows the skin in the first stage of dyeing and the fourth is the seal skin as it is made up in mantles or cape. It is an unique exhibition.

Foultry Picnic.

There was a good market this morning and prices were pretty stiff. There were hundreds of pounds of more coming down from Lindsay to be offered on the market. Chickens sold at from 40c to 50c, ducks 35c to 40c, and geese 30c to 40c, and turkeys were selling at all prices according to size.

Don't Delay.

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throats and inflamed throats. It will cure influenza and bronchitis and all diseases of the throat. It is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and \$1.

St. John's Notes.

A memorial window, in memory of the late Rev. J. W. R. Beck, is being placed in St. John's church to-day. It is to be regretted that the head of the figure was unfortunately destroyed coming down from Toronto and the window will not be complete until it is replaced.

Rev. Mr. Loucks has so far recovered as

to leave for home for a month's rest. Rev. O. H. Kenrick is in Toronto for a few days, but his Bible class will be held as usual to-morrow. There will be no children's service to-morrow.

The preacher morning and evening will be Rev. S. Daw, of Christ church, Belleville.

Suspension of the Times.

In this morning's issue of the Times the announcement is made that the publication of the Daily and Weekly Times has been temporarily suspended "owing to the rapid growth and development of the circulation of the Canadian Agriculturist, which affords a more profitable field of enterprise than the publication of a daily journal. In a field already well supplied, and not affording scope for so many publications of this class." The people of this town have been given superior local newspapers, which have devoted more space to the news and varied interests of their town than papers in other places. The good reputation which Peterborough possesses, throughout the country, is largely owing to the character of its press. The expense consequent upon issuing such publications is heavy and the field did not justify the publication of three daily journals. The Review reciprocates the fraternal expressions of the Times.

THE STREET RAILWAY.

The committee will make a recommendation to the Council on Monday night. The Street Railway Committee of the Town Council met last evening when the members were all present. The Committee consists of Messrs. Moore, Davidson, Hall, Langford and O'Neill. Mayor Stevenson and Councilors Bradburn and Dawson were also present.

Matters in connection with the street railway were discussed at considerable length and in detail. It was finally decided to make a recommendation to the Council at its next meeting on Monday night. This report will recommend that the franchise for the electric road be given to the Edison syndicate subject to the terms of the report and recommendations, and that the Town Solicitor be requested to prepare the necessary by-law for the carrying out of the recommendation and a contract to be entered into by the syndicate and the town.

The recommendation requires the syndicate to lay and have in operation by the first of July next what is estimated at two miles and a half of railway, viz., from Hill-st. to Ward. It also requires the completion of another mile of road during the following year, another mile the next year and half a mile the third year, making in all five miles of railway.

The minor details of the agreement will come up when the committee report is presented on Monday night.

THE BATTALION MATCHES.

The List of Matches and Prices for the Annual Match of the 5th Regiment.

The annual matches which are to be held at the ranges in Ashburnham on Thanksgiving Day, Nov. 12th, should attract a large number of competitors to the butts. The prizes amounting to \$100, are liberal and well distributed, offering inducements to members of every company to participate. The entrance and ammunition is free and the chances of winning are good, while the benefit of the rifle practice is well worth the day's outlay to any soldier. The events are open to all soldiers in uniform.

The following is the list of the matches and the regulations governing them:— BATTALION MATCH.—Ranges, 100 standing; 200 kneeling; 300 and 400 any military position. 5 shots at each range, 50 prizes in cash.—First prize, \$3.00, three prizes of \$2.00, four prizes of \$1.50, ten prizes of \$1.00, sixteen prizes of 75 cents, 18 prizes of 50 cents. Total 50 prizes, cash \$45.00.

COMPANY TEAM MATCH.—Open to one or more teams of ten men from each company. Teams to be named before the commencement of the second range of the Battalion Match and the scores in that match to count. First prize, cash \$10.00, second prize, cash \$5.00. The Company Challenge Cup will be held for the year by the winning team.

RANGE PRIZES.—The six highest scores at each of the ranges in the Battalion Match will receive the following prizes:—First, \$1.00; second, \$1.00; third, \$1.00; fourth, \$1.00; fifth, 75 cents; sixth, 75 cents. Total prizes for each range, \$7.00 for each range.

NURSERY PRIZES.—Twelve prizes in cash will be awarded by each company for Nursery prizes. Scores in Battalion match to count. Open to all men who have never won a prize outside regimental matches. First \$1.50; second \$1.25; three prizes of \$1.00; three prizes of 75 cents; four prizes of 50 cents. Total 12 prizes for each company, \$10.00 for each company.

REGULATIONS.

1. No man who is not properly dressed in uniform will be entitled to prize money.

2. Snider rifles bearing government view must be used.

3. The range officers may disqualify any man who fails to conform with their orders.

This is Halloween's.

To-night is Halloween's and the mischievous youth will no doubt take advantage of the old-time custom and indulge in pranks with their neighbor's gate or front door. The features of celebration which characterized Halloween's a few years back will be the least of the novelties of the night. The most serious and alarming thing of the past, and the most serious annoyance will be the small boy with the false face or a gaudy carrying propensities. The social gatherings and fortune-telling experiments identified with Halloween's are not so generally indulged in as of yore but still the night has its novelties of pleasure and fun for the young people. In recent fun will harm no one and the police will keep an eye on any rowdiness which may be rampant.

Collegiate Institute Literary Society.

Yesterday afternoon, commencing at 4 o'clock, the Collegiate Institute Literary Society held its third regular meeting. After the reading and confirmation of the minutes of the last session the following programme was rendered by the second and third forms:—

Reading:—V. McWilliams

Recitation:—Miss Howson

Selection:—the Old Club

Reading:—Miss Adams

Recitation:—Miss Hogan

Impromptu Speech:—C. Sheffield

Selection:—the Old Club

Mr. Jefferys spoke at some length on the great benefits to be derived from the practice of impromptu speaking, urging it strongly upon the boys that "now is the accepted time," and warmly praising the pluck and ambition of young Sheffield, who has the honor of making the start. Mr. Drope, the first critic of the society, then made a searching, candid review of the programme and offered a number of very valuable suggestions. He also emphasized Mr. Jefferys' remarks on the extreme value of impromptu speaking. The present building having no assembly hall, the society as yet has had to divide its attendance, assembling the last 4th, and 2nd and 3rd on alternate fortnights. This disadvantage, however, may not be without its good results. Each committee being limited in its choice to two forms instead of four, the search for talent is naturally much keener and closer.

A Four Pound Baby Boy.

A gentleman whose information is re-

liable tells of a phenomenal baby boy which

is thriving in Burlington township. The

mother of the child is Mrs. Alexander

Sharpe, who lives in Burlington near Jack's

Lake. Her infant boy is now four months

old and it is said only weighs four pounds.

The tiny infant is quite a phenomenon on

account of its tiny proportions, but it is

said he is doing nicely, being healthy,

strong and lively. The mother intends

bringing her son to town in a week or

two to get the opinion of medical men

regarding its chances for life.

At the Opera House.

There was a good audience at the opera house

last evening to witness the presentation of

the Irish drama "True Irish Hearts" by Dan

McCarthy and his company. The portrayal

was not a well rounded success, caused in part

to doubt by the inability of the company to get

their necessary security upon the stage. Still

there was a certain amateur air about some

of the artists that made some of the clowns

fall a little flat. Dan McCarthy as "Lanky

Lanagan" was a very good character of the

hearted Irish, and "Kitty Brady" was a

pretty, sympathetic Irish lass, presented by

Miss Lou. Her play, W. Christie Miller as the

old villain "Bast Moore" was a good role. Jan

Cary as "Rakish Paddy" the tinker, was a

funny character cleverly taken and he carried

the play over several rough places. His make

up was good.

Good Templar Officers.

Carwell Lodge, No. 312, I. O. G. T., is

DAMAGED BY FLAMES.

THE PRINCE OF WALES' RESIDENCE GUTTED BY FIRE.

The Loss £15,000.—Salisbury and the Russian Embassadors in Afghanistan are the victims of the Disorders in China.—A Picco Fianc.

LONDON, Nov. 2.—At 7 o'clock a.m. Sunday passers-by observed that the top floor of the Prince of Wales' residence was on fire. An hour later the whole upper part of the building was in flames and in a few minutes the roof collapsed with a tremendous crash. The reflection of the flames was visible for miles around. Several fire brigades were on the scene and were assisted by a hundred of volunteers, including an engine company sent by the Great Eastern Railway Company by special train.

The fire broke out under cover by 11 o'clock. In the meantime all the valuable furniture in the lower rooms had been removed to the lawn. The second and third floors of the building were gutted and their contents destroyed. The roof and walls were greatly damaged by water. The total amount of damage is estimated at £15,000.

The Prince of Wales and his family were absent at the time, but are constantly saluted as to the progress of the fire. The Prince will come home to-morrow.

The servants were preparing the houses for the Prince's return. It is supposed that the fire was caused by a spark from a flue which accumulated during the night.

PERSIAN PERSECUTIONS.

The Bahis Giving More Trouble and Efforts to Exterminate Them.

LONDON, Nov. 2.—Advice received here from Yezd, Persia, describe cruel persecutions of the Bahis sect. The Government is said to be bent upon exterminating the Bahis sect, and the governor of the province of Yezd, who is a grandson of the Shah, had sent a large armed force to the province. In addition numbers are rotting in the prisons and many have fled to the deserts, probably to die there of starvation.

WHO THE BAHIS ARE.

Said Muhammad Ali was the founder of the Bahi. He was born in Shiraz about 1810. He was a fanatic and was preaching a kind of exaggerated Sufism, he followed for some time the calling of a dervish, and then he was expelled from the

Followers spread his doctrines, and finally a decree was issued making it a capital crime to profane his doctrines. Since then crime and profligacy have been used by the Government to exterminate the Babis, but still the sect is very numerous.

A SANCTIMONIOUS RASCAL

stealing of a slave. Immediately afterwards the speaker preferred against him the charge of obtaining support for his religious garments by false representations. Stanhope is the founder of a sect known as a "Bavarian's missionary army." Since his disgrace it has been learned that while he was preaching religion to his followers, he was robbing them out of the sums of money, and that some of his converts are now witnesses against him.

As he stood on the dock he assumed an attitude of defiance, and he was permitted to make any effort to find bail, saying that prison walls had no terrors for him. He said he had no friends, and that he will have an opportunity to test the correctness of his theory for some time to come.

John Redmond Presented with a Mug and "Frenzyer" by His Friends.

Cong. Nov. 2.—The Farnellites and anti-Farnellites were again in a bitter struggle, divided by a large force of police. Nevertheless the *Farnellites* managed to throw a good many stones at the heads of the *anti-Farnellites*. Mr. O'Brien's teasing. The *McCarthyites* replied with similar missiles and a serious conflict followed. The police were ordered to take the order. Many persons were injured.

Earlier in the day an attack was made on the *Farnellites* by the *anti-Farnellites*, and instruments of the musicians were smashed and a number of persons were injured.

The Farnellites marched in procession. At the end of the day the *anti-Farnellites* were carried at the head of their line.

Mr. Redmond, in his speech, declared that the British Empire was a free and independent. Gladstone was their master in England and Tim Healy their master in Ireland. During the meeting Mr. Redmond was in conflict with the *anti-Farnellites*.

As showing the seriousness of the outbreaks here recently it may be stated that the *anti-Farnellites* have been in the different hospitals and infirmaries during the election riot. There were four cases treated in Bunlaw.

lishes a despatch from Tiflis, in Russian Trans-Caucasia, saying that the procurator-general of the empire has been informed of his career of persecution by arrest of four chief leaders in the Protestant movement: Messrs. Bagdasarian, the leader of the Protestants; Kharlamov, a Baptist; Gerasimov, a German Baptist; Mayayeff, the Rumanian, and Leraushoff, a Methodist, who were all torn from their families and sent secretly to Siberia, where they will be kept as strict on the Russian frontier. Hundreds of members of these sects have also been cruelly imprisoned and reduced to the condition of paupers. The friends are exhorted to leave for fear that they will be compelled to share the same fate.

In Prisons in Australia.

HAS FRANCISCO, Cal., Nov. 2.—Advices from Melbourne state that the epidemic of influenza now raging there has carried off every family in the city is afflicted. In one large establishment 80 employees were attacked, and one physician reports 5000 cases. Berries returned from the colony districts and deaths are becoming alarmingly numerous. Among the prominent men who have died are Justice Webb, E. G. H. Smith, and John A. McEwen, one of the prominent merchants. The Premier of the colony is still a sufferer from the disease. His sister succumbed a few weeks ago.

An Engine in a Nutsell.

BREITLIN, Nov. 2.—An engineer at Chemnitz says he has succeeded in making an working engine in the world. The machine fits into an ordinary nutshell and is of sufficient power to drive a cotton reel.

An African Abominity.

PARIS, Nov. 2.—The Portuguese mail boat from East Africa, which has arrived at Marseilles yesterday, brought with it the bodies of two British and Portuguese soldiers killed by Lorenzo Marques, in which two were killed and 15 injured.

Sick Headache

Is a complaint from which many suffer and few are entirely free. Its cause is indigestion and a sluggish liver, the cure for which is readily found in the use of Ayer's Pills.

"I have found that for sick headache, caused by indigestion and sluggish liver, the cure is readily found in the use of Ayer's Pills. I am justified in saying that they are an excellent cathartic and liver medicine, sustaining all the claims made for them."

"W. A. Westfall, M. D., V. F. Austin & N. W. Railway Co., Huron, Texas. "Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered stomach and liver. I suffered for over three years from headache, indigestion, and constipation. I had no appetite and was weak and nervous most of the time. By using three boxes of Ayer's Pills, and at the same time dieting myself, I was completely cured."

"Phillip Lockwood, Topeka, Kansas. "I was troubled for years with indigestion, constipation, and headache. A few boxes of Ayer's Pills, used in small doses, restored me to good health. They are prompt and effective."

IRISH POLITICAL NEWS.

REDMOND DENOUNCES PRIESTLY INTERFERENCE.

Michael Davitt Arrives in Cork to Assist the McCarthy Candidate—The Fire at Birmingham Hall—General Foreign News

Cork, Nov. 3.—Mr. Redmond, in a speech yesterday, denounced the interference of the clergy in the election. He also demanded that Mr. O'Brien publish the Boulton documents in full.

Michael Davitt was received on his arrival here yesterday with mingled cheers and hisses. He was met at the steamer by Messrs. O'Brien, Flynn and Tanner and was driven to a hotel. In an address to anti-Parnellites he said that his life-long service to Ireland justified his interference in the present contest and that Cork would not be true to itself unless it gave a verdict against the Parnellites.

Dozens of broken heads are being mended at the hospitals, though no more serious results of Monday's hostilities are reported.

A noticeable feature of yesterday was the absence of political harangues from the Catholic pulpits. Scarcely a priest referred to the campaign. It was stated that this was due to the intervention of Messrs. O'Brien and Dillon, who urged the priests to drop politics from their exhortations.

William Redmond announced at a meeting yesterday that he had challenged Dr. Tanner to fight, but that the doctor had declined.

A wreath from the grave of her son has been sent to Parnell's mother.

Mrs. Parnell is much weaker.

Dillon Not a Favorite.

DUBLIN, Nov. 3.—The Municipal Council of Drogheda, by a majority of two, has rejected a motion to present an address to John Dillon.

At a meeting of the Municipal Council of Waterford to-day the Mayor of Waterford refused to put a motion that the council present an address to Messrs. Dillon and O'Brien.

Parnellites Accused of Cowardice.

LONDON, Nov. 3.—In an address at Longford yesterday Timothy Healy was more virulent than ever. He accused the Parnellites of cowardice. The Parnellites, he said, talked of English dictation and resorted to dynamite. Healy imputed to the Parnellites the dynamite explosion in Glasgow some time ago.

Dillon Scared Out of Kilkenny.

KILKENNY, Nov. 3.—Some serious rioting occurred yesterday between the Parnellites and the McCarthyites at Callan and several people, including one police constable, were hurt. John Dillon spoke at the Callan meeting, but he received a hostile reception in Kilkenny, so that he did not return in the evening.

PERISHED IN A HOTEL FIRE.

Two Firemen Lose Their Lives in Trying to Rescue Three Minstrels.

BRISTOL, Nov. 3.—At Sengford, a suburb of Hamburg, the Hotel Schwerin was burned last night and five lives were lost. Many inmates had narrow escapes, and owing to the construction of the building and the rapidity with which the flames spread the firemen's work was full of danger.

Some negro minstrels who had been playing in Hamburg, were lodged in the upper story. Three found escape shut off. Two brave firemen volunteered in the face of almost certain death to go to their assistance.

Just as the two rescuers reached the floor upon which the three minstrels were hemmed in by flames the building collapsed, and all five were plunged into the blazing mass and perished.

Attacked on a Train.

PARIS, Nov. 3.—A man sleeping on a train running between Paris and Havre was attacked last night by another man, who tried to strangle him and then to shoot him. In the struggle that ensued the man who was attacked caught the cord of the alarm bell, stopped the train and his assailant was arrested. The latter said he was a Frenchman, a trader of Buenos Ayres, but he refused to answer any further questions. It is surmised that he meant murder.

Collied in the Ribs.
LONDON, Nov. 3.—The steamer Inch-borne, which recently arrived at Hamburg from Baltimore, and the steamer North-gate, which sailed from Lorient Oct. 9 for Hamburg, were in collision today in the River Elbe. The Northgate's bows were stove in and the damages she received were so extensive that her captain was forced to run her ashore to prevent her from foundering in the river. The Inchborne's bows were also damaged.

Emis Pasha Again.

BERLIN, Nov. 3.—A letter dated April 20 has been received from Emin Pasha. In it the explorer said he was upon the point of starting to visit the King of Rubanda, a territory hitherto unexplored by European or Arab. Emin did not mention any design to go to Wadai. His project at that writing appeared to be to march westward from Rubanda and to cross the continent to the Cameroons.

Not So Bad as Reported.

LONDON, Nov. 3.—A despatch from Yokohama says that according to an official estimate 4000 persons were killed by the recent earthquake, 5000 were injured and 50,000 houses were destroyed. No Europeans were killed.

KILLED BY SAVAGES.

Three Missionaries—Two Sailors and a Trader Murdered.

SAVANNAH, Nov. 3.—Sydney advices state that the English ship Lord of the Isles had arrived there with important news from the North seas. Reports reached New Britain before the Lord of the Isles sailed for Sydney that three missionaries in German Guinea had been murdered by natives. Another white trader was murdered by blacks on the north coast of New Zealand. While trading at New Hanover. He was in charge of stores. The natives made a raid on the place, killed Gunderson and set fire to the building. The missionaries as New Britain had gone to investigate the affair and punish the murderers if possible. Two of the crew of the schooner Giltie were murdered by natives at New Hanover. While trading at New Hanover a boat was sent ashore but was seized by the natives and run on a reef. All the goods on board were lost and the crew killed.

Dyspepsia

Intense Suffering for 8 Years - Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. R. A. McElhannon, a well known grocer, of New York. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 100 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, but all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla. He cured my wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to come up. With returning strength came activity of mind and body. Before the first bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

W. R. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

IN TENTS OF PALM LEAVES.

Shipwrecked Sailors Feed on Crabs and Sea Snakes.

YOKOHAMA, Nov. 4.-The American schooner Kilauea has arrived at Hilo. They left Port Townsend July 4, with a million feet of lumber for Shanghai. Off Otago, on the morning of Sept. 5, a heavy squall struck the vessel and she ran on the rocks amidships. The crew saved the provisions, landed on a barren island and built themselves tents of palm leaves. They took out the fuel and for four days saved all lumber they could, piling it on the shore, but the typhoon of Sept. 14 washed it to sea. After 14 days the captain and three men left in an 18-foot boat for Loo Choo Islands, 180 miles distant, where they arrived in five days, during three of which they were without water. They were treated hospitably by the natives and a steamer sent for the remainder. These, meantime, suffered terribly. There were no inhabitants on the island and the men lived on crabs and sea snakes. No water was found till two days before the steamer arrived, by which they were taken to Hilo.

THE FINANCES OF EUROPE.

France Carrying Too Much Russian Loan.

LONDON, Nov. 4.-Although the rise in the Bank of England rate has for the moment checked the drain of gold, a further demand is imminent. Withdrawals are being heard of on account of Buenos Ayres, Egypt, America and Germany, while only small shipments are coming from Brazil and Australia.

It is daily becoming more clear that French financial houses are added with more Russian stock than they are able to carry, especially too much of the new loan, to unload themselves of which they are taking every quiet method known.

Spanish securities also weigh down the foreign market. The negotiations with the Paris Rothschilds, undertaken by the Bank of Spain to secure a gold loan hang fire, and the gold premium at Madrid keeps high. An uneasy feeling, therefore, prevails here regarding the outcome of the approaching Paris settlement.

East Wellington Election.

PENCK, Oct. 29, Nov. 4.-At the nomination yesterday for a candidate to succeed Speaker (Clarke) in the Local Legislature, John Craig, editor of the Fergus News, and James Kirkwood, Rev. of Kirk township, were nominated by the Reformers and Conservatives respectively.

Cast His Ballot and Dropped Dead.

BUFFALO, N.Y., Nov. 4.-Ex-Judge Whelan, who was United States Consul at Fort Erie during the administration of President Cleveland, dropped dead a few minutes after voting in the 21st Ward today. Heart disease and disappointment caused his death for the Democratic nomination as municipal judge are supposed causes for his sudden death.

Tape From the Telegraph.

In the village of Plainville, near South Haddley Falls, Mass., yesterday the body of Mrs. Nellie Kenyon Holmes was found buried six feet beneath the surface of the cellar of her house with her skull crushed. Her husband has been arrested.

The Advantages of Visiting.

Farmers and poultry-men, call on your neighbors more, not only in formal visits to the sitting-room or around the kitchen stove, but hurry up some morning and get your own chores done in order that you can take an early run to a friend's barn or poultry house while he is yet at his work and take hold and help him through in order that you can have time to talk. Talk while you work, ask questions as to how he manages, what he feeds and his success with different methods. Do this not simply from curiosity, but for the sake of finding out what you can for the gossip it will give you to spread in other directions, but to learn what you can for your own benefit. You will be surprised how much not only of help you can gain, but what pleasure will result from it. If we mistake not, you will go away with your mind made up to call again, either on the neighbor or some other friend where you will be sure to get some new hints, and where by this friendly intercourse more firm friendship can be established. And this is not all. By this comparison, you go home, either well satisfied with your own ways of doing or quite the reverse and with a resolve to improve in the future. As a little example, not long ago one poultryman was relating to a caller what a difficult matter it was for him in the spring to work up the winter's savings of manure so that it might be easily and advantageously used on the land. The talk proved that it was no wonder he had trouble in spreading manure for it had been his practice to allow it to accumulate on the ground under the roosts for long periods at a time. Having no abundant spread on it, it became packed and frozen very solid. When it was taken up it was taken in chunks, clear and strong and wholly unsafe for use in its present condition and of course hard to reduce, as he complained. He found that the friend to whom he told his troubles avoided all this by keeping his houses clean at all times. He cleaned off the droppings each day from the boxes placed under the roosts for the purpose, and sprinkled them with fine manure like dry sawdust, coal ashes or saw dust and raked over the ground so as to keep the surface loose and clean of feathers and manure. If such cleaning of manure is put into a barrel in dry place, the moisture will be absorbed and the whole will keep fine and in nice condition to be used on the land. This frequent cleaning will keep the air of the house pure and sweet and the fowls will be in a good, healthy condition. This was a little lesson, but if followed carefully will help anyone who tries it.

A Conservatory Window.

Some of the lady readers of this paper may be interested in a description of a conservatory window which I planned and had built on to my dining room last November. It makes no change in the arrangement of the room; the upper and lower sash are both taken out of the window and the conservatory window is fastened on to the outside of the house and rests on strong brackets of wrought iron made by our village blacksmith. It is made entirely of mahogany except the bottom, which is of two thicknesses of boards with paper between. It is 5 ft. wide, 2 ft. deep and 8 ft. high, with a sloping glass roof with hinges, so it can be raised when the sun shines in too hot. This roof is covered with half-inch mesh netting to protect it from ice falling from the roof of the house. The shelves are made of this netting laced to light frames, which do not prevent the light or warm from reaching those below. There are three shelves and fitted 150 pots and plants, all doing well, and they were in bloom nearly all winter. I have succeeded much better with them in this window with much less care than on the shelves in front of the window in the room, for now they have the sunlight on three sides of them and from the top. All the care I give them is to water them once or twice a day by showering them on the upper shelf and the water drops on to those below, which keeps them free from dust and the red spider. The lower shelf being much cooler and damper than the others is particularly suited to ferns. I have had no trouble in keeping the plants warm. The temperature of the room during the day is 70 and at night 50, and when the sun is warm the roof has to be raised. I did not have to cover the window at night or put anything between the plants and the glass. It is on the south side of the house and sheltered from the wind by a porch which carries off the water from the bottom of the window. It could be much improved by having a pane bottom but as this was only an experiment I did not like to go to the trouble and expense. The entire cost was \$25. It is fastened on to the house by screws and as soon as the plants are taken out I have the window taken down until it is time to fill it again in the autumn. -Mrs. M. R. Platt, Cheshire, Ct.

PEPTONIZED

Is the identical Combination as suggested above

Each bottle contains the product of one-quarter of a pound of Lean Beef, thoroughly digested.

It is the only mild stimulant with a perfect food that is known to-day. The Beef supplies the elements of flesh and blood, the Ale is vigorizing and tonic, and the Pepton is an invaluable aid in the process of digestion.

THURSDAY, NOVEMBER 5, 1891.

A DETROIT PAPER'S MISTAKE.

THE DETROIT NEWS, which was one of the original partners, along with the Mail, in the commercial union propaganda, takes all the arguments of the Conservative press against unrestricted reciprocity as being aimed against annexation, and thereby convinces itself that there is a agreement in this country in favor of political union with the United States. The News, however, has made a blunder, for however much some leaders in the advocacy of unrestricted reciprocity may desire to bring about annexation, and although some of them may advocate it with that end in view, there is no desire on the part of the people of this country for a union with Uncle Sam, and no Parliamentary candidate dare openly announce himself in favor of "continental unity" in a political sense.

That unrestricted reciprocity would lead to political changes many Canadians believe, and that belief, together with the additional belief that free trade with the States would be injurious in other ways, caused a majority of the electors to vote against it. Had the leaders of the Liberal party expressed such views, before the election, regarding the political outcome of unrestricted reciprocity as Mr. Blake did after the election, they would not have secured a corporate guard at Ottawa.

The News itself once sent a commissioner through Canada to hunt up annexation sentiment, but it could not find any, and to make a show at all the commissioner had to manufacture any such sentiment he reported.

In September the exports of breadstuffs from the United States amounted to \$31,427,000. And that is the country where the Liberais say Canadian farmers should look for their market for breadstuffs, even though by so doing they should risk their market in Great Britain, which annually imports almost unlimited quantities. Great heads, these Liberais.

A NOTICE appeared in the Canada Gazette signed "J. J. C. Abbott, for the Secretary of State," and the Liberal press at once jumped to the conclusion that Mr. Chapleau had resigned. It is customary for the Premier to sign papers for an absent Minister, and, as the Hamilton Spectator points out, how could the Premier sign for the Secretary of State if there was no Secretary of State?

It seems that Sir Charles Tupper secured a thousand dollars worth of tickets from the Grand Trunk company without paying for them, before the last Dominion election, which tickets were presumably used in sending one thousand Tory electors to their respective voting places—Ottawa Free Press.

It seems that the Free Press has made another mistake. The evidence in the North Park case did not show what the Free Press says, but Sir Charles travelled on the Grand Trunk and had to have special accommodation to keep his appointments. But it was proven that Mr. W. T. R. Preston, the Liberal organizer, got tickets and gave them to voters.

With a firm hand the Dominion Government is dealing with those who were shown by the investigation during the last session to have defrauded the Government. An action has been entered against Hensel, the members of the firm of Larkin, Connolly & Co., and Mr. Thos. McGreevy have been cited before the courts, and this has been followed by the arrest of two clerks who purchased goods for themselves and had them charged to the department and also of the merchant who sold them the goods. Neither wealth nor political position can turn aside the course of justice, and by pursuing the course they have the Premier and the Minister of Justice have protected the honor of Canada as well as its revenue and the people will uphold them in that course.

Rheumatism is like sand in the bearings of machinery. Hood's Sarsaparilla is the great lubricator which cures the disease.

A Dead Bonaparte.

PARIS, Nov. 5.—Prince Louis Lucien Bonaparte, ex-senator, son of Lucien and the last surviving nephew of Napoleon I., died yesterday at Tivoli, Italy, aged 73.

A Fatal Riot.

LONDON, Nov. 5.—In a religious riot at Maudslayi, Persia, a mob set fire to the house of Gen. Cooley, who was killed with 20 dependents.

The damage caused in Japan by the violent storm of Sept. 14 was very serious to life and property. It is now definitely known that 82 lives were lost and 3700 houses entirely destroyed. Seven hundred and eighty vessels were carried out to sea or sunk. In addition great damage was caused to crops. The loss to property is estimated at \$1,000,000.

North Bruce Petition Dismissed.

WILKINSON, Ont., Nov. 5.—In the North Bruce election case bribery was proven, but agency could not be proved and the petition to unseat Porter was dismissed without costs.

Mr. Hector's Contested Seat.

THREE RIVERS, Nov. 5.—The election petition against the return of Mr. Hector Langevin for Three Rivers has been dismissed with costs.

Will Tarte Retire?

QUEBEC, Nov. 5.—It is reported that J. Israel Tarte will resign his seat in Montmorency to-morrow and Lieut.-Gov. Angers will be the candidate for the constituency.

Pacified for the Common.

QUEBEC, Nov. 5.—It is definitely decided that Ernest Pacaud will be a candidate for the House of Commons—Quebec West, contested seat by the expulsion from Parliament of Hon. Thomas McGreevy.

Political Points.

Hon. J. A. Chapleau will likely be tendered a banquet in Montreal at an early date.

Sir A. P. Caron has issued an order for scrip for the members of the Régiment Volontaire who served in 1885. The Brandon Home Guards and others have still to have their scrip passed.

Mr. C. R. Davis, M.P., is still in Notre Dame Hospital, Montreal, but will be home on Saturday. A successful operation was performed upon his throat early last week and his condition has been steadily improving since.

The European Mail Subsidy.

LONDON, Nov. 5.—Efforts are being made to embarrass the Canadian Government in its efforts to induce capitalists to undertake a fast Atlantic mail service. The Oracle publishes a long anonymous article against Canada, which ridicules the Government's offer of £150,000. It says that the Allan Line is quite prepared to give up the mail service and carry cattle instead. It suggests that the Government must guarantee a moderate rate of interest on the capital required to build and equip a fleet of fast steamships.

This is an old proposal of the Allan and other lines, which the Government and other friends of Canada rejected because it was believed if the service was to prove a success it must be managed on regular commercial lines at the risk of the owners. The general feeling here is that if the subsidy is insufficient it should be increased, but the Government should not relieve the contractor from the necessity of making the service successful.

Killed a Deer with a Penknife.

WESTPORT, Ont., Nov. 3.—While W. C. Freinburg and James Conley were coming from the Narrows in their steam yacht Macrot yesterday they observed a deer in the water about a mile east of Westport. They gave chase until, with their knives, they succeeded in throwing a rope over its horns, and with the help of a penknife despatched it. It was a buck weighing 214 pounds.

One Don't For Mothers.

I was for many years a music teacher and feel that I "know where I speak" when I say don't give your young children music lessons. There is occasionally a child who shows such an extraordinary talent and love for music that it would be wrong to hold it back, but I am speaking of the average child. Mothers are apt to think if they are going to give their children a musical education at all that they cannot begin too soon; but experience has taught me that this is not true in the great majority of cases. Take one child at eight or ten years of age, let him or her begin lessons and keep them up until the age of eighteen. Take another who is no quicker to learn than the first one, let this one begin when fourteen years old, and the chances are that at eighteen the one who began last will be the better musician of the two. There are many reasons for this. One is, with the very young pupil you can only give a very short lesson, or she becomes confused and fails to really understand any of it, and it is useless to expect a child who does not know anything of "friction" to master the fractional parts of time in music without so much drilling and practicing that the child becomes discouraged and disgusted; whereas the older pupil, in one or two lessons, can learn to equal three or four of the younger one's lessons and can see that progress is being made. Another mistake that is often made is hiring of cheap or inexperienced teachers for beginners. If a pupil ever needs the best teacher that can be had it is while laying the foundation for all after study. If you let your child learn wrong ideas of time, fingering, or any principle of music you will have to pay a good teacher, not only to teach the right principles, but to break up the wrong ones already acquired, and that is the hardest part of the work. Wait a few years before you have your child begin, then engage the best teacher you can procure at any price and your child will be a better musician with less time and work on her part and less expense on yours. More than all this is the extra strain on the brain and nerve of young pupils. Their school lessons are for them as equal to, so let them wait while for their music lessons.—Oxya, in Farm and Home.

Sole Agent for HANDEMAN'S

Fine Fresh PORT WINE the best for medicinal purposes.

ALEX. ELLIOTT & CO.

MONTREAL, Aug. 14th, 1891.

It is a pleasure for me to say good words in favor of Anti-Dandruff, as its merits cannot be questioned. In my own case dandruff not only made itself known by appearance in more than liberal quantities from which I could not obtain relief, but it continued to increase and increasing formation caused falling of the hair. My barber spoke highly of Anti-Dandruff. I used it, and not only has every trace of dandruff disappeared but the falling of the hair has stopped. Having full faith in the preparation I not only endorse it for the above but further add that as a fine dressing for the hair nothing equals it.

Sick Headache

Is a complaint from which many suffer and few are entirely free. Its cause is indigestion and a sluggish liver, the cure for which is readily found in the use of Ayer's Pills.

"I have found that for sick headache, caused by a disordered condition of the stomach, Ayer's Pills are the most reliable remedy."—Samuel O. Bradburn, Worthington, Mass.

"After the use of Ayer's Pills for many years, in my practice and family, I am justified in saying that they are an excellent cathartic and liver medicine—sustaining all the claims made for them."—W. A. Westfall, M. D., V. F. Austin & N. W. Railway Co., Burnet, Texas.

"Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered stomach and liver. I suffered for over three years from headache, indigestion, and constipation. I had no appetite and was weak and nervous most of the time. By using three boxes of Ayer's Pills, and at the same time dieting myself, I was completely cured."—Philip Lockwood, Topeka, Kansas.

"I was troubled for years with indigestion, constipation, and headache. A few boxes of Ayer's Pills, used in small daily doses, relieved me of all my troubles. They are prompt and effective."—W. H. Strout, Mendon, Pa.

BRITISH AND FOREIGN.

THE QUEEN ENJOYING REMARKABLY GOOD HEALTH.

A Singer Gets One Furling Damages.
London, Nov. 5.—The present year has proved fatal to all three of the Waterloo officers who lived to celebrate their 75th anniversary of the battle in June, 1890. Lord Albemarle died in February, but he was much younger than either General Whitcomb, who died in September, or Colonel Hewitt, who passed away last week. The Waterloo list at the War Office has been closed forever.

A Singer Gets One Furling Damages.
London, Nov. 5.—The suit for \$100,000 damages for libel brought by the Italian singer, Campi, against The London Telegraph was decided today, the court giving the plaintiff a verdict for damages in one farthing. The alleged libel consisted in a charge made by the paper that Campi was altogether inartistic. The Telegraph called in its defence a formidable array of the leading critics of the city.

Victoria Woodhull's Husband.
London, Nov. 5.—Mr. R. Biddulph Martin proposed to stand as a Liberal candidate for Parliament from Mid-Worcestershire. He will be opposed by Thomas Stephens. Mr. Martin is a wealthy landowner and the husband of the American Victoria Woodhull. Mr. Martin is strictly in accord with the views of the present Government.

French the Language of the Peace Conference.
Rome, Nov. 5.—At the International Peace Congress yesterday, on motion of the French delegates, it was decided that the French language should be spoken during the proceedings. The tribuneists in the French delegation were called to order for raising the question of nationalities by attacking the Austrian occupation of Trieste.

An Australian Bank Fails.
Sydney, N.S.W., Nov. 5.—The Australian Banking Company, which was established by Mr. Francis Abigail, formerly Minister of Mines and Agriculture, suspended today owing to a panic among the depositors.

Gen. Boulanger's Widow.
Marseilles, Nov. 5.—The widow of Gen. Boulanger, accompanied by her young daughter, sailed yesterday for Tunis, where Capt. Drant, Minc. Boulanger's son-in-law, resides. They purpose making their home with Minc. Drant.

His Wife and Three Sons.
Cayce, Nov. 4.—At the Haldimand Assizes yesterday, Samuel Atkinson, aged 52, was sentenced to five years in the penitentiary for forgery. His wife, however, innocent and stuck to him until the last. She stood leaning against the dock when he received the sentence. Before being taken back to his cell he leaned over and took her an affectionate good-bye. When asked what he had to say why he should not receive sentence, he replied that he had a wife and three children and that he would put up the other girl to wear the charge upon him.

An Irish Farmer Murdered by Italians.
London, Nov. 5.—A mysterious murder is reported from Monaghan, Ireland. A farmer from a neighboring county went to Monaghan to attend a fair. Upon going to his lodgings where he intended to stay for the night he was seen to enter into a dispute with someone. No one seems to have witnessed the end of the dispute, but the farmer was found dead, stabbed to the heart. Two Italian men, husband and wife, who were in the town as wandering musicians, have been arrested on suspicion of having committed the crime.

A Berlin Bank Failure.
The Emperor, Prince Henry and the Minister of Warship Heavy Losers.
Berlin, Nov. 5.—The suspension of Hirschfeld & Wolf, the bankers, has caused a drop in the shares of the Imperial Brewery, the best of the kind in the market, of 80 per cent. It is reported that the Emperor and Prince Henry lost a large amount by the suspension and that the Minister of Warship lost his entire fortune. Many of the leading aristocrats are badly involved in the suspension.

A Comedian in Earnest.
London, Nov. 5.—At Coventry, England, last evening, shortly after the play began, the gallery commenced to hiss and yell, and the actor, angrily appealed to the audience to protect themselves against the gallery "ruffians." He was surprised, he said, at their conduct, and declared that he would never play in Coventry again. After struggling through the remainder of the performance, he, in an agitated manner, offered a reward for the discovery of the ruffian who had thrown a missile on the stage. The uproar was due to the raising of the prices of gallery admission tickets.

Stole \$100,000 a Week.
London, Nov. 5.—The London police have run down a clever gang of check forgers, who are believed to have stolen \$20,000 a week for several weeks past. The disclosures were made today by the arrest of a young man supposed to be James Johnson, who presented a forged check for \$1700 at the London and Westminster Bank. Last Friday the same bank was victimized out of £2250.

A Cure for Constipation and Headache.
Dr. J. C. Ayer, while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots, and is known as "Laxative Family Medicine." It will cure sick-headache and is the best spring medicine for the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and \$1 a package.

Sallow and Ten Skin caused by disordered liver and defective digestion quickly removed by a few doses of Medical's Bitter Root Pills. Price 25 cents.

Winter cold.
Is coming and kids make some interesting quotations. Men's waterproof boots lined overboots, \$1.25 a pair; women's buttoned overboots, \$1.25; women's slippers (cloth), 30 cts.; women's rubbers, 35 cts.; and women's strong boots, 75 cts. a pair. 4103

PARNELL SECRETS OUT.
INTEREST IN THE COMING SUIT TO
BREAK A BIG WILL.

The Testator was the Obedient Agent
of Mr. Parnell and the latter is the
Chief Beneficiary—Over \$1,000,000 is
at stake, and Many Circumstances That
Have Been Mysterious are Expected to
Be Made Clear.

LONDON, Nov. 6.—Parnell's death has in
so many quarters created an interest with
regard to the trial of the will, which is the
most awaited by English society. This
curiosity arises not only from the magni-
tude of the fortune involved, viz., about
\$1,000,000, but because it is expected that
the progress of the suit will throw a new
light on Parnell's mysterious life, and pos-
sibly supply evidence in palliation of his
breach of the seventh commandment, upon
which Parnell always confidentially relied
to clear himself of the moral guilt usually
associated with this offence.

ages for this libel, Parnell sent his
letter to the press, in which he questioned
Campbell's testimony, and asserted Camp-
bell had allowed his name to be used in
house transactions, though under the im-
pression that the only person interested in
them was Parnell himself.

But the key to the mystery is supplied by
the previous contents of the check. The
imputation of forgery implied in the re-
turn of the check was disproved, but it is
quite evident that it would seem much
more creditable to a jury if it could be
shown that on another occasion Mrs. O'Shea
used Campbell's name without his authority,
though in a merely formal way. That, at
least, is the only apparent explanation of
Parnell's action in this connection. It
showed how chivalrous was his devotion to
"the lady who afterwards became his wife."

Stole from the Starving.
On Presentation, Nov. 6.—The Marshal

Rheumatism,

BRING due to the presence of uric acid in the blood, is most effectively cured by the use of Ayer's Sarsaparilla. Be sure you get Ayer's and not other, and take it till the poisonous acid is thoroughly expelled from the system. We challenge attention to this testimony.

About two years ago, after suffering for nearly two years from rheumatism, being able to walk only with great difficulty, and having tried various remedies, including calomel, water, and other, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months, and am pleased to state that it has effected a complete cure. I have since had no return of the disease. — Mrs. R. Irving, 110 West 125th St., New York.

Some years ago I was taken ill with rheumatism, and after suffering for some time, I was cured by the use of Ayer's Sarsaparilla. In every way, I commenced using Ayer's Sarsaparilla, and in a few days I began to feel better, and in a few weeks I was completely cured. I have since had no return of the disease. — Mrs. L. A. Smith, 110 West 125th St., New York.

TRADE PROSPECTS.

Business Reported Fairly Active With Increased Movement of Grain.

NEW YORK, Nov. 7.—Special telegrams to Reuters' office are again contradictory of the analysis of the state of general trade made public in these columns during two preceding weeks notwithstanding unduly optimistic outpourings from other sources.

The Toronto general trade is less active than expected, though dry goods are more active.

The wheat movement in Ontario is slow. Barley is going ahead freely and rye is higher.

Montreal reports favorable trade prospects with fair activity in most lines, including a better demand for grain.

Bank clearing of the Canadian cities aggregate \$21,954,738. This week an increase of 10 per cent. compared with last week.

The Dominion reports 43 business failures this week against 37 last week and 37 this week last year. The total number, January 1 date, is 1,587 against 1,581 last year.

DOUBLE SUICIDE.

Two Japanese Perform "Hani Kari" and an American Shoots Himself Dead.

VICTORIA, B.C., Nov. 6.—This morning the steamship Sumner, coming from China and Japan, in which from Yokohama had officers and crew of the remarkable experience of a party of young English and American tourists in their attempt to climb the summit of Fujiyama, reached the mountain of Japan. Five English naval officers, on leave, fell in with three American brothers named Castleton, from Philadelphia. Having secured two native guides they started. The guide at the end of two days signified their intention of committing suicide if the party did not turn back, and calmly walking in front of the tourists, each with a stroke of a sharp "koto," disengaged himself. Both guides then turned and the youngest of the Castleton boys, a boy of 18, immediately pulled out a revolver and blew out his own brains. The rest of the party turned back and descended the mountain, taking with them young Castleton's body.

AN AWFUL CRIME.

A Naked and Headless Body Discovered in a Cellar.

PARIS, Nov. 7.—Yesterday the police found the body of a man in a cellar in the Rue Charonne, which had been strangled before he had been beheaded. A dock laborer named Yacoub was arrested and made a confession. He acknowledged that he strangled his companion after a drunken fight, when he carried the body to the cellar in which it was found. He decapitated it and threw the head into one of the public latrines. The body was found in the place indicated by the murderer.

Dufterin Warden of the Clinque.

LONDON, Nov. 7.—The Queen has appointed the Marquis of Dufterin as Warden of the Clinque.

The Clinque Paris consists of a group of seven ports originally five, where the naval authorities in the south coast of England, in Sussex and Kent, Hastings, Romney, Little Boreham and New Romney, were the principal ports. Winchester and Exeter being added later.

The original Clinque Paris were created by William the Conqueror, and were endowed with various important privileges in consideration of their furnishing a certain quota of ships of war for the king's use when summoned. The Lord Wardenship is now only an honorary dignity.

Patti Wins a Law suit.

BREKID, Nov. 7.—Malanie Adelina Patti has won her lawsuit against the Press and Inquirer, 24, who forced her to pay a large sum as compensation for her breach of contract in not going to St. Petersburg to sing last winter.

Perseid She is Lost.

LONDON, Nov. 7.—A boat belonging to the Collier Kathleen has been washed ashore at Clacton, Essex. It is feared the Collier, which carried a crew of seven men, has foundered with all on board.

THE INSIDIOUS FOE.

It cannot be overestimated how far-reaching the danger of smallpox or yellow fever. Thousands of our cities and towns are, as well as many of our best physicians, are seriously of the opinion that our Dominion will be visited again this autumn by that insidious foe, La Grippe. We believe that even now the disease has been obtained as entrance in some districts and is of a very fatal character. We should remember that this terrible enemy is more to be feared than smallpox or yellow fever, as the victims cannot be quarantined or isolated.

The ablest physicians of the world advise particular preparation in order to combat this deadly trouble. They recommend that the weak, nervous, sleepless, gloomy, morose, and otherwise debilitated, fortify themselves at once.

It was proved to physicians everywhere that the only way to prevent the disease was to keep the system in a healthy and vigorous condition.

The Clery Compound, which was used by many of our best physicians everywhere, was found to be the only remedy that could be relied upon to prevent the disease.

BABY'S FACE WAS RAW.

Diarrhoea itching skin disease Cured in One Month by the Cuticura Remedies.

When our boy was six weeks old he had a rash on his cheeks. It spread on both cheeks and chin. His face was raw, I doctored with various remedies, but it got no better. My mother advised me to try the Cuticura Remedies. I used them faithfully, and in one week the boy looked better. In two weeks he was cured, and now he is three years old and no signs of it returning. The child was so bad I had to tie him in a pillow case, and pin his hands down so that he could not scratch his face. I cannot speak too highly of the Cuticura Remedies. I recommend Cuticura whenever I can. I would be pleased to see any one and talk to them of the good it has done my boy.

Making or Brewing Tea.

In the Preparation of most Articles of Food, it is necessary to have some Knowledge of the Method of Cooking before a dish can be produced in any Degree of Perfection. And although it is a Simple Theory to Brew Tea, the Knowledge of "how to do it" is as necessary in one case as in the other. It may seem strange to be talking about a subject which each and all think they understand; but there is no doubt that almost as much dissatisfaction is caused from Tea being carelessly brewed, as from the use of Inferior Tea. First, the water used should be as soft and Pure as can be obtained; second, that the water should be boiled as quickly as possible and used at boiling point, it must boil but it must not over-boil, for should it be allowed to simmer even for a few minutes it will not extract the full strength and flavor from the leaves. Never use water that has been boiled the second time. Third, all that portion of the Tea that can be dissolved is extracted before the expiration of ten minutes, for after six minutes is generally sufficient. The Infusion is then at its best, from that time it gradually loses part of flavor, until if allowed to stand for half an hour or an hour, it becomes dull and flat.

A Sample Half Dozen.
Six boys were before the Magistrate this morning charged with acting disorderly in the South Ward. It was said the boys were continually annoying the teachers of the South Ward school. Mr. E. B. Stone addressed the Court on behalf of the boys and promised good conduct in future. The Magistrate questioned the boys and elicited some facts which may be interesting to an enlightened people. Three of the boys were Protestants and three Roman Catholics. Only one of them was over fourteen years of age, and not one of them attended any school. One of the Protestants boys could neither read nor write, while it is safe to say that the others could only make a poor attempt. The Magistrate cautioned the boys against persisting in their bad conduct at the South Ward school and allowed them to go on their suspended sentence. He said he did not know what would have to be done to get all these boys to school.

TEMPLARS ANNIVERSARY

SPECIAL SERVICES OF AN INTERESTING CHARACTER.

A Mass Meeting in the Opera House—Several Temples Speak on Temperance—The Rev. Father—The Annual Service—Preceded by Rev. Mr. Thompson.

About eight years ago a lodge of the Order of Royal Templars of Temperance was organized in Peterborough and during these years an active and encouraging interest has been maintained in the work and the membership of the lodge has gathered strength. Yesterday the celebration of the anniversary of the local lodge was commenced, being marked by a mass meeting in the Opera House in the afternoon and the annual service presided in the George-st. church in the evening.

The Mass Meeting.
Dr. Goldsmith occupied the chair at the meeting which was held in the Opera House at four o'clock in the afternoon. The house was filled and the audience manifested interest and sympathy in the sentiments expressed. Five minute temperance addresses by the local pastors, interspersed with hymns, was the programme, with the addition of a recitation by the boy wonder.

A PRESBYTERIAN PASTOR.
Rev. J. H. Locke, of the George-st. Methodist church, was the first speaker introduced after the chairman had made a few opening remarks. The rev. speaker said the temperance question no longer had the charm of novelty for from the time of Wesley down to the present it had been discussed and ably handled. He spoke of drunkenness which was now to be seen in broad daylight, while years ago it was hidden under the darkness of night. He told them, however, that they should take courage from the signs of the time, the revivals and tide of successful operations going on and continue to fight down the great vice of temperance. Methodists could not be consistent members of the church and temple and consistent members of all churches should join in uniting efforts to fight it down. He endorsed the Royal Templars and recommended it to the members of his congregation.

Rev. E. F. Torrance, of St. Paul's, was introduced. He read resolutions passed by the General Assembly of the Presbyterian church on temperance to show the attitude of his church respecting the great question. The first resolution endorsed prohibition as the only sufficient means to put the land of the curse and called it the duty of the Dominion Parliament to pass such a law. Mr. Torrance said that as to the propriety of Parliament legislating there could be no difference of opinion as they had temperance laws in point, but he was afraid that with the present system of party Government there would be more difficulty in getting prohibition, until a sufficient number of men were sent to parliament who held it as a paramount question. The second resolution of the Assembly was in favor of total abstinence and the rev. gentleman said that notwithstanding the rash and ill-considered statements of the platform and pulpit he favored total abstinence as the only safe principle. The third resolution recommended temperance teaching in the public schools. This the speaker also endorsed, and said if the boys and girls would swear eternal enmity to rum there would be no such farces as he had seen under the Boot Act, both the Dominion and Provincial Parliaments printing at the violation of the law (Applause). He said if the Boot Act had been enforced the liquor traffic would have been killed in Peterborough. (Applause).

ANOTHER PRESBYTERIAN.
Rev. Alex. MacWilliams, of St. Andrew's, said he was there to show that he was not out of the temperance cause. He then gave his reasons for being opposed to the liquor traffic, because it was the enemy of the home, was ruining the boys and girls, and was against state, church and God. He enlarged on and impressed these points upon his hearers.

Mr. Stewart, of Hamilton, father of the boy orator, gave a beautiful address, referring to the many promising lives of young men which had been blighted by drink. His word pictures were very effective.

Rev. J. Trotter, of the Baptist church was the last clerical speaker. He declared himself in favor of prohibition, and in an interesting address pointed out the great power of good example.

Then Master De Witt Talmage Stewart, six-year-old boy orator who appears in the Opera House to-night, gave a recitation. The boy wonder is a little tot with long curls down his back and a pleasing face. His recitation was Dr. Talmage's "Belshazzar's Night Feast," and in the recitation of the difficult and lengthy descriptive selection the boy showed his marvelous power. He speaks in a clear, loud tone, and his intonation and expression is remarkable in one so young. He held his audience in wrapt attention, which was his reward for his loud and long recitation. His selection closed the meeting.

There was a good congregation in the George-st. Methodist church in the evening when the anniversary service of the Royal Templars was presided by Rev. J. H. Locke, B.A., of the Market-st. church, who is a member of the order.

proving all things by the prayer not to be led into temptation they would be kept in a safe, sure, right and upright path. They should also prove all things by the words "Love seeketh not her own," or "Let us therefore follow after the things which make for peace, and things wherewith one may edify another," and "It is good neither to eat flesh, nor to drink wine, nor anything whereby thy brother stumbleth, or is offended, or is made weak." The sermon upon which the strong drink habit rested was social cheer, and men spent money which was needed in their homes for drink. That was not the way to edify or build up. When people drank in the spirit of the Gospel the devil for liquor went out. The preacher gave illustrations showing the danger of using light wines and showing that happiness came from denying oneself to lift up others. They should test everything by the bearing it had on personal holiness. He could point out any number of men who when they set out to rise to purer lives had cut off all connection with intoxicating liquor, but could they show him one man who when he commenced to rise found it helpful to get strong drink? There were very few Christians who drank and thought it not wrong, owing to their wrong training, but it was little they did for God or humanity. And if there were some who drank moderately, they could not argue from that that it was not wrong or dangerous, for no matter how a pestilence was it did not strike down everyone, yet they would not argue from that that it was not dangerous to live in a pestilence place. The preacher illustrated his remarks by incidents taken from life, and closed by urging that they should hold off from any appearance, from every likeness of evil.

A DRAW GAME.

The Peterborough-Lindsay Collegiate Institute Football Game.

On Saturday the Association football team of the Collegiate Institute went to Lindsay to play the return match with the Lindsay team there. It was a grand day for a game and a good game was played. The Peterborough team was composed as follows:—Goal, Dudge; backs, Goldsmith and H. Burnham; half backs, Cowan, Kindred and Carter; forwards, right wing, Heap and D. McCabe; centre, McNulty; left wing, Drope and C. Brennan.

The game was a better one than the match played here. Both teams were playing more of a team game. In the first half Peterborough scored a goal. Heap made a pretty kick from right centre and Drope passed it through. Lindsay also scored in the second half. A foul was called within twenty feet of Peterborough's goal and the Lindsay captain, Ritchie, kicked the ball through before his opponents were in position. The second half was an even struggle, in which Peterborough perhaps had a slight advantage, scoring more kicks on goal. The result was a draw, either team scoring and left the result a draw, one goal to one.

October Weather.
Mr. Thos. Telford applies the following words of the weather of the past month:—October followed in the footsteps of its predecessor with continuing fine weather, making outside labor both comfortable and pleasant. A few days at the commencement of the month was fine and warm, and although the change was from frost to frost through the day the weather was everything that could be desired. We had frost on 23 mornings, and some of it very sharp for October, the coldest being on the 25th, the thermometer coming down to 17 degrees below zero, and the heaviest frost, standing at 18 degrees, leaving the mass temperature of the month at 43-18-15 degrees. We had our first snow on the 11th and again on the 27th. "It is an old saying, that we never had an October without snow. This year it is fully up to the two, but it is no more than it should be keeping up an old custom. One thing is worthy of remark, we had neither thunder nor auroral lights during the month, but for the fine weather I am not aware of a finer October in the rain only falling on six days to the depth of 1 inch and 47-100 of an inch, being very light. We had one sharp gale on the 27th, but throughout the month it was mostly calm. The following are the different points at which the wind was blowing at sunrise during the month, namely:—North-west, 11 days; north-east, 7 days; south-west, 4 days; south-east, 1 day; west, 1 day; and north, 1 day. On Monday morning at sunrise the thermometer stood at 43-18-15 degrees. That is good for the 9th of November.

ADVICE TO SMOKERS.
Mrs. Winslow's Smoking Tobacco has been used by millions of smokers for many years. It relieves the little sufferer at once, produces natural sleep by treating the child from pain, and the little sufferer awakes as "bright as a button." It is very pleasant to taste, soothes the child, cures the gums, allays pain, relieves wind, cures the bowels, and is the best known remedy for diarrhoea whether arising from teething or other causes. Twenty-five cents a bottle.

BEFORE THE MAGISTRATE.

Preliminary Examination to the Bridge Search Seclusion Case.

John Pope was brought before County Magistrate Edmondson this morning on a charge of seduction, it being alleged that on the 12th of August last he did seduce Eunice Finlay, the fifteen-year-old daughter of Mr. John Finlay, of Bridge-north.

The trial had attracted as usual a large attendance of those who take a morbid interest in such cases, but before the case was begun the court was cleared of every person except the reporters and those interested in the case.

The Magistrate stated that he had decided that he would not dispose of the case, but would give it a preliminary hearing. Mr. E. E. Wood, County Crown Attorney, appeared for the prosecution, and Mr. A. P. Poussette, Q.C., for the defence.

Eunice Finlay, the girl in the case, was the first witness and seemed to keenly feel her position, giving her evidence amid sobs and with much hesitation. She said she lives about three miles from Bridge-north with her parents. She was at Bridge-north on the 12th of August at the house of John Pope, the prisoner. He was at her father's place and took her home with him. She remained at his house for the night. They arrived at Pope's about dark. About nine o'clock she went to John Montgomery's, the prisoner accompanying her. She went into Montgomery's and the prisoner went on to the post office. There were only two of the Montgomerys at home. She remained about half an hour when she left the prisoner, who called for her, going with her. They went up the old road towards Pope's place. At Kelly's grove the prisoner jumped the fence and asked her to go into the swamp.

She followed him over the fence and asked her to go into the swamp. She followed him over the fence and asked her to go into the swamp. She followed him over the fence and asked her to go into the swamp.

Mr. John Finlay, father of the girl, gave his evidence. He remembered the 12th of August and his daughter going to Mr. Pope's. Mr. Montgomery had told him a few days afterwards to keep his girl at home as Mrs. Montgomery had seen her going with John Pope where she had no right to go. He first observed his daughter's condition on Wednesday and when he asked who had been with her she told him John Pope. He had gone to Mr. Pope's and in the presence of his wife accused him of his intimacy. Pope said he would come down and see her as he did not expect to see her the next day. When Pope asked the girl if he had anything to do with her she said he had and then Pope left.

Mr. John Montgomery was the next witness. He had seen Pope and the girl on the road on the night in question and saw them go into the woods about the place which the girl described. Pope had come to her house afterwards and asked what she meant by telling such a story about him and denied that he had gone through the fence with the girl.

Mr. Poussette submitted that as the girl had admitted that the prisoner had had connection with her two years ago she was not of previous chaste character as required. The Magistrate was not prepared to say a man could clear himself by his own oath. Mr. Poussette submitted that she had been demonstrated by the father's evidence to be sixteen years. He also argued that the girl's statement had not been corroborated.

The Magistrate enlarged the case until Thursday to allow of further evidence to be put in with regard to the girl's age.

AMONG THE CHURCHES.

Young Men's Sunday and the Special Services—Church Notes.

Yesterday was young men's Sunday. Once a year the Y.M.C.A. makes a request of pastors to preach a special sermon to young men, a sermon calculated to awaken the young men to a sense of their responsibilities to their God or strengthen them in their realization of this responsibility. Yesterday was the first day of the Week of Prayer of the Y.M.C.A., and on this day the special sermon was preached.

At St. Andrew's church Rev. Mr. Whitehouse preached in the morning and in the evening. Rev. Mr. MacWilliams addressed himself in a forcible sermon to young men.

Rev. Mr. Locke will preach his special sermon to young men in the George-st. Methodist church next Sunday.

A collection was raised in each of the churches where the young men's sermons were delivered in aid of the Y.M.C.A. Mr. Whitehouse left for Perth this morning.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. R. A. McMahon, a well known grocer of Hamilton, Va. He says "Before 1891 I was in excellent health, weighing over 200 pounds. In that year as summer approached I began to feel ill, and soon I was reduced to 125 pounds, suffering from intense pain in the stomach, palpitation of the heart, nausea, indigestion, and I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains which I had been subjected to ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to come up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

The Special Services.

The week of prayer for young men in all lands was continued yesterday afternoon in the association rooms, corner of George and Brook-sts. Rev. Alexander McAuley, of Woodville, led in a very helpful and impressive Bible reading on the work of the Holy Spirit which made a marked impression on all present. Rev. George Edwards spoke briefly and earnestly on the hindrance to the work of the Holy Spirit. It was a delightful service. Many requests were made for prayer and we realized the Holy Spirit was with us. It was good to be there. Last evening Rev. Mr. McAuley gave an earnest and practical address to men only and those present were much impressed by the earnestness and helpful talk. Mr. McAuley is thoroughly practical and can enter heartily into the every day life of his hearers and carries them with him by his impressive and common sense address. We know these present last evening were much encouraged by the manly address and will urge their fellows to attend the services this week. All young men are urged to attend for they are missing a personal blessing by not being present. Services each afternoon at 4 for all, Bible readings, and at 8 p.m. for men only in the Y.M.C.A. hall.—Com.

He Had Seen Many Wars.

There died at the Nicholls hospital on Sunday last at an advanced age a veteran soldier who had seen hard service and who wore decorations for the part he had played in some of England's great wars. James Thompson was the name of the old soldier. He received his discharge from the regular army some years ago. During recent years he was a resident of Victoria county and was a member of the 45th Battalion. A short time ago he came Peterborough and was attacked with congestion of the lungs, which caused his death. On the wall he had worn three medals, which bore testimony to the service he had seen. One medal was "Sebastopol, Inkerman, Alma—Pte. in the 7th foot, No. 1148; Dated 1854." The second was a French medal, "La Crutche, 1855." The third was "Central India, 7th Regiment," the deceased having risen to be corporal in this regiment at the Indian mutiny, 1857. The man had no relatives in this country, but word was sent to Col. Deacon, of the 45th. A reply said that the Lindsay officers could do nothing and the remains will be interred by the town.

The Street Railway Franchise.

To the Editor of the Review. Sir.—I was present at the meeting of the Board of Trade last night when the street railway franchise question was brought up. From the discussion I gathered that the Town Council did not intend to take the opinion of the people upon it at all. A motion was made to recommend this submission to the people in January, but another part of the same resolution killed the motion. That other part was that the town should retain the franchise, or ownership and supreme control while submitting all rights and privileges to a company. Whether this should be or a company should have it altogether etc., might fairly be left to the people, especially when to obtain their decision would cost very little. A feeling of suspicion is arising that all is not right and that interest and connection is going to get ahead of the town yet. When Councilors feel that they are not really unprejudiced they ought not to shift sending it to the people.

The Best Medical Authorities say the proper way to treat Catarrh is to take a constitutional remedy, like Hood's Sarsaparilla.

Left Their Bill Unpaid.

SARAH FALLS, Ont., Nov. 10.—A young couple registered at the Windsor Hotel here a few weeks ago as Walter Lussier and wife, Ottawa. The man insisted on having the finest room and best accommodation the house could afford. They remained nearly three weeks, and when the young man was reminded that his bill was unpaid, he said he was an employee of the Printing Bureau, Ottawa, and expected a check in a day or two for his month's salary. The other night the couple left their valises down out of a back window with a rope, and then quickly slipping out themselves, took the midnight train for Brockville, where they were arrested and brought back here yesterday.

Successful Dash for Liberty.

KINGSTON, Nov. 10.—On Saturday afternoon about 5 o'clock, a constable, while being assisted for removal to the prison, a man named Morrison of a quarry gang made a dash for liberty and up to the present is free. He was 25 years of age and very keen. It is thought he took to the woods on Saturday night and jumped on a freight train. He arrived here in April, having been sentenced for 18 months for three years for larceny.

Claims \$10,000 Damages.

HAMILTON, Nov. 10.—Prior to leaving for his home in Stratford William P. Scarfe, the young commercial traveler who figured so prominently in the police court sensation of Saturday morning, and who was discharged on the ground that he had committed no offence, as he had a right to enter the woman's bedroom at her invitation, has indicated that he will sue for \$10,000 damages for the loss of his reputation.

A Drop in Manitoba Wheat.

WINNIPEG, Nov. 9.—In consequence of the late rains between Port William and Buffalo the price of wheat in this country has dropped four cents per bushel. It would seem that as there is more wheat going out for export than available for local consumption, the amount at which wheat can be shipped has been taken advantage of to increase rates.

"Feak and Weebie."

A friend of mine had an odd way of mixing her words. Perfectly unaccountable of it, she would often make folks laugh. She would speak of feeling "feak and weebie," for weak and feeble, and "castor oil pills" for castor oil pills. But she was weak and feeble, until she took that powerful, invigorating tonic, "Feak and Weebie," which so wonderfully imparts strength to the whole system, and to the womb and its appendages in particular. For overworked women, run-down women, and feeble women generally, Dr. Pierce's Favorite Prescription is unequalled. It is irrefragable in its action, and subdues nervous excitability, irritability, exhaustion, prostration, hysteria, anæmia, and other distressing nervous symptoms, commonly attendant upon functional and organic diseases. It induces refreshing sleep and relieves mental anxiety and despondency.

Thanks!

Thursday is Thanksgiving Day. We want to join our friends in observing the day. In common with all we have reason to be thankful, for a good season, good business, good crops and good prospects.

These are blessings and benefits that are alike shared by rich and poor, by the hard working and the prosperous. We Canadians are a plain, and in many respects, a plodding people and our gains come to us as the result of hard work and steady application. Few of us can be thankful for great wealth, but all may be grateful for that measure of success that rewards the toiler.

Gough Bros. have to thank their friends, their customers, the people for a year's support and custom, and in recognition wish that for many Thanksgiving Days may all be spared to share in the observances.

Yours thankfully,

GOUGH BROS.

Making or Brewing Tea.

In the Preparation of most Articles of Food, it is necessary to have some knowledge of the Best Method of Cooking before a dish can be produced in any Degree of Perfection. And although it is a Simple Theory to Brew Tea, the knowledge of "how to do it" is as necessary in one case as the other. It may seem strange to be talking thus about a Subject which each and all think they understand; but there is no doubt that almost as much care is bestowed on the use of inferior Tea as on the use of the best. First, the water used should be as soft and pure as can be obtained; second, that the water should be boiled as quickly as possible and used at boiling point, it must be allowed to simmer even for a few minutes it will not extract the full strength and flavor from the leaves. Never use water that has been boiled the second or third time. Third, all that portion of the Tea that can be dissolved is extracted before the expiration of ten minutes, five or six minutes is generally sufficient. The infusion is then at its best, from that time it gradually loses part of flavor, until if allowed to stand for half an hour or an hour, it becomes dull and flat.

The Daily Review.
TUESDAY, NOVEMBER 10, 1891.

THE CITY AND SUBURBS.

Personal.
Mr. and Mrs. Shandrew, the Outhouse-Blindfolders, who appear in the Opera House this evening, are registered at the Oriental Hotel.

The Misses Marches.
On Thursday the annual rifle matches of the 57th Battalion are to be held at the ranges in Ashburnham. In addition to the rules already published the men should remember that only rack rifles will be allowable. This will give all an equal chance.

Children almost invariably suffer from catarrh at this season. Do not neglect it until perhaps consumption is developed, but apply Nasal Beism at once. It never fails to cure.

The Vacancy Filled.
At the regular meeting of Otonabee Lodge, No. 13, I.O.O.F., held last evening Mrs. M. Mowry was chosen to fill the vacancy of Permanent Secretary, which was caused by the departure from town of Bro. Thos. Armstrong. A practice of the new floor work was held at the meeting and was very satisfactory. In a few weeks more an efficient team will be doing the work of the lodge.

More Light on Good Works.
Messrs. Hilliard & Pepple have completed arrangements for lighting their entire premises and those adjoining with electric light. A plant will be placed in the mill which will supply an incandescent light service for their four mill, their new elevator, the Blythe Woolen mill, the firm's office and Mr. Hilliard's residence. With their new elevator, general improvements and their splendid light service the firm are exhibiting an enterprise which should bring them the reward.

Is Pains in the Back
Is about the quantity nature allows to an adult person. It is of the utmost importance that the blood should be kept as pure as possible. By its remarkable purifying, softening, etc., Hood's Sarsaparilla has proven its claim to be the best blood purifier.

For a general family cathartic, we confidently recommend Hood's Pills. They should be in every home medicine chest.

Church Notes.
Rev. Dr. Briggs, of Toronto, will preach at 9 o'clock on Sunday, 12th inst.; morning and evening, in the interest of the Educational Fund of the church. No doubt a large number of our people will be glad of this opportunity to hear so eloquent and earnest a preacher, and one who is so generally admired.

The Quarterly services held at George-st. church on Sunday last were unusually interesting and worthy of special mention. Fifteen new members were added to the church membership.

A Question for the Finance Committee.
An old man with pinched face, stooped form, gray hair and feeble step came into the Police Court this morning and wanted protection from the annoyance of boys. He is an old gentleman who is famous on the streets selling toys which he makes himself at 220 Hunter-st., where he lives. He said boys had been annoying him and had broken a pane of glass in his window. He asked the Court who would pay for it, would the police? The Court suggested that he send the amount to the Town Council and the old man left the court room satisfied that the expense was off his shoulders. The boys must cease annoying the old man.

THE BOARD OF TRADE.

SOME LOCAL MATTERS OF INTEREST DISCUSSED.

A Local Protective Union to be Established.
The Hamilton Works Extension—The Street Railway Franchise—The Water Supply.

The Board of Trade held a special general meeting in the Council Chamber on Monday evening. It was nearly 8.30 before the meeting was called to order by President Meldrum in the chair. There were present Messrs. Dumble, McWhincher, Hamilton, Wm. Gough, Shaw, Wood, E. Hurley, J. Donatou, Matthews, F. Hall, E. M. D. Fairweather, Jas. Macdonald, H. S. Bonfield, LeBrun, Wynn, Pelow, Fair, Shorley, Stratton, Bain, Manney, Dobbin, Phelan, and Fitzgerald.

The President briefly stated the object of the meeting was to discuss several local matters of interest, and he said he hoped the discussion would prove profitable.

The minutes of the previous meeting were read and approved.

The Secretary, Mr. J. H. BURNHAM, stated the action that had been taken by the Merchants Committee which met to discuss the propriety of establishing a local rating agency, in order that merchants might, to some extent, protect themselves from giving credits to irresponsible parties and those who neglect to pay. The committee had not been formally reported, but he understood that the committee were much in favor of such a project.

Mr. PELLOW said the Merchants Committee had met and discussed a scheme submitted. It was a scheme for collecting bad debts. It had been working in Kingston for some time. Merchants told one another through a central agency of who was in debt and refused to pay; and this enabled one to steer clear of making bad debts. Mr. R. Fair was in favor of forming a local club for mutual self-protection.

The matter was referred to the Merchants Committee to formulate a scheme.

THE HAMILTON WORKS EXTENSION.
The Chairman called for matters of discussion under the heading of new business.

In this connection he mentioned the proposed extension of the Wm. Hamilton Manufacturing Co.'s business, brought up some time before, by the Board and at the Council.

Mr. HAMILTON stated that a party from the States wished to establish a branch of trade here in connection with the Hamilton shops. It was felt that a bonus would not be given, nor was it expected. Some assistance in a different way was mentioned, but no particular results the matter dropped. He had talked with Mayor Stevenson and others who were favorably inclined on the part of the town.

A part of the consideration was exemption from taxes and the use of a sum of money. Mr. HALL said that the Council had always been prepared to meet him fairly, but had asked for a matter of plans and estimates of the extent of the proposed extension, on which to base some action. These plans, etc., as far as he knew had never been submitted. The delay had not been on the part of the Council, but of the promoters. The Council were not only willing but anxious to help, but must have some information of a definite character to work on. The size and description of building, number of hands to be employed, etc., would guide the Council in determining what could be done in the way of concession or assistance.

Mr. HAMILTON said he felt rather indifferent about going on with it, the previous indifference having rather dampened his ardor.

On motion of Mr. PELLOW the matter was referred to the Manufacturing Committee to meet and confer with Mr. Hamilton at once.

A WATER POWER MATTER.
Mr. DUMBLE brought up the question of the conservation of the water of the back lakes, so as to keep back the water that the supply to the river be made more equable during the summer. Considerable had been done in this direction, but much yet remained to be done. This year streams all over the country were deficient. With reservoirs to the back of us we would be practically independent of a dry season, and he hoped that the local and Dominion governments would do something, and moved the following resolution, seconded by Mr. W. Hamilton:

"In the opinion of this meeting advantage should be taken of the great facilities afforded by the back lakes to dam them, and thus hold back the water that a more steady and continuous supply of water might be preserved for purposes of navigation, and especially for the further development of the manufacturing interests of the Otonabee and Trent rivers; and to this end that the Ontario and Dominion Governments be requested to provide dams for the larger back lakes that afford special facilities for that purpose, that the municipalities interested be urged to petition the governments with a view to accomplishing this end."

The resolution was carried.

Mr. J. E. STRATTON said he had given the matter some attention, and he knew that some steps must be taken to remedy the trouble. Whatever was needed, dams or repairs, careful attention, increased vigilance on the part of the dam and mill owners themselves, it must be done if the evil was to be remedied.

The Secretary said that up to the middle of July there was twenty times the water required for manufacturing purposes allowed to go to waste. Mr. Pellow said that control of the water in the back lakes by the lumbermen's dams would to some extent hold back the water for a time.

What was needed was a local association to watch the water, such association having power from the government to undertake the work by means of inspectors. Mr. Stratton favored this idea with the provision that the government should take the responsibility while the association looked after the details.

After some further discussion the resolution was carried.

THE STREET RAILWAY FRANCHISE.
The President outlined the position of affairs with regard to the proposed street railway and the question, he said, was whether the company would give us the best service.

The franchise was valuable, and the town should get all the advantage which it covered. Both companies were quite able to build and equip a satisfactory system.

Mr. DUMBLE said that all things being equal local interests should be considered, but it was well to remember that the best service would be given by those whose direct interest lay in having the best system at work all the time. The indirect benefits as an advertising medium will be considered by the Edison Co., while a local company would look first for dividends.

These things were such as should be considered. Again there was the question that a local company would have practically a monopoly of power as far as its dissemination by electrical means would go. The power interest connected with this franchise was very important, nearly so much so as the railway. He would move the following resolution:

"In the opinion of this Board it is of the first consequence that the proposed street railway should be in the hands and under the control of parties who would not, by reason of its possession, thereby have a monopoly of the power required for manufacturing purposes; that any rights acquired by the franchise right should be vested in the town in perpetuity with a simple right of user for the time being."

The resolution was seconded by Mr. Pellow.

Mr. STRATTON urged that the town should control its water works, electric light, gas works, etc., and be moved in amendment—"That in the opinion of the Board of Trade it is desirable that the Corporation of Peterborough build and operate the street railway as a corporation in the interests of the people which would enable the town to guard its own interests in the purchase of plant, and they would recommend for the consideration of the Council that they do not dispense of the franchise but that they submit the question to the ratepayers and give them an opportunity of expressing an opinion at the approaching municipal elections."

Mr. DUMBLE reviewed the facts in relation to municipal management of the street railway. Experience of other places was not in favor of such a course. Improvements would not be made, or only sparingly. There was the wire pulling and other influences that often militated against the success of municipally run enterprises such as a railway. Water works and light works were essentially different. The operation of a railway would only pay slightly, if at all, and a company that could afford to run it for advertising purposes was the company to build it.

Mr. STRATTON defended his view of the matter and contended that the railway, as it was, would pay well. There would be no loss, and the town should build and operate it.

Mr. J. H. BURNHAM seconded the amendment and supported it in a brief speech.

The amendment was lost on a vote and the resolution afterwards carried.

SEWERAGE SERVICE.
Mr. STRATTON brought up the question of sewerage and detailed what the Government requirements called for. It was a serious matter and could not be trifled with any longer.

The matter was discussed for a short time and the following resolution was carried:

Moved by Mr. FAIR, seconded by Mr. PELLOW, In the opinion of this Board the time has come when a scheme of drainage should be decided upon and some part of the work begun, with a view to the completion and completion of the work as circumstances warrant.

SELECTION OF MEMBERS.
Mr. Gough, Mr. R. J. Finch, were proposed as members and elected.

TO MAKE THE TOWN KNOWN.
The matter of advertising the town was discussed and reference made to having the town well represented in any matter to be sent out, and it was moved by Mr. Dumble and seconded by Mr. Fair that this Board urge on the Town Council the necessity of assisting to have the public buildings of the town properly represented in the coming issue of the Pictorial Globe.

The Board then adjourned.

THE LAST OF THE CHEESE.
The Small Tail-End of the Big Bear Clear.

The last meeting of the Cheese Board for this season was held at noon to-day in the market building. Two hundred and five thousand boxes were left unsold but the salesmen had permission to sell off the Board. The greater portion of them took advantage of this and sold in the meantime, the predominance price being 9½c. and in some cases 9½c. These were the prices at the last Board meeting. Today only 288 cheese were boarded, that being all that were left. The buyers present were Messrs. Fitzgerald, Spence and Bowley, of Warkworth.

Here are the cheese boarded:

Factory.	No. of Boxes.	Sept.	Oct.
Lakefield.	100	82	82
Otonabee Union.	94	82	82
Millbrook.	100	71	71
Spring Valley.	200	100	100
Total.	494	672	672

Mr. Spence started the bidding with 80, which was raised to 90 by Mr. Fitzgerald. Mr. Bowley made it 9½c. and Mr. Spence offered 9½c. for the board. Mr. Bowley made his offer 9½c. for the board and Mr. Spence went one-eighth better. Mr. Fitzgerald offered 9½c. for selections. There was a discussion as to whether this was first selection and if the bid was permissible. This was settled by Mr. Bowley offering 9½c. for the board and the factories accepted. This was a better bid than that offered two weeks ago.

The Board then adjourned.

It was Brilliant and Interesting.
The Hamilton correspondent of the Toronto Mail refers as follows to a lecture, the beginning of a series, delivered by Mr. W. H. Schofield, brother of Mr. Geo. A. Schofield, of town:—"Mr. W. H. Schofield lectured on Friday night to a large and highly appreciative audience in Association hall in aid of the university extension movement. 'Shakespeare' was the subject treated, and the lecture was as brilliant as it was interesting. The series of lectures to be delivered by Mr. Schofield are to treat of the characters found in 'King Lear,' and at the close of the lectures those who attend will be examined on the subject."

Two Women in Court.
Mrs. Elizabeth Shaw and Mrs. David Lynn, who live side by side on Hunter-st., north, were in the Police Court this morning and ventilated their unneighborly relations. Mrs. Shaw charged Mrs. Lynn with having used grossly insulting and indecent language towards her on Wednesday last. It was a wretched story that Mrs. Shaw, whose tongue was wet with a slumber, that would have been the envy of many a tongue-tied man, poured into the ear of the Magistrate. She said among other things that Mrs. Lynn had said she was a dirty washerwoman, that she went to market and stole things, that she had kept her, that she stole wood, that she had men in the house until twelve o'clock, that she had been drunk, had stolen two handkerchiefs, that her boy had been two months in the penitentiary, that she had sent her daughter away for two weeks with a man who would not marry her. There was a long string of such charges which Mrs. Shaw swore Mrs. Lynn had hurled at her head. Mrs. Lynn had her story and said Mrs. Shaw had accused her of having a man in the house with her on Saturday night. After hearing the evidence, which seemed to show that the whole quarrel had arisen out of the children of the two women sweeping dirt into each other's yard, the Magistrate advised the women to go and live in peace like sensible women and dismissed the case. Mr. E. B. Spence appeared for the complainant and Mr. G. M. Hoger for the defense.

ANNIVERSARY ENTERTAINMENT.

A Varied Programme in the Opera House Under Royal Templar Auspices.

There was a fair attendance at the Royal Templar anniversary entertainment held in the Opera House last evening. Dr. Goldsmith presided, and in opening the meeting said there were about 400 Councils of this Order in Ontario with a membership of about 15,000. He strongly commended the Order.

The first number on the programme was a wand exercise by a number of public school pupils under Dr. Major Rundle's direction. The exercise was well given, showing careful training and aptitude; and the motions in uniform and jingling bells on the wands were very effective. Master DeWitt Talmage Stuart, the boy eloquist, who is only six years of age, recited Tennyson's "Charge of the Light Brigade," and was warmly applauded. He had been on Sunday afternoon. Later he gave "Solomon's Night Dream."

"The Brandy Bottle" and "A Snack in School," and in response to an encore, "John Sandys." Master Walter and Miss Grace Brooks, dressed as old people, sang "The Golden Wedding," and their correct and sweet singing combined with their appropriate dress and acting, brought forth a hearty encore. Miss Hurley gave a violin solo, "Air Valse" (Jonds). Her playing was more than correct—it interpreted the spirit of the music and the warm and sweet accents to the delight of the audience. Messrs. Manning and Matthews sang "A Lost Ship," a duet in which Mr. Manning's clear and pleasing tenor and Mr. Matthews' excellent bass were well displayed. The second part opened with a dumb bell exercise by the public school pupils, in which the class did well. "A Butterfly's Glee" was a bonnet solo by Mr. Bert Brooks, and his manipulation of his instruments was astonishing. An encore was responded to by a bow, which the audience reluctantly accepted.

Miss Thompson sang "Tomorrow Will Do," (Ponty) a pleasing ballad, which was sung in good voice and expression and was heartily encored. The programme was concluded by the little wonder, Master Stuart, reciting the Lord's Prayer.

At the conclusion of the programme a pleasant incident occurred. Miss Florence Brooks advanced on the stage and presented Master Stuart, who had taken so large and successful a part in the evening's entertainment, with a very handsome bouquet, and the little fellow evidently appreciated highly the beautiful gift.

Dandruff is due to an enfeebled state of the skin. Hall's Hair Renewer quickens the nutritive functions of the skin, healing and preventing the formation of dandruff.

A Woman and a Constable.
Constable Adams had a lively prisoner to take to the prison today. The prisoner was a female and she fought with fingers and feet in a most bewildering style for the officer of the law. Mrs. Gehan was her name. She came here from Ottawa about six weeks ago and was employed in a gentleman's family as domestic. Last night she got intoxicated and made the house quiver with her doings. When the constable went after her to-day she at first refused to dress herself, and when dressed she would not get into the back. Finally the strong embrace of the officer landed her in the back and she was quite subdued when placed in the cells.

Brevities.
—There were no arrests last night.
—Walter Kerr's condition is not improved.
—Rev. Dr. Scarsie, Chaplain of Auburn Prison, is conducting a series of meetings during this week in Belleville under the auspices of the Royal Templar there.

—Belleville has organized a club. A meeting is to be held in the Olympic club room for the purpose of organizing a club in Peterborough. All young men are invited.

Making or Brewing Tea.

In the Preparation of most Articles of Food, it is necessary to have some Knowledge of the Best Method of Cooking before a dish can be produced in any Degree of Perfection. And although it is a Simple Theory to Brew Tea, the knowledge of "how to do it" is as necessary in one case as in the other. It may seem strange to be talking thus about a subject which each and all think they understand, but there is no doubt that almost as much dissatisfaction is caused from Tea being carelessly brewed, as from the use of inferior Tea. First, the water used should be as soft and Pure as can be obtained; second, that the water should be boiled as quickly as possible and used at boiling point, it must boil but it must not overboil, for should it be allowed to simmer even for a few minutes it will not extract the full strength and flavor from the leaves. Never use water that has been boiled the second time. Third, all that portion of the Tea that can be dissolved is extracted before the expiration of ten minutes, five or six minutes is generally sufficient. The infusion is then at its best, from that time it gradually loses part of flavor, until if allowed to stand for half an hour or an hour, it becomes dull and tasteless.

The Daily Review.

WEDNESDAY, NOVEMBER 11, 1891.

THE CITY AND SUBURBS.

Volunteers, Attention!
No. 4 armory will be open from 7.30 to 8 o'clock this evening for the convenience of members who wish to get rifles for to-morrow's matches.

Children almost invariably suffer from catarrh at this season. Do not neglect it until perhaps consumption is developed; but apply Nasal Balm at once. It never fails to cure.

Has Returned Whence She Came.
Mrs. Geo. Goshen, the Ottawa domestic who gave Constable Adams such a lively time yesterday afternoon, was put on the express last night for Peterborough and the encounter with a constable.

The Hockey Club.
A meeting of the young men interested in the organization of a hockey club in Peterborough was held last evening in the Olympic Club room. There was a fair attendance and the question was discussed. The gentlemen present were all favorable to the formation of the club and also were agreeable to the terms offered by the Skeating Rink Co. Some further inquiries as to the time the club will have the ice and other details will be made and a report presented at another meeting when the officers will be elected and the organization completed. Let the young men take an interest in this healthy winter recreation and will furnish some great sport for this season.

A Great Record.
The Durham Field Battery occupies a position amongst the other batteries of the Dominion of which they may well feel proud, winning as they have this year every competition presented. The Shilling Competition won two years in succession, thereby winning the Gwynett Cup which becomes the property of the Battery, also the firing competition in which there were fourteen field batteries competing, winning in this competition, there were thirty individual prizes given to the best marksmen, eight chosen from each battery making one hundred and twelve men in all, and the record shows that seven out of the eight chosen in the Durham Battery have taken individual prizes. The Port Hope Times, taken individual prize in the Shilling Competition, as remarked some time ago, contributed in a large degree to this great record.

The Week of Prayer services are growing in popularity and interest. Yesterday afternoon Rev. Mr. McAuley gave a very interesting and helpful Bible reading on the emblem of the Holy Spirit, which was greatly enjoyed by those present. A number of requests for prayer were given and Rev. Mr. Trotter led in prayer, asking God to grant our requests. It was real hearty and blessed service.

Last night the attendance was good and the Holy Spirit was present to apply the word so earnestly spoken by Rev. Mr. McAuley on the forgiveness of sins. The address was just what we needed to know as taught in God's Word. Mr. McAuley has won the hearts of the young men by his simple and practical presentation of the truth. Several requested prayer and all felt encouraged and blessed.

Bible readings each afternoon at 3 p.m. this week and evangelistic services for men only at 8 p.m. We ask the Christians to come and also remember the work in their prayers. Rev. Mr. MacWilliams was present last evening and assisted in the services. We are pleased to see our pastors so interested.

A Cure for Constipation and Headache.
Dr. Elias Lane, while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure all stomach and bowels and is the best Spring Medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and \$1 a package.

IT WAS A SUCCESS.

The Jesse Outbush-Shandrew Entertainment Well Patronized.
Despite the unpleasant weather the Opera House was well filled last evening on the occasion of the appearance of the Jesse Outbush-Shandrew Entertainers under the auspices of Peterborough Lodge, Sons of England. On the stage was artistically arranged a collection of choice plants, while on an easel was a handsome portrait of Her Majesty. Mrs. Jesse Outbush-Shandrew has appeared in Peterborough before, and was as well received as ever. Mr. Willard Shandrew has a pleasing baritone voice, and sustained his part admirably. The first number on the programme was a selection by the Peterborough Amateur Orchestra, which was rendered with good time and effect.

Mrs. Jesse Outbush-Shandrew was well received on her appearance and gave a recitation, "Trouble in the Amen Corner," in which she showed her ability as a elocutionist. On being engaged she gave "The People's Husband," an Irish selection, well rendered.

Mr. Willard Shandrew next made his bow to the audience and sang "Torreador's Song" from "Carmen" in fine baritone voice, and was compelled to respond to an encore.

In the next two numbers on the programme Mrs. Jesse Outbush-Shandrew again delighted the audience with her pleasing style, her first selection from Shakespeare, a scene from King John, being well portrayed. Her second selection, "The Trials of Uncle Ruben," was thoroughly enjoyed and she was again encored.

"A Dream of Spring," a song by Mr. Willard Shandrew, fully sustained his reputation and he was again compelled to appear before the footlights.

The next piece was another selection by the orchestra, given in the usual style.

The entertainment concluded with a one act comedy entitled "A Happy Pair," in which Mr. Honeyton, Mr. Willard Shandrew, and Mrs. Honeyton, Mrs. Jesse Outbush-Shandrew, showed scenes from married life.

Mr. Hoover played the accompaniment in excellent taste.

The committee return thanks to Messrs. Jackson & Co. for the loan of the piano used and also to Mr. F. Mason for supplying floral decorations.

The performance was both pleasing and satisfactory and Peterborough Lodge 8. O. E. are to be congratulated on the success of their entertainment.

"GOD BLESS THE CANADIANS"

Says Secretary Bess who was in Peterborough at the Endeavor Convention.
In the last issue of the Golden Rule Mr. J. Bess, Secretary of the United Endeavor Society, who made for himself many warm Canadian admirers when in Peterborough at the Provincial convention, in his column on Christian Endeavor work refers to his visit to Canada. He says of the Endeavor movement: "It was my privilege to attend three large annual meetings recently in New York, Ontario and New Jersey. Never before has our Christian Endeavor tide risen so high. Inspiration, fellowship and enthusiasm—how richly God is blessing these gatherings. In many respects they equal the great international gatherings, in spirit surely, if not in numbers."

Speaking of the Provincial convention he says: "Like many other citizens I get across the imaginary line into Canada once in awhile (it was twice) and unlike some, I don't get out. I am prevented from again returning to this side. The profit and pleasure derived from the Ontario Provincial Convention have not been surpassed in the case of any similar gathering in my experience. A local committee that had arranged an unusual thoughtful luncheon prepared for every detail, a large attendance (for there are five hundred societies in that one province), timely topics, helpful discussions, enthusiastic and inspiring speakers, prayer meetings with the Holy Spirit, present in great power—all these contributed to the grand whole. The friends who were at Minneapolis would have been pleased as I was to see the familiar banner 'Montreal '93' as it stretched across the gallery, held in place by the Union Jack on one side and the Stars and Stripes on the other. No speaker was more enthusiastically received than was Mr. Robert Grey, of Montreal, when he presented the topic 'Montreal '93.' It is the Canadian watchword and all Canada will be in New York to get in as close touch and sympathy with the work as they can. God bless the Canadians; they are made of the right sort of stuff, speaking in a homely way, and they will pardon me for speaking so, for they know it is hard for me to do otherwise."

Olympic Club.
Annual meeting to-night at 8 o'clock p.m. All members are requested to be present.

Thanksgiving Service.
A Union Thanksgiving service will be held in the George-st. Methodist church to-morrow morning at 11 o'clock. Rev. Mr. McAuley, B.A., of Woodville, and Rev. J. E. Trotter will deliver addresses and other ministers of the town are to take part in the service. The collection will be in aid of the Protestant Home.

An Exciting Raceway.
A team of horses owned by Mr. David Thompson, of Douro, and attached to a heavy wagon, took flight while standing in front of the Bank of Commerce this morning between eleven and twelve o'clock and ran away. The team came down Water-st. at a furious pace and just below the police station ran into another lumber wagon going down Water-st. One of the plowmen jumped into the wagon and the other, striking the wheel, fell to the road. They were captured and apparently no damage was done.

Process.
Messrs. Thos. Ludgate and Wm. Irvine have returned from a trip to British Columbia.

Rev. J. H. Locke, of the George-st. Methodist church, was in Bowmanville yesterday attending the Conference Missionary Committee meeting.

Miss Nora Clench, who delighted a large audience upon her appearance here, will make her farewell appearance in Hamilton at a concert to be given on Nov. 25th, under the management of J. W. Hauman, before leaving for Belgium for two years to study the Belgian school of violin playing. Miss Clench will sail on Nov. 28th and will study in Brussels.

Say, Mister!
Is it possible you are suffering from catarrh, and have not used Dr. Sage's Catarrh Remedy? All the terrible consequences of catarrh in the head may be cured if you'll but make the effort. You know too well the distressing symptoms. You possibly know, if neglected, it invariably goes on to become a chronic disease, and runs into consumption and even in the grave. Here is a way of escape: Use a standard order of \$500 for an incurable case of this loathsome and dangerous disease. You can get \$500, or better—a cure.

LAKEFIELD LOCALS.

A Meeting of the Village Fathers—A Temperance Revival.
The Lakefield Temperance Revival party have returned home bringing with them 9 deer.

Puzzle Essay.—In the Northern Messenger of Oct. 20th, an essay was published on "Jonathan and David" written by Miss C. P. McIlwain, of this place, and to whom the first prize in the essay class was awarded.

For Handle O'clocks and Societies see the stock of R. Graham & Son.

ROYAL REVIVALISTS.—The Exaltar Dues of the Revivalists are here stirring up the temperance sentiment of our people. They are attracting large audiences. On Sunday evening many had to go away for want of room. Mrs. Hestman is a fine singer. They make the meetings very interesting and are well worth hearing.

Mechanics' Institute.—The Mechanics' Institute have secured the Royal Templars Hall for a library and reading room.

The Late Thomas J. Simpson.—It is with regret that we publish the death of Mr. Thomas J. Simpson. He had been ill with typhoid fever for some time and was thought to be recovering, but had a relapse on Thursday morning and passed away at five o'clock Friday morning, aged 24 years. He was a young man well and favorably known in Lakefield, having resided here nearly all his life, and was married about nine months ago to Miss Anne Nelson, to whom much sympathy is extended in her bereavement.

Town Council.—A meeting of the Council was held on Monday evening, present: Messrs. Jackson, Councillors Hull, Moore, Lilliers and Richardson. The minutes of the last meeting were read and adopted. Communications were read from Mr. Bloomfield, re-insurance on Town Hall; and from Mr. Geo. Stevenson, re-appointment of a scavenger for the village. Mr. J. P. Birchland proposed before the Council the release of the obstruction of the north end of Water-st. with lumber. On motion of Councillor Birchland the matter was referred to the Committee of the Whole Council to visit the place. Council submitted the following report:

GENTLEMEN.—Your Finance Committee having examined the following accounts have to recommend payment of the same:

Lakefield Lumber Co.	\$ 7.50
Isaac Watson, wages	1.50
Geo. Cooper	1.50
Martin Campbell	1.50
M. Harrison, gravel	50.25
Dr. Bell, select lumber	1.00
W. H. Cameron, do	3.00
do telephoning, etc.	47.50
The Waterworks Co., repairs	\$10.00

All of which is respectfully submitted.
J. H. Hestman, Chairman.

The report was on motion adopted.

The Council adjourned to meet at the call of the Mayor.

BOBACAYON BUDGET.

The Death of the Oldest Settler in the Village.

Navigation Open—Notes.

Correspondence of the Review.
NAVIGATION.—For the first time this season the Maple Leaf could not make her usual trip on account of ice on Wednesday, but the excursion will continue to run on regular trips, and the Maple Leaf made her trip again on Friday, but as the water is exceedingly low in both lakes, there is scarcely any current in the narrows, so that a slight frost will stop navigation.

RETURN.—Mr. Fairbairn, M.P., returned from the Northwest about a week ago, where he has been acting as a judge at the fall shows held in the prairie country. Mr. Fairbairn speaks highly of the country and has bought a whole section for himself and pre-empted several other sections for his sons. He is of the opinion that it is just the country for wheat and stock.

DAY WALK.—Owing to the long continued dry weather the most of the wells in the village and vicinity are dry but it is hoped that we will have fall rains to replenish them.

DEATH.—On Thursday, the 29th ult., Mrs. Frances McConnell, who was the oldest resident of this place, passed away at the ripe age of ninety years. The deceased was the "first white woman" to come to Bobacayon, where she settled, made a home, lived and died, after having seen Bobacayon go through very many changes. She maintained all her faculties until the last and would converse with her family at a time about sixty years ago. The funeral took place on the following Saturday and was attended by a number of friends who followed the remains to the cemetery where they were interred.

SUPPLIES.—On Monday the Falcons landed at the wharf with a cargo consisting of about 100 barrels of salt and 50 barrels of coal. This will give the latter a nice little job.

SHIPPING.—On Wednesday last Mr. Noel shipped forty-seven tons of flour and forty tons of lumber to London on the "Hudson."

DEATH.—The "difficult" camp from this place have returned from their given spots and all have been extremely successful, each party having brought home several fine deer.

BENEFIT BRIEFS.

A Successful Sunday School Entertainment.

Other Notes.

Correspondence of the Review.
PAID WORK.—The fall work is going on rapidly in this vicinity. The farmers are busy along to get through before the hard frost comes.

S. S. ENTERTAINMENT.—The Benford Union Sabbath School gave an entertainment on Tuesday evening, the 3d inst., in their hall in aid of the school funds. The programme consisted of music, recitations and dialogue. Mr. J. Riddle, superintendent, occupied the chair and in commanding the entertainment gave a short history of the school, which was organized over forty years ago and has been in active operation since that time. Only two of those now connected with the school at its organization are members of it at the present time. The numbers on the programme were well given by the scholars and teachers. Short addresses were given by Rev. Mr. Elgin, of Grassville, Rev. Mr. Drummond, of Centerville, and Rev. Mr. Pille, of Ballisboro. The hall was well filled and the evening passed very pleasantly. The proceeds of the entertainment amounted to about twenty-five dollars.

NEW MILL.—We have a new enterprise in existence at the south end of Lake-st., better known as Hall's Landing, ready in active operation, which will prove a great convenience to the farmers in this part of the township. The enterprise we speak of is a steam saw mill, also a chopping mill attached for grinding coarse grain. We hope the proprietor will meet with the success in his venture which his energy and perseverance deserve.

REVIEWS.

SCRIBNER'S MAGAZINE FOR NOVEMBER contains several notable illustrated articles on countries that are little known to American readers—including the first of several papers by Carl Lumboltz (the author of Among Canibals) on his expedition to the Sierra Madre. His expedition is conducted under the auspices of the American Museum of Natural History of New York, and the results will first appear in Scribner's Magazine. There is also a striking paper by Napoleon Ney, the grandson of the great Marshall of France, on the proposed Trans-Saharian Railway, which the French Government has approved. Alfred Deacon, one of the most influential political leaders in Australia, writes of the great federation movement in that country. Another illustrated article is the United States Naval Appropriation System, by Lieutenant A. B. Wyckoff, U.S.N., who describes the present system, and pleads for such an enlargement of it as will lead to the thorough Americanization of the Navy, where, at present, the sailors are often composed of the dregs of all nations. George Hitchcock, the American artist who lives in Holland, writes a third paper on The Picturesque Quality of Holland, this time treating of Figures and Costumes, and illustrating his points with his own drawings. A sixth article in the Ocean Steamship series, is John H. Gould's description of the Ocean Steamship as a Freight Carrier. Andrew Lung gives another instalment of his literary recollections, and there is an entertaining paper by a Harvard graduate, reviewing Mr. Lowell as a teacher. The fiction includes another instalment of Stevenson's serial The Wrecker. There is also a short story by Octave Thanet, and poems by Duncan Campbell Scott, W. V. Moody, Julian Hawthorne, and others.

HARPER'S MAGAZINE for November opens with a strikingly original Thanksgiving story, The Inn of the Good Woman, written by H. H. Butterworth, and appropriate illustrations by W. T. Goodrich. Constantine Poulsson, Women's second paper on Cairn, in 1890 is, it possible, more deeply interesting even than the initial article of the series. George du Maurier's Peter Rabbit, which, with its numerous striking pictures by the same hand, has formed a strangely attractive feature of the Magazine for several months past, is brought to a conclusion. Julian Ralph contributes another of his sketches of the far Northwest, entitled Dan Dunn's Outfit, which Frederic Remington illustrates in his own inimitable manner. The series of Letters of Chas. Dickens to Wilkie Collins, edited by Laurence Hutton, comes to an end with a brief note dated January 27, 1870. An appreciative paper, with portraits and illustrations, on the character and career of the famous Confederate general Stonewall Jackson, is contributed by the Rev. H. M. Fields, D.D. The Treatment of Cancer and other Tumors is discussed in a brief popular article by Dr. B. Farquhar Curtis and William C. Arthur. Sirs White, F.R.S.E., secretary of the Royal Society, discusses the Society, presents regular facts relating to the economy and development of Africa by the Nile, and the Nile valley, is contributed by Rich McEwen Stuart. Walter Bevan's series of illustrated papers on London is continued in an article on The London of Chas. Dickens. There are also poems in this number by William Dean Howells, Amelle Rives and Eliza Calvert Hall, and the editorial departments are of more than usual interest.
